RASLAG CORP. AND SUBSIDIARIES
(A Subsidiary of J TEN Equities, Inc.)
SELECTED EXPLANATORY NOTES TO CONDENSED
INTERIM CONSOLIDATED FINANCIAL STATEMENTS
FOR THE NINE MONTHS ENDED SEPTEMBER 30, 2025 AND 2024
(With Comparative Figures as of December 31, 2024)
(Amounts in Philippine Pesos)
(Unaudited)

1. GENERAL INFORMATION

1.1 Corporate Information

Raslag Corp. (the Parent Company) was registered with the Philippine Securities and Exchange Commission (SEC) on April 30, 2013. The Parent Company's primary purpose is to engage, develop, construct, own, and operate power production facilities; sell the power capacity and energy produced either in bulk, wholesale or retail; and, to construct, own, operate and maintain related substation, switchyard, transmission, sub-transmission and metering facilities to connect the power production facility to the transmission grid or distribution system. On October 22, 2013, the SEC approved the amendment of the Parent Company's primary purpose to include the exploration, development or utilization of Renewable Energy (RE) resources, actual operation of RE system and facilities and/or the generation of electricity from RE resources. It is presently engaged in selling electricity from RE resources.

The Parent Company's first solar power project, the 10.046 Megawatt-peak (MWp) Pampanga Solar Power Project Phase I (RASLAG-1) was awarded by the Department of Energy (DOE) eligibility for Round 1 of the Philippines' Feed-in-Tariff scheme for the Solar technology (the FIT-1) in 2015. On the same year, the Parent Company's second solar power project, the 13.141 MWp Pampanga Solar Power Project Phase II (RASLAG-2) have also been declared eligible by the DOE for the Solar FIT Round 2 (the FIT-2) [see Notes 18.2]. The Parent Company's third solar power project 18.011 MWp Pampanga Solar Power Project Phase III (RASLAG-3) started its operations on July 7, 2022. The Parent Company completed the construction of its 36.646 MWp Pampanga Solar Power Project Phase IV (RASLAG-4), and its commissioning and testing phase started on October 2, 2024. In addition, the Group plans to complete its 54-MW solar power project located in Tarlac (RASLAG-6).

In 2025, the Parent Company incorporated two wholly owned subsidiaries to support its planned solar energy projects in Central Luzon. Raslag Gerona, Inc. will own and operate RASLAG-6, a solar energy project located in Barangay Plastado, Gerona, Tarlac. Raslag Liwayway, Inc. will be responsible for RASLAG-7 and RASLAG-8, both of which are planned to be constructed in Barangay Liwayway, Santa Rosa, Nueva Ecija.

The subsidiaries were incorporated to engage in development, construction, ownership, operation, maintenance and selling of power production, substation, switchyard, transmission, sub-transmission and metering facilities to connect the power production facility to the transmission grid or distribution system. As of September 30, 2025, these entities have not yet started their commercial operations.

The Parent Company's application for Certificate of Compliance (COC) with Republic Act No. 9136 or *the Electric Power Industry Reform Act of 2001* (the EPIRA Law) for RASLAG-1 and RASLAG-2 was approved by the Energy Regulation Commission (ERC) on April 6, 2015 and February 29, 2016, respectively. Under the EPIRA Law, the Parent Company is required to offer and sell to the public a portion of not less than 15% of their common shares of stock within a period of five (5) years from the issuance by the ERC of their respective COCs. To comply with such requirement, on June 6, 2022, the Parent Company's 350.0 million of shares were publicly listed and traded in the Philippine Stock Exchange (PSE) as disclosed in Note 17.

The commercial operations of RASLAG-4 commenced on May 22, 2025, coinciding with the issuance of the Provisional Authority to Operate (PAO) by the Energy Regulatory Commission (ERC), which is valid until May 21, 2026. During this period, the Parent Company is in the process of securing the COC for RASLAG-4.

The Parent Company is a 57%-owned subsidiary of J TEN Equities, Inc. (J TEN). J TEN is a domestic financial holding company incorporated and domiciled in the Philippines and is primarily engaged in the business of holding equity securities.

The registered office address of the Parent Company and the subsidiaries is at 1210 Robinsons Equitable Tower, ADB Avenue corner Poveda Street, Pasig City. The registered office address of J TEN is located at 1905 Robinsons Equitable Tower, ADB Avenue corner Poveda Street, Pasig City. The power generating plant and related facilities of the Parent Company are located at Mexico, Mabalacat, and Magalang, Pampanga.

1.2 Investment in a Joint Venture

On March 27, 2025, the Board of Directors approved the Group's plans to enter into a joint venture with Verdant Philippines Alpha Pte. Ltd. (Verdant) to acquire a hybrid renewable energy project through acquisition of shares. As of September 30, 2025, the filing for approval from relevant government agencies is still in process.

1.3 Approval of Consolidated Financial Statements

The condensed interim consolidated financial statements of the Group as of and for the nine months ended September 30, 2025 (including the comparative financial statements as at December 31, 2024 and the nine months ended September 30, 2024) were authorized for issue by the Group's BOD on November 12, 2025.

2. MATERIAL ACCOUNTING POLICY INFORMATION

The material accounting policy information that have been used in the preparation of these condensed interim consolidated financial statements are consistent with those applied in the audited financial statements as of and for the period ended December 31, 2024.

2.1 Basis of Preparation of Condensed Interim Consolidated Financial Statements

These condensed interim consolidated financial statements for the nine months ended September 30, 2025 have been prepared in accordance with Philippine Accounting Standard (PAS) 34, *Interim Financial Reporting*. They do not include all the information and disclosures required in the annual financial statements and should be read in conjunction with the audited financial statements of the Group as at and for the year ended December 31, 2024.

The preparation of condensed interim consolidated financial statements in accordance with Philippine Financial Reporting Standards (PFRS Accounting Standards) requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. Although these estimates are based on management's best knowledge of current events and actions, actual results may ultimately differ from those estimates.

These condensed interim consolidated financial statements are presented in Philippine peso, the functional and presentation currency of the Group, and all values represent absolute amounts except when otherwise indicated.

2.2 Adoption of New and Amended PFRS Accounting Standards

A number of new or amended standards became applicable for the current reporting period. However, the Group did not have to change its accounting policies or make retrospective adjustments as a result of adopting these standards. The Group has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

2.3 Basis of Consolidation

The Group's condensed interim consolidated financial statements comprise the accounts of the Parent Company and its subsidiaries after the elimination of material intercompany transactions.

