PART I – FINANCIAL INFORMATION

Item 1. Financial Statements

The Unaudited Interim Consolidated Financial Statements, as well as Notes to the Unaudited Interim Consolidated Financial Statements of Uniholdings Inc. (UNHPSEI: **UNH or the "Company"**) and its subsidiaries namely, CAWC Inc., Chemical Manufacturing Corp., Kemwater Phil. Corp, and Tierra Arianna Eco Land Incorporated (the "Subsidiaries") for the quarter ended September 30, 2025 are incorporated herein by reference. UNH and its Subsidiaries shall be collectively referred to as the "Group".

Item 2. Management's Discussion and Analysis of the Financial Condition and Results of Operation for the quarter ended September 30, 2025

Management's Discussion and Analysis

A. Financial Condition

As a consequence of the approval of the Securities and Exchange Commission (the "SEC") of the Company's Merger, Increase in Capital Stock and Amended Articles of Incorporation, the authorized capital stock ("ACS") was increased from 19,000,000 common shares with par value of ₱10 per share to 200,000,000 common shares with the same par value of ₱10 per share. The increase in ACS was in view of the merger of UNH, as the surviving entity, with Addventure Properties Inc. (API), Buklod Realty Corporation, Citiworld Properties Development Corp. (CPDC), Exquadra Inc., Quantumlink Realty Corporation (QRC) and Rivertanks Inc,(RTI) (the "Absorbed Corporations"). Considering that the Certificate of Filing of the Articles and Plan of Merger was dated December 27, 2024, the Effective Date of the Merger is January 1, 2025 based on Article V of the Articles of Merger which states that "the Effective Date of the Merger shall be, for all intents and purposes, the first calendar day of the month immediately following the date when the Certificate of Merger shall have been issued by the Securities and Exchange Commission (the Effective Date of Merger)".

Upon effectivity of the merger, the assets and liabilities of the Absorbed Corporations were transferred and absorbed by UNH. Consequently, the material changes in the balances presented for 3Q2025 versus the prior periods reflect the impact of the merger.

Therefore, UNH presents this quarterly report as a merged entity. In general, all material changes in the financial condition of the Company resulted from the consolidation of the assets and liabilities of the Absorbed Corporations into UNH.

The Company's consolidated assets as of September 30, 2025 and June 30, 2025 stood at ₱ 16.593 billion and ₱ 15.179 billion respectively (March 31, 2025 at ₱ 15.093 billion). Consolidated current assets amounted to ₱ 413.404 million as of September 30, 2025, 12.12% lower than ₱ 470.412 million as of June 30, 2025 (March 31, 2025 at ₱ 479.484). Noncurrent assets amounted to ₱ 16.179 billion as of September 30, 2025, 10% higher than ₱ 14.709 billion as of June 30, 2025 (₱ 14.614 billion as of March 31, 2025).

Consolidated total liabilities amounted to ₱ 8.474 billion and ₱ 8.502 billion as of September 30, 2025 and June 30, 2025 respectively (March 31, 2025 ₱ 8.452 billion). Consolidated current liabilities amounted to ₱ 4.159 billion, 0.41% lower than ₱ 4.176 billion as of June 30, 2025. (March 31, 20245 ₱ 4.144 billion). Noncurrent liabilities amounted to ₱ 4.315 billion as of September 30, 2025, 0.28% lower than ₱ 4.327 billion as of June 30, 2025 (March 31, 2025 ₱ 4.307 billion).

Stockholders' equity, including non-controlling interests, stood at ₱ 8.119 billion as of September 30, 2025 and ₱ 6.677 billion as of June 30, 2025 respectively (March 31, 2025 ₱ 6.642 billion).

(in ₱ millions or billions)	Sep 2025	% Inc (Dec) Sep 2025 vs Jun 2025	Jun 2025	% Inc (Dec) Jun 2025 vs Mar 2025	Mar 2025	% Inc (Dec) Dec 2024 vs Mar 2025	Dec 2024
Cash in banks	36.453M	-11.13%	41.019M	18.82%	34.522M	38%	25.004M
Receivables - net	56.534M	-42.19%	97.800M	-11.12%	110.035M	921%	10.773M
Other current assets	261.435M	-4.10%	272.612M	-1.21%	275.946M	114%	128.866M
Property and equipment, at cost	15.523M	0.00%	15.523M	-0.06%	15.533 M	N/A	-
Investment properties	15.850B	10.21%	14.381B	0.67%	14.286 B	292%	3.644B
Other noncurrent assets	329.226M	0.56%	327.387M	-	327.397M	690%	41.459M
Accounts payable and accrued expenses	2.1878B	6.80%	2.048B	-0.11%	2.050 B	794%	229.243M

The following summarizes the material changes in financial condition between June 30, 2025 and September 2025:

a. Cash in bank

(i) For Q3 2025: The decrease in cash during the period was primarily due to the settlement of outstanding obligations. This was partially offset by collections from tenants and proceeds from loans.

b. Receivables
(i) For Q3 2025: The decrease resulted from collection of outstanding tenant balances.

c. Accounts payable and accrued expenses
(i) For Q3 2025: The increase in payables during the period is primarily from the month-end recognition of loan amortizations as liabilities, which were subsequently paid in the succeeding month.

d. Investment properties

(i) For Q3 2025: The increase is largely due to recognition of donated land received during the period.

The following are the key performance indicators used by the Company to determine its liquidity and solvency:

	Sep 2025	% Inc (Dec) vs June 2025	Jun 2025	% Inc (Dec) vs March 2025	Mar 2025	%Inc (Dec) vs March 2025	Dec 2024
Current ratio	0.10:1	(12%)	0.11:1	(3%)	0.12:1	(30%)	0.17:1
Debt-to-equity ratio	1.04:1	(18.04)	1.27:1	0.07%	1.27:1	(36%)	1.97:1

Formulae:

Current Ratio = Current Assets / Current Liabilities

Debt to Equity Ratio = Total Liabilities / Stockholders' Equity

There were minimal movements from June 2025 to September 2025.

The increase in the current ratio from December 2024 to September 2025 was mainly driven by the acquisition of assets and liabilities of the absorbed companies in the merger. The amount of increase in current liabilities (i.e. ₱ 2.669B) is higher than the amount of increase in current assets (i.e. ₱ 167.483M).

Subsidiaries of UNH are affected neither by seasonality nor cyclicality of interim operations.

There were no issuances, repurchases, and repayments of equity securities during the interim period.

No dividends were declared during the interim period.

There have been no changes in the contingent liabilities or contingent assets since the last annual balance sheet.

There were no material off-balance sheet transactions, arrangements, obligations (including contingent obligations), and other relationships of UNH with unconsolidated entities or other persons created during the period.

There are no events that will trigger direct or contingent financial obligations that are material to UNH, including any default or acceleration of an obligation.

UNH is not aware of any trends, demands, commitments, events or uncertainties that would have a material impact on its liquidity.

B. Results of Operation

Consolidated revenue earned for the third quarter of 2025 amounted to ₱ 154.268 million, a 1.85% decrease compared to the second quarter 2025. The declines was due to the non-renewal of a lease contract of by one tenant. For the first to third quarters of 2024, total revenue was ₱0 as no sales transactions completed during the period.

Consolidated revenue earned for the second quarter of 2025 amounted to ₱ 157.175 million, 9% higher compared to the first quarter 2025, driven by new tenants.

Consolidated revenue earned for the first quarter of 2025 amounted to ₱ 143.875 million primarily due to the merger.

Consolidated operating expenses for the third quarter of 2025 were ₱31.176 million, 1% lower than the ₱ 31.604 million recorded in the third quarter of 2024.

Consolidated operating expenses for the second quarter of 2025 were ₱31.106 million, 307% higher than the ₱ 7.634 million in the second quarter of 2024. The increase was mainly attributable to the merger and higher documentary stamp taxes, professional fees, salaries & wages, surcharges & penalties and security guard salaries, among other accounts.

