PART I - FINANCIAL INFORMATION

Item 1. Financial Statements

The financial statements and accompanying notes to the financial statements of Cityland Development Corporation and subsidiaries (the Group) are filed as part of this form (pages 16 to 60).

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The real estate industry in the Philippines has proven to be remarkably resilient and a significant contributor to the country's economy due to strong demand for both residential and commercial properties, supportive government policies and infrastructure projects, increasing overseas Filipino workers' (OFW) remittances, and favorable economic conditions.

As of the third quarter of 2025, the residential market in Metro Manila showed clear signs of recovery. According to market research Colliers Philippines, net take-up (units sold/committed) rose about to 5,900 units in 3rd Quarter, a 108% quarter-on-quarter increase and the highest in nine quarters. The recovery is being driven especially by the mid-income condominium segment, defined roughly as units priced between ₱2.5 million and ₱12.0 million [i]. In terms of value, residential properties in Metro Manila appreciated by 6.8% year-on-year in 3rd Quarter of 2025 [ii]. The growth in the residential sector is further supported by developers offering flexible payment terms and incentives, which is making homeownership more accessible for buyers. The office market is demonstrating sustained stability, primarily with the Information Technology and Business Process Management (IT-BPM) sector and traditional occupiers driving leasing activity. In the first nine months of 2025, total office demand reached 966,000 square meters (sqm), equivalent to 88% of 2024's full-year level. The IT-BPM sector remains the market's strongest anchor, accounting for 45% of this total demand and helping to normalize the Metro Manila office vacancy rate to 18% [iii]. This strong demand from the IT-BPM industry and a renewed push for return-to-office mandates have been instrumental in stabilizing the market, with prime districts like Bonifacio Global City and Makati CBD recording the tightest vacancies.

The Cityland Group's ongoing projects remain strategically concentrated in Metro Manila, a region characterized by its dense population and status as the country's primary economic engine, which ensures a high and consistent demand for vertical developments like condominium projects. The government's "Build Better More" program (formerly "Build Build Build"), which aims to significantly improve the country's transportation and logistics infrastructure, has continued to open opportunities specifically for real estate developers operating within Metro Manila and nearby provinces. As of the 3rd quarter of 2025, several critical infrastructure projects directly impacting Metro Manila are progressing, including the Metro Manila subway development, new highway networks, and ongoing airport expansions. The commitment to these transformative projects enhances seamless connectivity across various locations, making areas within and surrounding Metro Manila even more appealing for real estate development and investment, while simultaneously creating new job opportunities and fostering business expansions within the capital.

The Philippine Gross Domestic Product (GDP) posted a year-on-year growth of 4.0 percent in the third quarter of 2025[iv], significantly slowing from the 5.5 percent growth recorded in the second quarter. The economic growth slowed a more than four-year low of 4% in the third quarter as public construction was hit by a corruption scandal involving state infrastructure projects that has dampened consumer and investor sentiment [v]. Despite the GDP slowdown, the real estate sector's sustained recovery, driven by strong residential sales and stable office demand from the IT-BPM sector, continues to demonstrate its foundational importance to the Philippine economy.

Overall, the Philippine real estate industry has demonstrated fundamental resilience and is poised for continued expansion in the subsequent years. This positive outlook is driven by robust economic fundamentals, especially the expansion of the IT-BPM sector, the anticipated benefits from a softening interest rate environment, and the national

government's "Build Better More" infrastructure program. The Cityland Group of Companies will therefore continue to diligently monitor the demand in housing projects and implement proactive strategies to cope with changes in the environment and capitalize on the increasing demand within this dynamic and thriving urban landscape.

Merger with CLDI

On August 26, 2025, the Board of Directors (BOD) of the Company authorized and approved the Plan of Merger between CDC and CLDI, with CDC as the surviving entity. This was approved and ratified by the stockholders during the Special Stockholders' Meeting on October 9, 2025. The Plan of Merger has been submitted to the Securities and Exchange Commission (SEC) last October 24, 2025 and still in the process of review by the said regulatory body.

Company Operations

CDC or the Company is selling the following projects as of September 30, 2025:

- City North Tower is a 50-storey mixed residential, office and commercial Condominium project with three (3) basement parking and four (4) podium parking levels located at No. 35 North Avenue Barangay Bagong Pag-asa Quezon City (QC). It is walking distance to QC's biggest malls – SM City North EDSA and Trinoma. This project was launched in March 2024 and is expected to be completed in February 2028.

- Pioneer Heights 1 is a 24-storey office, commercial and residential condominium located at Pioneer St., Barangay Highway Hills, Mandaluyong City that was launched last August 2018 and was completed in December 2023.

- 101 Xavierville is a 40-storey commercial and residential condominium located along Xavierville Avenue, Loyola Heights, Quezon City that was launched last April 2018 and was completed in December 2023.

- Pines Peak Tower I, a 27-storey residential condominium located at Union corner Pines St., central business district of Mandaluyong.

- Pines Peak Tower II, a 27-storey residential condominium located at Union corner Pines St., central business district of Mandaluyong, beside Pines Peak Tower I.

- Grand Central Residences, a 40-storey office, commercial and residential condominium located at EDSA corner Sultan St., Mandaluyong City.

- Makati Executive Tower III, a 37-storey office, commercial and residential condominium located at Cityland Square, Senator Gil Puyat Avenue, Pio del Pilar Makati City.

Buildings for lease

- CityNet Central, a 22-storey commercial and Philippine Economic Zone Authority (PEZA)-registered building located in central business district along Sultan Street, Brgy. Highway Hills, Mandaluyong City with proximity to MRT station and various transportation hubs.

- CityNet1, a 5-storey premiere business technology hub located along 183 EDSA, Brgy. Wack-Wack, Mandaluyong City. The said building for lease is also registered with PEZA.

Also, the Company's subsidiary, CLDI, is selling the following projects:

- One Hidalgo, a 40-storey mixed residential, office and commercial condominium located at 1730 P. Hidalgo Lim St., corner Gen. Malvar St., Malate, Manila. It is near various universities (De La Salle University, University of the Philippines - Manila, Philippine Christian University), government agencies (Supreme Court, Court of Appeals, Department of Justice) and other leisure establishments. The said project was launched in February 2023 and expected to be completed in September 2027.

- One Taft Residences, a 40-storey mixed residential, office and commercial condominium which is located at 1939 Taft Avenue, Malate, Manila. The project was launched last October 2016 and completed in May 2022.

- North Residences, a 29-storey commercial and residential condominium located in EDSA (beside Waltermart) corner Lanutan, Brgy. Veterans Village, Quezon City was launched in October 2014. The project was turned over in March 2018.

Future Projects

The following are the future projects of the Group as of September 30, 2025:

CDC

Pioneer Heights 2
Pioneer Heights 2 is a proposed office, residential and commercial condominium to be located at Reliance St., Brgy. Highway Hills, Mandaluyong City.

CLDI

Bonifacio Place
Bonifacio Place is a proposed residential, office and commercial condominium project with basement parking levels and a separate parking building to be located at Boni Avenue, Barangay Barangka Itaas, Mandaluyong City. It is about 450 meters away from the EDSA MRT Boni Station.

The Parent Company and CLDI have a number of prime lots reserved for future projects. Its land bank is situated in strategic locations ideal for horizontal and vertical developments.

