PART I – FINANCIAL INFORMATION

Item 1. Financial Statements

The financial statements and accompanying notes are filed as part of this form (pages 16 to 46).

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operation

The real estate industry in the Philippines has proven to be remarkably resilient and a significant contributor to the country's economy due to strong demand for both residential and commercial properties, supportive government policies and infrastructure projects, increasing overseas Filipino workers' (OFW) remittances, and favorable economic conditions.

As of the third quarter of 2025, the residential market in Metro Manila showed clear signs of recovery. According to market research Colliers Philippines, net take-up (units sold/committed) rose about to 5,900 units in 3rd Quarter, a 108% quarter-on-quarter increase and the highest in nine quarters. The recovery is being driven especially by the mid-income condominium segment, defined roughly as units priced between ₱2.5 million and ₱12.0 million.¹ In terms of value, residential properties in Metro Manila appreciated by 6.8% year-on-year in 3rd Quarter of 2025.² The growth in the residential sector is further supported by developers offering flexible payment terms and incentives, which is making homeownership more accessible for buyers. The office market is demonstrating sustained stability, primarily with the Information Technology and Business Process Management (IT-BPM) sector and traditional occupiers driving leasing activity. In the first nine months of 2025, total office demand reached 966,000 square meters (sqm), equivalent to 88% of 2024's full-year level. The IT-BPM sector remains the market's strongest anchor, accounting for 45% of this total demand and helping to normalize the Metro Manila office vacancy rate to 18%.³ This strong demand from the IT-BPM industry and a renewed push for return-to-office mandates have been instrumental in stabilizing the market, with prime districts like Bonifacio Global City and Makati CBD recording the tightest vacancies.

The Cityland Group's ongoing projects remain strategically concentrated in Metro Manila, a region characterized by its dense population and status as the country's primary economic engine, which ensures a high and consistent demand for vertical developments like condominium projects. The government's "Build Better More" program (formerly "Build Build Build"), which aims to significantly improve the country's transportation and logistics infrastructure, has continued to open opportunities specifically for real estate developers operating within Metro Manila and nearby provinces. As of the 3rd quarter of 2025, several critical infrastructure projects directly impacting Metro Manila are progressing, including the Metro Manila subway development, new highway networks, and ongoing airport expansions. The commitment to these transformative projects enhances seamless connectivity across various locations, making areas within and surrounding Metro Manila even more appealing for real estate development and investment, while simultaneously creating new job opportunities and fostering business expansions within the capital.

The Philippine Gross Domestic Product (GDP) posted a year-on-year growth of 4.0 percent in the third quarter of 2025⁴, significantly slowing from the 5.5 percent growth recorded in the second quarter. The economic growth slowed a more than four-year low of 4% in the third quarter as public construction was hit by a corruption scandal involving state infrastructure projects that has dampened consumer and investor sentiment⁵. Despite the GDP slowdown, the real estate sector's sustained recovery, driven by strong residential sales and stable office demand from the IT-BPM sector, continues to demonstrate its foundational importance to the Philippine economy.

Overall, the Philippine real estate industry has demonstrated fundamental resilience and is poised for continued expansion in the subsequent years. This positive outlook is driven by robust economic fundamentals, especially the expansion of the IT-BPM sector, the anticipated benefits from a softening interest rate environment, and the national government's "Build Better More" infrastructure program.

The Cityland Group of Companies will therefore continue to diligently monitor the demand in housing projects and implement proactive strategies to cope with changes in the environment and capitalize on the increasing demand within this dynamic and thriving urban landscape.

Merger with CDC

On August 27, 2025, the Board of Directors (BOD) of City & Land Developers, Incorporated (the Company) authorized and approved the Plan of Merger between the Company and Cityland Development Corporation (CDC), with CDC as the surviving entity. This was approved and ratified by the stockholders during the Special Stockholders' Meeting on October 10, 2025. The Plan of Merger has been submitted to the Securities and Exchange Commission (SEC) last October 24, 2025 and still in the process of review by the said regulatory body.

Company Operations

In February 2023, the Company launched One Hidalgo, a 40-storey mixed residential, office and commercial condominium located at 1730 P. Hidalgo Lim St., corner Gen. Malvar St., Malate, Manila which is expected to be completed in September 2027.

In October 2016, the Company launched One Taft Residences, a 40-storey mixed residential, office and commercial condominium located at 1939 Taft Avenue, Malate, Manila and was completed in May 2022.

Further, the Company completed last March 2018 the North Residences which is a 29-storey residential and commercial condominium located at EDSA corner Lanutan, Barangay Veterans Village, Quezon City (beside Waltermart).

Internal sources of liquidity come from sales of condominium units and real estate properties, collection of installment contracts receivables and contract assets and maturing short-term investments. External source of liquidity includes the proceeds from issuance of short-term commercial papers. Other sources include rental income, interest and dividend income.

Future Project:

Bonifacio Place

Bonifacio Place is a proposed mixed residential, office and commercial condominium project with basement parking levels and separate parking building to be located at Boni Avenue, Barangay Barangka Itaas, Mandaluyong City. It is about 450 meters away from the EDSA MRT Boni Station.

Financial Condition (September 30, 2025 vs. December 31, 2024)

The Company's balance sheet as of September 30, 2025 remained solid with total assets of ₱3,967.74 million, higher by 11.32% as compared to the audited balance as of December 31, 2024 of ₱3,564.39 million. The increase in total assets can be attributed to the sales of real estate properties and increase in contract assets since the percentage of completion increased. The collection of receivables and maturity of investments increased the cash and cash equivalents. The financial position remained stable as cash and cash equivalents and short-term investments stood at ₱151.96 million and ₱160.77 million as of September 30, 2025 and December 31, 2024, respectively.

On the liabilities side, total liabilities increased by 49.40% from ₱626.62 million as of December 31, 2024 to ₱936.20 million as of September 30, 2025. This was substantially due to increase in notes payable, accrued development costs, and deferred income tax liabilities.

Total equity as of September 30, 2025 stood at ₱3,031.54 million from ₱2,937.77 million as of December 31, 2024, slightly higher by 3.19% due to the income recognized, net of dividends declared as of the 3rd quarter of 2025.

