PART I – FINANCIAL INFORMATION

1. FINANCIAL STATEMENTS

Consolidated Statements of Financial Position
Consolidated Statements of Comprehensive Income
Consolidated Statements of Changes in Equity
Consolidated Statements of Cash Flows
Notes to Interim Consolidated Financial Statements
Schedule of Financial Soundness Indicators
Aging Schedule of Trade and Other Receivables Under Current Assets

The interim consolidated financial statements (“ICFS”) have been prepared in accordance with the Philippine Accounting Standard 34, *Interim Financial Reporting*. As such, the ICFS do not include all of the information and disclosures required for full annual consolidated financial statements, and thus should be read in conjunction with the audited consolidated financial statements of the Group as of and for the year ended December 31, 2024 (“ACFS”). The accounting policies, methods and measurements used in the ICFS are consistent with those applied in ACFS. The amendments to existing standards adopted by the Group effective January 1, 2025 do not have material impact on the Group’s ICFS. Accounting estimates, assumptions and judgments are used in preparing these statements; and while these are believed to be reasonable under the circumstances, actual results may ultimately differ from such estimates (see Note 3 to both the ACFS and ICFS).

The ICFS comprise the financial statements of the Company and its subsidiaries, after elimination of material intercompany transactions. In addition, shares of stock of the Company acquired by any of these subsidiaries are recognized as treasury shares and presented at cost as part of Treasury Shares in the consolidated statements of changes in equity. Any changes in their market values as recognized separately by the subsidiaries are likewise eliminated in full. Any gain or loss on the sale of these treasury shares is presented as addition to or deduction from additional paid-in capital.

Business Segments

Alliance Global Group, Inc. and its subsidiaries (“the Group”) is organized into major business segments that aptly correspond to its operating subsidiaries, namely Megaworld, Emperador, Travellers or NWR, and GADC (up to March 16, 2025 only), which in turn represent the main products and services provided by the Group and the lines of business in which the Group operates (namely, real estate property development and leasing, manufacture and distribution of distilled spirits, leisure-entertainment and hospitality, and quick-service restaurants (“QSR”) operations) (see Note 4 to the ICFS). Effective March 17, 2025, GADC was **deconsolidated** and ceased to be a business segment as it becomes an associate from that date, yet the Group’s ownership interest over GADC has not changed (see Note 1.2 to ICFS). From then on, it is accounted for at equity method wherein the Group’s share in its net profits, corresponding to the Group’s ownership interest, is being taken up.

The Group disaggregates revenues recognized from contracts with customers into these segments that depict how the nature, amount, timing and uncertainty of revenue and cash flows are affected by economic factors. This same disaggregation is used in earnings releases, annual reports and investor presentations.

Please refer to Note 1 to the ICFS and ACFS for a comprehensive list of subsidiaries, associates and joint ventures.

*For a more fitting comparison, the deconsolidated segment [GADC] was stripped out from the comparative periods, including the P3.428 billion gain in its deconsolidation, and included AGI's share in GADC's NPO in both comparative periods.. GADC was consolidated for a short period in 2025, i.e. up to March 16, 2025.

- Revenue growth – measures the percentage change in revenues over a designated period. Performance is measured in terms of both amount and volume, where applicable.
- Net profit growth – measures the percentage change in net profit over a designated period.
- Net profit rate – computed as percentage of net profit to revenues - measures the operating efficiency and success of maintaining satisfactory control of costs.
- Return on investment [or capital employed] – the ratio of net profit to total assets - measures the degree of efficiency in the use of resources to generate net income.
- Current ratio – computed as current assets divided by current liabilities – measures the ability of the business to meet its current obligations. To measure immediate liquidity, quick assets [cash, marketable securities, accounts receivables] is divided by current liabilities.
- Interest coverage ratio - computed as profit before tax and interest expense ("EBIT") [or EBIT before depreciation and amortization ("EBITDA")] divided by interest expense - measures the business' ability to meet its interest payments.

Results of Operations – First Nine Months 2025 vs 2024

The Group, one of the country’s largest and most diversified conglomerates, delivered a robust performance during the first nine-month period (“M9”), anchored on the Group’s diversified business portfolio and strong product mix, and beefed up by prudent operational efficiency, consequently reflecting higher gross and net profit margins for the period as compared to a year ago amid mixed market conditions.

The Group realized net profit (“NP”) of P24.8 billion in M9, surging +24% year-on-year (“YoY”), with net profit attributable to owners of the parent company (“NPO”) soaring +34% YoY to P17.4 billion, as revenues and income (“topline”) hit P143.4 billion. GP rate (“GPR”), NP rate (“NPR”) and NPO rate (“NPOR”) hit 47%, 17% and 12%, respectively, in M9 this year, respectively ahead of 42%, 12% and 8% a year ago.

The deconsolidation of the QSR business segment effective March 17, 2025, and the resulting P3.4 billion gain from it, impacted the topline and bottom lines YoY¹.

On an apples-to-apples comparison², the topline for M9 reflected a +2% YoY growth while NP and NPO respectively showed +10% and +8% YoY growths in M9, largely driven by the real estate, leasing and hotel businesses. Without the low-margined QSR business, GPR hovered above 49% at end of M9 and in each of the quarters this year vs 48% a year ago, as most sales revenues leaned towards the high-margined. As business activities accelerated, operating expenses ex-QSR increased, tempered by the slid in finance and other costs ex-QSR, so the Group achieved NPR of 16% and NPOR of 11% in M9, better than 15% and 10% a year ago.

EBITDA rate improved to 32% this year, much better than 27% of a year ago. Apples-to-apples, EBITDA rate stood at the improved 32% this year because of the NP growth.

The margin growths underscored the Group’s resiliency and solid performance across its diversified key business segments, further highlighting prudent and efficient cost management.

¹ See discussions under *Business Segments* section here and Note 1.2 to the ICFS.

² Stripping out the impact of the QSR business segment in the line-by-line consolidation (including the one-time gain on deconsolidation) (i.e. up to March 16 in 2025 and full nine months in 2024) and adding AGI’s equity share in GADC’s NPO in both periods, just for comparability alignment purposes only.

By business segment

The following discussions are based on pre-consolidation results, i.e. the numbers reported separately by the major subsidiaries (these may vary slightly from the preceding chart where alignment reclassifications were done at AGI level):

Megaworld, one of the country's largest real estate developer and pioneer in township developments, continued its sturdy growths with consolidated revenues and income of P64.4billion, NP of P17.9 billion and NPO of P15.9 billion in M9, respectively swelling +8%, +14% and +16% YoY. The Q3 results recorded revenues and income of P21.3 billion, up 3% YoY, resulting in NP of P5.8 billion and NPO of P5.2 billion. All its business segments contributed strongly to this healthy performance.