Internal sources of liquidity come from sales of condominiums and real estate projects, rental income from leased properties, collection of installment receivables and contract assets, maturing short-term and long-term investments and notes receivable while external sources come from SEC-registered commercial papers.

The estimated development cost of ₱684.25 million as of September 30, 2025 representing the cost to complete the development of real estate projects sold will be sourced through:

a) Sales of condominium and real estate projects;
b) Collection of installment contracts receivable and contract assets;
c) Maturing short-term and long-term investments and notes receivable; and
d) Issuance of SEC-registered commercial papers.

Financial Condition (September 30, 2025 vs. December 31, 2024)

The Group's balance sheet as of September 30, 2025 remained solid with total assets of ₱15,088.16 million, slightly higher as compared to the total assets as of December 31, 2024 of ₱15,000.49 million. The increase in assets can be attributed to the increase in real estate properties for sale and contract assets due to higher percentage of completion of CDC's and CLDI's ongoing projects, City North Tower and One Hidalgo. Aside from the foregoing, excess funds were shifted to shorter-term investments in order to maintain liquidity.

On the liabilities side, total liabilities decreased from ₱2,729.12 million as of December 31, 2024 to ₱2,504.88 million as of September 30, 2025. This was primarily due to the decrease in notes payable due to payments made, and decrease in contract liabilities due to higher percentage of completion of the Group's ongoing projects.

Total equity as of September 30, 2025 stood at ₱12,583.28 million from ₱12,271.36 million as of December 31, 2024, slightly higher from 2024 balance due to net income of ₱519.60 million.

Financial ratios as of September 30, 2025, December 31, 2024 and September 30, 2024 are disclosed in page 5 of the SEC Form 17-Q.

Results of Operation (September 30, 2025 vs. September 30, 2024)

Sales of real estate properties reached ₱1,343.97 million as compared to the previous year's sales of ₱1,147.68 million. The increase in sales amount by 17.10% can be attributed to the sales generated from CDC and CLDI's ongoing projects, City North Tower and One Hidalgo.

Total sales of the Group were substantially generated from CDC and CLDI reaching ₱800.30 million and ₱519.47 million which is equivalent to 59.55% and 38.65% of the Group's total sales, respectively. The Group has been applying the percentage of completion on its revenue recognition and therefore aside from the current year's sales, additional revenues of prior year's sales were also recognized based on percentage of completion. Sales from CLDI's project – One Hidalgo, contributed 34.73% of the Group's sales as of September 30, 2025. With this, sales of CLDI reached ₱519.47 million as of September 30, 2025 as compared to the same period last year of ₱209.74 million.

Other sources of income are financial income, rent income and other income. Financial income which is composed of interest income from sale of real estate properties, cash and cash equivalents, short-term and long-term investments, notes receivable and guaranty deposits contributed 20.45% of total revenues. On the other hand, rent income increased by 10.55% from ₱162.34 million to ₱179.46 million of the same period last year. Rent income came significantly from the lease operations of CityNet Central, CityNet1 and other properties which were held for lease. The increase in this account is attributed to higher rental income recognized from leased units and new contracts entered into by the Group during the period. Other income - net, on the other hand, pertains to penalties charged to clients, and other miscellaneous income. Revenue contribution of this account decreased by 9.14% from ₱76.18 million as of September 30, 2024 to ₱69.21 million for the quarter ended September 30, 2025.

On the cost side, cost of real estate sales increased as this moves in tandem with the sales of real estate properties, while operating expenses increased due to higher taxes and licenses and professional fees. Financial expenses decreased due to lower interest expense on security deposit.

As a result of the foregoing, the Group ended September 30, 2025 with a net income of ₱519.60 million, lower by 6.54% compared to the same period last year of ₱555.93 million. This translated to annualized earnings per share and return on equity of ₱0.12 and 5.41% as compared to the previous year of ₱0.13 and 6.53%, respectively.

Effects of changes in the composition of the issuer during the interim period, including business combinations, acquisition or disposal of subsidiaries and long-term investments, restructuring, and discontinuing operations

On August 26, 2025, the Board of Directors of CDC approved the plan of merger with its subsidiary, CLDI, with CDC as the surviving entity. The Board of Directors of CLDI, in its meeting held last August 27, 2025, also approved such plan. The Plan of Merger was approved and ratified by the stockholders representing at least two-thirds (2/3) of the outstanding capital stock of both companies during the Special Stockholders' Meeting (SSM) held on October 9, 2025 (CDC) and October 10, 2025 (CLDI). The said Plan of Merger was submitted to SEC for approval last October 24, 2025 and still being reviewed as of the reporting date.

Under the said plan, CLDI will be merged into CDC pursuant to the provisions of the Revised Corporation Code of the Philippines. The Merger is considered as an internal restructuring and is expected to create a more agile, efficient and compliant organization, well- positioned for long-term success, including among others:

Increased Efficiency:
Streamlined operations and consolidated resources leading to improved productivity and reduced waste.

Better Resource Management:
Effective management of funds and resources that will result in cost savings and optimized utilization.

Simplified Reporting:
A clearer reporting structure that will enhance transparency and compliance with regulatory requirements.

Reduced Administrative Costs:
Consolidation that will lead to lower administrative expenses, allowing the organization to allocate resources more strategically

The Merger shall take effect on the first day of the quarter following the approval by the Securities and Exchange Commission (SEC) including the issuance of Certificate of Filing of the Articles and Plan of Merger and upon receipt by the Parties from the SEC of the duly approved and released Certificate of Merger.

Upon the effectivity of the Merger, shares of CLDI shareholders will be converted to CDC shares. The aggregate value of the consideration for the Merger shall be satisfied through the issuance by CDC of 1,389,117,489 primary common shares to the stockholders of CLDI, based on the agreed exchange ratio of 0.88 CDC share for every CLDI share. This makes the former shareholders of CLDI new shareholders of the Merged Company.

The share swap ratio was determined through a thorough and objective process to ensure fairness for both CDC and CLDI shareholders. A third-party financial advisor was hired to provide an independent analysis, ensuring that the proposed share swap ratio will be impartial and reasonable. This independent evaluation is a standard practice in mergers, thereby providing an added layer of assurance in protecting shareholder value.

Since CDC is the surviving entity, its stockholders will continue to hold the same number of shares in the combined entity. The Merger will not disrupt the ongoing projects or the overall business operations of both companies.

Changes in contingent liabilities or contingent assets since the last balance sheet date

There are no contingent liabilities or contingent assets recorded since the last balance sheet date.

Any Known Trend or Events or Uncertainties (Material Impact on Net Sales or Revenues or Income from Continuing Operations)

There are no known trends, events or uncertainties that could affect the Group’s net sales or revenues or income.

Any Significant Elements of Income or Loss that did not arise from Registrant’s Continuing Operations

There are no significant elements of income or loss that did not arise from registrant’s continuing operations.

