Item 2: Management's Discussion and Analysis of Financial Condition and Results of Operations

Financial Condition

At the end of the third quarter, total assets stood at P174.62 billion a decrease of P851.59 million compared from last year's level of P175.47 billion. Due from Bangko Sentral ng Pilipinas representing 3.40% of total assets decreased by 27.65% or by P2.271 billion. This can be attributed as BSP placements dropped as funds were shifted to other higher yielding assets. Due from other banks increased by 19.76% or by P200.66 million due to higher level of deposits and working balances with local and foreign correspondent banks. SPURA decreased by 15.79% or by P810 million as bids for the Bank's excess loanable funds after funding additional loans and investments securities to be placed with BSP's SPURA were comparatively less successful this quarter. Cash and other cash items closed at P964.93 million, 18.79% decrease as funds were maintained for other investments. Investment properties amounting to P1.694 billion decreased by 22.40% or by P489.06 million compared from last year's level of P2.183 billion due to sale of some of the Bank's acquired real properties. Other assets account decreased by 4.95% as movements of these asset accounts can be accounted for by transactions in the ordinary course of business.

Deposit liabilities, which comprises 85.87% of total assets and 99.28% of total liabilities decreased by P1.608 billion despite an increase in savings deposits of 3.28% which was offsetted by decrease in time deposits due to volume of matured time deposits for the month. The decrease in manager's checks by 61.61% represents lower outstanding checks issued compared from last year level of P173.23 million. Accrued taxes decreased by 12.76% due to lower accrual of interest and other expenses. All other payables were paid within the stated terms.

Capital funds for the third quarter closed at P23.59 billion compared from last year's level of P22.68 billion, a minimal increase of 3.99% or by P905.89 million. This reflects the impact of mark to market valuation on investments securities on the bank's total equity. This can also be attributed by the earnings for the third quarter amounting to P427.87 million and the decrease of cumulative translation adjustment. Capital adequacy ratio (CAR) for the third quarter is 41.49% which is well above the Bangko Sentral ng Pilipinas minimum requirement of 10%.

The Bank has outstanding commitments, contingent liabilities, and bank guarantees that arise from the normal course of operations. The Bank does not anticipate any losses that will materially affect its financial position and results of operations. Changes in nature and amounts in the financial statements were due more to market related factors inherent in nature of the issuer's business operations and were not considered unusual.

Results of Operations

The Bank generated gross earnings for the third quarter of 2025 amounting to P7.16 billion compared from last year's level of P8.06 billion, a decrease of 11.23% or by P905.94 million. This can be attributed by reduced investment returns despite gain from loan growth and higher BSP placement yields. Deposit placements with BSP and other banks posted a 46.52% increase due to higher volume and yields generated. Interest

income on investments at amortized cost decreased by 15.46% due to lower volume of securities disposed compared from last year's level. Service charges and commissions increased by 12.98% due to higher volume of transactions for the period. Gains/losses from sale/redemption of governments securities decreased by 81.73% due to lower volume of transactions for the period. Other operating income decreased by 47.28% due to lower ROPA disposal gains compared from last year's level.

Interest expense dropped by 20.16% from P5.04 billion to P4.02 billion due to lower deposit liabilities compared from last year's level. Occupancy and equipment related expenses posted an 9.72% increased fueled by higher administrative expenses due to higher technology related service cost. All other expenses decreased by less than 10% which is normal in the ordinary course of business. Net income closed at P427.87 million higher by 18.76% compared from last year's level of P360.27 million.

For the past years, the Bank continued to be conservative in the management of depositor's funds. The Bank will continue to focus in its core business and deepen its banking relationship with more perspective clients and to offer more excellent services. Looking ahead, we remain committed to our long-term aspiration of maintaining our status as a stable bank known for its asset liquidity stability. Furthermore, the Bank aims to expand its network with more additional branches and ATMs in strategic locations to provide greater accessibility to its clientele.

Key Performance Indicators

The performance of the bank is reflected in the following financial ratios:

	<u>Sept. 30, 2025</u>	<u>Sept. 30, 2024</u>
Return on Average Equity	2.50%	2.16%
Return on Average Assets	0.33%	0.27%
Net Interest Margin	2.27%	1.99%
Capital to Risk Assets	41.49%	43.13%
Cost to Income Ratio	59.49%	55.47%

The manner by which the Bank calculates the above indicators are as follows:

<u>Key Performance Indicator</u>	<u>Formula</u>
1. Return on Average Equity (%)	$\frac{\text{Net Income After Income Tax}}{\text{Average Total Capital Accounts}}$
2. Return on Average Assets (%)	$\frac{\text{Net Income After Income Tax}}{\text{Average Total Assets}}$
3. Net Interest Margin (%)	$\frac{\text{Net Interest Income}}{\text{Average Interest Earning Assets}}$
4. Capital to Risk Asset (%)	$\frac{\text{Total Qualifying Capital}}{\text{Total Risk-Weighted Assets}}$
5. Cost to Income Ratio (%)	$\frac{\text{Total Operating Expenses}}{\text{Net Interest Income} + \text{Other Income}}$

