PART 1 - FINANCIAL INFORMATION

Item 1. Financial Statements

Please see attachments consisting the following:

Annex A - Statements of Financial Position

Annex B - Statements of Comprehensive Income and Retained Earnings

Annex C - Statements of Cash Flows as of September 30, 2025

Annex D - Statements of Changes in Equity

The interim financial statements have been prepared in accordance with Philippine Financial Reporting Standards (PFRS).

a) The same accounting policies and methods of computation are followed in the interim financial statements as compared with 2025 financial statements.

- b) There is no actual operation. The source of other income is only from the interest income earned from a related company and a third party.
- c) We are not aware of any unusual items that affect assets, liabilities, equity, net income and cash flows because of their nature, size or incident. Should we be aware of such items, we will include a disclosure in next quarter's report discussing such items.
- d) There are no changes in estimates of amounts reported in prior interim periods of the current financial year or changes in estimates of amounts reported in prior financial years.

NOT APPLICABLE

- e) There was no issuance, repurchases, repayments of debt and equity securities

NOT APPLICABLE

- f) There were no dividends paid separately for ordinary shares and other shares.

NOT APPLICABLE

- g) Segment revenue and segment result for business segments or geographical segments, whichever is the issuer's primary basis of segment reporting.

NOT APPLICABLE

- h) There were no material events subsequent to the end of the interim period that have not been reflected in the financial statements for the interim period.

NOT APPLICABLE

- i) There were no changes in the composition of the issuer during the interim period, including the business combinations, acquisition or disposal of subsidiaries and long-term investments, restructuring, and discontinuing operations.

NOT APPLICABLE

- j) There were no changes in contingent liabilities or contingent assets since the last annual balance sheet date.

NOT APPLICABLE

- k) There were no material contingencies and any other events or transactions that are material to an understanding of the current interim period.

NOT APPLICABLE

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

- a. We are not aware of any known trends, demands, commitments, events or uncertainties that will have a material impact on the issuer's liquidity. Should we become aware of such events, we will include a disclosure discussing such events in subsequent quarterly reports.
- b. There are no material commitments for capital expenditures. Should we become aware of such commitments, we will include a disclosure discussing such commitments in subsequent quarterly reports.
- c. The Company is still in the process of finalizing its business plans and has not made an active investment. Hence, there are no known trends, events or uncertainties that have had or that are reasonably expected to have a material favorable or unfavorable impact on net sales/revenues/ income from continuing operations.
- d. The Company's effective interest income in excess of actual rates recognized on loan receivable and due to related party, as result of transitioning to Philippine Financial Reporting Standards (PFRS).
- e. The causes for material changes of loans and receivable due to adoption of new accounting standards particularly PAS 32 and 39, Financial Instruments: Disclosure and Presentation and Recognition and Measurement, which became effective on January 1, 2005.
- f. We are not aware of any seasonal aspects that had a material effect on the financial condition or results of operations of the Company. Should we become aware of such aspects, we will include a disclosure discussing such aspects in Item 2 of subsequent quarterly reports.
- g. There are no material changes in General & Administrative expenses. Should we become aware of such transaction, we will include a disclosure discussing such transaction in subsequent quarterly reports.

The Income Statement of BHI Holdings, Inc. as of **September 30, 2025** showed a net income of **P170,687.00** based on the terms of loan agreements.

REVENUES

- The Company's effective interest income amounted to P2,242,466 and P2,247,272 for the 3rd quarter of 2025 and 2024. The actual interest income based on the terms of the loan agreements totaled to P2,242,466 and P2,247,272 for the 3rd quarter of 2025 and 2024.
- Other Income from Banco de Oro & Land Bank of the Philippines savings account amounted to P89.

COST AND EXPENSES

- The Company's operating expenses as of the 3rd quarter of 2025 amounted to P2,025,316 or an increase of 3.48% compared to the 3rd quarter of the year 2024. Material expenses came from office rental, salaries and wages, light and water, legal & audit fees and from membership fee.

OPERATIONAL ASPECT

- The Company is still in the process of finalizing its business plans and has not made any active investment. It intends to actively pursue its business as an investment holding company by acquiring equity plus interest in profitable Corporations.

Uncertainties remain as to whether the country will continue to be affected by regional trends in the succeeding periods. The subsequent effect of such regional trends in the economic environment of the Philippines will continue to affect the business activity of the Company in the foreseeable future. Related effects will be reported in the financial statements as they became known and estimated.

PART II - OTHER INFORMATION

Effective February 2020, our stock transfer agent shall be the Stock Transfer Service, Inc.

SIGNATURES

Pursuant to the requirements of the Securities Regulation Code, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

BHI HOLDINGS, INC.

(formerly Consolidated Insurance Company, Inc.)