The financial statements of the subsidiaries are prepared for the same reporting period as the Parent Company, using consistent accounting principles.

Prior to 2025, the Parent Company does not hold ownership interest in any subsidiary and does not prepare consolidated financial statements. Comparative financial information presented in the condensed interim consolidated financial statements as of and for the year ended December 31, 2024 pertain to the Parent Company only.

3. SIGNIFICANT ACCOUNTING JUDGMENTS AND ESTIMATES

In preparing the condensed interim consolidated financial statements, management undertakes a number of judgments, estimates and assumptions about recognition and measurement of assets, liabilities, income and expenses. The actual results may differ from the judgments, estimates and assumptions made by management, and will seldom equal the estimated results. The judgments, estimates and assumptions applied in the condensed interim consolidated financial statements, including the key sources of estimation uncertainty, were the same as those applied in the Parent's last audited financial statements as at and for the year ended December 31, 2024.

4. RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group is exposed to certain financial risks which result from its operating, investing and financing activities. The Group's BOD focuses on actively securing the Group's short to medium-term cash flows by minimizing the exposure to financial markets.

The Group does not engage in the trading of financial assets for speculative purposes, nor does it write options. The most relevant financial risks to which the Group is exposed to are described below and in the succeeding pages.

4.1 Foreign Currency Risk

Most of the Group's transactions are carried out in Philippine pesos, its functional currency. Exposures to currency exchange rates arise from the Group's cash, which are denominated in United States (U.S.) dollars. As of September 30, 2025 (Unaudited) and December 31, 2024 (Audited), the Group's foreign currency-denominated financial assets translated into Philippine pesos at the closing exchange rate amounted to P37.0 million and P36.8 million, respectively.

At September 30, 2025 and December 31, 2024, the sensitivity of the net result for the period which assumes a +/- 16.77% and +/- 14.17% changes in Philippine peso against the U.S dollar exchange rate, respectively, were estimated based on the average market volatility in exchange rates, using standard deviation, in the previous 12 months estimated at 99% level of confidence.

To mitigate the Group's exposure to foreign currency risk, non-Philippine peso cash flows are monitored. If the Philippines peso had strengthened against the U.S. dollar, profit before tax would have decreased by P6.2 million and P5.2 million, respectively, in September 30, 2025 and December 31, 2024. On the other hand, if the Philippine peso had weakened against the U.S. dollar, then this would have increased profit before tax by the same amount.

The sensitivity analysis is based on the Group's foreign currency financial asset held at September 30, 2025 and December 31, 2024. Exposures to foreign exchange rates vary during the period depending on the volume of transactions. Nonetheless, the analysis above is considered to be representative of the Group's currency risk.

4.2 Credit Risk

Credit risk is the risk that a counterparty may fail to discharge an obligation to the Group. The Group is exposed to this risk for various financial instruments arising from sale of renewable electricity, granting advances to related parties, and placing deposits with banks.

The Group continuously monitors defaults of the counterparties, identified either individually or by group, and incorporate this information into its credit risk controls. The Group's policy is to deal only with creditworthy counterparties.

The maximum credit risk exposure of financial assets is the carrying amount of the financial assets as shown in the statements of financial position, as summarized below.

<i>(Amounts in PHP)</i>	Notes	September 30, 2025 (Unaudited)	December 31, 2024 (Audited)
Cash	8	373,201,794	79,541,170
Trade and other receivables – net*	9	481,653,570	109,855,391
		<u>854,855,364</u>	<u>189,396,561</u>

**Exclusive of receivable from value-added tax (VAT) refund*

None of the Group's financial assets are secured by collateral or other credit enhancements, except for cash and cash equivalents as described below.

(a) Cash

The credit risk for cash is considered negligible since the counterparties are reputable banks with high quality external credit ratings. Cash pertains to cash on hand and cash in banks which are insured by the Philippine Deposit Insurance Corporation up to a maximum coverage of P1.0 million for every depositor per banking institution.

(b) Trade and Other Receivables

The Group applies the simplified approach in measuring ECL, which uses a lifetime expected loss allowance for all trade receivables. In respect of these receivables, the Group is significantly exposed to a single party as the Group's trade receivables and revenues are concentrated solely with National Transmission Corporation. Nevertheless, management does not consider the risks to be probable since the counterparty is a government agency, which has an allotted budget from the national government. Moreover, based on the historical information about government agency default rates, management considers the credit quality of other receivables to be good and has concluded that there is no need for provision for expected credit loss for the period since these are all collected within a reasonable time.

With respect to other receivables and advances to related parties, management does not consider the risks to be probable since the counterparties are stockholders and a related party under common ownership. Moreover, based on the historical information about the default rates and liquidity of these counterparties, probable losses are identified to be negligible.

4.3 Liquidity Risk

The Group manages its liquidity needs by carefully monitoring scheduled debt servicing payments for long-term financial liabilities as well as cash outflows due in a day-to-day business. The Group adopts a prudent liquidity risk management where it maintains sufficient cash to meet maturing obligations such as interest-bearing loans and borrowings and trade and other payables (except tax-related liabilities) as they fall due. This policy aims to honor all cash requirements on an ongoing basis and to avoid raising funds above market rates or through forced sale of assets.

As of September 30, 2025 (Unaudited), the Group's financial liabilities have contractual maturities which are presented below.

(Amounts in PHP)	Current		Non-current	
	Within 6 Months	6 to 12 Months	1 to 5 Years	Later 5 Years
Interest-bearing loans and borrowings*	551,940,766	229,056,827	1,526,418,995	365,438,231
Trade and other payables	170,636,991	-	-	-
	722,577,757	229,056,827	1,526,418,995	365,438,231
*Inclusive of future interests				

These compared to the maturities of the Group's financial liabilities as of December 31, 2024 (Audited) as follows:

(Amounts in PHP)	Current		Non-current	
	Within 6 Months	6 to 12 Months	1 to 5 Years	Later 5 Years
Interest-bearing loans and borrowings*	662,332,078	158,159,532	1,357,057,631	590,965,753
Trade and other payables	173,261,350	-	-	-
	835,593,428	158,159,532	1,357,057,631	590,965,753
*Inclusive of future interests				

The contractual maturities presented in the foregoing tables reflect the gross cash flows, which may differ from the carrying values of the liabilities at the end of the reporting periods presented.