Part II - Other Information

Our financial report for the third quarter of 2025 was prepared in compliance with Generally Accepted Accounting Principles as set forth in Philippine Financial Reporting Standards (PFRS). The term PFRS in general includes all applicable PFRS, PAS and SIC/IFRIC interpretations which have been approved by the Financial Reporting Standards Council (FRSC) and adopted by the SEC pronouncements. The same accounting policies and methods of computation were consistently followed in our financial statements as compared with the annual audited financial statements. There were no cash dividends paid during the year 2025. There were no material contingencies or any other unusual events or transactions affecting our financial condition since December 31, 2024. There are no known trends, demands, commitments, events or uncertainties that would have had a material conflict on our financial condition or results of operations or unfavorable impact on net revenues from continuing operations. There is no material commitment for capital expenditures. We don't anticipate any events that may cause any default or acceleration of an obligation. There are no material off-balance sheet transactions, arrangements, obligations, including contingent obligations and other relationships of the company with unconsolidated entities during the reporting period.

For the third quarter of 2025, the Bank had no transactions that would require the following information or disclosures:

- a. Explanatory comments about the seasonality or cyclicity of interim operations.
- b. The nature and amount of items affecting assets, liabilities, equity, net income or cash flows that are unusual because of their nature, size or incidents.
- c. The nature and amounts of changes in estimates of amounts reported in prior interim periods of the current financial year or changes in estimates of amounts reported in prior financial years, if those changes have a material effect in the current interim period.
- d. Issuances, repurchases and repayments of debt and equity securities.
- e. Segment revenue and segment result for business segments or geographical segments, whichever is the issuer's primary basis of segment reporting.
- f. Material events subsequent to the end of the interim period that have not been reflected in the financial statements for the interim period.
- g. The effect of changes in the composition of the issuer during the interim period, including business combinations, acquisition or disposal of subsidiaries and long-term investments, restructurings, and discounting operations.
- h. Existence of material contingencies and any other events or transactions that are material to an understanding of the current interim period.
- i. Any significant elements of income or loss that did not arise from the issuer's continuing operations.
- j. Any seasonal aspects that had a material effect on the financial condition or results of operations.
- k. There are no causes for any material changes for our financial from period to period (5%).

FINANCIAL RISK DISCLOSURE

A. Assessment of Financial Risk Exposure of the Bank as of September 30, 2025.

I. Market Risk: Foreign Exchange Position

As of September 30, 2025, the Bank's FX position stood at PhP 5.10 billion representing 2.92% of the bank's total asset at PHP174.620 billion and 100% of market risk-weighted assets.

II. Liquidity Risk

Liquidity Coverage Ratio (LCR). The LCR is the ratio of High-Quality Liquid Assets (HQLA) to total net cash outflows which should be no lower than 100% on a daily basis.

Net Stable Funding Ratio (NSFR). The NSFR is the ratio of the available stable funding (ASF) to the required stable funding (RSF), should be no lower than 100%

Basel III Leverage Ratio (BLR). The BLR is computed as the capital measure (Tier 1 capital) divided by the total exposure and should not be less than 5%.

	Regulatory Minimum	As of September 30, 2025
Liquidity coverage ratio	100%	511%
Net stable funding ratio	100%	364%
Leverage ratio	5%	13%

III. Credit Risk

The bulk of company's loans are fully secured by real estate while some of the loan accounts are backed by guarantees, and only a small percentage of the loans are in clean basis but these are usually extended to clients with very satisfactory payment record &/or who are known to the bank for their good credit reputation. The lending process begins with credit selection and continues to administration and review of loan accounts on a regular basis. Reporting to and review by the Credit and Loans Review Committee is part of the whole credit process and done on a regular basis.

1. The bank has no hedging nor financial derivatives contracts. The bank's main financial contracts are:

Financial Assets at Fair Value Through Other Comprehensive Income (FVOCI), and Debt Securities at Amortized Cost (AC).

2. *Other than US Dollar denominated bonds issued by the Republic of the Philippines, the bank has no investment in foreign securities or equities.*

3. Asset and liability management is involved in matching the economic characteristics of the bank's cash flows. We look at duration, the fixed/floating interest rate of our commitments, the repricing period, liquidity position and stress testing. The decisions are strategically made based on interest rate exposure. Impairment is recognized via valuation reserves in accordance with PFRS 9.

4. Before the bank makes any investment decision, it ensures that the secondary market must have liquidity, breadth, and depth to transact all tenors of financial instruments.

Pursuant to the requirements of the Securities Regulation Code, the issuer has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