Consolidated operating expenses for the first quarter of 2025 were ₱12.854 million, 219% higher than the ₱ 4.034 million in the first quarter of 2024.

The Group posted a consolidated net income of ₱ 1.442B million in the third quarter of 2025, this was due to the recognition of donation income, compared to the ₱ 42.405 million net loss in the same period in 2024.

Net income for the second quarter of 2025 was ₱ 35.223 million, compared to the ₱ 13.576 million net loss in the same period in 2024.

Net income for the first quarter of 2025 was ₱ 50.255 million, compared to the ₱ 9.82 million net loss in the same period in 2024.

The following accounts for the quarter ending September 30, 2025 had material variances versus the same period in 2024.

(in ₱ millions)	Jul - Sep 2025	% Inc (Dec)	Jul – Sep 2024
Revenue	154.268	N/A	-
Cost of Sales	26.172	N/A	-
Other expenses - net	59.937	450%	10.901

The following accounts for the quarter ending June 30, 2025 had material variances vs. the same period in 2024.

(in ₱ millions)	Apr – Jun 2025	% Inc (Dec)	Apr – Jun 2024
Revenue	157.175	N/A	-
Cost of Sales	27.993	N/A	-
Operating expenses	31.106	307%	7.634
Other expenses - net	62.879	846%	6.650

The following accounts for the quarter ending March 31, 2025 had material variances vs. the same period in 2024.

(in ₱ millions)	Jan – Mar 2025	% Inc (Dec)	Jan – Mar 2024
Revenue	143.875	N/A	-
Cost of Sales	18.619	N/A	-
Operating expenses	12.854	219%	4.034
Interest income - net	0.234	1880%	0.012
Other expenses - net	62.381	1018%	5.58

Below are the key performance indicators (KPIs) used by the Group to determine its profitability:

Key Performance Indicators	Jul – Sep 2025	Jul – Sep 2024	Apr – Jun 2025	Apr – Jun 2024	Jan – Mar 2025	Jan – Mar 2024
Gross profit Margin	83%	0%	82%	0%	87%	0%
Rate of return on revenues	935%	-	22%	0%	35%	0%
Net income (loss) to stockholders' equity	17.76%	(2.66)	0.53%*	(0.08%)	0.76%	(1.25%)

**No provision for income tax computed yet since Q3 ITR will be due on November 29, 2025.*

Formulae:

Gross profit margin = Gross Profit ÷ Revenue

Rate of return on sales = Net Income after Tax ÷ Revenue

Net income (loss) to stockholders' equity = Net Income after Tax ÷ Shareholders' Equity

The KPIs illustrate the impact of the merger as benchmarked against the first quarter of 2024, which didn't have sales transactions.

A. Subsidiaries' Results of Operations

1. CMC

In the third quarter of 2025, CMC reported a net income of ₱ 1.225 billion as compared to ₱ 0.083 million net loss in the same quarter of 2024. In the second quarter of 2025, CMC incurred a net loss of ₱ 0.062 million as compared with the ₱ 0.273 million net loss in the second quarter of 2024.

There was no rental income for the first three (3) quarters of both 2025 and 2024. The increase in net income was due to the donations received during the third quarter.

Below are the comparative performance indicators used by CMC to assess its profitability and liquidity.

Key Performance Indicators	Jul – Sep 2025	Jul – Sep 2024	Apr – Jun 2025	Apr – Jun 2024	Jan – Mar 2025	Jan – Mar 2024
Gross profit margin	0%	0%	0%	0%	0%	0%

Key Financial Performance Indicators

The following are indicators used by the Group to determine its financial soundness:

Key Performance Indicators	September 30, 2025	Jun 30, 2025	Mar 31, 2025	Dec 31, 2024
Asset to Equity ratio	2.04	2.27	2.27	2.97
Times Interest Rate Coverage ratio	(1.62)	(1.67)	1.79	0.73
Book Value per share	114.73	94.35	88.90	128.35

Formulae:

Asset to Equity ratio = Total Assets ÷ Total Stockholders' Equity
Times Interest Rate Coverage ratio = Earnings before Interest & Taxes ÷ Total Interest Expense
Book Value per share = Total Stockholders' Equity ÷ Number of outstanding shares i.e. 70,765,401 shares and 10,296,601 shares as of September 30, 2025 and December 31, 2024, respectively

Other financial indicators to determine the Group's liquidity, solvency, and profitability are considered by the Group as key performance indicators and are already included in the above discussion of the results of the operations and financial position.

1. Basis of Preparation, Statement of Compliance and Material Accounting Policy Information

Basis of Preparation

The consolidated financial statements have been prepared on a historical cost basis, except for financial assets held through OCI which have been measured at fair value and parcels of land, classified as investment property, which are carried at revalued amount as the deemed cost. The consolidated financial statements are presented in Philippine Peso (₱), which is the Group's functional and presentation currency. Amounts are rounded to the nearest peso unless otherwise stated.

Statement of Compliance

The consolidated financial statements of the Group have been prepared in accordance with Philippine Financial Reporting Standards (PFRS).

Changes in Accounting Policies and Disclosures

The accounting policies adopted are consistent with those of the previous financial year, except for the adoption of new pronouncements effective in 2024. Unless otherwise indicated, adoption of these new standards did not have an impact on the consolidated financial statements.

- Amendments to PAS 1, *Classification of Liabilities as Current or Non-current* – The amendments clarify that:

  - Only covenants with which an entity must comply on or before reporting date will affect a liability's classification as current or non-current.
  - Classification is unaffected by the likelihood that an entity will exercise its deferral right.
  - Only if an embedded derivative in a convertible liability is itself an equity instrument would the terms of a liability not impact its classification.

- Amendments to PFRS 16, *Lease Liability in a Sale and Leaseback* – The amendments specify how a seller-lessee measures the lease liability arising in a sale and leaseback transaction in a way that it does not recognize any amount of the gain or loss that relates to the right of use retained.

- Amendments to PAS 7 and PFRS 7, *Disclosures: Supplier Finance Arrangements* – The amendments specify disclosure requirements to enhance the current requirements, which are intended to assist users of financial statements in understanding the effects of supplier finance arrangements on an entity's liabilities, cash flows and exposure to liquidity risk.

Standards Issued but not yet Effective

Pronouncements issued but not yet effective are listed below. Unless otherwise indicated, the Group does not expect that the future adoption of the said pronouncements will have a significant impact on its financial statements. The Group intends to adopt the following pronouncements when they become effective.

Effective beginning on or after January 1, 2025

- Amendments to PAS 21, *Lack of exchangeability*

Effective beginning on or after January 1, 2026

- Amendments to PFRS 9 and PFRS 7, *Classification and Measurement of Financial Instruments*

- Annual Improvements to PFRS Accounting Standards—Volume 11

  Amendments to PFRS 1, *Hedge Accounting by a First-time Adopter*
  Amendments to PFRS 7, *Gain or Loss on Derecognition*
  Amendments to PFRS 9, *Lessee Derecognition of Lease Liabilities* and *Transaction Price*
  Amendments to PFRS 10, *Determination of a 'De Facto Agent'*
  Amendments to PAS 7, *Cost Method*

Effective beginning on or after January 1, 2027
- PFRS 17, *Insurance Contracts*

- PFRS 18, *Presentation and Disclosure in Financial Statements*

- PFRS 19, *Subsidiaries without Public Accountability*

Deferred effectivity
- Amendments to PFRS 10, *Consolidated Financial Statements*, and PAS 28, *Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*

Basis of Consolidation
The consolidated financial statements include the accounts of the Parent Company and its subsidiaries at the end of the reporting period (i.e., March 31, June 30 and September 30) for quarterly reporting and December 31 of each year. The financial statements of the subsidiaries are prepared for the same reporting year as those of the Parent Company using uniform accounting policies. These subsidiaries and the effective percentages of ownership of the Parent Company follow:

Name of Subsidiary	Place of Incorporation	Percentage of ownership
CAWC	Philippines	99.67%
CMC	Philippines	73.97%
KPC	Philippines	73.97%
Tierra	Philippines	100.00%

Subsidiaries are entities over which the Parent Company has control. Control is achieved when the Parent Company is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect that return through its power over the investee. Specifically, the Parent Company controls an investee if and only if the Parent Company has:

- Power over the investee (i.e., existing rights that give it the current ability to direct the relevant activities of the investee);
- Exposure, or rights, to variable returns from its involvement with the investee; and
- The ability to use its power over the investee to affect its returns.