4.4 Operational Risk

Operational risks refer to the risk of loss of the Group that may incur from unexpected interruptions of operations, inability to deliver services and possible loss of key suppliers and sole customer. The Group is continually devising strategies to ensure uninterrupted operations to minimize cost and remain competitive in its business.

5. CATEGORIES, OFFSETTING AND FAIR VALUES OF FINANCIAL ASSETS AND FINANCIAL LIABILITIES

5.1 Carrying Amounts and Fair Values of Financial Assets and Financial Liabilities

For the Group's financial assets and financial liabilities as at September 30, 2025 and December 31, 2024 that are carried at amortized cost, management determined that their carrying amounts are equal to or approximate their fair values. Accordingly, no further comparison between the carrying amounts and fair values, as well as fair value hierarchy, is presented. The Group's cash and cash equivalents would fall under Level 1, the financial assets at FVTPL under Level 2 and all the rest are at Level 3 of the hierarchy.

The fair value hierarchy has the following levels:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities that an entity can access at the measurement date;
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and,
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The level within which the financial asset or liability is classified is determined based on the lowest level of significant input to the fair value measurement.

For purposes of determining the market value at Level 1, a market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

For investments which do not have quoted market price, the fair value is determined by using generally acceptable pricing models and valuation techniques or by reference to the current market of another instrument which is substantially the same after taking into account the related credit risk of counterparties or is calculated based on the expected cash flows of the underlying net asset base of the instrument. When the Group uses valuation technique, it maximizes the use of observable market data where it is available and relies as little as possible on entity specific estimates. If all significant inputs required to determine the fair value of an instrument are observable, the instrument is included in Level 2. Otherwise, it is included in Level 3.

The Group's financial asset at FVTPL pertains to investments in variable universal life insurance policies. The fair values of these assets are derived using the net asset value per unit of the funds (computing by dividing the net asset value of the fund by the number of outstanding units at the end of the reporting period) published by the respective parties managing these investments.

There were neither transfers between Levels 1 and 2 nor changes in Level 3 instruments in both periods.

A description of the Group's risk management objectives and policies for financial instruments is provided in Note 4.

5.2 Fair Value Measurement for Investment Property Carried at Cost

The fair value of the Group's land classified as Investment Property (see Note 6) is determined on the basis of the appraisals performed by an independent appraiser with appropriate qualifications and recent experience in the valuation of similar properties in the relevant locations. To some extent, the valuation process was conducted by the appraiser in discussion with the Group's management with respect to the determination of the inputs such as the size, age, and condition of the land, and the comparable prices in the corresponding property location.

The Level 2 fair value of land, which is classified as Investment Property (see Note 6) was derived using the market comparable approach that reflects the recent transaction prices for similar properties in nearby locations. Under this approach, when sales prices of comparable land in close proximity are used in the valuation of the subject property with no adjustment on the price, fair value is included in Level 2.

5.3 Offsetting of Financial Assets and Financial Liabilities

The Group has not set-off financial instruments in September 30, 2025 and December 31, 2024 and does not have relevant offsetting arrangements. Currently, financial assets and financial liabilities are settled on a gross basis; however, each party to the financial instrument (particularly related parties) will have the option to settle all such amounts on a net basis in the event of default of the other party through approval by both parties' BODs and stockholders. The Group has cash in certain local banks with which it has outstanding loans. In case of the Group's default on loan amortization, cash in bank amounting to P335.2 million and P42.1 million as of September 30, 2025 and December 31, 2024, respectively, can be applied against a portion of the outstanding loans as of September 30, 2025 and December 31, 2024. In addition, the Group's trade receivables amounting to P134.6 million and P71.7 million as of September 30, 2025 and December 31, 2024, respectively, can be applied to the aforementioned outstanding interest-bearing loans (see Notes 9 and 11).

6. PROPERTY, PLANT, AND EQUIPMENT

This account consists of the following as at September 30, 2025 and December 31, 2024:

<i>(Amounts in PHP)</i>	Note	September 30, 2025 (Unaudited)	December 31, 2024 (Audited)
Property and equipment	6.1	3,976,365,240	3,999,118,947
Right-of-use assets (ROUA)	6.2	16,583,464	12,460,349
		<u>3,992,948,704</u>	<u>4,011,579,296</u>

6.1 Carrying Amount of Property, Plant and Equipment

The gross carrying amounts and accumulated depreciation of property, plant and equipment are as follows.

<i>(Amounts in PHP)</i>	September 30, 2025 <u>(Unaudited)</u>	September 30, 2024 <u>(Unaudited)</u>	December 31, 2024 <u>(Audited)</u>
Cost	4,976,349,192	4,785,642,243	4,864,506,282
Accumulated depreciation	<u>(999,983,952)</u>	<u>(825,855,366)</u>	<u>(865,387,335)</u>
Net carrying amount	<u><u>3,976,365,240</u></u>	<u><u>3,959,786,877</u></u>	<u><u>3,999,118,947</u></u>

A reconciliation of the carrying amounts of property and equipment are shown below.

<i>(Amounts in PHP)</i>	September 30, 2025 <u>(Unaudited)</u>	September 30, 2024 <u>(Unaudited)</u>	December 31, 2024 <u>(Audited)</u>
Balance at beginning of the period, net of accumulated depreciation	3,999,118,947	3,180,440,246	3,180,440,246
Additions during the period	111,842,912	865,519,825	944,383,862
Depreciation and amortization charges for the period	<u>(134,596,619)</u>	<u>(86,173,194)</u>	<u>(125,705,161)</u>
Net carrying amount	<u><u>3,976,365,240</u></u>	<u><u>3,959,786,877</u></u>	<u><u>3,999,118,947</u></u>

The amount of depreciation presented in the statements of comprehensive income is allocated as follows (see Note 14.1):

<i>(Amounts in PHP)</i>	2025 <u>(Unaudited)</u>	2024 <u>(Unaudited)</u>
Cost of electricity sold	128,425,713	83,138,611
Other operating expenses	<u>6,170,906</u>	<u>3,034,583</u>
	<u><u>134,596,619</u></u>	<u><u>86,173,194</u></u>

The Group's property, plant and equipment which totaled to P4.0 billion as of September 30, 2025 and December 31, 2024, are used as collaterals for certain interest-bearing loans and borrowings (see Note 11).

The Group classified certain parcels of land, which was held for capital appreciation for medium to long-term sale, as Investment Property in the 2024 condensed interim consolidated statements of financial position.