Costs and expenses in M9 rose +5% YoY to P42.4 billion, a pace slower than revenue growth indicating improved operating leverage. While operating expenses went up +13% YoY, finance and other charges went down due to last year's Day1 losses included here (none here this year) and last year's FOREX losses (materially reduced this year). GPR, NPR and NPOR for M9 improved to 50%, 28% and 25%, respectively, from 49%, 26% and 23% a year ago.

Real estate sales, Megaworld's main revenue driver, contributed 66% of total revenues as these grew +6% YoY to P40.2 billion, supported by strong demand and continued construction progress across multiple residential developments in Metro Manila and the provinces. The strongest contributors during the period were the residential projects in Uptown Bonifacio, ArcoVia City, Maple Grove in Cavite, and The Upper East in Bacolod.

The current brand mix among Megaworld-GERI-Empire East-Suntrust/SLI was 76%-10%-7%-7%. Geographically, 62% of sales were from Metro Manila projects, 25% from the rest of Luzon, and 13% from Vis-Min projects. Reservation sales in M9 reached P88.8 billion, i.e. 74% of full year target, while project launches hit P20.1 billion. The group's 36th township was launched during the interim period - the 116-hectare Nascala Coast in Nasugbu, which will be developed by GERI. Megaworld remains on track to reach a total of 37 integrated townships by end of the year.

Rental income in M9 accounted for 27% of total revenues (vs 25% of same period in 2024), up +15% YoY to P16.2 billion. This was driven by continued demand from high-value tenants and the strong synergy between Megaworld's office and retail ecosystems. *Megaworld Premier Offices* contributed P11.1 billion, up +16% YoY, at a stable occupancy rate of 87% as it continued to outperform the industry. *Megaworld Lifestyle Malls* generated P5.1 billion rental revenues, up +13% YoY, helped by the continued growth in foot traffic, tenant sales, and 93% high occupancy rate.

Megaworld Hotels & Resorts posted +13% YoY growth in revenues for M9 to P4.1 billion, buoyed

on higher room rates, expanded room counts and average occupancy rate of 60%.

These operating results brought in 45%, 71% and 68% to AGI's consolidated topline, NP and NPO, respectively, ranking Megaworld as the biggest contributor among AGI's Business Segments.

Emperador, a global alcoholic beverage group, reported P4.7 billion NPO in M9, generally flat YoY, on the back of P41.2 billion revenues and income. Emperador remained resilient with its diversified product portfolio, which covers numerous price points, its wide distribution reach in over 100 global markets, and deep range of aging liquid in its inventories. The Brandy business has returned to growth in M9, predominantly driven by the Philippine market with the successful introduction of recent product developments. The Scotch whisky business continued to face challenges due to soft global market situation, however it saw continuous QoQ growths in 2025.

Emperador registered GP at 29% of sales in the M9, as compared to 32% of a year ago, attributable largely to the impact of product sales mix. The group saved -5% YoY in operating expenses while finance costs climbed +7% YoY. With improved expenses, it registered NPR and NPOR of 11.5% and 11.3%, respectively, picking up from 11.3% and 11.1% of a year ago. Lower income tax expense, due to lower taxable income, also contributed to the improved bottom lines. EBITDA amounted to P7.8 billion, keeping an EBITDA rate of 19%, same as comparable period last year.

The Brandy Segment grew its topline +5% YoY to P26.3 billion from external customers in M9, as it got a boost from the successful introduction of new 'Fundador' product innovation in the Philippines, which recorded double-digit growth. GPR improved to 24% this year vs. 23% a year ago primarily due to product mix. Operating expenses were kept at 11% of the segment's topline, and went down -6% YoY from decrease in selling and distribution expenses. Interest and other charges declined -12% YoY due to decreasing EURIBOR and principal base. With relatively flat taxable income for the period, tax expense remained flat YoY. After all these, NPO swelled +88% YoY to P3.3 billion at the end of M9, reflecting 12% NPOR versus 7% a year ago. The segment's EBITDA totaled P5.3 billion, for a 20% EBITDA rate, higher than 15% of a year ago.

The Scotch Whisky Segment turned over P14.9 billion topline from external customers in M9, an -18% fall YoY as consumers are downgrading to value brands. While Q3 topline was still behind YoY, it inched 3bps QoQ. In Q3, 'Whyte&Mackay' sales and sales in North America continued climbing QoQ. The segment tracked QoQ growth in Middle East and Africa, and India as well. GPR in M9 slid to 38% from 43% a year ago, reflective of moderating single malts' sales in the product mix. Operating expenses were scaled -5% YoY from reduced general and administrative expenditures relating to the subdued business performance. Interest expense rose YoY to P0.6 billion, from additional loan drawdowns for the segment's ongoing expansion in its facilities to pave for future growth, notably incurred at lower SONIA rate. Tax expense dropped this year as net taxable income fell as well. Consequently, NPO (same as NP) from Scotch Whisky segment amounted to P1.3 billion from P3.0 billion a year ago, reflecting 9% NPOR versus 16% a year ago. EBITDA reached P2.5 billion, giving 17% EBITDA rate versus 24% a year ago.

The group contributed 29% to AGI's consolidated revenues and income, 21% to consolidated NP and 23% to consolidated NPO.

Travellers, the Group's integrated leisure and tourism arm, closed M9 with net revenues of P22.9 billion, around the same level as the previous year. Despite this, GPR improved significantly to 47% from 42% in the same period last year, due to cost optimization strategies related to gaming operations. This is highlighted by a -7% YoY decrease in direct costs to P12.4 billion and a -16% YoY decline in promotional allowances to P5.7 billion. The decline in promotional allowances was due to lower gaming points, rebates and revenue share.

Gross gaming revenues decreased -3% YoY to P23.5 billion primarily due to lower volumes across all segments despite an increase in win rates for Cash Tables and VIP. Revenues from hotels, food, beverage and other services also decreased by -5% to P4.0 billion, mainly due to lower hotel revenues. However, occupancy rates for the five hotels in NWR improved in the range of 86% - 94% this year compared to 77% - 88% in same period last year.

Its operating expenses increased +12% to P7.7 billion, driven mainly by marketing expenses and depreciation. Interest expenses also went up +16% YoY to P3.5 billion, as less interest was capitalized this interim period due to completion of most projects. Nevertheless, total interest incurred during M9, including the capitalized portion, increased by only +10% YoY. Travellers reported EBITDA of P5.6 billion in M9, a +3% YoY growth. NP and NPO stood at P0.6 billion and P0.7 billion, respectively, for the period.