Causes for any Material Changes from Period to Period in One or More Line of the Registrant's Financial Statements

<u>Financial Condition (September 30, 2025 vs December 31, 2024)</u>

1. Increase in Cash and Cash Equivalents was substantially due to shift of funds and sale of real estate properties.
2. Decrease in Short-term Investments was due to maturity of short-term investments and shift of placements to shorter term investments.
3. Increase in total Installment Contract Receivables was due to sales of CPI under installment method.
4. Increase in total Contract Assets was substantially due to increase in percentage of completion of the Group’s ongoing projects.
5. Decrease in Cost to Obtain Contract was due to the recognition of commission expense relative to the increase in percentage of completion of the on-going projects.
6. Decrease in Notes Receivable was due to maturity of placements during the period.
7. Decrease in Other Receivables was primarily due to collection of advances made by the Group from the customers.
8. Increase in Real Estate Properties for Sale was substantially due to the construction costs incurred on the Group’s ongoing projects, City North Tower and One Hidalgo.
9. Decrease in Investment Properties was due to the depreciation recognized during the period.
10. Decrease in Property and Equipment was due to recognition of depreciation expense.
11. Net increase in Other Assets was significantly due to purchase of additional marketable securities.
12. Increase in Accounts Payable and Accrued Expenses was significantly due to the increase in development cost, directors’ fee and VAT payable.
13. Decrease in Contract Liabilities was due to higher percentage of completion of the Group’s ongoing projects.
14. Decrease in Notes Payable was due to settlement of notes payable.
15. Decrease in Income Tax Payable was due to lower taxable income.
16. Decrease in Net Retirement Benefits Liability was due to recognition of net retirement benefit assets of CLDI for the period ended September 30, 2025. The decline in this account is attributed to the change in actuarial assumptions particularly the decline in salary increases and increase in discount rate.
17. Increase in Unrealized Fair Value Changes on Financial Assets at Fair Value through Other Comprehensive Income (FVOCI) was due to increase in the market value of financial assets at FVOCI.

Results of Operation (September 30, 2025 vs September 30, 2024)

1. Increase in Sales of Real Estate Properties was primarily due to the sales generated from the Group's ongoing projects.
2. Increase in Financial Income was due to higher interest income earned from cash and cash equivalents and short-term cash investments and from installment contracts receivable and contract assets after the effect of the significant financing component.
3. Increase in Rent Income was substantially due to higher rental from units held for lease during the quarter and new lease contracts entered into by the Group during the period.
4. Decrease in Other Income – net was due to lower other income recognized by CLDI during the 3rd quarter of 2025.
5. Increase in Costs of Real Estate Sales was due to higher sales as it moves in tandem with the sales of real estate properties.
6. Increase in Operating Expenses was significantly due to increase in taxes and licenses and professional fees.
7. Decrease in Financial Expenses was substantially due to decrease in finance charges.
8. Increase in Provision for Income Tax was due to increase in provision for deferred income tax.
9. Decrease in Net Income was due to higher Provision for Income Tax - Deferred.

1. **Corporate Information**

Cityland Development Corporation (the Parent Company) was incorporated in the Philippines on January 31, 1978. It has two subsidiaries, Cityplans, Incorporated (CPI) and City & Land Developers, Incorporated (CLDI), a publicly listed company, which are all incorporated and domiciled in the Philippines. The primary purpose of the Parent Company and CLDI is to acquire, develop, improve, subdivide, cultivate, lease, sublease, sell, exchange, barter and/or dispose of agricultural, industrial, commercial, residential and other real properties, as well as to construct, improve, lease, sublease, sell and/or dispose of houses, buildings and other improvements thereon, and to manage and operate subdivisions and housing projects or otherwise engage in the financing and trading of real estate. CPI is engaged in the business of establishing, organizing, developing, maintaining, conducting, operating, marketing and selling pension plans. The Parent Company is 50.98%-owned by Cityland, Inc. (CI), the ultimate parent company incorporated in the Philippines, which also prepares consolidated financial statements.

The Parent Company's registered office and principal place of business is 2/F Cityland Condominium 10 Tower I, 156 H. V. Dela Costa Street, Makati City.

Merger with CLDI
On August 26, 2025, the Board of Directors (BOD) of the Company authorized and approved the Plan of Merger between the Parent Company and CLDI, with CDC as the surviving entity. This was approved and ratified by the stockholders during the Special Stockholders' Meeting on October 9, 2025. The Plan of Merger has been submitted to the Securities and Exchange Commission (SEC) last October 24, 2025 and still in the process of review by the said regulatory body.

On November 13, 2025, the Board of Directors, through the recommendation of the Audit and Risk Committee, approved and authorized the issuance of the accompanying unaudited consolidated financial statements as of and for the period ended September 30, 2025 of the Parent Company and its subsidiaries (the Group).

2. **Summary of Material Accounting Policies**

Basis of Preparation
The interim condensed consolidated financial statements of the Group have been prepared using the historical cost basis, except for financial assets at fair value through other comprehensive income (FVOCI), and investment properties included in the investments in trust funds account, that have been measured at fair values. These consolidated financial statements are presented in Philippine peso (₱), which is the Parent Company's functional and presentation currency. All values are rounded to the nearest Peso except when otherwise indicated. The Group has prepared the financial statements on the basis that it will continue to operate as a going concern.

Statement of Compliance
The Group's interim condensed consolidated financial statements have been prepared in accordance with Philippine Financial Reporting Standards (PFRS) Accounting Standards and in compliance with Philippine Accounting Standard (PAS) 34, *Interim Financing Reporting*.

The interim condensed consolidated financial statements do not include all the information and disclosures required in the annual consolidated financial statements, and should be read in conjunction with the Group's annual consolidated financial statements as at December 31, 2024, which have been prepared in accordance with PFRS Accounting Standards.

Changes in Accounting Policies
The accounting policies adopted are consistent with those of the previous financial year, except for the adoption of new standards effective in 2025. The Group has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

Unless otherwise indicated, adoption of these new standards did not have an impact on the financial statements of the Group.

- Amendments to PAS 21*, Lack of exchangeability*

The amendments specify how an entity should assess whether a currency is exchangeable and how it should determine a spot exchange rate when exchangeability is lacking.

Adoption of the provisions of Philippine Interpretation Committee (PIC) Q&A 2018-12, PFRS 15 Implementation Issues Affecting the Real Estate Industry (as amended by PIC Q&A 2020-02 and 2020-04)

On February 14, 2018, the PIC issued PIC Q&A 2018-12 which provides guidance on some PFRS 15 implementation issues affecting the real estate industry. On October 25, 2018, and February 8, 2019, the SEC issued SEC MC No. 14-2018 and SEC MC No. 3-2019, respectively, providing relief to the real estate industry by deferring the application of certain provisions of this PIC Q&A for a period of three years until December 31, 2020. On December 15, 2020, the SEC issued SEC MC No. 34-2020 which further extended the deferral of certain provisions of this PIC Q&A until December 31, 2023.

Starting January 1, 2024, the Group adopted the remaining provisions of PIC Q&A 2018-12, specifically on the (i) significant financing component, and (ii) implementing the IFRIC Agenda Decision on Over Time Transfer of Constructed Goods (PAS 23, *Borrowing Cost*). The Group opted to adopt the changes using modified retroactive approach in its annual financial statements effective January 1, 2024 and the impact was recognized in the opening retained earnings. The comparative information was not restated.

The Group has already adopted the provision of PIC Q&A 2018-12 relating to the exclusion of land in the determination of percentage of completion (POC) in previous years. The Group recalculated the impact of the adoption of the PIC Q&A 2018-12 as shown in its 2024 annual audited consolidated financial statements.

