7 November 2025

Engr. Luis R. Sarmiento, ASEAN Eng.

President & CEO

APEX MINING CO., INC. (AMCI)

3304-B West Tower, Tektite Towers,

Exchange Road, Ortigas Center, Pasig City, Philippines

Thru: Mr. Billy G. Torres

SVP – Chief Finance Officer, Treasurer and Compliance Officer

Mr. Eric S. Andal, Ph.D.

VP for Geology & Exploration

Dear Sir **Engr. Sarmiento**:

This is in reference to our Quarterly Report filing related to SEC 17-Q for AMCI's Exploration Results declaration with guidance from the Philippine Stock Exchange (PSE) Memorandum CN - No. 2025-0002 with subject: "EFFECTIVITY OF THE IMPLEMENTING RULES AND REGULATIONS OF THE PHILIPPINE MINERAL REPORTING CODE 2020 EDITION" dated 8 January 2025.

Please see below our declaration related to the reporting of Exploration Results for the Mineral Properties: MPSA 225-2005-XI and MPSA 234-2007-XI, with data cut-off date of 30 September 2025 from 01 July 2025.

Attached also is the signed and sealed Accredited Competent Person's (ACP) consent form, consent statement, and certificates.

Thank you.

Sincerely yours,

Darwin Edmund L. Riguer, MSc

GSP - Life Member & SEG - Fellow

ACP - Geology Reg No.

APEX MINING CO., INC.

Masara, Maco, Davao de Oro

Summary of Exploration Results – MPSA 225-2005-XI

During the third quarter of 2025, Apex Mining Co., Inc. continued its comprehensive surface and underground exploration programs within MPSA 225-2005-XI (MPSA 225). The primary objective remains to support updates to the company's Mineral Resource categories in alignment with ongoing technical and operational goals.

Summary of Drilling Activities

Exploration activities in MPSA-225 during the third quarter of 2025 were executed via both underground and surface drilling programs, collectively completing 9,284.70 meters across a total of twenty-four (24) drill holes.

Underground Drilling Program

The underground drilling program focused on delineating the vertical and lateral extensions of the Maco Mine's major vein systems, specifically the Sandy (SDN), Bonanza (BNZ), and Bibak (BBK) veins, as well as their associated splits. This program utilized one (1) in-house and two (2) contract drilling projects, totaling 5,726.70 meters across fifteen (15) drill holes, of which thirteen (13) were completed during the quarter.

Surface Drilling Program

The surface drilling program completed a total of 3,558 meters across nine (9) drill holes utilizing four (4) in-house rigs. This effort was primarily aimed at delineating the vertical and lateral boundaries of the Saint Francis, Ma. Inez, and Don Calixto vein systems.

All samples are currently undergoing Quality Assurance / Quality Control (QA/QC), which includes the insertion of Certified Reference Materials (CRMs), blanks, and duplicates at industry-standard frequencies. Initial assay results have been received, but the final, verified results and a completed QA/QC report are pending completion and independent review by the designated Accredited Competent Person. Final interpretations of all Exploration Results, including full QA/QC verification and internal technical review, will be disclosed in full compliance with the Philippine Mineral Reporting Code 2020.

APEX MINING CO., INC.

ACCREDITED COMPETENT PERSON'S CONSENT FORM AND CONSENT STATEMENT, AND CERTIFICATES

Accredited Competent Person's Consent Form

Pursuant to the requirements under the prevailing Philippine Stock Exchange, Inc.'s Consolidated Listing and Disclosure Rules, as amended, and Clause 10 of the Philippine Mineral Reporting Code 2020 Edition (the "Consent Statement")

Public Report to be Publicly Released:

SEC Form 17-Q – Quarterly Report Pursuant to Section 17 of the Securities Regulation Code and Section 141 of the Corporation Code of the Philippines

Name of Company releasing the Public Report:

APEX MINING CO., INC.