On August 8, 2025, the Parent Company's BOD approved the sale of such investment property, to a related party with interlocking directors, at a total consideration of P637.6 million payable in installments. The Parent Company received the first installment amounting to P318.8 million, upon the execution of the Deed of Absolute Sale, on August 12, 2025. The remaining balance is presented as part of Receivable from related parties under Trade and Other Receivables – Net in the 2025 condensed interim consolidated statement of financial position (see Note 9). The related gain on sale of investment property amounting to P317.0 million is presented as Other Income in the 2025 condensed interim consolidated statement of comprehensive income. There was no similar transaction in 2024.

The Group incurred borrowing costs amounting to P47.5 million for the nine months ended September 30, 2024 (nil in 2025), which were capitalized based on interest rates of 6.25% to 6.38% (see Note 11).

6.2 ROUA and Lease Liabilities

In 2022, the Group entered into a 5-year lease contract with a related party for its office space. Consequently, as at the commencement of the lease, the Group recognized ROUA and lease liability amounting to P1.5 million.

In July 2024, the Group entered into an additional 5-year lease contract with a related party under common ownership for its office and parking space. The Group recognized ROUA and lease liabilities amounting to P13.0 million at the inception of this lease.

In March 2025, the Group entered into an additional 3-year lease with a related party for its office space. The Group recognized ROUA and lease liabilities amounting to P2.5 million at the inception of this lease.

In June 2025, the Group entered into a 5-year lease contract with a related party under common ownership for the use of one elevator unit. The Group recognized ROUA and lease liabilities amounting to P4.6 million at the inception of this lease.

As at September 30, 2025 and December 31, 2024, the carrying amount of the ROUA amounted to P16.6 million and P12.5 million, respectively, after recognizing amortization amounting to P3.0 million and P0.9 million in 2025 and 2024, respectively (see Note 14). The ROUA is presented as part of Property, Plant and Equipment account in the condensed interim consolidated statements of financial position and the amortization is presented as part of Depreciation and amortization under Other Operating Expenses account in the condensed interim consolidated statements of comprehensive income.

As at September 30, 2025 and December 31, 2024, the current portion of the lease liabilities amounting to P4.5 million and P2.4 million, respectively, is presented as part of Trade and Other Payables account (see Note 12), while the non-current portion amounting to P13.1 million and P10.6 million, respectively, is presented as Lease Liabilities in the condensed interim consolidated statements of financial position. The total interest expense incurred on the lease liabilities amounted to P1.3 million and P0.2 million in 2025 and 2024, respectively, and is presented as part of Finance Costs in the condensed interim consolidated statements of comprehensive income [see Note 14.2(a)].

7. FINANCIAL ASSETS AT FAIR VALUE THROUGH PROFIT OR LOSS

In prior years, the Group acquired certain variable universal life insurance policies costing to P40.7 million, which are considered quoted fund. The fund invests in a diversified portfolio which includes exchange traded funds and real estate investment trusts. The beneficiary of the insurance policies is the Group.

In July 2024, the Group withdrew its investment of P34.7 million and realized a gain amounting to P0.5 million, which is presented as part of Finance Income in the 2024 condensed interim consolidated statement of comprehensive income [see Note 14.2(b)].

Prior to withdrawal, the foreign exchange gains, fair value gains from investments, and dividend income are presented as part of Finance Income in the 2024 condensed interim consolidated statement of comprehensive income [see Note 14.2(b)].

8. CASH

Cash includes the following as of September 30, 2025:

	September 30, 2025 (Unaudited)	December 31, 2024 (Audited)
<i>(Amounts in PHP)</i>		
Cash on hand	150,000	130,000
Cash in banks	373,051,794	79,411,170
	<u>373,201,794</u>	<u>79,541,170</u>

Cash in banks generally earns interest at rates based on daily bank deposit rates. Interest income earned on cash in banks is presented as part of Finance Income in the condensed interim consolidated statements of comprehensive income [see Note 14.2(b)].

9. TRADE AND OTHER RECEIVABLES – Net

This account is composed of the following:

<i>(Amounts in PHP)</i>	Notes	September 30, 2025 (Unaudited)	December 31, 2024 (Audited)
Non-current – Receivable from related parties	6.1, 16.5	159,412,500	-
Current:			
Receivable from related parties	6.1, 16.2, 16.5	162,065,099	2,652,599
Trade receivables		134,550,081	71,664,240
Receivable from FIT rate adjustment	13	24,947,307	41,164,777
Others		7,381,121	93,669,716
		328,943,608	209,151,332
Allowance for credit losses		(6,702,538)	(6,702,538)
		322,241,070	202,448,794
		481,653,570	202,448,794

Trade receivables are usually due within 60 days and do not bear any interest except for trade receivables from RASLAG-3 and RASLAG-4, which earn interest on long-overdue balances. The interest income earned from such receivables is presented as part of Finance Income in the 2025 condensed interim consolidated statement of comprehensive income [see Note 14.2(b)]. These receivables amounting to P134.6 million and P71.7 million as of September 30, 2025 and December 31, 2024, respectively, are assigned for certain interest-bearing loans and borrowings (see Note 11).

Others include the receivables from VAT refund amounting to P92.6 million after the Company's application was approved by the BIR in 2024. The Company reported a loss amounting to P6.5 million in relation to such refund, which represents the deficiency between the amount approved by the BIR and the carrying amount of the related input VAT (see Note 14). The loss from VAT refund is presented as part of Other Operating Expenses in the 2024 condensed interim consolidated statement of comprehensive income. There is no similar transaction in 2025.

All of the Group's trade and other receivables are subject to credit risk. No impairment loss is recognized in 2025 and 2024.

The amortization of interest in 2025 and 2024, amounted to P0.8 million and P1.6 million, respectively, and is presented as Interest income from FIT adjustment receivable under Finance Income in the condensed interim consolidated statements of comprehensive income [see Note 14.2(b)].

10. PREPAYMENTS AND OTHER CURRENT ASSETS

The composition of this account is shown below.

<i>(Amounts in PHP)</i>	September 30, 2025 (Unaudited)	December 31, 2024 (Audited)
Input VAT	69,628,943	62,351,466
Spare parts	13,717,655	12,621,714
Prepaid expenses	12,418,095	30,438,751
Deferred input VAT	760,224	760,221
Creditable withholding tax	688,841	-
	<u>97,213,758</u>	<u>106,172,152</u>

Prepaid expenses mainly include, among others, prepaid local taxes and insurance.