Travellers group accounted for 16% of AGI's consolidated revenues and income.

By profit and loss accounts

The preceding discussions are reflected in the consolidated profit and loss accounts as shown below. We reiterate that the consolidated accounts for M9 2025 included line-by-line results from GADC for the period January 1 to March 16, 2025 whereas M9 2024 included full period results from GADC, therefore YoY comparisons were notably impacted accordingly.

Note: Numbers may not add up due to rounding off. Percentages are taken based on full numbers, not from the presented rounded amounts.

Revenues and income, as explained in the foregoing discussions, fell -11% YoY (-P18.2 billion) to P143.4 billion primarily due to the impact of QSR deconsolidation. **Sale of goods**

(real estate, alcoholic beverages and snack products) eased -1% YoY (-P0.6 billion) to P80.2 billion, as robust real estate sales increased +6% YoY (+P2.4 billion) to P40.2 billion while sales of consumer goods contracted -7% YoY (-P3.0 billion) to P39.9 billion due to continued global weakness in demand during the nine months period. **Rendering of services** (gaming, cinemas and theaters, leasing, QSR, hotels and other related services) shrank -29% YoY (-P21.9 billion) to P53.8 billion, due to lopsided comparative numbers in sales of owned QSR and franchise revenues, as had been previously discussed. Rental income and hotel operations improved +13% (+P2.0 billion) and 4% (+P0.3 billion), respectively. Net gaming revenues remained stable +1% (+P0.3 billion) despite lower volumes. **Share in net profit of associates and joint ventures** turned around from reported loss last year due to share in net profit of GADC from March 17 to September 30, 2025. **Finance and other income** ballooned +76% YoY (+P3.8 billion) to P8.9 billion, mainly due to gain on QSR deconsolidation and foreign currency gains recorded in M9 this year.

Costs and expenses decreased -17% YoY (-P22.6 billion) to P113.5 billion, largely attributed to GADC's short consolidated period in 2025. **Cost of goods sold** stood relatively flat to P48.0 billion, while **cost of services** dipped -46% YoY (-P19.5 billion) to P22.7 billion. **Other operating expenses** declined -4% YoY (-P1.4 billion) to P33.0 billion, accounting for 23% of topline versus 21% during the same period last year, tempered by the lost numbers from deconsolidation. **Finance costs and other charges** dropped -13% YoY (-P1.4 billion) to P9.8 billion due mainly to foreign currency losses reported last year (versus gains recognized in the current period which were reported under Finance and Other Income), lower interest expense and lower other charges (Day1 Loss reported last year).

Tax expense shrank -7% YoY (-P0.4 billion) to P5.0 billion as increase in taxable net profit of Megaworld was offset by lower taxable profit of Emperador and by lost numbers from QSR deconsolidation.

EBITDA amounted to P46.3 billion as compared to P43.5 billion a year ago, exhibiting EBITDA rates of 32% and 27%, respectively. EBITDA ex-QSR amounted to P41.7 billion for an EBITDA rate of 32% versus 31% a year ago primarily due to higher NP, depreciation and amortization and interest expense but a little lower tax expense in the current interim period.

As a result of the foregoing, **NP** and **NPO** were reported at P24.8 billion and P17.4 billion, respectively. Excluding gain on deconsolidation and adding computed equity share on GADC, **NP** and **NPO** amounted to P21.2 billion and P13.9 billion, respectively.

Financial Condition

Consolidated total assets amounted to P841.9 billion at end of the interim period from P824.1 billion at beginning of year, a +2% increase (+P17.8 billion) during the first nine months of the year while **consolidated total liabilities** amounted to P400.8 billion at the end of period, posting a -2% decline (-P7.5 billion) from P408.4 billion at beginning of the year. The movements were largely affected by the derecognition of GADC's assets and liabilities amounting to P51.2 billion and P37.9 billion as of March 16, 2025, respectively.

The Group remains strongly liquid with **current assets** exceeding **current liabilities** 2.5 times and 2.6 times at the end and beginning of the interim period, respectively. Current assets amounted to P389.3 billion while current liabilities amounted to P155.3 billion at end of the interim period. **Debts** (i.e. loans/bonds) were posted at P267.3 billion while **net debt**

(i.e. debt minus cash/FV financial assets) had grown +17% in nine months to P201.3 billion, which was 25% of total tangible assets (total assets less intangibles and deferred tax assets). The Group was fairly leveraged at 46% [net debt over equity] at end of the period versus 42% at beginning of the year.

Cash and cash equivalents decreased by -19% (-P11.3 billion) during the interim, ending at P49.3 billion from P60.6 billion at the start of the year, primarily due to cash used in investing and financing activities outpacing cash generated from operating activities. Details of the Group's cash flows from operating, financing and investing activities are presented in the interim consolidated statements of cash flows.

In summary, the **accounts with at least +/- 5% changes** from year-end were as follows.

Current contract assets, which represent the reclassified portion of trade and other receivables relating to rights to payment which are conditioned upon the completion of units sold and represent excess of progress of work over the right to an amount of consideration, climbed +18% (+P4.2 billion) to P27.0 billion while **non-current** contract assets dropped -13% (-P1.6 billion) to P11.0 billion. These pertain to the real estate operations of Megaworld.

Other current assets increased +17% (+P4.1 billion) to P27.7 billion mainly due to increase in input vat, creditable withholding tax and other prepayments due to timing of payments. It also included the assets relating to assignment to Travellers (Entertainment City Resorts Corporation) of the construction and project-related agreements associated with the construction and development of the Westside Integrated Resort Project.

Non-current trade and other receivables spiked +11% (+P3.8 billion) from increased real estate sales and rental transactions.

Advances to landowners and joint operators increased by +7% (+P0.6 billion) attributed to additional advances made by Megaworld to landowners and co-venturers for new project developments, reflective of robust development activities.

Investments in associates and joint ventures swelled +171% (+P11.3 billion) to P17.9 billion, primarily attributed to remeasurement of investment in GADC at fair value of P11.1 billion as it was assessed to be an associate effective March 17, 2025.

Deferred tax assets dipped -60% (-P1.3 billion) to P0.9 billion mainly due to the derecognition of GADC-related balance.

Other non-current assets soared +227% (+P12.4 billion) to P17.8 billion from advances for future investment and other assets. It also included the assets from the strategic arrangement with SUN relating to the Westside Integrated Resort Project.

Trade and other payables decreased -8% (-P6.2 billion) to P70.9 billion mainly due to the derecognition of GADC-related balances.