When the Parent Company has less than a majority of the voting or similar rights of an investee, the Parent Company considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee;
- Rights arising from other contractual arrangements; and
- The Parent Company's voting rights and potential voting rights.

The Parent Company reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Parent Company obtains control over the subsidiary and ceases when the Parent Company loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included or excluded in the consolidated financial statements from the date the Parent Company gains control or until the date the Parent Company ceases to control the subsidiary.

Noncontrolling interest represents a portion of profit or loss and net assets of subsidiaries not held by the Parent Company, directly or indirectly, and are presented separately in the consolidated statement of comprehensive income and within the equity section of the consolidated statement of financial position and consolidated statement of changes in equity, separately from the equity attributable to the equity holdings of the Parent Company. However, the Group must recognize in the consolidated statement of financial position a financial liability (rather than equity) when it has an obligation to pay cash in the future (e.g., acquisition of noncontrolling interest is required in the contract or regulation) to purchase the noncontrolling's shares, even if the payment of that cash is conditional on the option being exercised by the holder. The Group will reclassify the liability to equity if a put option expires unexercised.

Noncontrolling interest shares in losses, even if the losses exceed the noncontrolling equity interest in the subsidiary. Changes in controlling ownership interest, i.e., acquisition of noncontrolling interest or partial disposal of interest over a subsidiary that does not result in a loss of control, are accounted for as equity transactions.

Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. All intra-group balances, transactions, income and expenses and profits and losses resulting from intra-group transactions that are recognized in assets, liabilities and equities, are eliminated in full on consolidation.

A change in ownership interest in a subsidiary without a loss of control is accounted for as an equity transaction. If the Parent Company loses control over a subsidiary, it:

- Derecognizes the assets (including goodwill) and liabilities of the subsidiary;
- Derecognizes the carrying amount of any noncontrolling interest;
- Derecognizes the related other comprehensive income like cumulative translation differences, recorded in equity;
- Recognizes the fair value of the consideration received;
- Recognizes the fair value of any investment retained;
- Recognizes any surplus or deficit in profit or loss; and
- Reclassifies the parent's share of components previously recognized in other comprehensive income to profit or loss or retained earnings, as appropriate, as would be required if the Parent Company had directly disposed of the related assets or liabilities.

Property Acquisitions and Business Combinations

Where property is acquired, via corporate acquisitions or otherwise, management considers the substance of the assets and activities of the acquired entity in determining whether the acquisition represents the acquisition of a business or an acquisition of asset or group of assets. The basis of the judgement is set out in Note 2.

Where such acquisitions are not determined to be an acquisition of a business, they are not treated as business combinations. Rather, the cost to acquire the corporate entity or assets and liabilities is allocated between the identifiable assets and liabilities of the entity based on their relative values at the acquisition date.

Fair Value Measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability; or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible to the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities;
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable; and
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognized in the consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by reassessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

<u>Current versus Non-current Classification</u>
The Group presents assets and liabilities in the consolidated statement of financial position based on current/non-current classification. An asset as current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realized within twelve months after the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in the normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Financial Instruments
A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial Assets

Initial Recognition and Measurement. Financial assets are classified, at initial recognition, as subsequently measured at amortized cost, FVOCI, and FVTPL.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient, the Group initially measures a financial asset at its fair value plus, in the case of a financial asset not at FVTPL, transaction costs.

Trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient are measured at the transaction price determined under PFRS 15, *Revenue from Contracts with Customers*.

In order for a financial asset to be classified and measured at amortized cost or FVOCI, it needs to give rise to cash flows that are "solely payments of principal and interest (SPPI)" on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level. Financial assets with cashflows that are not SPPI are classified and measured at FVTPL, irrespective of the business model.

The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. Financial assets classified and measured at amortized cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows while financial assets classified and measured at FVOCI are held within a business model with the objective of both holding to collect contractual cash flows and selling.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the marketplace (regular way trades) are recognized on the trade date, i.e., the date that the Group commits to purchase or sell the asset.

Subsequent Measurement. For purposes of subsequent measurement, financial assets are classified in four categories:

- Financial assets at amortized cost (debt instruments)
- Financial assets at FVOCI with recycling of cumulative gains and losses (debt instruments)
- Financial assets designated at FVOCI with no recycling of cumulative gains and losses upon derecognition (equity instruments)
- Financial assets at FVTPL

Financial assets at amortized cost (debt instruments)
Financial assets at amortized cost are subsequently measured using the effective interest (EIR) method and are subject to impairment. Gains and losses are recognized in consolidated profit or loss when the asset is derecognized, modified or impaired.

The Group's financial assets at amortized cost include cash in banks, receivables, due from related parties and other long-term receivables included under other noncurrent assets.

Financial assets designated at fair value through OCI (equity instruments)
Upon initial recognition, the Group can elect to classify irrevocably its equity investments as equity instruments designated at fair value through OCI when they meet the definition of equity under PAS 32, *Financial Instruments: Presentation* and are not held for trading. The classification is

determined on an instrument-by-instrument basis.

Gains and losses on these financial assets are never recycled to consolidated profit or loss. Dividends are recognized as "Other income" in consolidated profit or loss when the right of payment has been established, except when the Group benefits from such proceeds as recovery of part of the cost of the financial asset, in which case, such gains are recorded in OCI. Equity instruments designated at fair value through OCI are not subject to impairment assessment.

The Group has designated its investments in golf and club shares and its unquoted shares under this category.

Impairment of financial assets
The Group recognizes an allowance for expected credit losses (ECLs) for all debt instruments not held at FVTPL. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original EIR.

ECLs are measured in a way that reflects the following:

- An unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- The time value of money; and
- Reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

Financial assets migrate through the following three stages based on the change in credit quality since initial recognition:

Stage 1: 12-month ECL
For credit exposures where there have not been significant increases in credit risk since initial recognition and that are not credit-impaired upon origination, the portion of lifetime ECLs that represent the ECLs that result from default events that are possible within the 12-months after the reporting date are recognized.

Stage 2: Lifetime ECL - not credit-impaired
For credit exposures where there have been significant increases in credit risk since initial recognition on an individual or collective basis but are not credit-impaired, lifetime ECLs representing the ECLs that result from all possible default events over the expected life of the financial asset are recognized.

Stage 3: Lifetime ECL - credit-impaired
Financial assets are credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of those financial assets have occurred. For these credit exposures, lifetime ECLs are recognized, and interest revenue is calculated by applying the credit-adjusted effective interest rate to the amortized cost of the financial asset.

Determining the stage for impairment
At each reporting date, the Group assesses whether there has been a significant increase in credit risk for financial assets since initial recognition by comparing the risk of default occurring over the expected life between the reporting date and the date of initial recognition. The Group considers reasonable and supportable information that is relevant and available without undue cost or effort for this purpose. This includes quantitative and qualitative information and forward-looking analysis. This includes quantitative and qualitative information and forward-looking analysis. The Group considers that there has been a significant increase in credit risk when contractual payments are more than 90 days past due.