The following is the tabular format to show the impact of the adoption to balances of affected accounts as at January 1, 2024.

Basis of Consolidation

The consolidated financial statements consist of the financial statements of the Parent Company and its subsidiaries as of the covered period of each year. The financial statements of the subsidiaries are prepared for the same reporting year as the Parent Company using consistent accounting policies.

The percentage of ownership of the Parent Company in these subsidiaries as of September 30, 2025 and December 31, 2024 are as follows:

	Percentage of Ownership	Nature of Activity
CPI	90.81	Pre-need pension plans
CLDI	49.73	Real estate

The registered office and principal place of business of CLDI is 3/F Cityland Condominium 10 Tower I, 156 H. V. Dela Costa Street, Makati City. On the other hand, the registered office and principal address of CPI is at 3/F Cityland Condominium 10, Tower 2, 154 H.V. Dela Costa St., Salcedo Village, Makati City.

A subsidiary is an entity that is controlled by the Group. The Group controls an investee if, and only if, the Group has:

- power over the investee (i.e., existing rights that give it the current ability to direct the relevant activities of the investee)
- exposure, or rights, to variable returns from its involvement with the investee
- the ability to use its power over the investee to affect its returns

When the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- the contractual arrangement with the other vote holders of the investee
- rights arising from other contractual arrangements
- the Parent Company's voting rights and potential voting rights

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. In such circumstances, the carrying amounts of the controlling and non-controlling interests shall be adjusted to reflect the changes in their relative interests in the subsidiary. Any difference between the amount by which the non-controlling interests is adjusted and the fair value of the consideration paid or received shall be recognized directly in equity and attributed to the owners of the parent.

If the Group loses control over a subsidiary, it derecognizes the related assets (including goodwill, if any), liabilities, non-controlling interest and other components of equity while any resulting gain or loss is recognized in profit or loss. Any investment retained is recognized at fair value.

Non-controlling Interests
Non-controlling interests represent the interests in the subsidiaries not held by the Parent Company and are presented separately in the consolidated statement of income, consolidated statement of comprehensive income and within the equity section of the consolidated statement of financial position, separate from the Parent Company's equity.

Material Accounting Policy Information
The following are the material accounting policies of the Group:

Cost includes:

- Land cost
- Amounts paid to contractors for construction
- Borrowing costs directly attributable to the acquisition, development and construction of real estate projects
- Planning and design costs, costs of site preparation, professional fees, property transfer taxes, construction overheads and other related costs.

NRV is the estimated selling price in the ordinary course of the business, based on market prices at the reporting date, less estimated costs to complete and the estimated costs necessary to make the sale. The Group recognizes the effect of revisions in the total project cost estimates in the year in which these changes become known.

Gains or losses resulting from cancellations and forfeitures of sale of real estate properties are credited or charged to "Other income - net" in the consolidated statement of income.

Revenue Recognition
Revenue from Contract with Customers
The Group primarily derives its real estate revenue from the sale of completed real estate projects and undeveloped land. Revenue from contracts with customers is recognized when control of the goods or services are transferred to the buyer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services. The Group has generally concluded that it is acting

as a principal in all of its revenue arrangements, except for the provisioning of water and electricity in its office leasing activities, wherein it is acting as agent.

The disclosures of significant accounting judgements, estimates and assumptions relating to revenue from contracts with customers are provided in Note 3.

Sales of real estate properties (CDC and CLDI)
CDC and CLDI derive their real estate revenue from sale of lots and condominium units. Revenue from the sale of these real estate projects under pre-completion stage are recognized over time during the construction period (or percentage of completion) since based on the terms and conditions of its contract with the buyers, the entities' performance does not create an asset with an alternative use and the entities have an enforceable right to payment for performance completed to date.

Revenue from sales of completed real estate properties and undeveloped land is accounted for using the full accrual method. Under the full accrual method, revenue is recognized when the risks and rewards of ownership on the properties have been passed to the buyer and the amount of revenue can be measured reliably.

In measuring the progress of its performance obligation over time, the entities use input method. Input method recognizes revenue on the basis of the entity's efforts or inputs to the satisfaction of a performance obligation. Progress is measured based on actual resources consumed such as materials, labor hours expended and actual overhead incurred relative to the total expected inputs to the satisfaction of that performance obligation, or the total estimated development costs of the real estate project. The entities use the cost accumulated by the accounting department to determine the actual resources used. Input method excludes the effects of any inputs that do not depict the entity's performance in transferring control of goods or services to the buyer.

If the criteria of full accrual and POC method are not satisfied and when the license to sell and certificate of registration for a project are not yet issued by the Housing and Land Use Regulatory Board (HLURB), any cash received by the Group is recorded as part of "Rental and customers' deposits" account which is included under "Accounts payable and accrued expenses" in the consolidated statements of financial position until all the conditions for recognizing the sale are met.

Estimated development costs of the real estate project include costs of land, land development, building costs, professional fees, depreciation of equipment directly used in the construction, payments for permits and licenses. Revisions in estimated development costs brought about by increases in projected costs in excess of the original budgeted amounts, form part of total project costs on a prospective basis.

Any excess of progress of work over the right to an amount of consideration that is unconditional, recognized as installment contract receivables, under trade receivables, is included in the "Contract assets" account in the asset section of the consolidated statements of financial position.

Any excess of collections over the total of recognized installment contract receivables is included in the "Contract liabilities" account in the liabilities section of the consolidated statements of financial position.

Sales of real estate properties (CPI)
CPI derives its revenue from sale of condominium units. Revenue from the sale of these real estate projects is recognized at a point in time when control of the asset is transferred to the buyer, generally when the condominium units are delivered to and accepted by the buyer. The payment is collectible in monthly installments for periods ranging from 1 to 10 years.

Costs of real estate sales
The Group recognizes costs relating to satisfied performance obligations as these are incurred taking into consideration the contract fulfillment assets such as land and connection fees. These include costs of land, land development costs, building costs, professional fees, depreciation, permits and licenses and capitalized borrowing costs. These costs are allocated to the saleable area, with the portion allocable to the sold area being recognized as costs of sales while the portion allocable to the unsold area being recognized as part of real estate inventories.

Costs of real estate sales is recognized consistent with the revenue recognition method applied. Cost of real estate properties sold before completion is determined using the POC used for revenue recognition applied on the acquisition cost of the land plus the total estimated development costs of the property.

In addition, the entities recognize as an asset only costs that give rise to resources that will be used in satisfying performance obligations in the future and that are expected to be recovered.

The cost of inventory recognized in profit or loss on disposal (costs of real estate sales) is determined with reference to the specific and allocated costs incurred on the sold property taking into account the POC. The costs of real estate sales also includes the estimated development costs to complete the real estate property, as determined by independent project engineers, and taking into account the POC. The accrued development costs account is presented under "Accounts payable and accrued expenses" in the consolidated statements of financial position.

Any changes in estimated development costs used in the determination of the amount of revenue and expenses are recognized in consolidated statements of income in the period in which the change is made.

Financial Expenses

Financial expenses consist of interest incurred on notes payable. Interest attributable to a qualifying asset is capitalized as part of the cost of the asset while others are expensed as incurred.

For real estate inventories, interest is capitalized on the purchase cost of site of property acquired specifically for sale but only to the extent where activities necessary to prepare the asset for selling are in progress prior to pre-selling activities.