Relevant ratios as of September 30, 2025, December 31, 2024 and September 30, 2024 are presented in the subsequent pages.

Results of Operation (September 30, 2025 vs. September 30, 2024)

Sales of real estate properties reached ₱519.47 million as compared to the same period last year of ₱209.74 million. Sales as of September 30, 2025 came from sale of condominium units of One Taft Residences and One Hidalgo. The sales recognized for the 3rd quarter of the current year was significantly higher than the sales generated as of the same period in 2024 due to higher percentage of completion of One Hidalgo which resulted to higher sales revenue recognized for the said project. The Company has been applying the percentage of completion on its revenue recognition and therefore aside from the current year's sales, additional revenues of prior year's sales were also recognized based on percentage of completion.

Other sources of income are financial income, rent income and other income. Financial income which is composed of interest income from sale of real estate properties, cash and cash equivalents and short-term investments accounted for 12.94% of total revenues. Likewise, rental income amounted to ₱8.26 million as of the 3rd quarter of 2025 as compared to ₱8.56 million of the same period last year. Other income (expense) – net, on the other hand, pertains to penalties charged to clients, other miscellaneous income (expense) and forfeited units. Revenue contribution of this account amounted to (₱2.15 million) and ₱6.15 million as of September 30, 2025 and 2024, respectively.

On the cost side, cost of real estate sales and operating expenses increased as these accounts move in tandem with the sales of real estate properties. In addition, provision for income tax increased due to the increase in provision for deferred income tax.

As a result of the foregoing, the Company recorded a net income as of September 30, 2025 of ₱139.90 million as compared to ₱102.06 million as of September 30, 2024. This translated into annualized earnings per share and return on equity of ₱0.12 and 6.15%, respectively as compared to the annualized ratios of the same period last year of ₱0.09 and 4.86%, respectively.

Items affecting assets, liabilities, equity, net income, or cash flows that are unusual because of their nature, size or incidents

There are no unusual items affecting assets, liabilities, equity, net income or cash flows.

Any changes in estimates of amounts reported in prior interim periods of the current financial year or changes in estimates of amounts reported in prior financial years that have a material effect in the current interim period

There are no changes in estimates of amounts reported in prior interim periods of the current financial year or changes in estimates of amounts reported in prior financial years that have a material effect in the current interim period.

Any issuances, repurchases, and repayments of debt and equity securities

Debt securities

The Company issued SEC-Registered Commercial Papers during the period with outstanding balance of ₱360.60 million as of September 30, 2025.

Equity securities

There are no issuances, repurchases and repayments of equity securities as of the second quarter of 2025.

Any material events subsequent to the end of the interim period that have not been reflected in the financial statements for the interim period

There are no material events subsequent to the end of the interim period that have not been reflected in the financial statements for the interim period.

Effect of changes in the composition of the issuer during the interim period, including business combinations, acquisition or disposal of subsidiaries and long-term investments, restructuring, and discontinuing operations.

On August 26, 2025, the Board of Directors of CDC approved the plan of merger with its subsidiary, CLDI, with CDC as the surviving entity. The Board of Directors of CLDI, in its meeting held last August 27, 2025, also approved such plan. The Plan of Merger was approved and ratified by the stockholders representing at least two-thirds (2/3) of the outstanding capital stock of both companies during the Special Stockholders' Meeting (SSM) held on October 9, 2025 (CDC) and October 10, 2025 (CLDI). The said Plan of Merger was submitted to SEC for approval last October 24, 2025 and still being reviewed as of the reporting date.

Under the said plan, CLDI will be merged into CDC pursuant to the provisions of the Revised Corporation Code of the Philippines. The Merger is considered as an internal restructuring and is expected to create a more agile, efficient and compliant organization, well-positioned for long-term success, including among others:

Increased Efficiency:

Streamlined operations and consolidated resources leading to improved productivity and reduced waste.

Better Resource Management:

Effective management of funds and resources that will result in cost savings and optimized utilization.

Simplified Reporting:

A clearer reporting structure that will enhance transparency and compliance with regulatory requirements.

Reduced Administrative Costs:

Consolidation that will lead to lower administrative expenses, allowing the organization to allocate resources more strategically

The Merger shall take effect on the first day of the quarter following the approval by the Securities and Exchange Commission (SEC) including the issuance of Certificate of Filing of the Articles and Plan of Merger and upon receipt by the Parties from the SEC of the duly approved and released Certificate of Merger.

Upon the effectivity of the Merger, shares of CLDI shareholders will be converted to CDC shares. The aggregate value of the consideration for the Merger shall be satisfied through the issuance by CDC of

1,389,117,489 primary common shares to the stockholders of CLDI, based on the agreed exchange ratio of 0.88 CDC share for every CLDI share. This makes the former shareholders of CLDI new shareholders of the Merged Company.

The share swap ratio was determined through a thorough and objective process to ensure fairness for both CDC and CLDI shareholders. A third-party financial advisor was hired to provide an independent analysis, ensuring that the proposed share swap ratio will be impartial and reasonable. This independent evaluation is a standard practice in mergers, thereby providing an added layer of assurance in protecting shareholder value.

Since CDC is the surviving entity, its stockholders will continue to hold the same number of shares in the combined entity. The Merger will not disrupt the ongoing projects or the overall business operations of both companies.

Any changes in contingent liabilities or contingent assets since the last annual balance sheet date

There are no contingent liabilities or contingent assets recorded since the last balance sheet date. The Company is contingently liable for certain lawsuits or claims filed by third parties which are either pending decisions by the courts or are under negotiation, the outcomes of which are not presently determinable. In the opinion of management and its legal counsel, the eventual liability under these lawsuits or claims, if any, will not have a material effect on the financial statements.

Hence, no provision was recognized as of September 30, 2025 and December 31, 2024.

Any Known Trends, Events or Uncertainties (Material impact on liquidity)

There are no any known trends, events or uncertainties that would materially affect the Company's liquidity.

Internal and External Sources of Liquidity

Internal sources come from sales of condominium and real estate properties, collection of installment contracts receivables and contract assets and maturing of short-term investments. Other sources include rental income, interest and dividend income. External sources come from issuances of commercial papers.