An exposure will migrate through the ECL stages as asset quality deteriorates. If, in a subsequent period, asset quality improves and also reverses any previously assessed significant increase in credit risk since origination, then the loss allowance measurement reverts from lifetime ECL to 12-months ECL.

The cash in banks have high grade credit rating since these are deposited with reputable banks. It is the Group's policy to measure ECLs on such instruments on a 12-month basis. However, when there has been a significant increase in credit risk since origination, the allowance will be based on the lifetime ECL. The Group uses the ratings from the credit rating agency both to determine whether the debt instrument has significantly increased in credit risk and to estimate ECLs.

For receivables, the Group applies a simplified approach in calculating ECLs. Therefore, the Group does not track changes in credit risk but instead recognizes a loss allowance based on lifetime ECLs at each reporting date. In addition, the Group considers that there has been a significant increase in credit risk when contractual payments are more than 90 days past due.

The Group considers a financial asset in default when contractual payments are 180 days past due. However, in certain cases, the Group may also consider a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

The Group has determined that financial assets that are more than 180 days past due are considered in default because based on management's assessments, counterparties are not likely to settle their financial obligations to the Group by this period despite expending reasonable efforts to enforce collection.

Write-off policy
The Group writes off a financial asset, in whole or in part, when the asset is considered uncollectible, it has exhausted all practical recovery efforts and has concluded that it has no reasonable expectations of recovering the financial asset in its entirety or a portion thereof.

The Group writes off an account when all of the following conditions are met:

- the asset is in past due for over 180 days, or is already an item-in-litigation with any of the following:

    a. no properties of the borrower could be attached
    b. the whereabouts of the client cannot be located
    c. it would be more expensive for the Group to follow up and collect the amount, hence the Group has ceased enforcement activity, and
    d. collections can no longer be made due to insolvency of bankruptcy of the borrower

- restructuring is no longer possible filing of legal case is not possible

<u>Financial liabilities</u>
Initial Recognition and Measurement. Financial liabilities are classified, at initial recognition, as financial liabilities at FVTPL, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

Subsequent Measurement. For purposes of subsequent measurement, financial liabilities are classified into two categories:

- Financial liabilities at FVTPL

- Financial liabilities at amortized cost (loans and borrowings)

The Group's financial liabilities pertain to those measured at amortized cost and include accounts payable and accrued expenses (excluding statutory obligations), dividends payable, due to related parties and loans payable.

Financial liabilities at amortized cost (loans and borrowings)
This is the category most relevant to the group. After initial measurement, other financial liabilities are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in profit or loss when other financial liabilities are derecognized, as well as through the EIR amortization process.

Amortized cost is calculated by taking into account any discount or premium on the acquisition and fees or costs that are an integral part of the EIR.

Derecognition of financial instruments

Financial asset
A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognized (i.e., removed from the consolidated statement of financial position) when:

- The rights to receive cash flows from the asset have expired; or
- The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group retains the contractual rights to receive the cash flows of a financial asset but assumes a contractual obligation to pay those cash flows to one or more entities, the Group treats the transaction as a transfer of a financial asset if the Group:

- has no obligation to pay amounts to the eventual recipients unless it collects equivalent amounts from the original asset;
- is prohibited by the terms of the transfer contract from selling or pledging the original asset other than as security to the eventual recipients for the obligation to pay them cash flows; and
- has an obligation to remit any cash flows it collects on behalf of the eventual recipients without material delay.

When the Group has transferred its rights to receive cash flows from an asset or as entered into a pass-through arrangement and has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the asset is recognized to the extent of the Group's continuing involvement in the asset. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Modification of contractual cash flows
When the contractual cash flows of a financial asset are renegotiated or otherwise modified and the renegotiation or modification does not result in the derecognition of that financial asset, the Group recalculates the gross carrying amount of the financial asset as the present value of the renegotiated or modified contractual cash flows discounted at the original EIR (or credit-adjusted EIR for purchased or originated credit-impaired financial assets) and recognizes a modification gain or loss in consolidated profit or loss.

When the modification of a financial asset results in the derecognition of the existing financial asset and the subsequent recognition of the modified financial asset, the modified asset is considered a 'new' financial asset. Accordingly, the date of the modification shall be treated as the date of initial recognition of that financial asset when applying the impairment requirements to the modified financial asset.

Financial liability
A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the consolidated profit or loss.

Investment Properties

Investment properties pertain to parcels of land held either for lease or for capital appreciation.

The Group's investment properties include parcels of land, that were previously classified as under property and equipment and reclassified as investment property in 2020 due to change in the Group's plan of such property, and accumulated construction costs of properties intended for lease. The land previously classified as under property and equipment were carried at the last revalued amount, which is considered as its deemed cost. Subsequent to reclassification, investment properties are stated at deemed cost less any impairment in value.

The appraisal increment from previous years' revaluations, net of deferred income tax, is shown as "Revaluation increment in land" account under the equity section of the consolidated statement of financial position. The "Revaluation increment in land" will be realized through sale and will be directly transferred to retained earnings. In case future appraisal results in fair value lower than the deemed cost, the reduction is first charged against the accumulated revaluation increment in equity and any excess will be charged to profit or loss.

Investment properties are derecognized when they have been either disposed of or when they are permanently withdrawn from use, and no future economic benefit is expected from their disposal. Upon the disposal of the revalued land, the related revaluation increment realized will be released from the revaluation increment directly to consolidated retained earnings.

Any gains or losses on the retirement or disposal of an investment property are recognized in consolidated profit or loss in the year of retirement or disposal.

Transfers are made to investment property when, and only when, there is a change in use, evidenced by the ending of owner-occupation, commencement of an operating lease to another party or the ending of construction or development. Transfers are made from investment property when, and only when, there is a change in use, evidenced by commencement of owner-occupation or commencement of development with a view to sell. If owner-occupied property becomes an investment property, the Group accounts for such property in accordance with the policy stated under property and equipment up to the date of change in use.

Noncurrent Assets Held for Sale
The Group classifies non-current assets as held for sale if their carrying amounts are recovered principally through a sale transaction rather than through continuing use. Non-current assets classified as held for sale are measured at the lower of their carrying amount and fair value less costs to sell. Costs to sell are the incremental costs directly attributable to the disposal of an asset, excluding finance costs and income tax expense.

The criteria for held for sale classification are regarded as met only when the sale is highly probable and the asset or disposal group is available for immediate sale in its present condition. Actions required to complete the sale should indicate that it is unlikely that significant changes to the sale will be made or that the decision to sale will be withdrawn. Management must be committed to the plan to sell the asset and the sale expected to be completed within one year from the date of the classification.

Property, plant and equipment and investment properties are not depreciated or amortized once classified as held for sale.

Impairment of Nonfinancial Assets

The carrying values of investment properties are reviewed for impairment when events or changes in circumstances indicate that the carrying values may not be recoverable. If any such indication exists and where the carrying values exceed the estimated recoverable amounts, the assets are written down to their recoverable amounts. An asset's recoverable amount is the higher of a non-financial asset's or cash-generating unit's fair value less costs to sell and its value-in-use. In assessing value-in-use, the estimated future cash flows are discounted to their present values using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Any impairment loss is recognized in consolidated profit or loss.

An assessment is made at each reporting period as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such an indication exists, the recoverable amount is estimated. A previously recognized impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognized. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in consolidated profit or loss except for land, which is carried at revalued amount, which is the deemed cost, where such reversal is taken as revaluation increment.

Capital Stock

Capital stock is measured at par value for all shares issued.

When the shares are sold at a premium, the difference between the proceeds and the par value is credited to the "Additional paid-in capital" account. When shares are issued for a consideration other than cash, the proceeds are measured by the fair value of the consideration received.