3. Significant Accounting Judgments, Estimates and Assumptions

The preparation of the consolidated financial statements requires management to make judgments, estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes.

In the opinion of management, these interim condensed consolidated financial statements reflect all adjustments necessary to present fairly the results for the period presented. Actual results could differ from such estimates.

Except as otherwise stated, the significant judgments, estimates and assumptions used in the preparation of the interim condensed financial statements are consistent with those used in the annual consolidated financial statements as at and for the year ended December 31, 2024.

Assessment of significant financing component
The Group believes that it is a lender in the contract to sell with the buyers and thus accounted for the significant financing component when recognizing revenue from real estate sales. The Group combined contracts with similar characteristics such as payment term and project. The impact has been reflected in the condensed consolidated financial statements.

4. Cash and Cash Equivalents and Short-term and Long-term Investments

Cash and cash equivalents consist of:

	September 30,2025	December 31, 2024
Cash on hand and in banks	**₱41,204,108**	₱178,565,425
Cash equivalents	**1,322,500,000**	1,112,000,000
	₱1,363,704,108	₱1,290,565,425

Cash in banks earn interest at the respective bank deposit rates. Cash equivalents are made for varying periods up to three months depending on the immediate cash requirements of the Group, and earn interest at the respective investment rates.

Short-term investments consist of:

	September 30, 2025	December 31, 2024
Short-term cash investments	**₱910,000,000**	₱892,100,000
Short-term bond investments	**201,000,000**	495,500,000
	₱1,111,000,000	₱1,387,600,000

Short-term investments pertain to cash and bond investments that have maturities of more than three months to one year from dates of acquisition and earn interest at the prevailing market rates.

Long-term investments amounting to ₱191.5 million and ₱250.00 million as of September 30, 2025 and December 31, 2024, respectively, pertain to bond investments that have maturities of more than one year from the date of acquisition.

Interest income earned from cash in banks, cash equivalents and short-term and long-term investments are disclosed in Note 20.

5. Investments in Trust Funds and Pre-need and Other Reserves

Investments in trust funds
Pursuant to the provisions of the SEC Memorandum Circular No. 6, *Guidelines on the Management of the Trust Fund of Pre-Need Corporation* (SEC Circular No. 4), the SEC requires, among others, that companies engaged in the sale of pre-need plans and similar contracts to plan holders set up a trust fund to guarantee the delivery of property or performance of service in the future. Withdrawals from these trust funds are limited to, among others, payments of pension plan benefits, bank charges and investment expenses in the operation of the trust funds, termination value payable to plan holders, contributions to the trust funds of cancelled plans and final taxes on investment income of the trust funds.

In accordance with the SEC requirements, CPI has funds deposited with two local trustee banks with net assets aggregating to ₱35.15 million and ₱34.24 million as of September 30, 2025 and December 31, 2024, respectively, which are recorded under “Investments in trust funds” account in the consolidated statements of financial position.

The details of investments in trust funds are as follows:

	September 30, 2025	December 31, 2024
Assets		
Cash and cash equivalents:	**₱3,056,600**	₱2,849,307

6. Revenue from Contracts with Customers

a. Disaggregated Revenue Information
The Group derives revenue from the real estate sales overtime in different product type and geographical location. The disaggregation of each source of revenue from contracts with customers are presented below:

Real estate sales

Type of Product	**September 30,2025**	September 30, 2024
High-rise condominium	**₱1,245,123,523**	₱1,059,375,646
Parking slots and others	**98,850,474**	88,299,382
Total	**₱1,343,973,997**	₱1,147,675,028

Real estate sales of the Group as of the period ended September 30, 2025 and 2024 pertain to sale of properties within Metro Manila.

All of the Group’s real estate sales, except for CPI, are revenue from contracts with customers recognized over time and are reported under “Sales of real estate properties” segment. For CPI, real estate sales are revenue from contracts with customers recognized at a point in time.

As of September 30, 2025 and 2024, sales for real estate properties and rental income arose from contracts with external buyers. There were no intercompany sales/transactions made on the said periods.

Contract Balances

	September 30, 2025	December 31, 2024
Installment contracts receivable	**₱41,333,753**	₱34,857,332
Contract assets:

Noncurrent	**1,815,683,977**	1,272,824,832
Contract liabilities		
Current	**(103,334,279)**	(181,581,626)
Noncurrent	**(133,637,614)**	(86,567,334)

Installment contracts receivable as of:

	September 30, 2025	December 31, 2024
Installment contracts receivable	**₱41,333,753**	₱34,857,332
Less: Noncurrent portion	**34,029,187**	26,561,292
Current portion	**₱7,304,566**	₱8,296,040

Installment contracts receivable arises from sale of real estate properties and is collectible in monthly installments for periods ranging from 1 to 10 years which bear monthly interest rates of 0.92% to 1.33% both as of September 30, 2025 and December 31, 2024 computed on the diminishing balance.

Interest income earned from installment contracts receivable and contract assets are disclosed in Note 20.

The Parent Company, CLDI and CI entered into contract of guaranty under Retail Guaranty Line with Philippine Guaranty Corporation (PHILGUARANTEE). The amount of installment contract receivable enrolled and renewed by the Group amounted to ₱468.00 million and ₱1.31 billion as of September 30, 2025 and December 31, 2024, respectively. The Group paid a guaranty premium of 1.00% based on outstanding principal balance of the receivables in 2025 and 2024.

Contract asset represents the right to consideration that was already delivered by the Group in excess of the amount recognized as installment contracts receivable. This is reclassified as installment contracts receivable when the monthly amortization of the buyer is already due for collection.

Contract liabilities amounting to ₱181.58 million and ₱10.70 million and as of September 30, 2025 and December 31, 2024, respectively, consist of collections from real estate buyers which have not reached the equity threshold to qualify for revenue recognition and excess of collections over the goods and services transferred by the Group based on percentage of completion.

Movement in contract liability was recognized as income based on the percentage of completion of the ongoing projects.

b. *Performance obligations*

Information about the Group's performance obligations is summarized below:

Real estate sales
The Group entered into contracts to sell with one identified performance obligation which is the sale of the real estate unit together with the services to transfer the title to the buyer upon full payment of contract price. The amount of consideration indicated in the contract to sell is fixed and has no variable consideration.

The sale of real estate unit may cover either the parking lot or condominium unit and the Group concluded that there is one performance obligation in each of these contracts. The Group, except for CPI, recognizes revenue from the sale of these real estate projects under pre-completed contract over time during the course of the construction. CPI recognizes revenue from the sale of these real estate projects at a point in time when control of the asset is transferred to the buyer, generally when the condominium units are delivered to and accepted by the buyer.

Payment commences upon signing of the contract to sell and the consideration is payable in cash or under various financing schemes entered with the buyer. The financing scheme would include down payment of generally 5% to 10% of the contract price with the remaining balance payable through in-house financing which ranges from one (1) month to ten (10) years with fixed monthly payment. The amount due for collection under the amortization schedule for each of the buyer does not necessarily coincide with the progress of construction, which results to either a contract asset or contract liability.

In order to cope with the current trend in the real estate industry, the Group offered to customers the "installment down payment" scheme starting 2020 wherein certain projects were offered with 20 to 36 months to pay the corresponding down payment. The new scheme introduced by the Group resulted to sales with percentage of collection lower than 10%. The Group records these collections as "Rental and customers' deposits" under "Accounts Payable and Accrued Expenses" account in the consolidated statements of financial position.