Any Material Commitments for Capital Expenditures and Expected Sources of Funds of such Expenditures

The estimated development cost of ₱372.45 million as of September 30, 2025 representing the accrued payable of sold real estate properties will be sourced through:

- a. Sales and lease of condominium and real estate properties;
- b. Collection of installment contract receivables and contract assets;
- c. Maturing short-term investments; and
- d. Issuance of short-term commercial papers.

Any Known Trend or Events or Uncertainties (Material Impact on Net Sales or Revenues or Income from Continuing Operations)

There are no known trends, events, or uncertainties that could affect the Company's net sales or revenues or income.

Any Significant Elements of Income or Loss that did not arise from Registrant's Continuing Operations

There were no significant elements of income or loss that did not arise from registrant's continuing operations.

Causes for any Material Changes from Period to Period in One or More Line of the Registrants Financial Statements

Financial Condition (September 30, 2025 vs. December 31, 2024)

- a) Increase in Cash and Cash Equivalents was due to additional placements during the quarter, sales and collection of receivables.
- b) Decrease in Short-term Investments was due to maturity of investments and shift to shorter term investments.
- c) Decrease in Installment Contracts Receivable was due to collection of past due accounts.
- d) Increase in total Contract Assets was substantially due to increase in percentage of completion of the Company's ongoing project.
- e) Decrease in total Cost to Obtain Contract was due to the recognition of commission expense relative to the Company's ongoing project.
- f) Increase in Real Estate Properties for Sale was due to construction costs incurred on the Company's ongoing project and increase in the percentage of completion.
- g) Increase in Other Receivables was substantially due to the increase in accrued interest and advances to customers and condominium corporations.
- h) Increase in Other Current Assets was substantially due to the recognition of prepaid tax and input VAT for the quarter. On the other hand, decrease in Other Noncurrent Assets was due to the decrease in utility deposits.
- i) Increase in total Accounts Payable and Accrued Expenses was substantially due to higher accrued expense on development costs and accrual of directors' fee.
- j) Decrease in total Contract Liabilities was due to the increase in percentage of completion of the ongoing project.
- k) Increase in Notes Payable was due to issuance of commercial papers during the period.
- l) Decrease in Income Tax Payable was due to higher creditable withholding tax.
- m) Decrease in Net Retirement Benefits Liability was due to recognition of net retirement benefit assets for the period ended September 30, 2025. The decline in this account is attributed to the change in actuarial assumptions particularly the decline in salary increases and increase in discount rate.
- n) Increase in Deferred Income Tax Liabilities – net was due to increase in deferred income tax liabilities on the difference between the tax basis and book basis of accounting for real estate transactions.
- o) Decrease in Unrealized Fair Value of Investments on FVOCI was due to decrease in market value of shares of stock.
- p) Increase in Retained Earnings is attributed to the net income recognized for the 3rd quarter of 2025.

Results of Operation (September 30, 2025 vs. September 30, 2024)

- a) Increase in Sales of Real Estate Properties was due to higher sales and increase in the percentage of completion of the ongoing project.
- b) Increase in Financial Income was due to higher interest income from installment contracts receivables and contract assets after the effect of the significant financing component.
- c) Decrease in Rent Income was substantially due to lower rental income from units held for lease.
- d) Increase in Cost of Real Estate Sales was due to increase in sales as this moves in tandem with the sale of real estate properties.
- e) Increase in Operating Expenses was substantially due to higher personnel expenses and professional fees.
- f) Increase in Financial Expenses was due to interest expense on notes payable.
- g) Increase in Other Expense – net was due to forfeited units during the quarter. Accordingly, other income as of September 30, 2025 also declined.
- h) Increase in Provision for Income Tax was due to higher provision for income tax - deferred.
- i) Increase in Net Income was due to increase in sales of real estate properties.

CITY & LAND DEVELOPERS, INCORPORATED
NOTES TO INTERIM CONDENSED FINANCIAL STATEMENTS

1. Corporate Information

City & Land Developers, Incorporated (the “Company”) was incorporated in the Philippines on June 28, 1988. Its primary purpose is to establish an effective institutional medium for acquiring and developing suitable land sites for residential, office, commercial, institutional and industrial uses primarily, but not exclusively, in accordance with the subdivision, condominium, and cooperative concepts of land-utilization and land-ownership. The Company’s registered office and principal place of business is 3/F Cityland Condominium 10, Tower I, 156 H. V. Dela Costa Street, Makati City.

The Company is 49.73%-owned by Cityland Development Corporation (CDC), a publicly listed company incorporated and domiciled in the Philippines. The Company’s ultimate parent is Cityland, Inc. (CI), a company incorporated and domiciled in the Philippines, which prepares consolidated financial statements and that of its subsidiaries.

Merger with CDC

On August 27, 2025, the Board of Directors (BOD) of the Company authorized and approved the Plan of Merger between the Company and CDC, with CDC as the surviving entity. This was approved and ratified by the stockholders during the Special Stockholders' Meeting on October 10, 2025. The Plan of Merger has been submitted to the Securities and Exchange Commission (SEC) last October 24, 2025 and still in the process of review by the said regulatory body.

On November 13, 2025, the Board of Directors, through the recommendation of the Audit and Risk Committee, approved and authorized the issuance of the Company’s unaudited financial statements as of and for the period ended September 30, 2025.

2. Summary of Material Accounting Policies

Basis of Preparation

The interim condensed financial statements of the Company have been prepared using the historical cost basis, except for financial assets measured at fair value through other comprehensive income (FVOCI) that have been measured at fair values. The financial statements are presented in Philippine peso (Peso), which is the Company’s functional and presentation currency. All values are rounded to the nearest Peso except when otherwise indicated. The Company has prepared the financial statements on the basis that it will continue to operate as a going concern.

Statement of Compliance

The accompanying interim condensed financial statements of the Company have been prepared in accordance with Philippine Accounting Standard (PAS) 34, *Interim Financial Reporting*.

The interim condensed financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Company’s annual financial statements as at December 31, 2024, which have been prepared in accordance with Philippine Financial Reporting Standards (PFRS) Accounting Standards.