Name of Mineral Deposit to which the Public Report refers to:

Maco Mine

Data Cut-off Date:

1 July 2025 to 30 September 2025

Report Date:

7 November 2025

Consent Statement

I, Darwin Edmund L. Riguier, confirm that I am the Accredited Competent Person for the Public Report, and that:

- I am a Geologist residing at [REDACTED]
- I have read and understood the requirements of the 2020 Edition of the Philippine Mineral Reporting Code for Reporting of Exploration Results, Mineral Resources and Mineral Reserves (PMRC 2020 Edition).
- I certify that the Public Report has been prepared in accordance with the PMRC 2020 Edition and its Implementing Rules and Regulations.
- I am an Accredited Competent Person-Geologist as defined by the PMRC 2020 Edition, having a minimum of five years relevant experience in the style of mineralization and type of Mineral Deposit described in the Public Report, and to the activity for which I am accepting responsibility.
- I am a Life Member of the Geological Society of the Philippines.
- I am the Exploration Manager of Maco Mine – Apex Mining Co., Inc. (AMCI). I am not a holder of shares, options and/or warrant, tenement rights, and has no landlord-lessee relationship of land and/or infrastructure which has bearing in the Public Report.

APEX MINING CO., INC.

Masara, Maco, Davao de Oro

- I assume full responsibility for the summary of the Exploration Results for the Mineral Properties: MPSA 225-2005-XI. I have supervised Apex Mining Co., Inc.'s (AMCI's) Exploration Geologists on the compilation, data verification/validation, data interpretation, and writing of the summary of Exploration Result, and co-supervision with Fianza T. Lab-oyan (Apex Mining Co., Inc. (AMCI) Geology Manager and Assistant Resident Manager-Maco Mine), Noe C. Caagusan (Apex Mining Co., Inc. (AMCI) Chief Geologist), Eric S. Andal (Apex Mining Co., Inc. (AMCI) VP for Geology and Exploration), all duly PRC-registered Geologists, on their, compilation, data verification/validation, data interpretation of the Exploration Results of the Public Report.
- I have reviewed the Public Report to which this Consent Statement applies.
- I have disclosed to the reporting company the full nature of the relationship between myself and the company, including any issues that could be perceived by investors as a conflict of interest.
- I verify that the Public Report is based on, and fairly and accurately reflects in the form and context in which it appears, the information in my supporting documentation relating to Exploration Results; and to the best of my knowledge, all technical information that is required to make this Public Report not misleading has been included.
- I have conducted Data Verification and Data Validation of the data disclosed in the Public Report.
- I have attached to this Consent Statement copies of my relevant Professional Regulation Commission (PRC) professional identification card (PIC), Accredited Competent Person identification card (or accreditation certificate), and Professional Tax Receipt.

Consent

I consent to the release and public disclosure of the Public Report and this Consent Statement by the Board of Directors of APEX MINING CO., INC. for the purpose of the filing of SEC Form 17-Q – Quarterly Report Pursuant to Section 17 of the Securities Regulation Code and Section 141 of the Corporation Code of the Philippines for calendar year Q3 2025 only. For the avoidance of doubt, any extracts or summaries of the said Public Report for purposes other than the foregoing would require my prior written consent.

Summary of Exploration Results – MPSA 234-2007-XI

The Exploration Work Program (EWP) was completed on June 15, 2025, and all planned exploration activities under the EWP have concluded. As of the date of this submission, there are no current or ongoing exploration activities at the project site. Following this, an application for a Declaration of Mining Project Feasibility (DMPF) was formally submitted to the Mines and Geosciences Bureau (MGB) on October 14, 2025. The MGB has acknowledged receipt, and the evaluation process is currently underway.

Sampling and Analysis

Drill core samples collected from both underground and surface exploration drilling activities were dispatched for analysis at the in-house sample preparation facility, then to the assay laboratory. Quality control measures included the use of Certified Reference Materials (CRM), duplicates, blanks, and coarse rejects for quality control and quality assurance purposes.

Results and Interpretations

We have received a total of 1,606 raw assay results from core samples collected during the quarter. The core samples originate from the completed drill holes: PGP-012, PGP-15, PGP-18, PGP-19, HPE-02, HPE-03, and HPE-04, as well as historical drill holes DF-50W-002 and DONS 45E-002. These preliminary assay results are currently classified as raw data and are undergoing a comprehensive Quality Assurance/Quality Control (QA/QC) process. This rigorous procedure involves the evaluation of certified reference materials (CRMs), blanks, and duplicate samples to ensure analytical accuracy and data integrity. In strict compliance with the Philippine Mineral Reporting Code (PMRC) 2020 and internal protocols, final, validated results and interpretations (including any significant mineralized intervals) will be formally disclosed only upon the successful completion of the QA/QC validation.