The transaction price allocated to the remaining performance obligations (unsatisfied or partially satisfied) are as follows:

	September 30, 2025	December 31, 2024
Within one year	**₱254,466,059**	₱373,627,614
More than one year	**324,175,286**	904,562,780
	₱578,641,345	₱1,278,190,394

The remaining performance obligations expected to be recognized within one year and in more than one year relate to the continuous development of the Group's real estate projects. The Group's condominium units are completed within three years to five years from start of construction.

c. *Cost to Obtain Contract*

The balances below pertain to the cost to obtain contracts as of September 30, 2025 and December 31, 2024 as presented in the consolidated statements of financial position:

	September 30, 2025	December 31, 2024
Balance at beginning of period/year	**₱22,133,624**	₱5,740,923
Additions	**19,750,427**	37,473,981
Amortization	**(22,577,408)**	(21,081,280)
Balance at end of period/year	**24,960,643**	22,133,624
Less: noncurrent portion	**10,748,271**	15,697,824
Current portion	**₱8,558,372**	₱6,435,800

7. Notes Receivable

Notes receivable from various financial institutions earns interest at the prevailing market interest rates ranging from 5.0069% to 5.8067%.

	September 30, 2025	December 31, 2024
Notes receivable	**₱250,000,000**	₱406,500,000
Less: noncurrent portion	**250,000,000**	91,500,000
Current portion	**₱–**	₱315,000,000

There were no properties offered as collaterals for the said notes receivable. Details of notes receivables are as follows:

Date of Placement	Amount	Maturity Date
April 2024	**₱150,000,000**	April 2027
April 2025	**100,000,000**	May 2028
Balances as of September 30, 2025	**₱250,000,000**	

Interest income earned from notes receivable amounted to ₱9.86 million and ₱77.43 million as of September 30, 2025 and September 30, 2024 respectively (see Note 20). During the 3rd quarter of 2025, notes receivable amounting to ₱91.50 million was reclassified to long-term investments.

8. Other Receivables

Other receivables consist of:

	September 30, 2025	December 31, 2024
Accrued interest (Note 25)	**₱21,037,487**	₱27,485,500
Due from related parties (Note 25)	**628,574**	18,049
Advances to customers	**7,798,989**	23,028,887

	48,272,094	69,754,776
Less noncurrent portion	**1,571,084**	1,480,282
Current portion	**₱46,701,010**	₱68,274,494

Accrued interest pertains to interest income earned as of the reporting period but not yet received by the Group. Due from related parties pertains to the amount of receivables to be collected by the Group from related parties where one party can exercise control or significant influence over another party. Advances to customers are receivables of the Group for the real estate property taxes of sold condominium units initially paid by the Group. Rent receivable arose from the investment properties rented-out under non-cancellable long-term operating lease contracts (see Note 11). Advances to condominium corporations pertain to disbursements which are collectible from condominium corporations. Retention pertains to the amount held on cash sale of real estate properties. Other receivables include employees' advances, advances to retirement fund and receivables from buyers for expenses initially paid by Group. As of December 31, 2024, the advances to retirement fund accounted approximately 65% of the total other receivables which was settled in 2025.

9. Real Estate Properties for Sale

Real estate properties for sale consists of costs incurred in the development of condominium units and residential houses. Real estate properties for sale includes deemed cost adjustment amounting to ₱2.72 million and ₱3.09 million as of September 30, 2025 and December 31, 2024, respectively (see Note 16). The deemed cost adjustment arose when the Group transitioned to PFRSs in 2005.
The movements in real estate properties for sale are as follows:

	September 30, 2025	December 31, 2024
Balances at beginning of period/year	**₱5,767,685,640**	₱4,773,833,259

Net Book Values	₱1,857,799,478	₱658,895,633	₱88,903,877	₱2,605,598,988

Investment properties as of September 30, 2025 and December 31, 2024 include the following buildings for lease registered with Philippine Economic Zone Authority (PEZA) which are leased out to third parties:

	PEZA Registration No.	Date Registered
CityNet1	EZ14-04	March 3, 2014
Citynet Central	EZ15-06	February 17, 2015

The net book values of land and building include net deemed cost adjustment amounting to ₱121.04 million and ₱158.67 million as of September 30, 2025 and December 31, 2024, respectively (see Note 15). The deemed cost adjustment arose when the Group transitioned to PFRSs in 2005.

Based on the appraisal reports by SEC-accredited and independent firms of appraisers using market data and sales comparison approach at various dates in 2025 and 2024, appraised values of these investment properties amounted to ₱10,377.48 million and ₱8,705.52 million as of dates of appraisal in May 2025 and December 2024, respectively (see Note 26). The management believes that there have been no significant changes in the market conditions or the properties' circumstances between the date of the appraisal and the reporting date.

Rental agreements
The Group entered into lease agreements for its buildings for lease with the following identified performance obligations: (a) lease of space, (b) provisioning of water and electricity, (c) provision of air conditioning and CUSA services and (d) administration fee. Revenue from lease of space is recognized on a straight-line basis over the lease term while revenue for the remaining performance obligations are recognized when services are rendered. The tenant is required to issue post-dated checks on the monthly rental payments. In case of delay in payments, a penalty of about 4% per annum is charged for the amount due for the duration of delay. The lease arrangement for the Group’s long-term lease transactions would typically require a tenant to pay advance rental equivalent to three (3) months and a security deposit equivalent to three (3) months rental to cover any breakages after the rental period, with the excess returned to the tenant.

The following are the long-term lease contracts entered into by the Group as of September 30, 2025:

For the office premises, the Group elected to apply the optional exemption under PFRS 1, *First-Time Adoption of PFRS*, to use the revalued amount as deemed cost as at January 1, 2005, the date of transition to PFRSs.

Difference between the net deemed cost and the net pre-PFRSs cost amounting to nil as of September 30, 2025 and December 31, 2024 represents the remaining balance of the deemed cost adjustment.

The Group recorded as part of "Property and equipment" the right-of-use assets amounting to ₱7.30 million and ₱10.91 million as of September 30, 2025 and December 31, 2024, respectively. Depreciation expense related to right-of-use assets amounted to ₱3.61 million as of September 30, 2025 and September 30, 2024 (see Note 13 and 19).

Other lease contracts entered by the Group pertain to short-term leases of office space and transportation equipment with rent expense amounting to ₱2.27 million and ₱0.72 million incurred as of September 30, 2025 and December 31, 2024, respectively. The Group does not have any lease contracts pertaining to low value assets. Further, the Group does not have any sublease and leaseback transactions. Thus, there were no income arising from sublease, sale and leaseback transaction.

The cost of fully depreciated property and equipment still used in operations amounted to ₱5.22 million as of September 30, 2025 and December 31, 2024.

12. Other Assets

Other current assets amounting to ₱89.77 million and ₱162.36 million as of September 30, 2025 and December 31, 2024, respectively, consist of input VAT, guaranty deposit, advances to contractors and prepaid real estate taxes.

Other noncurrent assets consist of:

Trade payables consist of payables to suppliers, contractors and other counterparties. Rental and customers' deposits consist of buyers' reservation fees, collections pertaining to sales transactions with below 10% percentage of collection, rental deposits and collected deposits for water and electric meters of the sold units.