Changes in Accounting Policies

The accounting policies adopted are consistent with those of the previous financial year, except for the adoption of new standards effective in 2025. The Company has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

Unless otherwise indicated, adoption of these new standards did not have an impact on the financial statements of the Company.

- Amendments to PAS 21, *Lack of exchangeability*

The amendments specify how an entity should assess whether a currency is exchangeable and how it should determine a spot exchange rate when exchangeability is lacking.

Adoption of the provisions of Philippine Interpretation Committee (PIC) Q&A 2018-12, PFRS 15 *Implementation Issues Affecting the Real Estate Industry* (as amended by PIC Q&A 2020-02 and 2020-04)

On February 14, 2018, the PIC issued PIC Q&A 2018-12 which provides guidance on some PFRS 15 implementation issues affecting the real estate industry. On October 25, 2018, and February 8, 2019, the SEC issued SEC MC No. 14-2018 and SEC MC No. 3-2019, respectively, providing relief to the real estate industry by deferring the application of certain provisions of this PIC Q&A for a period of three years until December 31, 2020. On December 15, 2020, the SEC issued SEC MC No. 34-2020 which further extended the deferral of certain provisions of this PIC Q&A until December 31, 2023.

Starting January 1, 2024, the Company adopted the remaining provisions of PIC Q&A 2018-12, specifically on the (i) significant financing component, and (ii) implementing the IFRIC Agenda Decision on Over Time Transfer of Constructed Goods (PAS 23, *Borrowing Cost*). The Company opted to adopt the changes using modified retroactive approach in its annual financial statements effective January 1, 2024 and the impact was recognized in the opening retained earnings. The comparative information was not restated.

The Company has already adopted the provision of PIC Q&A 2018-12 relating to the exclusion of land in the determination of percentage of completion (POC) in previous years while the impact of implementing the IFRIC Agenda Decision on borrowing cost has no impact on the financial statements since the Company has not incurred borrowing costs in previous years. The Company recalculated the impact of the adoption of the PIC Q&A 2018-12 as shown in its 2024 annual audited financial statements. The following is the tabular format to show the impact of the adoption to balances of affected accounts as at January 1, 2024.

January 1, 2024

	₱1,255,405,843	₱154,767,997	₱1,410,173,840

The impact of ₱109.54 million represents the reversal of unamortized discount on installment contract receivables and contract assets.

Material Accounting Policy Information

The following are the material accounting policies of the Company:

Real Estate Properties for Sale

Property acquired or being constructed for sale in the ordinary course of business, rather than to be held for rental or capital appreciation, is classified as real estate properties for sale and measured at the lower of cost and net realizable value (NRV).

Cost includes:

- Land cost
- Amounts paid to contractors for construction
- Planning and design costs, costs of site preparation, professional fees, property transfer taxes, construction overheads and other related costs

NRV is the estimated selling price in the ordinary course of the business, based on market prices at the reporting date, less estimated costs to complete and the estimated costs necessary to make the sale. The Company recognizes the effect of revisions in the total project cost estimates in the year in which these changes become known.

Gains or losses resulting from cancellations and forfeitures of sale of real estate properties are credited or charged to "Other income - net" in the statement of income.

Revenue Recognition

The Company primarily derives its real estate revenue from the sale of real estate projects. Revenue from contracts with customers is recognized when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. The Company has generally concluded that it is the principal in its revenue arrangements, except for the provisioning of water, electricity, air-conditioning and common use service area in its office leasing activities, wherein it is acting as agent.

The disclosures of significant accounting judgments, estimates and assumptions relating to revenue from contracts with customers are provided in Note 3.

Sales of real estate properties

The Company derives its real estate revenue from sale of condominium units. Revenue from the sale of these real estate projects under pre-completion stage are recognized over time during the construction period or through percentage-of-completion (POC) since based on the terms and conditions of its contract with the customers, the Company's performance does not create an asset with an alternative use and the Company has an enforceable right to payment for performance completed to date. In determining the transaction price, the Company considers whether the selling price of the real estate property includes significant financing component.

In measuring the progress of its performance obligation over time, the Company uses input method. Input methods recognize revenue on the basis of the entity's efforts or inputs to the satisfaction of a performance obligation. Progress is measured based on actual resources consumed such as materials, labor hours expended and actual overhead incurred relative to the total expected inputs to the satisfaction of that performance obligation, or the total estimated development costs of the real estate project. The Company uses the costs accumulated by the accounting department to determine the actual resources used. Input method excludes the effects of any inputs that do not depict the entity's performance in transferring control of goods or services to the customer.

Estimated development costs of the real estate project include costs of land, land development, building costs, professional fees, depreciation of equipment directly used in the construction, payments for permits and licenses. Revisions in estimated development costs brought about by increases in projected costs in excess of the original budgeted amounts, form part of total project costs on a prospective basis.

Any excess of progress of work over the right to an amount of consideration is recognized as installment contract receivables (unconditional) or contract asset (conditional) in the asset section of the statement of financial position.

Any excess of collections over the total of recognized installment contract receivables is included in the "Contract liabilities" account in the liabilities section of the statement of financial position.

Cost recognition

The Company recognizes costs relating to satisfied performance obligations as these are incurred. These include costs of land, land development costs, building costs, professional fees, depreciation, permits and licenses and capitalized borrowing costs. These costs are allocated to the saleable area, with the portion

allocable to the sold area being recognized as costs of sales while the portion allocable to the unsold area being recognized as part of real estate inventories.

In addition, the Company recognizes as an asset only costs that give rise to resources that will be used in satisfying performance obligations in the future and that are expected to be recovered.

Financial expenses

Financial expenses consist of interest incurred on notes payable. Interest attributable to a qualifying asset is capitalized as part of the cost of the asset while others are expensed as incurred.

For real estate inventories, interest is capitalized on the purchase cost of site of property acquired specifically for sale but only to the extent where activities necessary to prepare the asset for selling are in progress prior to pre-selling activities.

Standards Issued but not yet Effective

Pronouncements issued but not yet effective are listed below. Unless otherwise indicated, the Company does not expect that the future adoption of the said pronouncements will have a significant impact on its financial statements. The Company intends to adopt the following pronouncements when they become effective.