11. INTEREST-BEARING LOANS AND BORROWINGS

The breakdown of this account follows:

<i>(Amounts in PHP)</i>	September 30, 2025 (Unaudited)	September 30, 2024 (Unaudited)	December 31, 2024 (Audited)
Non-current	1,562,500,000	1,475,454,546	1,625,340,909
Current	<u>662,954,545</u>	<u>700,454,545</u>	<u>700,454,545</u>
	<u>2,225,454,545</u>	<u>2,175,909,091</u>	<u>2,325,795,454</u>

The loans are subject to interest rates ranging from 6.3% to 6.4% in 2025 and 3.5% to 6.4% in 2024. Interest expense incurred from these loans amounted to P106.9 million and P44.7 million for the nine months ended September 30, 2025 and 2024, respectively, and is presented as part of Finance Costs in the condensed interim consolidated statements of comprehensive income [see Note 14.2(b)]. Accrued interest amounted to P12.4 million and P15.1 million as of September 30, 2025 and December 31, 2024, respectively, and is presented as part of Accrued expenses under Trade and Other Payables in the condensed interim consolidated statements of financial position (see Note 12).

In January and May 2025, the Parent Company acquired short-term loans from a local bank amounting to P50.0 million each with an annual interest rate of 6.25% per annum, payable in one year and in 120 days, respectively.

The Parent Company is required to maintain a debt-to-equity ratio of not more than 2.5 for the 1st and 2nd Loan Facilities and a 1.2 debt service coverage ratio (DSCR) for the 3rd and 4th Loan Facilities. As of September 30, 2025, the Company has complied with all applicable covenants. On December 26, 2024, the Parent Company was able to secure a waiver from the bank for the breach in the required DSCR in 2024.

As of September 30, 2024, interest capitalized as part of CIP amounted to P47.5 million (nil in 2025) (see Note 6).

The reconciliation of interest-bearing loans is as follows.

<i>(Amounts in PHP)</i>	September 30, 2025 (Unaudited)	September 30, 2024 (Unaudited)	December 31, 2024 (Audited)
Balance at beginning of period	2,325,795,454	2,026,250,000	2,026,250,000
Additions	100,000,000	300,000,000	600,000,000
Repayments	(200,340,909)	(150,340,909)	(300,454,546)
Balance at end of period	<u>2,225,454,545</u>	<u>2,175,909,091</u>	<u>2,325,795,454</u>

12. TRADE AND OTHER PAYABLES

This account consists of:

<i>(Amounts in PHP)</i>	<u>Notes</u>	September 30, 2025 (Unaudited)	December 31, 2024 (Audited)
Trade payables		153,666,098	152,329,222
Accrued expenses	11	12,637,010	18,698,686
Lease liabilities	6	4,522,190	2,434,691
Withholding taxes payable		<u>1,298,225</u>	<u>2,679,333</u>
		<u>172,123,523</u>	<u>176,141,932</u>

Trade payables include the outstanding balance on the acquisition of parcels of land amounting to P152.2 million as of September 30, 2025 and December 31, 2024.

13. SALE OF ELECTRICITY

The Group's revenues which are recognized over time comprise of the following:

<i>(Amounts in PHP)</i>	2025 (Unaudited)	2024 (Unaudited)
RASLAG-1	95,945,795	103,615,800
RASLAG-2	116,010,864	125,292,860
RASLAG-3	91,262,889	102,566,637
RASLAG-4	<u>118,137,354</u>	<u>-</u>
	<u>421,356,902</u>	<u>331,475,297</u>

The Group has only one reportable segment which pertains to generation of renewable energy.

Further, the Group has only one geographical segment as all of its operations are based in Pampanga. For RASLAG-1 and -2, the Group sells its electricity only to TransCo, as the latter have the jurisdiction to sell electricity to power distribution companies. TransCo purchases the electricity from the Group at applicable FIT rates, which is usually higher than the market rates. For RASLAG-3 and -4, the Group sells its electricity based on spot rates to Independent Electricity Market Operator of the Philippines (IEMOP), which distributes electricity further to various consumers.

On May 26, 2020, ERC approved the adjustments to the FIT of renewable energy producers through Resolution No.06, series of 2020, *A Resolution Approving the Adjustment to the Feed-in Tariff* (the Resolution), wherein the FIT adjustments used 2014 as the base period calendar year for the Consumer Price Index and foreign exchange variations through Discounted Cash Flows Model per Renewable Energy technology, covering for the years 2016, 2017, 2018, 2019 and 2020.

The Resolution also states that the incremental FIT rate shall be recovered for a period of five years starting 2021. The resolution was published in a newspaper of general circulation in the country on November 17, 2020 and took effect 15 days after its publication. Accordingly, the Group recognized accrued revenue, net of finance discount, amounting to P106.8 million upon the effectivity of the resolution in December 2020.

The outstanding balance of receivables from Transco arising from the adjustment amounted to P9.4 million and P41.2 million as of September 30, 2025, and December 31, 2024, respectively, and is presented under Trade and Other Receivables in the condensed interim consolidated statements of financial position (see Note 9). Amortization of interest in 2025 and 2024 amounted to P0.8 million and P1.6 million, respectively, and is presented as Interest income from FIT adjustment receivable under Finance Income in the condensed interim consolidated statements of comprehensive income [see Note 14.2(b)].

14. COST AND EXPENSES

14.1 Cost of Electricity Sold and Operating Expenses by Nature

Details of costs and operating expenses by nature are shown below.

<i>(Amounts in PHP)</i>	Note	2025 (Unaudited)	2024 (Unaudited)
Depreciation and amortization	6	137,648,772	87,052,710
Professional fees		27,861,065	21,165,191
Taxes and licenses		25,110,207	22,708,318
Salaries and wages		22,620,066	15,936,294
Repairs and maintenance		17,105,760	21,602,690
Donation and contributions		6,809,170	4,193,160
Market fees		5,949,473	1,234,480
Insurance		4,314,360	2,566,371
Communication, light and water		4,158,349	4,207,024
Training fees		1,265,304	2,578,450
Representation		728,623	1,367,566
Loss from tax refund	9	-	2,200,952
Miscellaneous		5,710,273	6,267,310
		259,281,422	193,080,516

These expenses are classified in the condensed interim consolidated statements of comprehensive income as follows:

<i>(Amounts in PHP)</i>	2025 (Unaudited)	2024 (Unaudited)
Cost of electricity sold	164,896,608	107,457,770
Other operating expenses	94,384,814	85,622,746
	259,281,422	193,080,516

Details of cost of electricity sold are as follows:

<i>(Amounts in PHP)</i>	Note	2025 (Unaudited)	2024 (Unaudited)
Depreciation	6	128,425,713	83,138,611
Repairs and maintenance		17,032,744	13,763,198
Salaries and wages		12,801,763	8,856,450
Market fees		5,949,473	1,234,480
Miscellaneous		686,915	465,031
		164,896,608	107,457,770

14.2 Finance Costs and Finance Income

(a) Finance Costs

Details of finance costs are presented below.