EXPLANATORY PAGE IN LIEU OF THE SCHEDULE OF AGING OF ACCOUNTS RECEIVABLE QUARTERLY REPORT ENDING SEPTEMBER 30, 2025

The Company opted to attach this explanatory page in the absence of accounts classified under Trade Receivable and the inapplicability of its Non-Trade Receivable.

The Company's adoption of the new accounting standard result in the measurement of loans and receivables at amortized cost using the effective interest rate method. The discount rates used for due from related party were determined by reference to the market interest rates at the time of the recognition of receivables.

As of September 30, 2025, the amortized cost of due from related parties are as follows:

DUE FROM RELATED PARTY

This consists of deposits made in 1999 by the Company for the acquisition of interest in the following company:

Aqua Rich, Inc	P 100,000,000
Discount On Due From Related Party	-
	<u>P 100,000,000</u>

The Company converted these deposits to loans with an annual interest rate of 3%, as provided in the respective memoranda of agreement.

A) **MANAGEMENT ASSESSMENT OF THE FINANCIAL RISK EXPOSURES OF THE COMPANY:**

RISK MANAGEMENT OBJECTIVES AND POLICIES

The Company is exposed to a variety of financial risks which result from both its operating and investing activities. The Company's risk management is coordinated with the parent company, in close cooperation with the BDO, and focuses on actively securing the Company's short-to-medium-term cash flows by minimizing the exposure to financial markets.

The Company does not actively engage in the trading of financial assets for speculative purposes nor does it write options. The financial risks to which the Company is exposed are described below:

1. Interest Rate Risk

The Company's policy is to minimize interest rate cash flow risk exposures on long-term financing. At September 30, 2025, exposures to changes in market interest rates refer to Company's cash in bank, which are subject to variable interest rates. The balance of cash in bank, however is not material.

2. Credit Risk

Generally, the maximum credit risk exposure of the financial assets is the carrying amount of the financial assets as shown on the face of the statements of financial position (or in detailed analysis provided in the notes to the financial statements), as summarized below:

Cash	P	222,291
Due from a related party		100,000,000
	P	<u>100,222,291</u>

To mitigate the risk, the Company's policy is to deal only with creditworthy counterparties. The Company has granted an unsecured loan to a related party amounting to P54,000,000 which has a net carrying value of P54,000,000 as of September 30, 2025. On January 2, 2013 THI assigned this loan payable to Aqua Rich Inc., a related party of the Company under common ownership and interlocking directors and officers. The company has also granted an unsecured loan to related party amounting to P46,000,000 which has a net carrying value of P 46,000,000 as of September 30, 2025. As such, the carrying value represents the Company's maximum credit risk exposure. Accordingly, credit risk, as assessed by management, is low. As to cash, the Company's bank accounts are maintained in highly reputable bank.

3. Liquidity Risk

Liquidity risk arises from the possibility that the Company may encounter difficulties in raising funds to meet commitments from financial instruments.

The Company's objectives to manage its liquidity profile are: (a) to ensure that adequate funding is available at all times; (b) to meet commitments as they arise without incurring unnecessary costs; and (c) to be able to access funding when needed at the least possible cost. Funding for expenditures are advanced by a stockholder of the Company.

As of September 30, 2025 and 2024, the Company's current financial liabilities amounted to P4,394,770 in both years.

B) MANAGEMENT DISCUSSIONS REGARDING ITS FINANCIAL INSTRUMENTS:

Financial Assets

Financial assets are recognized when the Company becomes a party to the contractual terms of the financial instrument. Financial assets, other than those designated and effective as hedging instruments are classified into the following categories: financial assets at fair value through profit or loss (FVTPL), loans and receivables, held-to-maturity investments and available-for-sale financial assets. Financial assets are assigned to the different categories by management on initial recognition, depending on the purpose for which the investments were acquired.

Regular purchases and sales of financial assets are recognized on their trade date. All financial assets that are not classified as at FVTPL are initially recognized at fair value plus any directly attributable transaction costs. Financial assets carried at FVTPL are initially recorded at fair value and transaction costs related to it are recognized in the profit or loss.

Currently, all of the Company's financial assets are categorized as loans and receivables. Loans and receivables are non derivative financial assets with fixed or determinable payments that are not quoted in an active market. They arise when the Company provides money, goods, or services directly to a debtor with no intention of trading the receivables. They are included in current assets, except for maturities greater than 12 months after the end of the reporting period which are classified as non-current assets.

The Company's financial assets categorized as loans and receivables are presented as Cash, Loans Receivable and Due from a Related Party in the statement of financial position. Cash includes cash on hand and in bank that are unrestricted and readily available for use in the operations of the Company. Cash in bank generally earns interest based on daily bank deposit rates.