Current interest-bearing loans shot up +31% (+P14.4 billion) to P60.9 billion while **non-current** portion increased +2% (+P2.8 billion) to P186.3 billion for a total increase of +P17.2 billion primarily from additional drawdowns to finance ongoing projects (mostly new loans for the Entertainment City project), partially offset by repayments made during the interim period and those related to deconsolidated QSR business.

Current Lease liabilities decreased -82% (-P1.0 billion) to P0.2 billion and **non-current lease liabilities** dropped significantly by -94% (-P16.2 billion) to P1.1 billion, for a total decline of P17.2 billion following the derecognition of GADC-related lease liabilities.

Contract liabilities represent MEG's excess of collection over the progress of work with **current** portion increasing +32% (+P0.5 billion) to P2.2 billion and **non-current portion** decreasing -14% (-P0.7 billion) to P4.2 billion during the interim period.

Advances from other related parties inflated +15% (+P0.1 billion) to P1.2 billion from Megaworld accounts.

Redeemable preferred shares, which all pertained to GADC, were reduced to nil due to the deconsolidation of GADC.

Other current liabilities decreased -5% (-P1.0 billion) mainly from decline in customer deposits and commissions payable of Megaworld.

Retirement benefit obligations declined by -27% (-P0.5 billion) to P1.3 billion from changes in assumptions and benefit payments in retirement plans of Travellers, Megaworld and Emperor, and the derecognition of GADC-related obligations from the Group.

Deferred tax liabilities increased by 13% (+P2.8 billion) to P24.0 billion due to temporary differences arising from Megaworld and Emperor operations. The increase was partially tempered by the removal of GADC-related deferred tax balances following its deconsolidation during the period.

Other non-current liabilities declined by -11% (-P1.1 billion) to P8.3 billion primarily due to the reduction in customer deposits from Megaworld and the impact of GADC deconsolidation.

The **changes in equity components** are presented in detail in the interim consolidated statements of changes in equity. The changes were mainly from profit during the period, acquisition of treasury shares and changes in other equity accounts, including the deconsolidated accounts.

Liquidity and Capital Resources

The consolidated statements of financial position showed strong liquidity with current assets exceeding current liabilities 2.6 times and 2.5 times at the beginning and end of interim period, respectively. Likewise, the interim period opened and closed with total-liabilities-to-equity ratio of 1.0:1 and 0.9:1, respectively, and interest-bearing-debt-to-equity ratio of 0.6:1.0 at beginning and end of the period. Assets exceeded both liabilities and equity 2.0 times at the beginning of the interim period, and assets exceeding liabilities 2.1 times and equity 1.9 times at the closing of the period.

In general, working capital and investing expenditures during the period were sourced internally from operations and externally through bank loans. The Group may also from time to time seek other sources of funding, if necessary, depending on its financing needs and market conditions. AGI is set to offer warrants within this year.

- (l) A foreign joint venture under GES.
- (m) A joint venture through FHTC.
- (n) MFMI is engaged in the business of providing fund management services to real estate investment trust ("REIT") companies. MPMI is engaged in the business of providing services in relation to property management, lease management, marketing and project management. MREIT is engaged in the business of real estate investment trust, as provided under Republic Act No. 9856, *the Real Estate Investment Trust Act of 2009*.
- (o) Newly incorporated subsidiaries in 2024.
- (p) In 2024, GADC disposed of its entire interest in AFCMI (including its subsidiaries, RAFSI, MFGFI and GACI). The Group retained significant influence over AFCMI through FCI and reclassified the investment as an investment in an associate.
- (q) Deconsolidated subsidiaries in 2025 (see Note 1.2).
- (r) Effective ownership is based on total voting rights of both common and preferred shares held by the Group—92% by AGI (all common) and 8% by Megaworld (all preferred) as of September 30, 2025 and 89% by AGI (all common) and 11% by Megaworld (all preferred) as of December 31, 2024.
- (s) New subsidiaries in 2025. WBHC is a holding company that wholly owns ECRC.

The Company, its subsidiaries, associates and joint ventures are incorporated and operating in the Philippines, except for such foreign subsidiaries and a joint venture as identified in the preceding table (see explanatory notes c, d, g, h, k, and l above).

AGI's shares of stock and those of Megaworld, EMI, GERI, EELHI, MREIT and SUN are listed in and traded through the PSE as of September 30, 2025. EMI's shares were secondary listed and started trading on the Main Board of the Singapore Exchange Securities Trading Limited on July 14, 2022.

The principal activities of the Group are further described in Note 4.

The Company's registered office and primary place of business is located at 7th Floor, 1880 Eastwood Avenue, Eastwood City CyberPark, 188 E. Rodriguez, Jr. Avenue, Bagumbayan, Quezon City.

The Board of Directors ("BOD") approved on November 12, 2025 the release of the interim consolidated financial statements ("ICFS") of the Group as of and for the nine months ended September 30, 2025 (including the comparative financial statements as of December 31, 2024, and for the nine months ended September 30, 2024).

1.2 Remeasurement of Investment in GADC

In 2025, GADC was granted by McDonald's Corporation a new license term for another 20 years. Certain changes were also agreed in terms of the shareholder's contractual arrangement. As a result, GADC became an associate of AGI effective on March 17, 2025. The aggregate carrying amount of net assets of GADC at the beginning of effectivity date were derecognized and a gain was recognized on deconsolidation, as follows:

(Amounts in PHP)

Current assets	16,070,892,732
Non-current assets	35,178,705,797
Current liabilities	(17,353,483,277)
Non-current liabilities	(20,586,628,805)
Total net assets of GADC derecognized	13,309,486,447
Derecognized non-controlling interest	(6,848,260,020)
Derecognized goodwill of AGI on GADC	1,238,600,052
Total derecognition	7,699,826,479
Recognition of investment in associate	11,127,944,100

Gain on deconsolidation is presented as part of Finance and Other Income in the 2025 consolidated statement of comprehensive income.

2. MATERIAL ACCOUNTING POLICY INFORMATION

The material accounting policies that have been used in the preparation of these financial statements are summarized below. The policies have been consistently applied to all the periods presented, unless otherwise stated.

2.1 *Basis of Preparation of Interim Consolidated Financial Statements*

(a) *Statement of Compliance with Philippine Financial Reporting Standards*

These ICFS have been prepared in accordance with Philippine Accounting Standard (“PAS”) 34, *Interim Financial Reporting*. They do not include all of the information required in annual financial statements in accordance with Philippine Financial Reporting Standards (“PFRS”) Accounting Standards, and should be read in conjunction with the Group’s audited consolidated financial statements (“ACFS”) as of and for the year ended December 31, 2024.