Treasury Stock

The Parent Company's common shares which are reacquired and recorded at cost (treasury shares) are deducted from equity. No gain or loss is recognized in consolidated profit or loss on the purchase, sale, issue or cancellation of the Parent Company's common shares. Any difference between the carrying amount and the consideration received, if any, upon reissuance or cancellation of shares is recognized as additional paid-in-capital. Voting rights related to treasury shares are nullified for the Group and no dividends are allocated to them.

Equity Reserves

Equity reserves pertain to the effect of transactions with non-controlling interest.

Retained Earnings

Retained earnings represent the cumulative balance of net income or loss, dividend distributions, effects of changes in accounting policy and other capital adjustments.

Dividend Distributions

Dividends on common shares are recognized as a liability and deducted from equity when approved by the shareholders of the Group. Dividends for the year that are approved after the end of the reporting period are dealt with as an event after the reporting period.

Revenue Recognition

Revenue from contracts with customers is recognized when control of goods or services is transferred to the customers at an amount that reflects the consideration which the Group expects to be entitled to in exchange for those goods or services.

Rental income
Rental income under operating lease agreements is recognized on a straight-line basis over the term of the lease.

Interest income
Interest income is recognized as the interest accrues.

Other income
Other income pertains to scrap sales, reversal of provisions and liabilities and charges that are incidental to the operations of the Group.

Costs and Expenses
Costs and expenses are recognized in profit or loss when a decrease in future economic benefit related to a decrease in an asset or an increase of a liability has arisen that can be measured reliably.

Costs of sales
Cost of sales is recognized as expense when the related goods are sold.

Operating expenses
Operating expenses constitute costs of administering the business and selling or distributing the merchandise and are recognized as incurred.

Leases
Operating lease – Group as a lessor
Leases where the lessor retains substantially all the risks and benefits of ownership of the asset are classified as operating leases.

Income Taxes
Current income tax
Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that have been enacted or substantively enacted at the end of reporting period.

Deferred income tax
Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax assets are recognized for deductible temporary differences, carry forward benefits of unused tax credits from the excess of the minimum corporate income tax (MCIT) over the regular corporate income tax (RCIT) and net operating loss carryover (NOLCO), to the extent that it is probable that sufficient future taxable profit will be available against which the deductible temporary differences and carry forward benefits of unused tax credits from the excess of MCIT over RCIT and unused NOLCO can be utilized. Deferred tax is provided, using the liability method, on temporary differences at reporting period between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences, including asset revaluations. Deferred tax liabilities are recognized for all taxable temporary differences, except:

- where the deferred tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- with respect to taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, where the timing of the reversal of the temporary

differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

With respect to investment in subsidiaries and associates, deferred tax liabilities are recognized except where the timing of the reversal of the temporary difference can be controlled, and it is probable that the temporary difference will not reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at each reporting period and reduced to the extent that it is no longer probable that sufficient future taxable profit will be available to allow all or part of the deferred income tax assets to be utilized. Unrecognized deferred tax assets are reassessed at each reporting period and are recognized to the extent that it has become probable that sufficient future taxable profit will allow the deferred tax asset to be recorded.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized, or the liability is settled based on the tax rates that have been enacted or substantively enacted at the end of reporting period. Unrecognized deferred tax assets are re-measured at each reporting period and are recognized to the extent that it has become probable that sufficient future taxable profit will allow all or part of the deferred tax assets to be recovered.

Deferred tax relating to items recognized directly in the other comprehensive or equity is recognized in other comprehensive income or equity section of the consolidated statement of financial position, respectively, and not in profit or loss. Deferred tax assets and liabilities are offset, if a legally enforceable right exists to offset the deferred tax assets against the deferred tax liabilities and the deferred income taxes relate to the same taxable entity and the same taxation authority.

Provisions and Contingencies

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessment of the time value of money and, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as an interest expense.

Contingent liabilities are not recognized in the consolidated financial statements. These are disclosed unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent assets are not recognized in the consolidated financial statements but disclosed when an inflow of economic benefit is probable.

Basic and Diluted Earnings (Loss) Per Share

Earnings (loss) per share is computed by dividing net income (loss) by the weighted average number of common shares issued and outstanding after considering the retroactive effect, if any, of stock dividends declared during the year.

Diluted earnings (loss) per share is calculated by dividing the net income (loss) by the weighted average number of ordinary shares outstanding during the year and adjusted for the effects of all dilutive potential common shares, if any.

Segment Reporting

The Group's operating businesses are organized and managed separately according to the nature of the products and services provided, with each segment representing a strategic business unit that offers different products and serves different markets. The Group operates in the Philippines (i.e., one geographical location).

2. Material Accounting Judgments and Estimates

The preparation of the consolidated financial statements in accordance with PFRS Accounting Standards requires management to make judgments and estimates that affect the amounts reported in the consolidated financial statements. The judgments and estimates used in the consolidated financial statements are based upon management's evaluation of relevant facts and circumstances that are believed to be reasonable as at the date of the consolidated financial statements. While the Group believes that the assumptions are reasonable and appropriate, differences in the actual experience or changes in the assumptions may materially affect the estimated amounts. Actual results could differ from such estimates.

Judgments

In the process of applying the Group's accounting policies, management has made the following judgment, apart from those involving estimations, which have the most significant effect on the amounts recognized in the consolidated financial statements.

Going Concern Assessment

The use of the going concern assumption involves management making judgments, at a particular point in time, about the future outcome of events or conditions that are inherently uncertain. The Group expects to complete the construction of the warehouses, which will be leased to third parties. The Group will use the available credit facilities, which have been historically renewed, to finance its current and future capital expenditures. Further, a stockholder of the Parent Company is committed to providing financial support to the Group to enable it to continue operating in the normal course for the next twelve (12) months and has the financial resources to fulfill this commitment. Accordingly, the financial statements are prepared on a going concern basis.

Acquisition of Tierra Ariana Eco Land, Inc.

The Group acquired Tierra that owns a parcel of land. At the time of acquisition, the Group considers whether the acquisition represents the acquisition of a business or the acquisition of an asset. The Group accounts for an acquisition as a business combination where an integrated set of activities and assets, including property, is acquired. More specifically, consideration is given to the extent to which substantive processes are acquired and, in particular, the extent of services provided by the subsidiary (e.g., maintenance, cleaning, security, bookkeeping, hotel services, etc.).

When the acquisition of subsidiaries does not represent a business combination, it is accounted for as an acquisition of a group of assets and liabilities. The cost of the acquisition is allocated to the assets and liabilities acquired based upon their relative fair values, and no goodwill or deferred tax is recognized.

The Group assessed the acquisition of Tierra in 2023 as an acquisition of an asset since Tierra has no commercial operations and existing strategic management function and associated processes that could be acquired.

Estimates

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are as follows.

Estimation of allowance for expected credit loss

The Group evaluates specific balances where management has information that certain amounts may not be collectible. In these cases, the Group uses judgment, based on available facts and circumstances, and based on a review of the factors that affect the collectability of the accounts including, but not limited to, the age and status of the receivables, collection experience and past loss experience. The review is made by management on a continuing basis to identify accounts to be provided with allowance. These specific reserves are reevaluated and adjusted as additional information received affects the amount estimated.

The cash in banks is maintained in reputable financial institution/placed with entities graded by the external credit rating agency. Receivables are monitored on an ongoing basis through the Group's management reporting procedures. Related parties are assessed for their capacity to pay based on sufficiently highly liquid assets and the age of receivables. Refundable deposits are deposited mostly with reputable companies and have a high-grade credit rating. It is the Group's policy to measure ECLs on such instruments on a 12-month basis. However, when there has been a significant increase in credit risk since origination, the allowance will be based on the lifetime ECL. The Group uses the ratings from the credit rating agency both to determine whether the debt instrument has significantly increased in credit risk and to estimate ECLs.

