Yes [x] No []

- (b) has been subject to such filing requirements for past 90 days

Yes [x] No []

PART 1 – FINANCIAL INFORMATION

Item 1. Financial Statements.

Financial Statements for the Third Quarter 2025 required per SRC Rule 68 are attached.

The accounting policies and methods of computation that were applied in the interim financial statements are similar to the accounting policies and methods of computation that were used in the most recent annual audited financial statements.

In the absence of any operating activities during the period covered, only material variances are reflected or presented in the analysis of the company's financial statements. As can be gleaned clearly in the interim financial statements, there are no material changes in estimates and amounts that could possibly affect the assets, liabilities, and equity of the Company. Also, there are no material events subsequent to the end of interim period that have not been reflected in the notes of the financial statements for the interim period.

There were no issuances, repurchases, nor repayments of debt and equity securities.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

In the meantime, the Company incurred 2025 Third Quarter net loss of P 0.853 million as against last year's third quarter net loss of P 1.163 million, a decrease of P 0.310 million or 27% due to limited expenses on professional fee, real property taxes and management fees.

The Company's present activities are still confined to the care and maintenance of the Bayarong tailings dam and its properties. The Company has continued to maintain the major dam structures to prevent overspill of the dam water. This is in compliance with instructions and directives from MGB and the DENR.

The financial statement will show that the Company has investment in two [2] properties. One of them is the Port facilities in Subic, Zambales and the other is a 4,000 sqm lot in Valenzuela, Bulacan. The Board has previously authorized Management to dispose, lease or sell the property.

On December 24, 2019, the Parent Company entered into a Contract to Sell for a total consideration of One Hundred Million Pesos (P100,000,000.00) with Sunplaza Development Corporation, a related party, for the sale of the port facilities in Subic, Zambales which was previously classified as part of investment properties with a carrying amount of Php 30,000,000.00. The property consisting of 20,534 square meters lot is located at Barangay Matain, Subic, Zambales.

In addition, the Company is also considering the following options to improve the Company's stockholder's equity. The Company has an authorized capital stock of 101,250,000 with a par value of P1.00 per share but only 79,087,499 shares are subscribed and fully paid. This will allow us to sell 22,162,501 unissued new common shares at a premium over par considering that we plan to issue the same at or near the current market price of the Company's shares as traded in the facilities of the Philippine Stock Exchange.

DCSMI continues to work and look for a potential joint venture partner who can infuse fresh capital for its projects by way of an increase in the authorized capital stock but this route may take a much longer time considering the posture of the government authorities on mining. One project is to extract the residual gold from the mine tailings that are now stored in the tailings dam.

The Company has applied for Mineral Processing Permit for the gold tailings in San Marcelino, Zambales and has obtained an approval for its work program. The area covered by the tailings is outside and not part of the mining claim of a third party.

DIZON TAILINGS in San Marcelino, Zambales

The Company has obtained studies of the metal content of the tailings at the Bayarong Tailings Dam indicating 100 million tons mineralization.

On October 10, 2012, the Company submitted to MGB-Region III the "Work Program on the Environmental Mitigating and Rehabilitation Plan" of its tailings dam structures to address environmental impacts of the existing

site. On February 19, 2013, the MGB-Region III certified and approved for the “Work Program on the Environmental Mitigating and Rehabilitation Plan” for the Company’s Bayarong Tailings Dam subject to compliance of certain requirements and conditions

On October 25, 2012, the Company applied for Mineral Processing Permit for the recovery of the remaining minerals at the Bayarong Tailings Dam in San Marcelino, Zambales which holds around 100 million metric tons of mill tailings. The area covered by the tailings is outside and not part of the mining claim of any third party. The Company is pursuing its Mineral Processing Permit with the DENR and is constantly coordinating with said agency for issuance.

The efforts of the Company to pursue this project is in line with and an implementation of the Supreme Court decision in “Dizon Copper Silver Mines, Inc v. Benguet Corporation” dated February 15, 2006 which rests on the Company the exclusive responsibility to rehabilitate the tailings in its property. The Company has already spent Php 70 million to protect the environment in the area.

The Company is looking for potential investors for possible joint venture for the processing and operational rights of the Dizon tailings. No exploration activity has been conducted in the area.

PORT DIZON in Subic, Zambales

On December 24, 2019 the Board approved the sale of Port Dizon with an area of 20,534 square 9meters located at Barangay Matain, Subic, Zambales in favour of Sunplaza Development Corporation.