<i>(Amounts in PHP)</i>	Notes	2025 (Unaudited)	2024 <i>(Unaudited)</i>
Interest expense on loans	11	106,864,384	44,662,769
Interest on lease liabilities	6.2	1,323,461	237,836
Interest on post-employment benefit obligation		368,853	344,682
		108,556,698	45,245,287

(b) Finance Income

Details of finance income are presented below.

<i>(Amounts in PHP)</i>	Notes	2025 (Unaudited)	2024 <i>(Unaudited)</i>
Interest income from FIT adjustment receivable	9	755,781	1,603,157
Net foreign currency exchange gains		223,258	511,725
Interest income from long overdue trade receivables	9	185,720	-
Interest income from cash	8	106,436	1,176,562
Dividend income from financial assets at FVTPL	7	-	1,187,804
Gains on redemption of investment	7	-	483,595
		1,271,195	4,962,843

15. EARNINGS PER SHARE AND BOOK VALUE PER SHARE

Earnings per share were computed as follows:

<i>(Amounts in PHP)</i>	2025 (Unaudited)	2024 <i>(Unaudited)</i>
Net profit for the period	326,153,931	90,205,171
Divided by the weighted average number of outstanding common shares	1,500,000,000	1,500,000,000
	0.22	0.06

Book value per share as of September 30, 2025, and December 31, 2024 were computed as follows:

<i>(Amounts in PHP)</i>	September 30, 2025 (Unaudited)	December 31, 2024 (Audited)
Total equity	2,521,807,306	2,195,653,375

Transfer of employees	16.2, 16.4	-	-	2,652,599	2,652,599
Key management personnel –					
Compensation	16.3	6,648,000	3,673,300	-	-

16.1 Leases

The Group entered into various lease agreements with related parties under common ownership for its offices and parking space (see Note 6.2).

16.2 Transfer of Employees from API

In previous years, API has transferred several employees to the Group which were previously outsourced to the Group for a fee. Past service liabilities due to these employees will be collected from API.

The outstanding balance arising from this transaction, which is unimpaired, unsecured, noninterest-bearing and collectible on demand, is presented as part of Receivable from related parties under Trade and Other Receivables – Net in the condensed interim consolidated statements of financial position (see Note 9).

16.3 Key Management Personnel Compensation

Key management personnel compensation amounted to P6.6 million and P3.7 million in 2025 and 2024, respectively.

16.4 Retirement Plan

In 2021, the Group established a formal retirement plan which is administered, and managed by a trustee bank.

The retirement fund neither provides any guarantee or surety for any obligation of the Group nor its investments covered by any restrictions or liens.

16.5 Sale of Investment Property

In August 2025, the Group sold its investment property to a related party under common ownership for a total consideration of P637.6 million. Half of the consideration was settled in cash upon execution of the sale, while the balance is presented as part of Receivable from related parties, classified as current and non-current portions, under Trade and Other Receivables – Net in the 2025 condensed interim consolidated statement of financial position (see Note 9).

17. CAPITAL STOCK

On June 6, 2022, the Parent Company completed its initial public offering and was listed in the PSE under the stock symbol “ASLAG”. The Parent Company issued 350.0 million new common shares for a total consideration of P700.0 million, or at P2.00 per share. This resulted in an additional paid-in capital of P321.6 million, net of transactions costs amounting to P28.4 million.

On March 14, 2025, the Parent Company’s BOD approved the issuance of up to 15,000,000 preferred shares with a base size of up to P1.5 billion with an oversubscription option of up to P500.0 million via private placement/s. On June 5, 2025, the Parent Company reclassified P100.0 million unissued ordinary shares to preferred shares.

As at September 30, 2025 and December 31, 2024, the Parent Company’s public ownership is both at 20.01%. The Parent Company’s listed shares closed at P0.97 and P1.03 per share as of September 30, 2025 and December 27, 2024, respectively.

18. TAXES

18.1 Current and Deferred Taxes

The components of tax expense reported in the condensed interim consolidated statements of comprehensive income are as follows:

<i>(Amounts in PHP)</i>	2025 (Unaudited)	2024 (Unaudited)
Current tax expense:		
Capital gains tax at 6%	38,259,000	-
Current tax at 10%	8,960,509	10,436,367
Final tax at 20% and 15%	20,835	183,697
	47,240,344	10,620,064
Deferred tax income relating to origination and reversal of temporary difference	(1,621,747)	(2,712,898)
	45,618,597	7,907,166

The reconciliation of tax on pretax profit computed at the applicable statutory rates to tax expense reported in profit or loss is discussed below.

<i>(Amounts in PHP)</i>	2025 (Unaudited)	2024 (Unaudited)
Tax on pretax income at 10%	37,177,253	9,811,233
Adjusted for income subjected to different income tax rates	6,570,935	65,378
Tax effects of:		
Unrecognized deferred tax asset (DTA) on net operating loss carry over (NOLCO)	2,437,574	-
Net profit subject to income tax holiday (ITH)	(569,294)	(1,885,680)
Non-deductible expenses	2,129	35,015
Non-taxable income	-	(118,780)
	45,618,597	7,907,166

The deferred tax liability amounted to P2.5 million and P4.1 million as of September 30, 2025 and December 31, 2024, respectively. This is related to the future tax liabilities for the collection of the FIT rate adjustments after the RASLAG-1 and -2's expiration of their ITH (see Note 18.2).

The Group reported NOLCO from RASLAG-4 operations amounting to P24.4 million and P11.6 million as of September 30, 2025 and December 31, 2024, respectively. No NOLCO was reported as of September 30, 2024.

In 2025 and 2024, the Parent Company claimed itemized deductions in computing for its income tax due.