Accrued development costs represent the corresponding accrued expenses for the completed condominium units of the Group. Deferred rent income pertains to rent received from long-term operating lease.

VAT payable pertains to the amount of Value-Added Tax (VAT) of the group after accounting for the VAT that has been collected and the VAT that has been paid. VAT payable amounting to ₱16.72 million as of September 30, 2025 was settled the following month.

Lease liabilities pertain to the present value of the lease payments that are not yet paid during the remaining lease period. Interest expense related to the lease liabilities amounted to ₱0.44 million and ₱0.55 million as of September 30, 2025 and 2024, respectively (see Note 21). There were no expenses relating to variable lease payments that were not included in the measurement of lease liabilities.

Other payables consist substantially of commission payable, unclaimed checks of pension holders, and payables due to government agencies.

Group as a lessee
The Group has lease contracts for various items of plant assets used in its operations. Leases of plant assets generally have lease terms between 2 to 5 years. The Group's obligations under its leases are secured by the lessor's title to the leased assets. Generally, the Group is restricted from assigning and subleasing the leased assets and some contracts require the Group to maintain certain financial ratios. There are several lease contracts that include extension and termination options and variable lease payments, which are further discussed below.

The following are the amounts recognized in September 30, 2025 and 2024 consolidated statement of income:

25. Related Party Transactions

Enterprises and individuals that directly, or indirectly through one or more intermediaries, control or are controlled by or under common control with the Group, including holding companies, subsidiaries and fellow subsidiaries, are related parties of the Group. Associates and individuals owning, directly or indirectly, an interest in the voting power of the Group that gives them significant influence over the enterprise, key management personnel, including directors and officers of the Group and close members of the family of these individuals, and companies associated with these individuals also constitute related parties. In considering each possible related entity relationship, attention is directed to the substance of the relationship and not merely the legal form.

The Group discloses the nature of the related party relationship and information about the transactions and outstanding balances necessary for an understanding of the potential effect of the relationship on the consolidated financial statements, including, as a minimum, the amount of outstanding balances and its terms and conditions including whether they are secured, and the nature of the consideration to be provided in settlement.

The Group, in the normal course of business, has transactions and account balances with related parties consisting mainly of the following:

			Outstanding Balances

The transactions of the Parent Company with CLDI and CPI are eliminated in the consolidated statements of financial positions and consolidated statements of income.

a. On May 13, 2025, the Board of Directors of CLDI approved the declaration of cash dividends with the amount of ₱0.0300 per share which was paid on June 18, 2025. On March 14, 2025, CPI declared cash dividends with the amount of ₱0.1312 per share which was paid on April 8, 2025.

b. The Parent Company has an existing agreement with CI, CLDI and CPI whereby personnel costs and common recurring expenses such as water, electricity, rental, and other expenses for which the companies have benefited from such service shall be shared among the companies and billed with a pre-agreed mark-up rate. These are recorded as part of "Operating expenses" in the consolidated statements of income. The income recognized as a result of the mark-up charged is recorded as "Other income - net" in the consolidated statements of income. These are unsecured, unguaranteed, non-interest bearing, and due within 30-60 days.

c. The Group, jointly with affiliated companies under common control, has a trust fund for the retirement plan of their employees. The trust fund is being maintained by a third-party trustee bank under the supervision of the Retirement Committee of the plan who is responsible for the investment strategy of the plan.

d. The Group has no standard arrangements with regard to the remuneration of its directors. In 2024, the BOD received a total of ₱49.46 million and ₱32.07 million as of September 30, 2025. Moreover, the Group has no standard arrangement with regard to the remuneration of its existing officers aside from the compensation received or any other arrangements in the employment contracts and compensatory plan. The Group does not have any arrangements for stock warrants or options offered to its employees.

e. In 2025, the Company through its affiliate – Credit and Land Holdings, Inc., issued a cash bond amounting ₱46.43 million in favor of HLURB in relation to the construction and development of its ongoing projects which was recorded as guaranty deposit under "Other current assets". The said amount was placed by CLHI to a financial institution with a maturity of one (1) year. In 2022, CLDI also issued a cash bond amounting to ₱62.99 million in relation to its new project with maturity of five (5) years and six (6) months. Interest income earned amounted to ₱5.26 million and ₱6.81 million in September 30, 2025 and 2024, respectively (see Note 20).

26. Financial Instruments

Financial Risk Management Objectives and Policies

The Group's principal financial instruments comprise cash and cash equivalents, short-term and long-term investments, notes receivable and notes payable. The main purpose of these financial instruments is to finance the Group's operations. The Group's other financial instruments consist of financial assets at fair value through profit or loss and financial assets at FVOCI, which are held for investing purposes and investments in trust funds to cover pre-need reserves obligation. The Group has various other financial instruments such as installment contracts receivable, other receivables and accounts payable and accrued expenses which arise directly from its operations.

It is, and has been throughout the year under review, the Group's policy that no trading in financial instruments shall be undertaken.

The main risks arising from the Group's financial instruments are market risk (i.e., cash flow interest rate risk and equity price risk), credit risk and liquidity risk. The BOD reviews and approves policies for managing these risks and they are summarized as follows:

Market risk
Cash flow interest rate risk
Cash flow interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's exposure to the risk for changes in market interest rates relates primarily to the Group's short-term notes payable, all with repriced interest rates.

The Group's policy in addressing volatility in interest rates includes maximizing the use of operating cash flows to be able to fulfill principal and interest obligations even in periods of rising interest rates.

The following table demonstrates the sensitivity of the Group's income before income tax to a reasonably possible change in interest rates based on forecasted and average movements of interest rates (with all other variables held constant):

	Change in bps	**Effect on Income before Income Tax**
September 30, 2025	**+/-25 bps**	**+/-₱2,119,625**
December 31, 2024	+/-25 bps	+/-₱3,360,750

There is no impact on the Group's equity other than those already affecting income before income tax.

Equity price risk
Equity price risk is the risk that the fair values of investments in equity securities will decrease as a result of changes in the market values of individual shares of stock. The Group is exposed to equity price risk because of investments held by the Group classified as financial assets at FVOCI included under "Other noncurrent asset account" in the consolidated statements of financial position. The Group employs the service of a third-party stockbroker to manage its investments in shares of stock.

The following table demonstrates the sensitivity analysis of the Group's equity to a reasonably possible change in equity price based on forecasted and average movements of equity prices (with all other variables held constant):

	Change in equity price	**Effect on equity**
September 30, 2025	**+/-₱0.05**	**+/-₱3,793,851**
December 31, 2024	+/-₱0.05	+/-₱17,129,608

Credit risk
Credit risk arises when the Group will incur a loss because its buyers, clients or counterparties fail to discharge their obligations. The Group trades only with recognized, creditworthy third parties. It is the Group's policy that all buyers who wish to trade on credit terms are subject to credit verification procedures. In addition, receivable balances are monitored on an on-going basis with the objective that the Group's exposure to bad debts is not significant. The risk is further mitigated because the Group holds the title to the real estate properties with outstanding installment contracts receivable balance and the Group can repossess such real estate properties upon default of the buyer in paying the outstanding balance. The Group's policy is to enter into transactions with a diversity of creditworthy parties to mitigate any significant concentration of credit risk. There are no significant concentrations of credit risk within the Group.