The ICFS are presented in Philippine pesos, the Company’s functional and presentation currency, and all values represent absolute amounts except when otherwise indicated.

Items included in the ICFS of the Group are measured using the Company’s functional currency. Functional currency is the currency of the primary economic environment in which the Company operates.

The presentation of the ICFS is consistent with the most recent ACFS presentation.

The Group presents all items of income and expense in a single consolidated statement of comprehensive income.

2.2 *Adoption of Amended PFRS Accounting Standard*

The Group adopted for the first time the amendments to PAS 21, *The Effects of Changes in Foreign Exchange Rates – Lack of Exchangeability*, which is mandatorily effective for annual periods beginning on or after January 1, 2025. The amendments are relevant to the Group but have no material impact on the ICFS.

3. JUDGMENTS AND ESTIMATES

The preparation of the Group’s ICFS in accordance with PFRS Accounting Standards requires management to make judgments, estimates and assumptions that affect the policies applied and amounts reported in the ICFS and related explanatory notes. Judgments and estimates are based on historical experience and management’s best knowledge of current events and actions, including expectations of future events that are believed to be reasonable under the circumstances. Actual results may ultimately differ from these estimates. There were no changes in estimates of amounts reported in prior financial years that have a material effect in the current interim period.

The Group performed its annual impairment test of goodwill and trademarks with indefinite useful lives at year-end and when circumstances indicate the carrying value may be impaired. The Group's impairment test for goodwill arising from business combination and other intangible assets is based on value-in-use calculations. The Group monitors goodwill and trademarks with indefinite useful lives on the cash generating units to which these assets were allocated and considers the relationship between the market capitalization of the subsidiaries and its net book value, among other factors, when reviewing for indicators of impairment. The Group's management assessed that as at and for the nine months ended September 30, 2025 and as at December 31, 2024, goodwill arising from business combination and other intangible assets with indefinite useful lives are not impaired.

Aside from the foregoing, the judgments, estimates and assumptions applied in the ICFS, including the key sources of estimation uncertainty, were the same as those applied in the ACFS as at and for the year ended December 31, 2024.

4. SEGMENT INFORMATION

4.1 *Business Segments*

The Group is organized into major business segments, which are the major subsidiaries of the Group. These represent the main products and services provided by the Group and the line of business in which the Group operates.

Presented below is the basis of the Group in reporting its primary segment information.

- (a) The *Megaworld* segment consists of development of real estate, integrated resorts, leasing of properties and hotel operations business which is primarily undertaken by Megaworld and subsidiaries, the Group's forerunner in the real estate industry.
- (b) The *Emperador* segment refers to the manufacture and distribution of distilled spirits, including the production of glass containers, which is undertaken by Emperador and subsidiaries.
- (c) The *Travellers* segment relates to tourism-oriented business that integrates entertainment, hospitality and leisure, including gaming, as that of Newport World Resorts, which is operated by Travellers and subsidiaries.
- (d) The *GADC* segment refers to operations of McDonald's restaurants in the Philippines in accordance with the franchise agreement between GADC and McDonald's Corporation, USA. Effective March 17, 2025, GADC was deconsolidated and ceased to be a business segment as it becomes an associate from that date, yet the Group's ownership interest over GADC has not changed (see Note 1.2).

The Group disaggregates revenues recognized from contracts with customers into these segments that depict how the nature, amount, timing and uncertainty of revenue and cash flows are affected by economic factors. This same disaggregation is used in earnings releases, annual reports and investor presentations.

4.2 Segment Assets and Liabilities

Segment assets are allocated based on their physical location and use or direct association with a specific segment and they include all operating assets used by a segment and consist principally of operating cash and cash equivalents, trade and other receivables, contract assets, inventories, property, plant and equipment, intangible assets and investment properties. Segment liabilities include all operating liabilities and consist principally of trade and other payables, contract liabilities, lease liabilities, interest-bearing loans and bonds payable.

4.3 Intersegment Transactions

Segment revenues, expenses and performance include sales and purchases between business segments. Such sales and purchases are eliminated in consolidation.

4.4 Analysis of Segment Information

7. DIVIDENDS

There were no dividends declared and paid by the Company for the nine months ended September 30, 2025 and 2024.

8. EARNINGS PER SHARE

Earnings per share is computed as follows:

<i>(Amounts in PHP)</i>	September 30, 2025 (Unaudited)	September 30, 2024 (Unaudited)
Basic and Diluted –		
Net profit attributable to owners of the Parent Company	17,389,285,642	12,974,358,236
Divide by the weighted average number of outstanding common shares	8,691,228,479	8,767,848,279
	2.0008	1.4798

As of December 31, 2024, the last buy-back program authorized by the BOD was for P9.0 billion to end on April 8, 2025. On April 4, 2025, the Company's BOD approved the extension of said buyback program up to December 31, 2025. On June 2, 2025, the BOD approved its extension up to December 31, 2026 and the increase in the allocated amount for additional P2.0 billion.

The Company has repurchased 1,455,635,300 shares for P16.5 billion and 1,343,745,700 shares for P15.5 billion as of September 30, 2025 and 2024, respectively, which are reported as part of Treasury Shares in the consolidated statements of changes in equity and taken out of outstanding common shares in computing EPS.

There were 122.96 million shares and 158.23 million shares held by subsidiaries with a total cost of P832.1 million and P1,200 million as of September 30, 2025 and 2024, respectively, that were reported as part of Treasury Shares in the consolidated statements of changes in equity and taken out of outstanding common shares in computing EPS.

The basic and diluted earnings per share are the same for the nine months ended September 30, 2025 and 2024, as the Company's Executive Stock Option Plan are considered to be antidilutive since their conversion to ordinary shares would increase earnings per share. Thus, the number of issued and outstanding common shares presented does not include the effect of the potential common shares from the Executive Stock Option Plan.

9. RELATED PARTY TRANSACTIONS

The Group's related parties include its stockholders, associates, joint ventures, the Group's key management personnel and retirement fund, and others. The summary of the Group's transactions with its related parties for the periods ended September 30, 2025 and 2024, and the related outstanding balances as of September 30, 2025 and December 31, 2024 are as follows:

<i>(Amounts in PHP)</i>		Amount of Transaction		Receivable (Payable)

Unless otherwise stated, the outstanding balances of the Group's transactions with its related parties are unsecured, noninterest-bearing and payable or collectible on demand.

9.1 Purchase of Raw Materials and Services

Emperador imports finished goods and raw materials through a related party under common ownership. These transactions are normally being paid directly within 30 to 90 days. Emperador also imports raw materials from a wholly owned subsidiary of BLC.