OTHER MATTERS

There are no events that will trigger direct or contingent financial obligation that is material to the Company. Furthermore, the Company has no off-balance sheet transaction, arrangement nor obligation and relationship with unconsolidated entities or other persons created during the reporting period. Likewise, there are no seasonal aspects that could have a material effect on the financial condition or results of operation of the Company. Since the Company is still very liquid, no acquisition from outside sources of funds is necessary.

There is no immediate need to purchase equipment at present since there is equipment that are available under lease arrangements with lessors that can be utilized by the Company. The Company has no other material commitments for capital expenditures as of the current date.

As of now, the Company is not anticipating significant changes in the number of employees. The Company can employ on short contract basis for its present operation. There is no existing collective agreement since the business operations are suspended. There is no employee benefit plans and programs yet due to non-operation of the Company.

There is no existing nor probable governmental regulation that may affect the business operations of the company. As far as the DCSMI properties are concerned, there is no new pronouncement regarding government regulations (RA 7942) except for some procedural requirements imposed by the government.

The Company is pursuing its Mineral Processing Permit with the Department of Environment and Natural Resources (DENR). The Company is constantly coordinating with DENR for developments on the matter.

There are no known trends, demands, commitments, events, or uncertainties that will have material impact on the Company’s liquidity as of the current period.

The Company is still awaiting definitive government policy on the tax implication related to mining activities.

ITEM 3. LEGAL PROCEEDINGS

There is no legal proceeding involving the Company or any of its officers.

FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The Company, as of the end of third quarter of the year 2025, has a total asset of P65.011 million and Total Liabilities of P 37.478 million, thereby giving Solvency ratio of 1.74:1. The Company though has a net loss for this quarter is still having an upbeat financial position in terms of liquidity. Overall liquidity ratio of the Company is still positive. The current ratio is 0.68 wherein total current asset being P 21.431 million against total current liabilities of P 31.612 million. Net loss per share has been computed to be (P 0.011) as of the third quarter of the current year, net loss was P 0.853 million. Return on stockholders' equity is (P 0.03) being net loss as of the end of the third quarter was P 0.853 million and Stockholder's equity of P 27.534 million.

Comparative amounts of revenues and expenses as of the Second half ended September 30, 2025 and September 30, 2024 with their Assets, Liabilities and Stockholders' Equity are presented as follows (in millions of pesos):

	September 30, 2025	September 30, 2024	% Changes
Revenues	0	0	
Expenses	0.853	1.163	+26.66%
Net Income/(loss) after tax	(0.853)	(1.163)	+26.66%
Total Assets	65.011	64.612	+0.62%
Total Liabilities	37.478	34.793	+7.72%
Stockholders' Equity	27.534	29.819	-7.66%

RESULTS OF OPERATION

Revenue

In the current quarter, the Company has no operational revenue.

Operating Expenses

As of the end of the current quarter, the Company's total expenses amounted to P 0.853 million. This resulted to a positive variance of 27 % or a P 0.310 million from same period of last year's P 1.163 million.

Total administrative expenses comprised 100 % of the Company's total expenses as of the end of the current quarter. These include personnel costs, outside services, taxes and licenses, dues and subscription expenses, representation, utilities, gas, and oil, among others.

With the suspension of its operations, the Company's present activities are confined to the care and maintenance of the tailings dam and its structures. The Company aims to recover of residual gold from its tailings which holds around 100 million metric tons of mill tailings containing 0.34 Au/T aside from fully rehabilitating the area.

FINANCIAL CONDITION

Total Assets of the Company as of the end of the current quarter amounted to P65.011 million, an increase of 0.62% or P 0.400 million from end of third quarter last year's P 64.612 million. As compared to December 2024 balance of P 65.350 million, the Total Assets for the third quarter of 2025 decreased by P 0.339 million or 0.52%.

The Company's Total Current Assets as of the end of the third quarter 2025 amounted of P 21.431 million; comprising 33% of the Company's Total Assets. As compared with balance of the end of the last years' third quarter of P 7.866 million, the current assets increased by P 13.565 million or 172.47%. This was brought about by the increase in receivable. As compared to December 2024 balance of P 21.737 million, Total Current Assets decreased by P 0.306 million or 1.41%.

Cash and Cash Equivalents which constituted 0.30% of the Company's total current assets amounted to P 0.065 million as of the end of the current quarter. Cash in banks earn interest at the respective bank deposit rates. The Cash and Cash Equivalents decreased by P 0.200 million or 75% of the preceding year's third quarter balance of P 0.265 million. Since the Company has no revenue for the quarter, its cash and cash equivalent were only used to maintain the operation of the Company. As compared with the cash and cash equivalents ending December 2024 of P 0.596 million it was decreased by P 0.530 million or 88.93%.