18.2 Income Tax Holiday and Exemption

The Parent Company is governed by the Implementing Rules and Regulations of Republic Act (R.A.) No. 9513, otherwise known as the “*Renewable Energy Act of 2008*”. R.A. No. 9513 states that, for seven years starting from the date of recognition or accreditation provided under Section 18 of the same Act, RE manufacturer, fabricator and supplier of RE equipment shall be fully exempt from income taxes levied by the National Government on net income derived from the sale of RE equipment, machinery, parts and services. Subsequent to the ITH period, the Parent Company will be subjected to 10% renewable energy corporate income tax rate.

RASLAG-1 and -2, which started commercial operations on February 6, 2015 and December 22, 2015, respectively, have been subjected to 10% corporate income tax rate beginning February 5, 2022 and December 21, 2022, respectively.

RASLAG-3, which started its operations on July 7, 2022, has been given a provisional license to operate by the Department of Energy starting March 15, 2023. The ITH is set to run for seven years until March 14, 2030.

RASLAG-4, which started its commissioning and testing phase on October 2, 2024, has been applied for ITH by the Parent Company and is expected to run for seven years. In June 2025, the DOE submitted an endorsement letter to the Board of Investments (BOI) in support of the Parent Company’s application for ITH incentives. As of September 30, 2025, the application remains pending, as the Certificate of Entitlement from BOI has not yet been issued.

All income generated from the operations of RASLAG-3 and RASLAG-4 is subject to the regular corporate income tax rate of 25% until the commencement of the approved ITH period.

19. COMMITMENTS AND CONTINGENCIES

There are other commitments and contingent liabilities that arise in the normal course of the Group’s operations which are not reflected in the accompanying condensed interim consolidated financial statements. As of September 30, 2025 and December 31, 2024, management is of the opinion that losses, if any, from these commitments and contingencies will not have a material effect on the Group’s condensed interim consolidated financial statements.

20. CAPITAL MANAGEMENT OBJECTIVES, POLICIES AND PROCEDURES

The Group's capital management objectives are to ensure the Group's ability to continue as a going concern and to provide an adequate return to stockholders. The Group monitors capital on the basis of the carrying amount of liabilities and equity as presented in the condensed interim consolidated statements of financial position. It monitors capital using the debt-to-equity ratio computed as follows:

<i>(Amounts in PHP)</i>	September 30, 2025 (Unaudited)	December 31, 2024 (Audited)
Total liabilities	2,423,210,520	2,524,755,486
Total equity	2,521,807,306	2,195,653,375
Book value per share	<u>0.96 : 1.00</u>	<u>1.15 : 1.00</u>

The Group sets the amount of capital in proportion to its overall financing structure, i.e., equity and liabilities. The Group manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to stockholders, collect its receivables or sell assets to reduce debt.

As of September 30, 2025 and December 31, 2024, the Group is subject only to the capital requirements set by the bank for its long-term loans (see Note 11).

Management's Discussion and Analysis of Results of Operations and Financial Condition (September 30, 2025)

Results of Operations (Based on Financial Statements adopted in accordance with the Philippine Accounting Reporting Standards)

Review of the Nine Months ending September 30, 2025 versus Nine Months ending September 30, 2024

For the nine months ending September 30, 2025, the Company reported a net income of Php326.2 million, marking a Php235.9 million or 261.57% growth compared to the Php90.2 million recorded during the same period last year. While RASLAG-4 commenced operations and began contributing to revenue, its impact was not sufficient to offset the substantial rise in finance costs. These costs increased by Php63.3 million, representing a 139.93% surge, and were identified as the primary factor constraining earnings growth. However, the gain from sale of the investment property (Acli/Panipuan lots) amounting to Php317.0 million or 100.0% significantly boosted the Company's bottom line and was the key driver behind the sharp increase in net income for the period.

Revenues

The Company's revenue increased by Php89.9 million or 27.12% from Php331.5 million as of Q3 2024 to Php421.4 million as of Q3 2025 attributable to RASLAG-4. Despite the increase in energy generated and sold, with energy sales rising by 33.4 million kWh or 75.87%, peso-denominated revenue grew by only Php89.9 million or 27.12%, primarily due to the lower average selling price on IEMOP, which stood at Php3.2309 per kWh during the period.

Cost and Expenses

The cost of electricity sold has a net increase of Php57.4 million or 53.45% as the result of the company's operations as of September 30, 2025, compared to the same period of last year. Market Fees/PEMC charges increased significantly by Php4.7 million or 381.94% attributed to higher energy purchases from IEMOP for night-time operations of RASLAG-3 and RASLAG-4. Depreciation increased by Php45.3 million or 54.47% directly linked to the commissioning of RASLAG-4. SSS, Philhealth & HMDF Fund contributions increased by Php0.2 million or 47.71% and Salaries and wages increased by Php3.9 million or 44.55% attributable to the growth in executives and officers headcount, salary adjustments of existing personnel, and overall workforce expansion compared to the same period last year; and repairs and maintenance also increased by Php3.3 million or 23.76% due to RASLAG-4.

Other operating expenses had a net increase of Php8.7 million or 10.23% as of September 30, 2025, compared to the same period last year. Depreciation increased by Php5.3 million or 135.64% due to the commencement of RASLAG-4 and recognition of depreciation on Pampanga office under right-of-use-assets (ROUA); insurance increased by Php1.7 million or 68.11% attributable to RASLAG-4 fire insurance; donations and contributions increased by Php2.6 million or 62.39% reflecting the Parent Company's contributions to ER 1-94 funds and remittance of the 1% government share to the DOE for RASLAG-1, RASLAG-2, RASLAG-3 and RASLAG-4; salaries and wages increased by Php2.7 million or 38.68% attributable to the growth in executives and officers headcount, salary adjustments of existing personnel, and overall workforce expansion compared to the same period last year; professional fees increased by Php6.7 million or 31.64% is due the payment made to Step Asia, a third-party service provider, in relation to the successful 2023 VAT refund claim and for the services of lawyers for

processing approval of PHESI acquisition from the Philippine Competition Commission (PCC) for the period; taxes and licenses increased by Php2.4 million or 10.58% due to documentary stamp tax (DST) associated with the renewal of short-term loans for the period. Repairs and maintenance decreased by Php7.8 million or 99.07% due to the repairs incurred in Pampanga office in Q3 2024 which was reclassified as Leasehold improvements on December 31, 2024 annual audit. Training fees decreased by Php1.3 million or 50.93% is attributed to EMBA of CRO and CFO at AIM in 2024. Representation decreased by Php0.6 million or 46.72% due to nonrecurrence of representation incurred during the RASLAG-4's construction in 2024. Loss from tax refund decreased by Php2.2 million or 100.0% is attributed to the VAT disallowance of BIR as of Q3 2024. General management expense decreased by Php1.3 million or 68.76% is attributed to lesser sponsorships in Q3 2025 as compared to Q3 2024.