9.2 Advances to Associates and Other Related Parties

Entities within the Group grant advances to associates and other related parties for working capital purposes. These advances to associates and other related parties are unsecured, noninterest-bearing and repayable upon demand. Settlement is generally made in cash or through offsetting arrangements.

The movements in Advances to associates and other related parties, which are shown as part of Trade and Other Receivables account in the consolidated statements of financial position, are presented as follows:

<i>(Amounts in PHP)</i>	September 30, 2025 (Unaudited)	December 31, 2024 (Audited)
Balance at beginning of period	5,968,176,102	5,349,447,760

Cash advances collected	(903,105,516)	-
Balance at end of period	6,269,113,743	5,968,176,102

As of September 30, 2025 and December 31, 2024, based on management's assessment, the outstanding balances of advances to associates and other related parties are not impaired; hence, no impairment losses were recognized.

9.3 Due from/to Related Parties

Transactions with related parties include the following: financing of opening of letters of credit and payment of progress billings, royalty fees, rentals, interest and certain expenses in behalf of the entities within Group or other related parties. Settlement is generally made in cash or through offsetting arrangements.

The outstanding balances of the Due from/to Related Parties are included under Trade and Other Receivables and Trade and Other Payables accounts, respectively, in the consolidated statements of financial position, as presented below.

9.5 Transactions with the Retirement Plans

The Group has formal retirement plans established separately for each significant subsidiary, particularly Megaworld, GERI, EELHI, Travellers, GADC, EDI and WML. These plans are defined benefit post-employment plans maintained for qualified employees, administered and managed by trustee banks (except for GERI which is still an unfunded plan) that are legally separated from the Group. The retirement funds do not provide any guarantee or surety for any obligation of the Group and their investments are not covered by any restrictions or liens.

10. COMMITMENTS AND CONTINGENCIES

10.1 Tax Contingencies of Travellers' Casino Operations

Travellers is subject to 25% and 15% license fees, inclusive of franchise tax and in lieu of all taxes, with reference to the income component of the gross gaming revenues, as provided under the Provisional License Agreement with Philippine Amusement and Gaming Corporation ("PAGCOR").

In August 2016, the SC confirmed that "all contractees and licensees of PAGCOR, upon payment of the 5% franchise tax, shall be exempted from all other taxes, including income tax realized from the operation of casinos." The SC Decision has been affirmed with finality by the SC in a Resolution dated November 28, 2016, which denied the Motion for Reconsideration filed by the BIR. Consistent with the decision of SC, on March 13, 2018, the Office of the Solicitor General issued a legal opinion stating that the tax exemption and imposition of 5% franchise tax in lieu of all other taxes and fees for gaming operations that was granted to PAGCOR extended to all PAGCOR contractees and licensees.

In a Resolution dated May 3, 2021, the Supreme Court affirmed with finality the decision of the Court of Tax Appeals holding that the Company's "gaming revenues, as a PAGCOR licensee, are exempt from regular corporate income tax."

In March 2022, the BIR issued a circular which sought to clarify that the franchise tax imposed on PAGCOR and its licensees, which is defined as 5% of the gross gaming revenues, shall be remitted to the BIR, specifically to the concerned Revenue District Office where the license is registered. In the same circular, BIR stated that the exemption from VAT covers only the contractees of PAGCOR. However, in Revenue Memorandum Circular No. 132-2024, which was issued by the BIR on December 9, 2024 to further clarify the tax treatment of PAGCOR, its licensees and contractees, the BIR confirmed that, in light of recent jurisprudence, income received by “PAGCOR’s Contractees and Licensees from their gaming operations, is subject to 5% franchise tax, in lieu of all other national and local taxes, including indirect taxes such as VAT.”

10.2 Skytrain Project

On October 2017, the Group submitted an unsolicited proposal to the government to build Skytrain that will link Uptown Fort Bonifacio to Guadalupe Station of Metro Rail Transit Line-3. The Group was granted an Original Proponent Status by the DOTr in May 2018 and its proposal is now undergoing review and evaluation at NEDA Board.

10.3 Agreements with Suntrust Resort Holdings, Inc. (SUN)

On August 30 2025, SUN entered into agreements to pursue a strategic working agreement with Travellers, WCI, WBHC and ECRC to expedite the completion of the now-expanded Westside City Integrated Resort Project, located in Entertainment City, Parañaque City in Metro Manila, Philippines.

To ensure the timely construction, development, completion and operation of the Westside Integrated Resort Project, ECRC has assumed all rights and obligations related to the project.

The Westside Integrated Resort Project is a world-class integrated resort consisting of a 5-star hotel, casino, mall, and theater complex envisioned to be the Broadway of the Philippines. Among its offerings are Artists Promenade, the iconic Grand Opera House and the Apollo, Bohemia and Crown theaters all of which are dedicated to Philippine performing arts.

10.4 Other Commitments and Contingencies

There are other commitments, guarantees and contingent liabilities that arise in the normal course of operations of the Group which are not reflected in the accompanying ICFS. Management is of the opinion that losses, if any, from these items will not have any material impact on the ICFS.

In addition, there are no material off-balance sheet transactions, arrangements, obligations and other relationships of the Group with unconsolidated entities or other persons created during the reporting periods.

11. RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group has various financial instruments such as cash and cash equivalents, financial assets at fair value through profit or loss (“FVTPL”), financial assets at fair value through other comprehensive income (“FVOCI”), interest-bearing loans, bonds payable, trade receivables and payables and derivative assets and liabilities which arise directly from the Group’s business operations. The financial debts were issued to raise funds for the Group’s capital expenditures.

The Group does not actively engage in the trading of financial assets for speculative purposes.

The Group is exposed to a variety of financial risks in relation to financial instruments. The main types of risks are market risk, credit risk and liquidity risk.

11.1 Market Risk

(a) Foreign Currency Sensitivity

Most of the Group’s transactions are carried out in Philippine pesos, U.S. dollars, Euros and U.K. pounds, which are the functional currencies of the individual subsidiaries making the transactions.

The currency exchange risk arises from transactions carried out in currencies other than the functional currency of the subsidiaries at each entity level. The Group has no significant exposure to changes in foreign currency exchange rates for U.K. pounds since these currencies are not significant to the Group’s consolidated financial statements.