Effective beginning on or after January 1, 2026

- Amendments to PFRS 9 and PFRS 7, *Classification and Measurement of Financial Instruments*
- Annual Improvements to PFRS Accounting Standards - Volume 11

 - Amendments to PFRS 9, *Lessee Derecognition of Lease Liabilities and Transaction Price*
 - Amendments to PFRS 10, *Determination of a 'De Facto Agent'*
 - Amendments to PAS 7, *Cost Method*

Effective beginning on or after January 1, 2027

- PFRS 18, *Presentation and Disclosure in Financial Statements*
- PFRS 19, *Subsidiaries without Public Accountability*

Deferred effectivity

Amendments to PFRS 10, *Consolidated Financial Statements*, and PAS 28, *Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*

3. Significant Accounting Judgments, Estimates and Assumptions

The preparation of the financial statements requires management to make judgments, estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes.

In the opinion of management, these interim condensed financial statements reflect all adjustments necessary to present fairly the results for the periods presented. Actual results could differ from such estimates.

Except as otherwise stated, the significant judgments, estimates and assumptions used in the preparation of the interim condensed financial statements are consistent with those used in the annual financial statements as at and for the year ended December 31, 2024.

4. Cash and Cash Equivalents and Short-term Investments

Cash and cash equivalents consist of:

	September 30, 2025	December 31, 2024
Cash on hand and in banks	₱13,964,415	₱15,270,034
Cash equivalents	138,000,000	—
	₱151,964,415	₱15,270,034

Cash in banks earn interest at the respective bank deposit rates. Cash equivalents are made for varying periods of up to three months depending on the immediate cash requirements of the Company and earn interest at the respective short-term investment rates.

Short-term investments amounting to nil and ₱145.50 million as of September 30, 2025 and December 31, 2024, respectively, pertain to bond investments that have maturities of more than three months to one year from the date of acquisition and earn interest at the prevailing market interest rates.

Information pertaining to the interest income earned from cash in banks, cash equivalents and short-term investments are disclosed in Note 14.

5. Revenue from Contracts with Customers

a. Disaggregated Revenue Information

The Company derives revenue from real estate sales over time in different product types. The disaggregation of each source of revenue from contracts with customers are as follows:

Type of Product	September 30, 2025	September 30, 2024
High rise condominium units	₱469,731,898	₱197,220,106
Parking slots and others	49,736,908	12,518,266
Total	₱519,468,806	₱209,738,372

Real estate sales of the Company for the quarter ended September 30, 2025 and 2024 pertain to sale of properties within Metro Manila. All of the Company's real estate sales are revenue from contracts with customers recognized over time. Sales for real estate properties and rental income arose from contracts with external customers. There were no intercompany sales/transactions made on the said quarters.

Contract Balances

	September 30, 2025	December 31, 2024
Installment contracts receivable - current	₱401,770	₱475,480
Contract assets		
Current	216,794,143	242,495,317
Noncurrent	698,972,762	396,625,135
Contract liabilities		
Current	(29,328,264)	(51,358,612)
Noncurrent	(29,233,350)	(22,006,052)

Installment contracts receivable arises from sales of real estate properties and are collectible in monthly installments for periods ranging from one (1) to ten (10) years which bears monthly interest rates of 0.92% to 1.33% in September 30, 2025 and December 31, 2024 computed on the diminishing balance.

The Company, CI and CDC (collectively known as the Group) entered into a contract of guaranty under Retail Guaranty Line with Philippine Guarantee Corporation (PHILGUARANTEE). The amount of installment contracts receivable enrolled and renewed by the Company amounted to ₱112.00 million and ₱236.00 million as of September 30, 2025 and December 31, 2024, respectively. The Company paid a guaranty premium of 1.00% based on the outstanding principal balances of the receivables enrolled.

Contract assets represent the right to consideration that was already delivered by the Company of the amount recognized as installment contracts receivable. This is reclassified as installment contracts receivable when the monthly amortization of the buyer is already due for collection.

In September 2019, PIC issued additional guidance to the real estate industry on the implementation of PFRS 15, including guidance on the recording of the difference between the consideration received from the buyer and the transferred goods to the buyer (i.e., measured based on percentage-of-completion). The PIC allowed real estate companies to recognize the difference as either a contract asset or unbilled receivable. If presented as a contract asset, the disclosures required under PFRS 15 should be complied with. Otherwise, the disclosures required under PFRS 9 should be provided.

The Company opted to retain its existing policy of recording the difference between the consideration received from the buyer and the transferred goods to the buyer as contract asset.

Interest income earned from installment contracts receivable and contract assets are disclosed in Note 14.

Contract liabilities consist of collections from real estate buyers which have not reached the equity threshold to qualify for revenue recognition and excess of collections over the goods and services transferred by the Company based on percentage of completion. Revenue included in the contract liability is recognized based on the movement of the percentage of completion.

b. Performance Obligation

Information about the Company's performance obligations are summarized below:

Real estate sales

The Company entered into contracts to sell with one identified performance obligation which is the sale of the real estate unit together with the services to transfer the title to the buyer upon full payment of contract price. The amount of consideration indicated in the contract to sell is fixed and has no variable consideration.

The sale of real estate unit covers condominium unit and Company concluded that there is one performance obligation in each of the contracts. The Company recognizes revenue from the sale of these real estate projects under pre-completed contract over time during the course of the construction.

Payment commences upon signing of the contract to sell and the consideration is payable in cash or under various financing schemes entered with the buyer. The financing scheme would include down payment of generally 5% to 10% of the contract price with the remaining balance payable through in-house financing which ranges from one (1) month to ten (10) years with fixed monthly payment. The amount due for collection under the amortization schedule for each of the customer does not necessarily coincide with the progress of construction, which results to either a contract asset or contract liability.

To cope with the current trend in the real estate industry, the Company offered to customers the "installment down payment" scheme starting 2020 wherein certain projects were offered with 20 to 36 months to pay the corresponding down payment. The new scheme introduced by the Company resulted to sales with percentage of collection lower than 10%. The Company records these collections as "Customers' deposits" under "Accounts payable and accrued expenses" account in the statements of financial position.

The transaction price allocated to the remaining performance obligations (unsatisfied or partially satisfied) as at September 30, 2025 and December 31, 2024 amounted to ₱170.21 million and ₱301.62 million, respectively.