Recognition of deferred income tax assets
The Group's assessment on the recognition of deferred income tax assets on deductible temporary differences is based on the forecasted taxable income of the succeeding years. This forecast is based on the Group's past results and future expectations on revenues and expenses.

Estimation of provisions and contingencies
The Group, in its normal course of business, is involved in various legal cases and claims. Based on the management's assessment, the Group will be able to defend its position on some of these cases and the ultimate outcome will not have a significant impact on the group financial statements. Accordingly, no provision has been recognized for certain contingencies. On the other hand, the Group has estimated provision for certain cases. The estimate of the probable costs for the resolution of the claims has been developed by management and is based upon an analysis of potential results.

3. Cash

	September 30, 2025	June 30, 2025	March 31, 2025	December 31, 2024
Cash on hand	**₱124,791**	₱124,791	₱124,791	₱124,791
Cash in banks	**36,328,852**	40,894,680	34,396,989	24,879,484
	₱36,453,643	₱41,019,471	₱34,521,780	₱25,004,275

Cash in banks earn interest at the respective bank deposit rates.

4. Receivables

	September 2025	June 30, 2025	March 31, 2025	December 31, 2024
Trade Receivables	**₱ 56,398,521**	₱ 92,582,173	₱104,865,734	₱5,858,068
Advances to employees	**986,644**	938,228	889,894	733,250
Receivable from escrow	**7,542,292**	7,542,292	7,542,292	7,542,292
Others	**3,826,776**	8,956,989	8,956,988	8,858,532
	68,754,233	110,019,683	122,254,908	22,992,142
Less: Allowance for expected credit losses on:				
Trade Receivables	**5,858,068**	5,858,068	5,858,068	5,858,068
Advances to employees	**694,198**	694,198	694,198	694,198

Others	**5,667,221**	5,667,221	5,667,221	5,667,221
	12,219,487	12,219,487	12,219,487	12,219,487
	₱56,534,746	₱97,800,196	₱110,035,422	₱10,772,655

Trade receivables
Trade receivables are noninterest-bearing and have normal credit terms ranging from 30 to 60 days.

Advances to employees
These are cash advances for the Group's employees which are subject to liquidation.

Receivable from escrow
Receivable from escrow are receivables as a result of the sale of purchase agreement between the current major stockholders (as buyer) and the previous major stockholders (as seller).

Other receivables
Other receivables mostly pertain to receivables from previous customers.

5. Other Current Assets

	September 30, 2025	**June 30, 2025**	March 31, 2025	December 31, 2024
Input VAT	**₱219,591,079**	₱228,930,944	₱235,292,414	₱124,246,702

Prepaid expenses	**33,059,515**	36,177,594	32,207,285	5,937,215
Prepaid income tax	**6,834,687**	6,834,687	6,834,687	6,834,687
Deposits	**1,730,417**	1,730,417	1,730,417	1,730,417
Others	**10,262,185**	8,981,321	9,924,121	159,889
	278,242,857	289,419,937	292,753,898	145,673,884
Less: Allowance for probable losses on input VAT and prepaid taxes	**10,042,774**	10,042,774	10,042,774	10,042,774
Allowance for inventory losses	**6,764,974**	6,764,974	6,764,974	6,764,974
	16,807,748	16,807,748	16,807,748	16,807,748
	₱261,435,109	₱272,612,189	₱275,946,150	₱128,866,136

Input VAT represents VAT imposed on the Group by its suppliers and contractors for the acquisition of goods and services. Deferred input VAT represents input VAT related to the unpaid purchases of services in previous years.

Spare parts and factory supplies are the inventories left in the production plant of the Group for repairs and maintenance purposes. These are fully impaired.

Prepaid income tax represents the excess accumulated creditable withholding taxes from income tax payments, which can be carried over in the ensuing years and are carried at cost, net of any impairment loss.

**Merger impact.*

The Parent Company's investment properties include the cost of parcels of land in Bataan, accumulated construction costs of warehouses in Pasig including capitalized borrowing costs.

The fair value of investment properties of parcels of land in Pasig amounted to 5.03 billion and 5.02 billion based on the appraisal report dated January 22, 2025 and January 31, 2024, respectively, as determined by an SEC-accredited independent firm of appraisers. The valuation method used was "Market Data Approach". In this approach, the value of land was based on sales or listings of comparable properties registered within the vicinity. This approach required the establishment of comparable properties by reducing reasonable comparative sales or listings to a common denominator. This was done by adjusting the differences between the subject property and those actual sales or listings regarded as comparable.

The fair value of the construction in progress and the parcels of land in Bataan approximate their carrying values as these are recent acquisitions.

The Group's non-cash additions pertain to:

	September 30, 2025	June 30, 2025	March 31, 2025	December 31, 2024
Retention payable	₱1,036,054.18	₱3,419,226	₱	₱ (18,171,125)
Unpaid purchase cost of land		–	–	–
Reclassification from advances to suppliers		–	–	85,298,384
	₱1,036,054.18	₱3,419,226	₱	₱ 67,127,259

During the third quarter of 2025, Unioil Petroleum Philippines Inc. (UPPI) donated certain real properties to CMC. The donated properties were measured at their fair value on the date of transfer. As a result of the donation, CMC recognized a donation income expense under "Other Income" and

"Property, Plant and Equipment" at fair value. The total fair value of the donated properties amounted to ₱1,405,017,520. No cash consideration was involved in the transaction. This donation was made in line with the Group's strategic realignment initiative.

7. Other Noncurrent Assets

	September 30, 2025	June 30, 2025	March 31, 2025	December 31, 2024

	₱329,226,575	₱327,387,766	₱327,397,201	₱41,458,880

Receivable from a government agency
Receivable from a government agency pertains to amounts of creditable withholding taxes for which a refund from the Bureau of Internal Revenue (BIR) was applied by the Group.

Other long-term receivables
Other long-term receivables represent the balance of the local tax credit of the Group from the Municipality of San Pascual, Batangas. These receivables are fully impaired.

Advances to supplier and contractor
Advances to suppliers pertain to advance payments made by the Group to its contractors and suppliers for the future performance of service in connection with its construction projects.

Financial assets held through OCI
Financial assets held through OCI, which include investments in unquoted securities and quoted golf club shares carried at fair value based on current market prices, amounted to ₱2.10 as at September 30, 2025 and December 31, 2024.

There were no movements in the fair values of these financial assets.

8. Accounts Payable and Accrued Expenses

	Sept 30, 2025	Jun 30, 2025	Mar 31, 2025	Dec 31, 2024
Trade payables	**1,143,934,494**	1,163,355,950	1,186,554,932	98,095,144
Nontrade payables	**1,828,272,914**	35,895,944	35,947,914	35,645,597
Payable to escrow	**15,551,149**	15,551,149	15,551,149	15,551,149

Payable to a government agency	**357**	357	357	357
Withholding taxes payable	**15,843**	939,382	10,966,283	1,108,647
Other payables	**(4,418,387)**	7,339,482	5,876,022	3,044,158
Interest payable	**19,977,283**	19,977,283	19,977,283	–
Unearned Income	**64,008**	64,008	64,008	–
	2,187,443,402	2,048,125,117	2,050,402,893	229,242,994

Trade and nontrade payables are non-interest bearing and have normal payment terms ranging from 30 to 60 days.

Payable to escrow pertains to the fund set up by the current major stockholders (as buyer) and the previous major stockholders (as seller) of the Group as a result of the sale purchase agreement in 2020 which was used in payment of the expenses incurred by the Group.

Advances from tenants pertain to advance payments of tenants for rentals which are not yet earned.

Accrued expenses mostly pertain to expenses for outside services such as but not limited to audit, security and janitorial services that are already incurred but unpaid.

Provisions
Provisions were provided for claims by third parties. As allowed by PAS 37, *Provisions, Contingent Liabilities and Contingent Assets*, only a general description is provided as the disclosure of additional details beyond the present disclosures may prejudice the Group's position and negotiation strategies with respect to these matters.