Foreign currency denominated financial assets and liabilities, translated into Philippine pesos at period-end closing rate are as follows:

<i>(Amounts in PHP)</i>	<u>U.S. Dollars</u>	<u>HK Dollars</u>	<u>Euros</u>
September 30, 2025			
Financial assets	2,450,425,604	3,089,708,840	161,136,606
Financial liabilities	<u>(30,432,548,878)</u>	<u>(1,266,234,990)</u>	<u>(20,151,061,059)</u>
	<u>(27,982,123,274)</u>	<u>1,823,473,850</u>	<u>(19,989,924,453)</u>
December 31, 2024			
Financial assets	2,374,101,661	2,333,342,682	249,644,950
Financial liabilities	<u>(52,450,866,355)</u>	<u>(418,496,858)</u>	<u>(19,972,574,551)</u>
	<u>(50,076,764,694)</u>	<u>1,914,845,824</u>	<u>(19,722,929,601)</u>

The table below illustrates the sensitivity of the consolidated income before tax for the period with respect to changes in Philippine pesos against foreign currency exchange rates. The percentages have been determined based on the average market volatility in exchange rates in the previous 12 months estimated at 95% level of confidence.

<i>(Amounts in PHP)</i>	Reasonably possible change in rate	Effect in consolidated profit before tax
September 30, 2025		
U.S. Dollar	+/- 10.98%	(1,926,652,004)
HK Dollar	+/- 11.05%	201,462,623
Euros	+/- 19.80%	(3,958,144,760)
December 31, 2024		
U.S. Dollar	+/- 9.46%	(3,748,507,155)
HK Dollar	+/- 9.43%	180,509,839
Euros	+/- 45.40%	(8,953,907,760)

However, if the Philippine peso had weakened against the U.S. dollar, HK dollar, and Euro by the same percentages, then consolidated profit before tax would have changed at the opposite direction by the same amounts.

The sensitivity analysis is based on the Group's foreign currency financial instruments held at each reporting periods.

The Group periodically reviews the trend of the foreign exchange rates and monitors its non-functional currency cash flows.

Exposures to foreign exchange rates vary during the period depending on the volume of overseas transactions. Nonetheless, the analysis is considered to be representative of the Group's currency risk.

(b) Interest Rate Sensitivity

The Group's interest risk management policy is to minimize interest rate cash flow risk exposures to changes in interest rates. At present, the Group is exposed to changes in market interest rates through certain bank borrowings and cash and cash equivalents, which are subject to variable interest rates. The Group maintains a debt portfolio unit of both fixed and variable interest rates. All other financial assets are subject to fixed interest rates.

The sensitivity of the consolidated profit before tax for the period to a reasonably possible change in interest rates of +/-2.25% for Philippine peso and +/- 1.20% for U.S. dollar in 2025, and +/- 1.27% for Philippine peso and +/- 2.73% for U.S. dollar in 2024 with effect from the beginning of the period. These percentages have been determined based on the average market volatility in interest rates, using standard deviation in the previous 12 months, estimated at 95% level of confidence.

The sensitivity analysis is based on the Group's financial instruments held at September 30, 2025 and December 31, 2024, with an estimated effect from the beginning of the period. All other variables held constant, the consolidated profit before tax would have decreased by P4.7 billion for the period ended September 30, 2025, and decreased by P3.1 billion for the year ended December 31, 2024. Conversely, if the interest rates decreased by the same percentage, consolidated profit before tax would have been lower or higher by the same amount.

11.2 Credit Risk

Generally, the Group's credit risk is attributable to trade and other receivables arising mainly from transactions with approved franchisees, installment sales receivables, rental receivables and other financial assets. The carrying values of these financial assets subject to credit risk are disclosed in Note 12.

The Group maintains defined credit policies and continuously monitors defaults of customers and other counterparties, identified either individually or by group, and incorporates this information into its credit risk controls. Where available at a reasonable cost, external credit ratings and/or reports on customers and other counterparties are obtained and used. Franchisees are subject to stringent financial, credit and legal verification process. The Group's policy is to deal only with creditworthy counterparties. In addition, for a significant portion of sales, advance payments are received to mitigate credit risk.

Cash and cash equivalents in banks in the Philippines are insured by the Philippine Deposit Insurance Corporation up to a maximum coverage of P0.5 million per depositor per banking institution, which was increased to P1.0 million effective March 15, 2025. The credit risk for cash and cash equivalents are considered negligible since the counterparties are reputable banks with high quality external credit ratings.

To measure the expected credit losses, trade receivables and other receivables have been grouped based on shared credit risk characteristics and the days past due (age buckets). The other receivables relate to receivables from both third and related parties other than trade receivables and have substantially the same risk characteristics as the trade receivables.

The Group identifies headline inflation rate and bank lending rate to be the most relevant factors and accordingly adjusts the historical loss rates based on expected changes in these factors.

ECL for advances to associates and other related parties are measured and recognized using the liquidity approach. Management determines possible impairment based on the related party's ability to repay the advances upon demand at the reporting date taking into consideration the historical defaults from the related parties.

Except for real estate sales, contract assets and rental receivables, the Group's financial assets are not covered with any collateral or credit enhancement. Accordingly, the Group manages credit risk by setting limits on the amount of risk in relation to a particular customer including requiring payment of any outstanding receivable before a new credit is extended. Such risk is monitored on a regular basis and subject to an annual or more frequent review. Approval for credit limits are secured from the credit manager.

The Group considers credit enhancements in determining the expected credit loss. Trade receivables from real estate sales are collateralized by the real properties sold while rental receivables are secured to the extent of advanced rental and security deposits received from lessees. Further, customers are required to issue post-dated checks, which provide additional credit enhancement.

Trade and other receivables that are past due but not impaired are presented below.

<i>(Amounts in PHP)</i>	September 30, 2025 (Unaudited)	December 31, 2024 (Audited)
Not more than 30 days	2,149,279,319	2,734,319,744
31 to 60 days	1,062,114,386	1,922,971,318
Over 60 days	3,973,004,189	6,118,914,553
	7,184,397,894	10,776,205,615

Moreover, the management has assessed that risk over the put option has not increased significantly, as the related probability of any of the put option event from happening is low or remote under the circumstances. Hence, in accordance with the general approach of ECL, the value of the put option was measured on a 12-month basis.

The Group writes off financial assets, in whole or in part, when it has exhausted all practical recovery efforts and has concluded that there is no reasonable expectation of recovery of the financial asset. Indicators that there is no reasonable expectation of recovery include the cessation of enforcement activity and where the value of any assets that the Group may get from the customers is less than the outstanding contractual amounts of the financial assets to be written-off.

11.3 Liquidity Risk

The Group manages its liquidity needs by carefully monitoring scheduled debt servicing payments for long-term financial liabilities as well as cash outflows due in a day-to-day business. Liquidity needs are monitored in various time bands, on a day-to-day and week-to-week basis, as well as on the basis of a rolling 30-day projection. Long-term liquidity needs for a three-month and one-year period are identified monthly. The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of loans, bonds, and preferred shares.