As of September 30, 2025, the Company has an ongoing project, One Hidalgo, which is expected to be completed in September 2027.

The remaining performance obligations expected to be recognized within one (1) year and in more than one (1) year relate to the continuous development of the Company's real estate projects. The Company's condominium units are completed within three (3) years to five (5) years from start of construction.

c. Cost to obtain contract

The balances below pertain to the cost to obtain contracts as of September 30, 2025 and December 31, 2024 as presented in the statement of financial position:

	September 30, 2025	December 31, 2024
Balance at beginning of period/year	₱7,344,524	₱5,740,923
Additions	5,746,600	7,937,134
Amortization	(6,625,720)	(6,333,533)
Balance at end of period/year	6,465,404	7,344,524
Less: noncurrent portion	3,227,463	4,473,822
Current portion	₱3,237,941	₱2,870,702

6. Other Receivables

Other receivables consist of:

	September 30, 2025	December 31, 2024
Advances to customers	₱2,977,238	₱2,474,472
Accrued interest (Note 12)	4,087,807	3,078,248

Less: noncurrent portion	831,969	783,628
Current portion	₱8,282,547	₱6,708,926

Advances to customers are receivables of the Company for the real estate property taxes of sold condominium units and expenses relating to the transfer of titles initially paid by the Company. Accrued interest pertains to interest income earned as of the reporting period but not yet received by the Company. Retention pertains to the amount held on cash sale of real estate properties. Advances to condominium corporations pertain to disbursements which are collectible from condominium corporations. Due from related parties pertains to the amount of receivables to be collected from related parties where one party can exercise control or significant influence over another party. Rent receivable arose from the investment properties rented-out under non-cancellable long-term operating lease contracts (see Note 8). Other receivables include other expenses initially paid by the Company on behalf of the buyers and employees' advances.

7. Real Estate Properties for Sale

Real estate properties for sale consists of cost incurred in the development of condominium units and residential houses for sale.

The movements of real estate properties for sale are as follows:

	September 30, 2025	December 31, 2024
Balances at beginning of period/year	₱2,177,117,444	₱1,639,435,839
Cost of real estate sales	(308,476,796)	(150,245,690)

Balances at end of period/year	₱2,311,591,760	₱2,177,117,444

Other adjustments include realized deemed cost adjustment and adjustment on repossessed real estate properties.

8. Investment Properties

Investment properties as of September 30, 2025 and December 31, 2024 represent real estate properties for lease which consist of:

	September 30, 2025	December 31, 2024
Land – at cost		
Balances at beginning and end of period/year	₱473,251,442	₱471,136,436
Additions	–	2,115,006
Balances at the end of period/year	473,251,442	₱473,251,442

(Forward)

	September 30, 2025	December 31, 2024
Building – at cost		
Cost		
Balances at beginning and end of period/year	814,458	814,458
Accumulated Depreciation		
Balances at beginning and end of period/year	(814,458)	(814,458)
Net book value	–	–
Total net book values	₱473,251,442	₱473,251,442

The net book value of land includes deemed cost adjustment amounting to ₱12.67 million as of September 30, 2025 and December 31, 2024. The deemed cost adjustment arose when the Company transitioned to PFRSs in 2005.

Rent income from real estate properties for lease amounted to ₱8.26 million and ₱8.56 million in September 30, 2025 and September 30, 2024, respectively.

Investment properties are rented out at different rates generally for a one-year term renewable every year.

The Company has an existing non-cancellable operating lease contract with a domestic corporation which commenced in July 2018 with a lease term of five (5) years and was renewed for another five (5) years.

In 2025, the Company entered into new long-term lease transactions with an individual for a lease term of three (3) years, respectively. Additional short-term lease contracts were also entered into by the Company.

In 2021, the Company granted lease concessions to its lessee resulting to modifications in the lease contract. The Company accounted the modification to operating lease as a new lease from the effective date of the modification, considering any prepaid or accrued lease payments relating to the original lease as part of the lease payments for the new lease. No lease concessions were provided as of September 30, 2025 and for the years 2024 and 2023.

The future minimum lease payments for these lease agreements are as follows:

	September 30, 2025	December 31, 2024
Not later than one year	₱3,768,800	₱2,665,942
Later than one year and not later than five years	6,153,188	6,107,672
	₱9,921,988	₱8,773,614

Rental agreements

The Company entered into lease agreements for its office spaces and condominium units for lease with the following identified performance obligations: (a) lease of space; and (b) provisioning of water and electricity. Revenue from lease of space is recognized on a straight-line basis over the lease term while revenue for the remaining performance obligations are recognized when services are rendered. The tenant is required to issue post-dated check on the monthly rental payments. In case of delay in payments, a penalty of about 4% per annum is charged for the amount due for the duration of delay. The lease arrangement for the Company's long-term lease transactions would typically require a tenant to pay advance rental equivalent to three (3) months and a security deposit equivalent to three (3) months rental to cover any breakages after the rental period, with the excess returned to the tenant.

9. Other Assets

Other current assets consist of input VAT, prepaid tax, prepaid expenses and advances to contractors amounting to ₱31.56 million and ₱28.16 million as of September 30, 2025 and December 31, 2024, respectively.

Other noncurrent assets consist of:

	September 30, 2025	December 31, 2024
Guaranty deposit	₱62,999,438	₱62,999,438
Utility deposits	2,550,660	6,592,787
Financial assets at fair value through other comprehensive income (FVOCI)	111,102	137,661
Rental deposits and others	925,441	925,442
	₱66,586,641	₱70,655,328

Guaranty deposit pertains to placement made by Credit & Land Holdings, Inc., an affiliate of the Company, in favor of the Housing and Land Use Regulatory Board (HLURB) wherein the Company is required to secure a cash bond in relation to the construction and development of its ongoing project (see Note 12). Interest income earned from guaranty deposits is disclosed in Notes 12 and 14.

Utility deposits pertain to water and electricity deposits by the Company.