9. Related Party Transactions

Enterprises and individuals that directly or indirectly, through one or more intermediaries, control or are controlled by or under common control with the Group, including holding companies, subsidiaries and fellow subsidiaries, are related parties of the Group. Associates and individuals owning, directly or indirectly, an interest in the voting power of the Group that gives them significant influence over the enterprise, key management personnel, including directors and officers of the Group and close members of the family of these individuals, and companies associated with these individuals also constitute related parties. In considering each possible related party relationship, attention is directed to the substance of the relationship and not merely the legal form.

The following describes the Group's transactions with its related parties:

a. Compensation of key management personnel amounted to nil in 2025 and 2024. The administrative functions of the Group are performed by employees of related parties.
b. *Other terms and conditions of transactions with related parties*

There have been no guarantees provided or received for any related party receivables or payables. The agreement between the related parties for related party receivables or payables will be generally settled in cash.

10. Equity

Information on Listed in PSE
The Parent Company is registered with the SEC and listed in PSE. The following shows the details of the listing of the Parent Company's shares:

Date of registration with SEC	November 21, 1985
Number of shares listed as of September 30, 2025	10,296,688
Number of shares listed as of December 31, 2024	10,296,688
Number of unlisted shares	
Total shareholders of record as at	
September 30, 2025	39
December 31, 2024	24

Compliance with the Minimum Public Ownership Requirement
As at December 31, 2024, the Parent Company is fully compliant with the minimum public ownership requirement of the PSE.

Capital Stock
The Parent Company's authorized capital stock is 200,000,000 shares with par value of 10 as at September 30, 2025 and 19,000,000 at December 31, 2024. Issued and outstanding common shares totaled 74,712,025 shares held by 39 shareholders as at September 30, 2025 and 10,296,688 shares held by 24 shareholders as at December 31, 2024, respectively.

Additional paid-in capital
As at September 30, 2025, additional paid-in capital amounted to ₱5,468,736,387.

Equity Reserves
On October 14, 2013, KPC bought back its own shares from another stockholder and held such as treasury, thus, increasing the percentage of ownership of the Parent Company. As a result of the increase, the Group's share in the assets of KPC increased by ₱17.50 million and was taken to "Equity reserves" in the consolidated statements of financial position.

Dividends
On December 14, 2017, the Parent Company declared cash dividends in the sum of ₱176.75 million or ₱17.1657 per share paid on January 5, 2018 to the shareholders of record as at January 4, 2018. There were no dividends declared from 2018 to 2024.

Dividends payable of the Parent Company as at September 30, 2025 and December 31, 2024 amounted to ₱66,159.

Restrictions on Revaluation Increment in Land
The revaluation increment in land attributable to CAWC amounting to ₱58.70 million will not be used to wipe out losses that may be incurred in the future without prior approval of the SEC, and that for purposes of dividend declaration by CAWC, its retained earnings shall be restricted to the extent of the deficit wiped out by the revaluation increment in land of ₱73.97 million.

As of September 30, 2025 and December 31, 2024, the Group's retained earnings exceed its paid-up capital stock due to the profit from sale of Arnaiz Property. Management plans to address the excess retained earnings through appropriation for future projects, particularly with the acquisition of Tierra in 2023.

Restrictions on Retained Earnings
The Group's retained earnings are restricted for dividend declaration for the portion equivalent to the following:

a. Cost of treasury shares amounting to ₱39,466,240 as at September 30, 2025 and ₱870 as at December 31, 2024.
b. Retained earnings attributable to CAWC which is restricted to the extent of the deficit wiped out by the appraisal increment in land amounting to ₱73.97 million.

Non-controlling Interests
This represents shareholdings in subsidiaries not held by the equity holders of the Parent Company.

Equity interest held by non-controlling interest in 2025 and 2024 pertains to CMC, KPC and CAWC with 26.03%, 26.03% and 0.33% ownership, respectively.

Adjustments on account of the Merger:

1. Exquadra, Inc.'s investment in Uniholdings previously recorded as asset valued at FVOCI Post-merger, this was reclassified in equity as Treasury Shares.

2. Citiworld Properties and Development Corporation's (CPDC) investment in Uniholdings previously recorded as asset valued at FVOCI Post-merger, this was reclassified in equity as Treasury Shares. On the other hand, CPDC's investment in CMC, CAWC, KPC will form part of UNH's additional investment in its subsidiaries.

3. Quantumlink Realty Corporation's investment in Uniholdings previously recorded as asset valued at FVOCI. Post-merger, this was reclassified in equity as Treasury Shares.

4. Movement in net assets (aside from those pertaining to investments in UNH) between the balances used in the computation of the book-to-book exchange ratio and 2024 audited balances will generally be captured and classified in equity as Merger Reserve.

11. Leases

The Parent Company, as a lessor, had several contracts to lease spaces of Chemphil Building located at 851 A. Arnaiz Avenue, Makati City. Rental income from the lease amounted to nil and ₱0.86 million in 2024 and 2023 respectively. In January 2023, UNH sold the land and building to a third party. As a result of the merger, there was additional rental income from leases recognized by UNH.

13. Financial Risk Management Objectives and Policies

The main risks arising from the Group's financial instruments are market risk, credit risk and liquidity risk. The BOD reviews and approves policies for managing each of these risks.

Equity Price Risk
The Group's equity price risk exposure at year-end relates to financial assets whose values will fluctuate because of changes in market prices of golf and club shares classified as financial assets at FVOCI in 2024.

Quoted equity securities are subject to price risk due to changes in the market values of instruments arising either from factors specific to individual instruments or their issuers or factors affecting all instruments traded in the market.

Credit risk
Credit risk is the risk that the Group will incur a loss because its customers, clients or counterparties failed to discharge their contractual obligations. With respect to credit risk arising from cash in banks, receivables, due from related parties, refundable deposits, and cash in bank restricted for use in operations, the Group's exposure to credit risk arises from default of the counterparty, with a gross maximum exposure equal to the carrying amount of these instruments. Credit risk is minimized and monitored by limiting the Group's associations to business parties with high creditworthiness. Receivables are monitored on an ongoing basis through the Group's management reporting procedures.

To manage credit risks, the Group maintains defined credit policies and monitors on a continuous basis its exposure to credit risks.

The Group performs an impairment analysis at each reporting period to determine ECL.
An impairment analysis is performed at each reporting date using a provision matrix to measure expected credit losses. The provision rates are based on days past due of customers.

The credit quality of the financial assets was determined as follows:

Cash in banks
The Group's cash in banks has high grade credit quality since these are deposited with reputable banks. The Group assessed that credit risk did not significantly increase from initial recognition, thus, the Group only measured credit losses on cash in banks that may result from default events 'that are possible' within the next 12-months (a 12-month ECL – Stage 1).

Due from related parties
These receivables have low grade credit rating since the related parties pay beyond maturity (Lifetime ECL – Stage 3).

The Group evaluates specific balances where management has information that certain amounts may not be collectible. In these cases, the Group uses judgment, based on available facts and circumstances, and based on a review of the factors that affect the collectability of the accounts including, but not limited to, the age and status of the due from related parties, collection experience and past loss experience. The review is made by management on a continuing basis to identify accounts to be provided with allowance.

Refundable deposits under "Other current assets" account
The Group's refundable deposits have high grade credit rating since these are deposited mostly with reputable companies. Since there has not been a significant increase in credit risk from initial recognition, the Group provides for credit losses on refundable deposits that result from default events 'that are possible' within the next 12-months (a 12-month ECL – Stage 1).

Other current and long-term receivables
Lifetime ECLs on the other current and long-term receivables are calculated since the Group assessed that there have been significant increases in credit risk since initial recognition.

The Group holds no collateral to any of its financial assets. The Group has no financial assets whose terms have been renegotiated.