The Group maintains cash to meet its liquidity requirements for up to 60-day periods. Excess cash are invested in time deposits, mutual funds or short-term marketable securities. Funding for long-term liquidity needs is additionally secured by an adequate amount of committed credit facilities and the ability to sell long-term financial assets. In addition, the Group regularly evaluates its projected and actual cash flows. It also continuously assesses conditions in the financial markets for opportunities to pursue fund raising activities, in case any requirements arise. Fund raising activities may include bank loans and capital market issues.

As of September 30, 2025, the Group's financial liabilities (excluding lease liabilities) have contractual maturities which are presented below.

<i>(Amounts in PHP)</i>	Current		Non-current	
	Within 6 Months	6 to 12 Months	1 to 5 Years	Later than 5 Years

The contractual maturities reflect the gross cash flows, which may differ from the carrying values of the liabilities at the end of the reporting periods.

11.4 Other Price Risk Sensitivity

The Group's market price risk arises from its investments carried at fair value. It manages its risk arising from changes in market price by monitoring the changes in the market price of the investments.

For equity securities listed in the Philippines, the observed volatility rates of the fair values of the Group's investments held at fair value and their impact on the equity as of September 30, 2025 and December 31, 2024 are summarized below.

<i>(Amounts in PHP)</i>	Observed Volatility Rates		Impact on Equity	
	Increase	Decrease	Increase	Decrease
2025 – Investment in quoted equity securities at:				
FVOCI	+34.04%	-34.04%	69,291,917	(69,291,917)
FVTPL	+34.04%	-34.04%	1,951,878,265	(1,951,878,265)
2024 – Investment in quoted equity securities at:				
FVOCI	+30.78%	-30.78%	57,092,524	(57,092,524)
FVTPL	+30.78%	-30.78%	1,722,745,668	(1,722,745,668)

The maximum additional estimated gain or loss in 2025 and 2024 is to the extent of the carrying value of the securities held as of these reporting dates with all other variables held constant. The estimated change in quoted market price is computed based on volatility of listed companies at the PSE for the past twelve months as of September 30, 2025 and December 31, 2024 at 95% confidence level.

The investments in listed equity securities are considered long-term strategic investments. In accordance with the Group's policies, no specific hedging activities are undertaken in relation to these investments. The investments are continuously monitored and voting rights arising from these equity instruments are utilized in the Group's favor.

13. FAIR VALUE MEASUREMENT AND DISCLOSURES

13.1 Fair Value Hierarchy

The hierarchy groups financial assets and financial liabilities into three levels based on the significance of inputs used in measuring the fair value of the financial assets and financial liabilities. The fair value hierarchy has the following levels:

- Level 1: quoted prices (unadjusted) in active markets or for identical assets or liabilities;
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the resource or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and,
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The level within which the financial asset or financial liability is classified is determined based on the lowest level of significant input to the fair value measurement.

For purposes of determining the market value at Level 1, a market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

For investments which do not have quoted market price, the fair value is determined by using generally acceptable pricing models and valuation techniques or by reference to the current market of another instrument which is substantially the same after taking into account the related credit risk of counterparties, or is calculated based on the expected cash flows of the underlying net asset base of the instrument.

When the Group uses valuation techniques, it maximizes the use of observable market data where it is available and relies as little as possible on entity specific estimates. If all significant inputs required to determine the fair value of an instrument are observable, the instrument is included in Level 2. Otherwise, it is included in Level 3.

13.2 Financial Instruments Measured at Fair Value

For financial assets and financial liabilities with fair values included in Level 1, management considers that the carrying amounts of those short-term financial instruments approximate their fair values.

The fair values of the financial assets and financial liabilities included in Level 2 and Level 3 above which are not traded in an active market is determined by using generally acceptable pricing models and valuation techniques or by reference to the current market value of another instrument which is substantially the same after taking into account the related credit risk of counterparties, or is calculated based on the expected cash flows of the underlying net asset base of the instrument.

13.4 Investment Property Measured at Cost for which Fair Value is Disclosed

The fair value of the Group's investment properties earning rental income was determined through discounted cash flows valuation technique. The Group uses assumptions that are mainly based on market conditions existing at each reporting period, such as: the receipt of contractual rentals; expected future market rentals; void periods; maintenance requirements; and appropriate discount rates. These valuations are regularly compared to actual market yield data and actual transactions by the Group and those reported by the market. The expected future market rentals are determined on the basis of current market rentals for similar properties in the same location and condition.

The Group determines the fair value of idle properties through appraisals by independent valuation specialists using market-based valuation approach where prices of comparable properties are adjusted for specific market factors such as location and condition of the property.

As of September 30, 2025 and December 31, 2024, the fair value of the Group's investment property amounting to P486.9 billion is classified within Level 3 of the fair value hierarchy. The Level 3 fair value of investment properties earning rental income was determined using the income approach which is performed with values derived using a discounted cash flow model. The income approach uses future free cash flow projections and discounts them to arrive at a present value. The discount rate is based on the level of risk of the business opportunity and costs of capital. The most significant inputs into this valuation approach are the estimated annual cash inflow and outgoing expenses, anticipated increase in market rental, discount rate and terminal capitalization rate.

14. CAPITAL MANAGEMENT OBJECTIVES, POLICIES AND PROCEDURES

The Group's capital management objective is to ensure its ability to continue as a going concern; to provide an adequate return to shareholders by pricing products and services commensurately with the level of risk; and to maintain strong and healthy financial position to support its current business operations and drive its expansion and growth in the future.

There were no changes in the Group's approach to capital management during the periods presented.

16. EVENTS AFTER THE END OF REPORTING PERIOD

On October 28, 2025, SEC issued a Confirmation of Exemption, confirming the exemption from registration of the Warrants and their underlying common shares pursuant to Sections 10.1(e) and 10.1(l) of the Securities Regulation Code.

Subsequently, on November 7, 2025, PSE approved the listing of up to 2,225,874,470 Warrants, together with an equal number of underlying common shares. The actual listing of the Warrants and the corresponding common shares shall be subject to successful compliance with the conditions and requirements of both the PSE and the SEC.

The warrant and underlying common share issuances were approved by the BOD on May 6, 2025, and ratified by the stockholders on June 19, 2025. The Warrants will be offered to eligible shareholders to provide them with the opportunity to maintain their ownership ratios. Proceeds from the offer will be used to fund capital expenditures, repayment of debt obligations, and general corporate purposes.

The proposed timetable of activities offered is as follows:

Ex-Rights Date: November 19, 2025
Record Date: November 20, 2025
Offer Period: December 4 to 11, 2025
Tentative Listing Date: December 19, 2025