Financial assets at FVOCI consist of investments in quoted equity securities. The movements in “Unrealized fair value change on financial assets at FVOCI” account presented in the equity section of the statements of financial position are as follows:

	September 30, 2025	December 31, 2024
Balances at beginning of period/year	₱135,855	₱154,469
Changes in fair value	(26,559)	(18,614)
Balances at end of period/year	₱109,296	₱135,855

Rental deposits and others pertain to deposits from lease contracts and advances made by the Company for the contractors’ supply requirements. The impact of discounting is immaterial.

10. Accounts Payable and Accrued Expenses

Accounts payable and accrued expenses consist of:

	September 30, 2025	December 31, 2024
Trade payables	₱24,041,874	₱28,831,890
Accrued expenses:

Less noncurrent portion	26,800,532	29,653,098
Current portion	₱421,963,304	₱238,546,361

Trade payables consist of payables to suppliers, contractors and other counterparties. Accrued expenses represent various accruals of the Company for its expenses and real estate projects. Accrued development costs represent the corresponding accrued expenses for the completed condominium units of the Company. Customers’ deposits include collections from sales of the Company’s ongoing project, One Hidalgo. The account also consists of customers’ reservation fees, rental deposits and collected deposits for water and electric meters of the sold units and security deposits made by the lessees on the Company’s properties for lease which is typically equivalent to three (3) months rental. Deferred rent income pertains to rent received from long-term operating lease. Other payables pertain to commissions from sales transactions and employees’ payable.

11. Notes Payable

Notes payable amounting to ₱360.60 million and ₱240.40 million as of September 30, 2025 and December 31, 2024, respectively, pertains to short-term commercial papers with varying maturities ranging from 30 to 365 days and annual average interest rate of 0.81% to 1.13% as of September 30, 2025 and 1.13% as of December 31, 2024. Interest expense on notes payable is disclosed in Note 18. Total interest paid related to commercial papers for the nine months period ended September 30, 2025 and for the year ended December 31, 2024 amounted to ₱2.32 million and ₱0.01 million, respectively.

On December 20, 2024, the SEC authorized the Company to issue ₱400.00 million worth of commercial papers registered with the SEC, in accordance with the provision of the Securities Regulation Code and its implementing rules and regulations and other applicable laws and orders.

The Company, CI, CDC and Cityplans, Incorporated (CPI) [the Group] have credit lines with financial institutions aggregating to about ₱2.30 billion as of September 30, 2025 and December 31, 2024, of which ₱1.80 billion are available for drawing by any of the companies within the Group. No loans were availed by the Group from the credit line as of September 30, 2025 and December 31, 2024.

The Company has no specific credit lines with financial institutions as of September 30, 2025 and December 31, 2024.

The carrying values of CDC's investment properties and real estate properties for sales that can be used as collaterals for the Group's credit lines as of September 30, 2025 and December 31, 2024 are as follows:

Investment properties	₱146,666,172

12. Related Party Transactions

Enterprises and individuals that directly, or indirectly through one or more intermediaries, control or are controlled by or under common control with the Company, including holding companies, subsidiaries and fellow subsidiaries, are related parties of the Company. Associates and individuals owning, directly or indirectly, an interest in the voting power of the Company that gives them significant influence over the enterprise, key management personnel, including directors and officers of the Company and close members of the family of these individuals, and companies associated with these individuals also constitute related parties. In considering each possible related entity relationship, attention is directed to the substance of the relationship and not merely the legal form.

The Company discloses the nature of the related party relationship and information about the transactions and outstanding balances necessary for an understanding of the potential effect of the relationship on the financial statements, including, as a minimum, the amount of outstanding balances and its terms and conditions including whether they are secured, and the nature of the consideration to be provided in settlement.

The Company, in the normal course of business, has transactions and account balances with related parties consisting mainly of the following:

- a. The Board of Directors of the Company, in its special meeting on May 13, 2025, approved the declaration of cash dividends with the amount of ₱0.0300 per share. The said cash dividend was paid on June 18, 2025.

On May 31, 2024, the Board of Directors of the Company approved the declaration of cash dividends with the amount of ₱0.0338 per share in its special meeting. The said cash dividend was paid on July 24, 2024.

- b. The Company has an existing agreement with CI, CDC and CPI whereby personnel costs and common recurring expenses such as water, electricity, rental, and other expenses for which the companies have benefited from such service shall be shared among the companies and billed with a pre-agreed mark-up rate. These are recorded as part of "Operating expenses" in the statement of income. The income recognized as a result of the mark-up charged is recorded as "Other Income (Expense) - net" in the statements of income. These are unsecured, unguaranteed, non-interest bearing, and due within 30-60 days.
- c. The Company has no standard arrangements with regard to remuneration of its directors. Moreover, the Company has no standard arrangement with regard to the remuneration of its existing officers aside from the compensation received or any other arrangements in the employment contracts and compensatory plan. The Company does not have any arrangements for stock warrants or options offered to its employees.

19. Retirement Plan

Under the existing regulatory framework, Republic Act No. 7641, The Philippine Retirement Pay Law, requires a provision for retirement pay to qualified private sector employees in the absence of any retirement plan in the entity, provided, however, that the employees retirement benefit under the collective bargaining and other agreements shall not be less than provided under the law. The law does not require minimum funding of the plan.

Retirement benefits cost

The Company, jointly with affiliated companies, has a funded, noncontributory defined benefit retirement plan, covering all of its permanent employees. This provides for payment of benefits to covered employees upon retirement subject to certain condition which is based on a certain percentage of the employee's final monthly salary and the number of years of service.

The fund is administered by a third-party trustee bank under the supervision of the Retirement Committee of the plan who is responsible for the investment strategy of the plan.

21. Basic/Diluted Earnings Per Share

Basic/diluted earnings per share amounts were computed as follows:

	September 30, 2025	September 30, 2024
a. Net income	₱139,904,654	₱102,061,504
b. Weighted average number of shares	1,578,542,601	1,578,542,601
c. Basic/diluted earnings per share (a/b)	₱0.09	₱0.06

The Company has no potential dilutive common shares as of September 30, 2025 and 2024. Thus, the basic diluted earnings per share are the same as of those dates.

