2. Summary of Material Accounting Policy Information

Basis of Preparation and Statement of Compliance
The consolidated financial statements have been prepared in compliance with Philippine Financial Reporting Standards (PFRS) Accounting Standards. PFRS Accounting Standards are based on International Financial Reporting Standards (IFRS) Accounting Standards issued by the International Accounting Standards Board (IASB). PFRS Accounting Standards, which are issued by the Philippine Financial and Sustainability Reporting Standards Council (FSRSC), consist of PFRS Accounting Standards, Philippine Accounting Standards (PASs) and Philippine Interpretations.

Basis of Measurement
The consolidated financial statements are presented in Philippine Peso (Peso), the Group's functional currency.

The consolidated financial statements of the Group have been prepared on a historical cost basis, except for the following which are measured using alternative basis at each reporting date:

Account	Measurement basis
Short-term investments designated at fair value through profit or loss (FVTPL)	Fair value
Investments in quoted shares	Fair value
Investments in unquoted shares designated at fair value through other comprehensive income (FVOCI)	Fair value
Net retirement benefits liability	Present value of the defined benefit obligation less fair value of plan assets

Basis of Consolidation

The consolidated financial statements of the Group comprise the financial statements of the Parent Company and its subsidiaries.

Subsidiaries. Subsidiaries are entities in which the Group has control. The Group controls a subsidiary if it is exposed or has rights to variable returns from its involvement with the subsidiary and has the ability to affect those returns through its power over the subsidiary. Control is generally accompanied by a shareholding of more than one-half of the voting rights. The existence and effect of potential voting rights that are substantive are considered when assessing whether the Group controls an entity. The Group reassesses whether or not it controls an entity if facts and circumstances indicate that there are changes to one or more of the three elements of control.

The financial statements of the subsidiaries are included in the consolidated financial statements from the date when the Group obtains control and continue to be consolidated until the date when such control ceases. The results of operations of the subsidiaries acquired or disposed of are included in the consolidated statements of comprehensive income from the date of acquisition or up to the date of disposal, as appropriate.

The financial statements of the subsidiaries are prepared using the same reporting period of the Parent Company. Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. Intercompany balances and transactions, including intercompany profits and unrealized profits and losses, are eliminated in full.

A change in the ownership interest of a subsidiary, without a change in control, is accounted for as an equity transaction. Upon the loss of control, the Group derecognizes the assets (including goodwill) and liabilities of the subsidiary, any non-controlling interests and the other components of equity related to the subsidiary. Gain or loss arising from the loss of control is recognized in profit or loss. If the Group retains an interest in the previous subsidiary, then such interest is measured at fair value at the date control is lost. Subsequently, it is accounted for as an equity-accounted investee or as financial assets at FVOCI depending on the level of interest retained.

Non-controlling Interests. Non-controlling interests represent the portion of profit or loss and net assets not held by the Group, presented within equity in the consolidated statements of financial position, separately from equity attributable to equity holders of the Parent Company. Non-controlling interests represent the interests of minority shareholders of CCPC, PLHI, HSAPI and FMCMI.

3. Commitments and Contingencies

There are commitments, guarantees, litigations and contingent liabilities that arise in the normal course of the Group's operations which are not reflected in the accompanying financial statements.

4. Other Information

Business Segments

For management purposes, the Group is organized into three (3) major business segments namely real estate, healthcare services and investment holdings. These are also the basis of the Group in reporting its primary segment information.

a. The real estate segment involves acquisition of land, planning and developing residential communities such as development and sale of condominium units and parking slots, residential lots and housing units.

b. Healthcare services involve delivering out-patient health care service through ambulatory care centers. These include the sale of medical goods and services.

c. Investment holdings create project investments and later dispose these investments after creating value.

The following tables present revenue and profit information regarding business segments of the Group for the period ended September 30, 2025 and 2024 and certain assets and liability information regarding industry segments as at September 30, 2025 and 2024 (in thousands):