Loans and receivables are subsequently measured at amortized cost using the effective interest method less impairment loss, if any. Impairment loss is provided when there is

objective evidence that the Company will not be able to collect all amounts due to it in accordance with the original terms of the receivables. The amount of the impairment loss is determined as the difference between the assets' carrying amount and the present value of estimated cash flows (excluding future credit losses that have not been incurred), discounted at the financial asset's original effective interest rate or current effective interest rate determined under the contract if the loan has a variable interest rate.

All income and expenses, except those arising from operating activities, relating to financial assets that are recognized in profit and loss are presented as part of Revenues or Finance Costs in the statement of comprehensive income.

Non-compounding interest and other cash flows resulting from holding assets are recognized in profit or loss when earned, regardless of how the related carrying amount of financial assets is measured.

The Financial assets are derecognized when the contractual rights to receive cash flows from the financial instruments expire, or when the financial assets and all substantial risks and rewards of ownership have been transferred to another party.

Financial Liabilities

Financial liabilities of the Company, which include Accrued Expenses and Other Payables and Due to a Stockholder, are recognized when the Company becomes a party to the contractual terms of the instrument. These are recognized initially at their fair values and subsequently measured at amortized cost, using effective interest method for maturities beyond one year, less settlement payments.

Financial liabilities are classified as current liabilities if payment is due to be settle within one year or less after the end of accounting period (or in normal operating cycle of the business, if longer), or the Company does have an unconditional right to defer settlement of the liability for at least twelve months after the end of the reporting period. Otherwise, these are presented as non-current liabilities.

Financial liabilities are derecognized from the statement of financial position only when obligations are extinguished either through discharge, cancellation or expiration. The difference between the carrying amount of the financial liability derecognized and the consideration paid or payable is recognized in profit or loss.

MANAGEMENT'S DISCUSSION AND STATUS OF OPERATIONS

The company presently derives revenue mainly from interest on loan and advances to a related party, which is considered its main business segment. Accordingly, no business segment information is presented in its financial statements.

The financial statements have been prepared using the measurement bases specified by PFRS for each type of asset, liability, income and expense. These financial statements have been prepared on a historical cost basis, except for the revaluation of certain financial assets. The measurement bases are more fully described in the accounting policies.

The company as an investment holding company, the Company's target is to acquire ownerships in shares of profitable corporations. However, due to the present economic condition, the Company has not been very active in any investing activity and is only receiving interest income from loans granted to a related party. These factors, among others, raised substantial doubt about the Company's ability to continue as a going concern. The Company's management, however, continues to assess possible investment opportunities that it may undertake in the future. The financial statements do not include any adjustments on the recoverability and classifications of the assets or the amounts and classification of the liabilities arising from these uncertainties.

At present, the company has no principal products or services because it has not decided as to what products or services it will introduce to the market.

Accounts that changed compared to quarter ending September 30, 2025 financial statement are as follows:

As of September 30, 2025, cash decreased by 34.74%, from P299,512 in 2024 to P222,291 in 2025. This was due mainly to low level of net cash used in operating activities amounting to P20,115 in 2025. For the period under review, interest income amounted to P2,242,466 and P2,247,272 for the 3rd quarter of 2025 and 2024, respectively.

Due from a related party. Amounting to P54,000,000. Due to loan receivable pertains to the loan granted to Takeda Holdings, Inc., a third party. The term of the loan agreement is for twenty-five (25) years up to June 2047, with 3% interest rate due and payable annually. Under PFRS, the loan is remeasured by reference to the market interest rate at the time of the inception of the loan. However, on January 2, 2013, THI assigned its loan payable to Aqua Rich, Inc., a related party of the Company under common ownership and interlocking directors and officers. As such, the loan was reclassified to Due from a Related Party.

Due from a related party. Amounted to P46,000,000. This account initially consisted of deposit made by the Company for the acquisition of equity interest in an entity that has common stockholders as the Company. Upon the expiration of the conversion period of the deposit into equity, the deposits were automatically converted into an unsecured loan. The loan will mature on August 2047, hence, presented under current assets.

Accrued expenses and other payables. Amounted to P4,394,770 for the period ended September 30, 2025 and September 30, 2024, respectively, the lease contract is for one-year renewable upon mutual agreement by both parties.

Result of Operations

Revenue. On September 30, 2025, the Company achieved revenue of P2,242,555 compare to P2,247,354 in 3rd quarter of 2024. This was primarily due to interest income on loan, and due to interest from a bank.

Operating Expenses. Total expenses increased from P1,954,890 in 3rd quarter of 2024 to P2,025,316 this quarter of 2025 due to increase in other operating expenses.

Net Income. The Company has a net income of P170,687 and P250,766 for the period September 30, 2025 and 2024 respectively.