Operating Profit

Operating profit increased by Php23.7 million or 17.11% is attributable to RASLAG-4 operations.

Other Income

Other income increased by Php317.0 million due to the recognition of gain on sale of investment property (Acli/Panipuan lots) in Q3 2025.

Finance Costs

Finance costs increased by Php63.3 million or 139.93% due to the interest incurred on RASLAG-4 loan.

Finance Income

Finance income decreased by Php3.7 million or 74.39% due to decreases in interest income from FIT adjustment receivable and dividend income from financial assets at FVTPL.

Profit Before Tax

Profit before tax significantly increased by Php273.7 million or 278.93% due to the recognition of gain on sale of investment property (Acli/Panipuan lots).

Tax Expense

The Company's tax expense rose significantly by Php37.7 million or 476.93% increase compared to the same period last year. This spike was primarily due to the capital gains tax incurred for the sale of investment property (Acli/Panipuan lots).

Net Income After Tax

Net income after tax surged by Php235.9 million, reflecting a 261.57% increase year-on-year. This growth was largely driven by Other Income, specifically the gain on sale of the Acli/Panipuan lots, which was substantially boosted the Company's bottom line.

Financial Condition as of end of September 30, 2025

The Company maintains a prudent financial policy and has a healthy balance sheet to support its financial and operational requirements. As of September 30, 2025, the Company's total assets stand at Php4.9 billion. Noncurrent trade and accounts receivables increased by Php159.4 million or 100.0% is attributed to noncurrent portion of the installment receivable on the sale of investment property (Acli/Panipuan lots), while investment property decreased by Php320.7 million or 100.0% due to the sale of the property in Q3 2025.

As for the company's total current assets, these amount to Php792.7 million compared to Php388.2 million on December 31, 2024 or 104.21% increase due to the following movements: cash and cash equivalents increased by Php293.7 million or 369.19% due to proceeds of sale of investment property; increase in current trade accounts receivables by Php119.8 million or 59.17% due to recognition of the current portion of installment receivable from sale investment property; and prepayments and other current assets decreased by Php9.0 million or 8.44% due to to amortization of prepayments and reclassification to proper accounts.

Lease liability increased by Php2.5 million or 23.33% to recognition of the new lease agreement for Pampanga office; post-employment increased by Php2.0 million or 24.17% due to recognition of additional liability for the period; and deferred tax liability decreased by Php1.6 million or 39.59% due to adjustments made for this period compared to December 31, 2024. Current interest-bearing loans and borrowings decreased by Php37.5 million or 5.35% due to the payments made for the period.

Retained earnings increased by Php326.2 million or 84.19% due to additional net income/earnings for the period which is attributable to the gain on sale of investment property (Acli/Panipuan lots).

The top five (5) key performance indicators of the Company are shown below:

	September 30, 2025	December 31, 2024
Current Ratio ¹	0.95	0.44
Debt to Equity ²	0.88	1.06
Net Debt to Equity Ratio ³	0.73	1.02
	September 30, 2025	September 30, 2024
Return on Assets ⁴	6.60%	1.91%
Return on Equity ⁵	12.93%	4.11%

*1 – *Current Assets/Current Liabilities*

*2 – *Total Debt/Equity (Total debt includes interest bearing loans and borrowings)*

*3 – *Net Debt /Equity (Net debt is total debt less cash and cash equivalents)*

*4 – *Net Profit/Total Assets*

*5 – *Net Profit/Total Equity*

- Due to the Company's sound financial condition, there is no foreseeable trend or event that may have a material impact on its short-term or long-term liquidity.
- Funding will be sourced from internally generated funds and/or bank loans.
- There is no material commitment for capital expenditures other than those performed in the ordinary course of trade or business.
- There is no element of income arising from discontinuing operations.
- There have not been any seasonal aspects that had a material effect on the financial condition or results of the Company's operations.

- There were no known events and uncertainties that will trigger a direct or contingent financial obligation material to the company, including any default or acceleration of an obligation.
- There were no material off-balance sheet transactions, arrangements, obligations (including contingent obligation), or other relationships of the Company with consolidated entities or other persons created during the reporting period.

As of September 30, 2025, the Company reports a DSCR ratio of 2.01.

Future Plans and Projects:

RASLAG-4

The construction of RASLAG-4 commenced in May 2023, with Solenergy serving as the EPC Contractor. The project was completed and energized on October 2, 2024. A 10-year, 15 MWac Power Supply Agreement (PSA) was signed with PELCO I, covering approximately 57% of the plant's capacity. ERC granted a provisional authority to RASLAG and PELCO I in September 2025.

RASLAG-5

For its RASLAG-5 project, the lands initially determined and acquired for the project location, first in Mexico, Pampanga, then replaced by Brgy. Saba, Hermosa, Bataan, experienced some hiccups and technical difficulties such that the Mexico, Pampanga lots have been approved for sale on April 19, 2022 by the Board of Directors and stockholders, and the Brgy. Saba, Hermosa, Bataan lots on April 4, 2025 by the Board of directors.

On August 12, 2025, approximately 425,100 square meters of the Mexico, Pampanga lots were sold to Juan D. Nepomuceno Sons, Inc. for a total consideration of Php637,650,000.00.

RASLAG-6

- Through RASLAG GERONA, INC.
- Is a 58.00 MWp (estimated) solar power project in Gerona, Tarlac
- Land for the project is being secured
- Company is in talks with its existing financial partners (Bank of the Philippine Islands and China Banking Corporation) for financing the project
- P250 million loan from BPI was approved by the Board on its April 18, 2023 meeting for purpose of acquiring the land for the project.
- Incorporated Raslag Gerona, Inc. with the Securities and Exchange Commission on June 16, 2025, as a wholly-owned subsidiary to hold the project.

RASLAG-7 and RASLAG-8

- Through RASLAG LIWAYWAY, INC.
- Is a two-phase project with a total capacity of 140 MWp (estimated) solar power project in Sta. Rosa, Nueva Ecija
- Land title transfer is on-going.
- Company is in talks with its existing financial partners (Bank of the Philippine Islands and China Banking Corporation) for financing the project
- Incorporated Raslag Liwayway, Inc. with the Securities and Exchange Commission on June 16, 2025, as a wholly-owned subsidiary to hold the project.
