PART I--FINANCIAL INFORMATION

Item 1. FINANCIAL STATEMENTS

The financial statements of Dominion Holdings, Inc. (formerly: BDO Leasing & Finance, Inc.) and Subsidiary are prepared and presented in accordance with Philippine Financial Reporting Framework.

The accounting policies and methods of computation used in the audited financial statements as of and for the year ended December 31, 2024 were consistently applied in the interim financial reports.

Adoption of New Interpretations, Revisions and Amendments to PFRS

There are new standards and amendments to existing standards effective for annual periods subsequent to 2024, which are adopted by the FSRSC. Management will adopt the following relevant pronouncements in accordance with their transitional provisions; and none of these are expected to have significant impact on the Company's financial statements:

- a) PAS 21 (Amendments), The Effects of Changes in Foreign Exchange Rates – Lack of Exchangeability (effective from January 1, 2025)
- b) PFRS 9 and PFRS 7 (Amendments), Financial Instruments, and Financial Instruments: Disclosures – Amendments to the Classification and Measurement of Financial Instruments (effective from January 1, 2026)
- c) PFRS 18, Presentation and Disclosure in Financial Statements (effective from January 1, 2027). The new standard impacts the classification of profit or loss items (i.e., into operating, investing and financing categories) and the presentation of subtotals in the statement of profit or loss (i.e., operating profit and profit before financing and income taxes). The new standard also changes the aggregation and disaggregation of information presented in the primary financial statements and in the notes. It also introduces required disclosures about management-defined performance measures. The amendments, however, do not affect how an entity recognizes and measures its financial condition, financial performance and cash flows.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

September 2025 Compared to September 2024

As of the third quarter of 2025, the Company recorded a net income of Php106 million, representing a 38% decline from the Php171 million reported during the same period in 2024. This reduction was mainly attributable to lower interest income from the contraction in investable funds, following the Php3.2 billion cash dividend declared in May 2024. Lower market rates likewise contributed to the decline in interest income, following the continued reduction in policy rates of the Bangko Sentral ng Pilipinas (BSP) since last year.

Despite the decline in profitability, the Company continued to reinvest income derived from deposit operations, resulting in a 4.18% year-to-date increase in total assets, which stood at Php3.4 billion as of September 2025.

Total liabilities remained minimal, amounting to Php10.9 million, indicating the Company's low leverage position and strong liquidity.

Meanwhile, stockholders' equity increased to Php3.4 billion, up from Php3.3 billion in September 2024, reflecting the Company's sound capital base and ongoing reinvestment of earnings.

September 2024 Compared to September 2023

For the three quarters ending September 30, 2024, the Company recorded a net income of Php171 million, primarily driven by interest earnings from time deposit placements. This represents a 17% decline compared to the Php205.7 million achieved during the same period in 2023. The decrease in earnings is attributed to the reduced cash available for investment, following the declaration of Php3.2 billion in cash dividends in May 2024, a significant payout considering no similar dividend was paid in 2023.

The dividend payout also impacted the Company's financial position, leading to a 48% contraction in total assets, from Php6.3 billion as of September 30, 2023, to Php3.3 billion in 2024. This reduction reflects the outflow of cash resources, which were previously held as investment assets, now distributed to shareholders as cash dividends.

The Company's total liabilities remained stable at Php10.5 million. However, Stockholder's Equity decreased proportionately with the asset contraction, declining from Php6.3 billion to Php3.3 billion.

The Company's five (5) key performance indicators are as follows:

	September 30, 2025	September 30, 2024	September 30, 2023
Current Ratio	313.67 : 1	311.3 : 1	602.77 : 1
Quick asset ratio	313.65 : 1	311.27 : 1	602.73 : 1
Debt to Equity Ratio	0.00 : 1	0.00 : 1	0.00 : 1
Net Profit Margin	76.11%	80.37%	81.89%
Return on Equity	4.23%	4.76%	4.44%

Formulas used:

Current ratio	= Current Assets over Current Liabilities
Quick assets ratio	= Quick assets over Current Liabilities
Debt to equity	= Total Liabilities over Total Stockholders' Equity
Net profit margin	= Net income over Gross Revenues
Return on ave. equity	= Annualized Net income over Ave. Stockholders' Equity