22. Financial Instruments and Fair Value Measurement

Financial Risk Management Objectives and Policies

The Company's principal financial instruments comprise cash and cash equivalents, short-term investments, and notes payable. The main purpose of these financial instruments is to finance the Company's operations. The Company's other financial instruments consist of financial assets at FVOCI, which are held for investing purposes. The Company has various other financial instruments such as installment contracts receivable, contract assets, other receivables and accounts payable and accrued expenses which arise directly from its operations.

It is, and has been throughout the year under review, the Company's policy that no trading in financial instruments shall be undertaken. The Company has no investment in foreign securities.

The main risks arising from the Company's financial instruments are credit risk and liquidity risk. The Board of Directors is mainly responsible for the overall risk management approach and for the approval of risk strategies and principles of the Company and they are summarized as follows:

Credit risk

Credit risk arises when the Company will incur a loss because its customers, clients, or counterparties fail to discharge their obligations. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and financial institutions and other financial instruments.

The Company trades only with recognized, creditworthy third parties. It is the Company's policy that all customers who wish to trade on credit terms are subject to credit verification procedures. In addition, receivable balances are monitored on an on-going basis with the objective that the Company's exposure to bad debts is not significant. The risk is further mitigated because the Company holds the title to the real estate properties with outstanding installment contracts receivable balance and the Company can repossess such real estate properties upon default of the customer in paying the outstanding balance. The Company's policy is to enter into transactions with a diversity of credit-worthy parties to mitigate any significant concentration of credit risk. There are no significant concentrations of credit risk within the Company.

The tables on the next page show the Company's exposure to credit risk for the components of the statements of financial position. The exposure as of September 30, 2025 is shown at gross, before taking the effect of mitigation through the use of collateral agreements and other credit enhancements, and the maximum exposure at net, after taking the effect of mitigation through the use of collateral agreements and other credit enhancements.

The following table summarizes the aging analysis of receivables and the credit quality of the receivables as of September 30, 2025:

* High Grade - financial assets with reputable counterparties and which management believes to be reasonably assured to be recoverable.

** Medium Grade - financial assets for which there is low risk on default of counterparties.

The Company has performed an expected credit loss (ECL) calculation for its financial assets at amortized cost. The expected credit loss is a product of the probability of default, loss given default and exposure at default.

In determining the probability of default, the Company used historical default rates for the last five years for the installment sales from its buyers and last two years for other receivables. The Company applied the possible effects of macroeconomic factors to the historical loss rate. For loss given default, the Company determined the fair value less cost of repossession of collaterals upon default is higher than the exposure at default. Thus, no expected credit loss was recognized for the Company's installment contract receivables, contract assets and other receivables from its buyer.

The Company considers its cash and cash equivalent and short-term investments as high grade since these are placed in financial institution of high credit standing. Accordingly, ECL relating to cash and cash equivalent and short-term investment rounds to nil.

The Company considers other receivables from third parties and related parties as medium grade. Third parties are primarily managed through screening based on credit history and financial information submitted. Whereas, related parties have low risk of default and have a strong capacity to meet their contractual cash flows in the near term.

Liquidity risk

Liquidity is defined as the risk that the Company could not be able to settle or meet its obligations on time or at a reasonable price.

The table below summarizes the maturity analysis of the Company's financial liabilities as of September 30, 2025:

	Up to One Year	Above One Year	Total
Accounts payable and accrued expenses *	₱420,380,165	₱26,800,532	₱447,180,697
Notes payable**	364,609,151	—	364,609,151
	₱784,989,316	₱26,800,532	₱811,789,848

* Excluding statutory liabilities amounting to ₱1,583,139.

** Includes future interest cash flows until maturity amounting to ₱4,009,151.

Fair Values

The following tables provide fair value hierarchy of the Company's financial assets, repossessed real estate properties for sale and investment properties, other than those with carrying amounts are reasonable approximations of fair values:

	Date of Valuation	Fair value		
		Level 1	Level 2	Level 3
Assets measured at fair value				
Financial assets at FVOCI	September 30, 2025	₱109,296	₱—	₱—
Asset for which fair values are disclosed				
Investment properties	May 31, 2025	—	—	2,570,110,000

The following method and assumptions were used to estimate the fair value of each class of financial instruments, repossessed inventories, and investment properties for which it is practicable to estimate such value:

Cash and cash equivalents, short-term investments, installment contracts receivable, other receivables, accounts payable and accrued expenses

Due to the short-term nature of the transactions, the fair values of cash and cash equivalents, short-term investments, other receivables, accounts payable and accrued expenses approximate their carrying amounts. The fair value of installment contracts receivable approximates its carrying amount as it carries interest rates that approximate the interest rate for comparable instruments in the market.

Financial Assets at FVOCI

Financial assets at FVOCI are stated at fair value based on quoted market prices.

Investment properties

The fair value of investment properties is determined using sales comparison. Sales comparison approach considers the sales of similar or substitute properties and other related market data had the investment properties been transacted in the market. The significant unobservable inputs used in determining the fair value are the sales price per square meter of similar or substitute property, location, size, shape of lot and the highest and best use.

Another method used in determining the fair value of land properties is based on the market data approach. The value of land is based on sales and listings of comparable property registered within the vicinity. This requires adjustments of comparable property by reducing reasonable comparative sales and listings to a common denominator by adjusting the difference between the subject property and those actual sales and listings regarded as comparable. The comparison is premised on the factors of location; size and shape of the lot; time element and others.

The fair value of the investment properties represents the highest and best use of the said properties which is the same with its current use. The management believes that there have been no significant changes in the market conditions or the properties' circumstances between the date of the appraisal and the period-end date.

23. Business Segments

The Company derives its revenues primarily from the sale and lease of real estate properties. The Company does not have any major customers and all sales and leases of real estate properties are made to external customers.

24. Contingencies

The Company is contingently liable for certain lawsuits or claims filed by third parties related to the Company's property rights which are either pending decisions by the courts or are under negotiation, the outcomes of which are not presently determinable. In the opinion of management and its legal counsel, the eventual liability under these lawsuits or claims, if any, will not have a material effect on the financial statements. Hence, no provision was recognized as of September 30, 2025 and December 31, 2024. In accordance with PAS 37, *Provisions, Contingent Liabilities and Contingent Assets*, the Company opted not to disclose additional information related to these lawsuits or claims as it might seriously prejudice its position.