Liquidity Risk
Liquidity risk is the risk that the Group will be unable to meet its payment obligations when they fall due under normal and stress circumstances. The Group addresses liquidity concerns primarily though cash flows from collection of receivables or short-term borrowings.

The tables below summarize the maturity analysis of the Group's financial assets and liabilities based on contractual undiscounted receipts and payments:

September 30, 2025

	On demand	Less than 3 months	3 to 12 months	1 to 5 years	Total

14. Fair Values

The table below provides the comparison of carrying amounts and fair values of the Group's assets and liabilities for asset which is measured at fair value and liability for which fair value disclosure is required:

	Date of valuation	Carrying value	Fair value measurements using Quoted prices in active markets (Level 1)	Significant observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Assets measured at fair value:					
Financial assets held through OCI	December 31, 2024 and 2023	2,100,041	–	2,100,041	–
Assets where fair value is disclosed:					
Land under “Investment properties”	December 31, 2024	2,865,624,166	–	–	5,070,138,768
	December 31, 2023	2,800,877,305	–	–	5,020,004,687

Short-term financial instruments

The carrying amounts of cash in banks, receivables, refundable deposits, accounts payable and accrued expenses and due to/from related parties approximate their fair values either because of their short-term nature.

Financial assets held through OCI

The Group’s financial assets held through OCI include investments in unquoted securities and quoted golf club shares. The fair value of investment in golf club shares is determined based on quoted market bid prices at the close of business at reporting date while the fair value of investment in unquoted securities is based on the current selling price as at December 31, 2024 and 2023.

Land

The independent appraiser used the “Market Data Approach” in valuing the land. The Group has determined that the highest and best use of the investment properties is for industrial development use. For strategic reasons, the property is not being used in this manner.

In 2024 and 2023, there were no transfers between level 1 and level 2 fair value measurements and no transfers into and out of level 3 fair value measurements.

15. Capital Management

The Group maintains a capital base to cover risks inherent in the business. The primary objective of the Group’s capital management is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximize shareholder value. The Group manages its capital structure and adjusts it in the light of changes in economic conditions and the risk characteristics of its activities.

In order to maintain or adjust the capital structure, the Group may adjust the amount of dividend payment to shareholders, return capital to shareholders or issue capital securities. No changes were made in the objectives, policies and processes from the previous years.

The following table summarizes the total capital considered by the Group:

	September 30, 2025	June 30, 2025	March 31, 2025	December 31, 2024	December 31, 2023
Capital stock	₱ 747,120,250	₱ 747,120,250	₱ 747,120,250	₱ 102,966,880	₱ 102,966,880
Additional paid-in capital	5,468,736,400	5,468,736,400	5,468,736,400	16,621,243	16,621,243

Equity reserve	17,503,109	17,503,109	17,503,109	17,503,109	17,503,109
Retained earnings	**1,911,105,355**	**787,945,122**	752,683,180	702,263,457	824,916,993
Treasury stock	**(870)**	(870)	(870)	(870)	(870)
	₱8,144,464,244	₱7,021,304,011	₱6,986,042,068	₱839,353,819	₱962,007,355

The Group is not subject to any externally imposed minimum capital requirements.

CAWC is subject to certain SEC restrictions on dividend declaration in relation to its approved quasi-reorganization on October 10, 2013. CAWC's quasi-reorganization was effected wherein CAWC's accumulated deficit as at December 31, 2004, amounting to 73.97 million was applied against the revaluation increment in land as at such date. Pursuant to the SEC approval of the foregoing, CAWC was subject to following conditions, among others: (a) that the remaining revaluation increment of 58.7million as at December 31, 2005, after applying 73.97 million to CAWC deficit, will not be used to wipe out losses that may be incurred in the future without prior approval of the SEC; (b) for purposes of dividend declaration, the retained earnings of CAWC shall be restricted to the extent of the deficit wiped out by the appraisal increment in land. As at September 30, 2025, and December 31, 2024, CAWC is in compliance with the SEC restriction requirement.

16. Segment Reporting

The Group's operating businesses are organized and managed separately according to the nature of the products and services provided, with each segment representing a strategic business unit that offers several products and serves several markets. This is how management internally evaluates the performance of operating segments and allocates resources to these segments.

The Group derives its revenue only from one reportable segment, leasing of investment properties.

17. Merger

On August 24, 2023, the Parent Company's BOD approved the increase in the Parent Company's authorized capital stock (ACS) from 19,000,000 common shares with par value of ₱10 per share to 200,000,000 common shares with par value of ₱10 per share. The increase in ACS was in view of the planned merger with the Parent Company, as the surviving entity, with API, Buklod Realty Corporation, CPDC, Exquadra Inc., Quantumlink Realty Corporation and RTI (the Absorbed Corporations). On April 29, 2024, the BOD of the Parent Company and the Absorbed Corporations (collectively as "the Group") executed a Plan of Merger. The merger is part of the Group's internal restructuring and will streamline operations and achieve greater efficiency and economy in the management of the Group. The SEC approved the Articles and Plan of Merger and amended Articles of Incorporation effective January 1, 2025.

18. Comprehensive Agrarian Reform Law (CARL)

The CARL (Executive Order No. 229 and Republic Act No. 6657) provides, among others, the redistribution of all private and agricultural lands regardless of tenurial arrangements and commodity produced, subject to certain terms and conditions.

The Parent Company owned parcels of land located in Cuyapo, Nueva Ecija that were subjected to CARL. A portion with an area of 7.3437 hectares and a carrying value of 0.59 million was placed by the Department of Agrarian Reform (DAR) under the Compulsory Acquisition scheme. The DAR Arbitration Board (DARAB) in Talavera, Nueva Ecija affirmed the valuation of Land Bank of the Philippines (LBP) fixing the just compensation to 0.18 million. The Parent Company filed a motion for reconsideration reiterating the Parent Company's position that the property should be valued at 0.59 million based on the appraisal made by an independent appraiser in 2001. The motion was denied by DARAB. The Parent Company has elevated the case to the Regional Trial Court (RTC). On January 4, 2007, the RTC denied the Parent Company's petition for just compensation. The Parent Company thereafter manifested its intention to the DAR and LBP to accept the amount of 0.18 million. In 2011, the Parent Company received the list of documentary requirements from LBP. The Parent Company submitted the required documents and received a response from LBP stating that the claims were referred to the Agrarian Operations Center III in San Fernando, Pampanga since payment had allegedly been made as at 2006. The Parent Company challenged the response and is still awaiting response from LBP as at audit report date.

19. Share Purchase Agreement

On November 11, 2019, certain major shareholders (sellers) of the Parent Company entered into a share purchase agreement with third parties (buyers) for the sale of the major shareholders' shares at ₱177.63 per share. The shares sold pertain to the 5,866,001 common shares of the Parent Company comprising 56.97% of the total issued and outstanding capital stock. The proceeds of the sale amounted to 1,041,977,758. From December 16, 2019 to January 27, 2020, the buyers made tender offer through the PSE for the same price per share to other shareholders which resulted to the buyers owning 8,037,117 common shares representing 78.04% of the total issued and outstanding capital stock of the Parent Company. The transaction (sale and purchase of shares) was closed on February 10, 2020.

On November 11, 2019, one of CMC's shareholders owning 25,878,725 common shares representing about 25.88% of the outstanding capital stock of CMC entered into a share purchase agreement with a buyer to sell its shares of stock at ₱ 6.05 per share. The transaction (sale and purchase of shares) was closed on February 10, 2020.

On November 11, 2019, one of KPC's shareholders owning 17,856,320 common shares representing about 25.88% of the outstanding capital stock of KPC entered into a share purchase agreement with a buyer to sell its shares of stock at ₱ 0.68 per share. The transaction (sale and purchase of shares) was closed on February 10, 2020.