The tables below show the Group's exposure to credit risk for the components of the consolidated statements of financial position. The exposure as of September 30, 2025 is shown at gross, before taking the effect of mitigation through the use of collateral agreements and other credit enhancements, and at net, after taking the effect of mitigation through the use of collateral agreements and other credit enhancements.

The Group has performed an expected credit loss (ECL) calculation for its financial assets at amortized cost. The expected credit loss is a product of the probability of default, loss given default and exposure at default.

In determining the probability of default, the Group used historical default rates for the last five years for the installment sales from its buyers and last two years for other receivables. The Group applied the possible effects of macroeconomic factors to the historical loss rate. For loss given default, the Group determined that the fair value less cost of repossession of collaterals upon default is higher than the exposure at default. Thus, no expected credit loss was recognized for the Group's installment contract receivables, contract assets and other receivables from its buyer.

The Group considers its cash and cash equivalent and short-term and long-term investments as high grade since these are placed in financial institution of high credit standing. Accordingly, ECL relating to cash and cash equivalents and short-term and long-term investment rounds to nil.

The Group considers installment contract receivables, notes receivable, guaranty deposits, refundable deposits and other receivables from third parties and related parties as medium grade. Third parties are primarily managed through screening based on credit history and financial information submitted. Whereas, related parties have low risk of default and have a strong capacity to meet their contractual cash flows in the near term.

As of September 30, 2025, the following tables summarize the aging analysis of receivables and contract assets on which expected credit loss rate was applied:

	Neither past due nor impaired			Days past due

**High Grade - financial assets with reputable counterparties and which management believes to be reasonably assured to be recoverable.*
*** Medium Grade - financial assets for which there is low risk of default of counterparties.*

<u>*Liquidity risk*</u>
Liquidity risk is defined as the risk that the Group would not be able to settle or meet its obligations on time or at a reasonable price.

The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of commercial papers.

The tables below summarize the maturity analysis of the consolidated financial assets held for managing liquidity and financial liabilities based on contractual undiscounted payments:

September 30, 2025:

	Up to One Year	Above One Year	Total

Fair Values

The following tables provide fair value hierarchy of the Group's financial assets, financial liabilities and investment properties, other than those with carrying amounts which are reasonable approximations of fair values:

Date of valuation: September 30, 2025

	Fair value		
	Level 1	Level 2	Level 3
Assets measured at fair value:			
Investment in trust fund			
Financial assets at FVPL	**₱3,954,431**	**₱ –**	**₱ –**
Investment properties	**–**	**–**	**5,149,283**
Financial assets at FV through OCI	**492,819,032**	**–**	**–**
Assets for which fair values are disclosed:			
Investment properties *	**–**	**–**	**10,377,480,792**

**Last valuation date is May 31, 2025*

The following method and assumptions were used to estimate the fair value of each class of financial instruments and investment properties, for which it is practicable to estimate such value.

Cash and cash equivalents, short-term and long-term investments, installment contracts receivable, notes receivable, other receivables, accounts payable and accrued expenses and notes and contract payable

Due to the short-term nature of the transactions, the fair values of cash and cash equivalents, short-term investments, notes receivable, other receivables, accounts payable and accrued expenses and notes and contracts payable approximate their carrying amounts. The fair values of long-term investments, notes receivable and installment contracts receivable approximate their carrying amounts as they carry interest rates that approximate the interest rates for comparable instruments in the market.

Financial assets at FVOCI

Financial assets at FVOCI are stated at fair value based on quoted market prices.

Investment properties

The fair value of certain investment properties is determined using sales comparison. Sales comparison approach considers the sales of similar or substitute properties and other related market data had the investment properties been transacted in the market. The significant unobservable inputs used in determining the fair value are the sales price per square meter of similar or substitute property, location, size, shape of lot and the highest and best use.

Another method used in determining the fair value of other properties is based on the market data approach. The value is based on sales and listings of comparable property registered within the vicinity. This requires adjustments of comparable property by reducing reasonable comparative sales and listings to a common denominator by adjusting the difference between the subject property and those actual sales and listings regarded as comparables. The comparison is premised on the factors of location; size and shape of the lot; time element and others. The management believes that there have been no significant changes in the actuarial valuation from May 31, 2025 to September 30, 2025.

The fair value of the investment properties represents the highest and best use of the said properties which is the same with its current use.

27. Basic/Diluted Earnings Per Share

Basic/diluted earnings per share amounts were computed as follows:

	September 30, 2025	September 30, 2024
Net income attributable to equity holders of the Parent Company (a)	**₱447,494,530**	₱503,058,780
Weighted average number of outstanding shares (b)	**4,976,499,325**	4,976,499,325
Basic/diluted earnings per share (a/b)	**₱0.09**	₱0.10

The Group has no potential dilutive common shares as of September 30, 2025 and 2024. Thus, the basic and diluted earnings per share are the same as of those dates.

28. Business Segments

The Group derives its revenues primarily from the sale and lease of real estate properties and pension plan operations. These are the operating segments classified as business groups which are consistent with the segments reported to the BOD, its Chief Operating Decision Maker (CODM).

The Group does not have any major customers and all sales and leases of real estate properties and sales of pension plans are made to external customers.

29. **Contingencies**

The Group is contingently liable for certain lawsuits or claims filed by third parties which are either pending decisions by the courts or are under negotiation, the outcomes of which are not presently determinable. In the opinion of management and its legal counsel, the eventual liability under these lawsuits or claims, if any, will not have a material effect on the consolidated financial statements. Hence, no provision was recognized as of September 30, 2025 and December 31, 2024.

Current ratio = Total Current Assets / Total Current Liabilities

Asset-to-equity ratio = $\dfrac{\text{Total Assets}}{\text{Total equity attributable to equity holders of the Parent Company (net of unrealized fair value changes on financial assets at fair value through FVOCI and accumulated re-measurement on defined benefit plan)}}$

Debt-to-equity ratio = $\dfrac{\text{Notes Payable}}{\text{Total equity attributable to equity holders of the Parent Company (net of unrealized fair value changes on financial assets at fair value through FVOCI and accumulated re-measurement on defined benefit plan)}}$

Asset-to-liability ratio = Total Assets / Total Liabilities

Solvency ratio = $\dfrac{\text{Net Income after Tax + Depreciation Expense}}{\text{Total Liabilities}}$

$$\text{Interest rate coverage ratio} = \frac{\text{Net Income Before Tax + Depreciation Expense + Interest expense}}{\text{Interest Expense}}$$

$$\text{Acid-test ratio} = \frac{\text{Cash and Cash Equivalents + Short-term Investments + Installment Contracts Receivable, current + Contract Assets, Current Notes Receivable, current + Other Receivables, current}}{\text{Total Current Liabilities}}$$

$$\text{Net profit margin} = \frac{\text{Net income after tax}}{\text{Total Revenue}}$$

$$\text{Return on equity ratio} = \frac{\text{Net Income after Tax}}{\text{Stockholder's Equity}}$$

$$\text{Return on asset ratio} = \frac{\text{Net income after tax}}{\text{Total Assets}}$$

$$\text{Basic/Diluted earnings per share} = \frac{\text{Net income after Tax}}{\text{Outstanding number of shares}}$$