Receivables were P 21.350 million, which accounted for 99.62 % of the Company's Total Current Assets. It was increased by P 13.762 million or 181.37% from end third quarter of last year's P 7.588 million. Comparing to December 2024 balance of P 20.268 million, receivables for the period increased by P 1.083 million or 5.34%.

Total Noncurrent Assets amounted to P 43.580 million as of the end of third quarter 2025 and accounted for 67 % of the Company's Total Assets. Compared with end of last year's third quarter balance of P 56.746 million, this account decreased by 23.20 % or P 13.166 million and comparing the balance of total noncurrent assets as of December 2024, it decreased by P 0.032 million.

Investment Properties amounted to P 0.013 million comprised 0.03% of the total noncurrent assets of P 43.580 million, investment properties balance is the same as of last year quarter and remained at the same amount as of December 2024.

Available-for-Sale Financial Assets which amounted to P 0.463 million as of the end of the current year's third quarter accounted for 1.06 % of the Company's total noncurrent assets. The Available-for-sale financial assets decreased by P 0.164 million or 26.18 % compared with end of last year's third quarter balanced of P 0.627 million and remained at the same amount as of December 2024.

Total Liabilities as of the end of the current quarter amounted to P 37.478 million showing P 2.685 million or 7.72% increase from last year's third quarter figure of P 34.793 million. Compared with balance of December 31, 2024 of P 36.963 million, this account increased by P 0.515 million or 1.39%.

The Company's Current Liabilities as of the end of the current year's third quarter amounting to P 31.612 million accounted for 84.3% of the total liabilities. The Current Liabilities increased by P 3.219 million or 11.34% of the preceding year's third half of P 28.393 million. Comparing to December 2024 of P 31.097, Current Liabilities for the period increased by P 0.515 million or 1.65%.

Total Non-Current Liabilities as of the current quarter amounted to P 5.866 million. As compared to last third quarter balance in 2024 amounted to P 6.400 million it decreased by P 0.534 million or 8.34%. It comprised 15.7% of the total Liabilities. Total Non-Current Liabilities balance is the same as of December 2024.

Stockholders' Equity as of end of the current quarter amounted to P 27.534 million a decreased of P 2.285 million or 7.66% from the 2024 third quarter balance of P 29.819 million. Compared with December 2024 balance P 28.386 million, this account decreased by P 0.852 million or 3% due to net loss.

KEY PERFORMANCE INDICATORS (September 30, 2025 and September 30, 2024):

1.1 CURRENT RATIO – Measures ability to meet currently maturing obligations from existing current assets:

	September 2025	September 2024
<u>CURRENT ASSETS</u>	<u>P 21,431,025</u>	<u>P 7,865,572</u>
CURRENT LIABILITIES	P 31,611,782 = 0.68 : 1	P 28,392,996 = 0.28 : 1

2.1 DEBT TO EQUITY RATIO – Measures the relative amounts of resources provided by shareholders and creditors. It indicates an extent of leverage used and creditor protection in case of insolvency.

<u>TOTAL LIABILITIES</u>	<u>P 37,477,899</u>	<u>P 34,793,060</u>
STOCKHOLDERS EQUITY	P 27,533,552 = 1.36 : 1	P 29,818,670 = 1.17 : 1

3.1 RETURN ON STOCKHOLDERS' EQUITY RATIO – Measure rate of earnings on resources provided by shareholders.

<u>NET LOSS</u>	<u>P 852,512</u>	<u>P 1,162,995</u>
STOCKHOLDERS EQUITY	27,533,552 = 0.031 : 1	29,818,670 = 0.040 : 1

The ratio indicates that the company should generate positive income so as to have satisfactory return on investments.

4.1 EARNINGS PER SHARES (EPS) – Measures the amount of earnings attributable to each share of common stock.

<u>NET LOSS / NO. OF SHARES OUTSTANDING</u>	<u>P 852,512</u> 79,087,499 = 0.011	<u>P 1,162,995</u> 79,087,499 = 0.015
---	--	--

As a result of losses, the earning per share was further diluted.

5.1 EQUITY RATIO – Measures total investment provided by stockholders.

<u>STOCKHOLDERS EQUITY</u>	<u>P 27,533,552</u>	<u>P 29,818,670</u>
<u>TOTAL ASSETS</u>	<u>P 65,011,452 = 0.42 : 1</u>	<u>P 64,611,729 = 0.46 : 1</u>

Financial Assets and Liabilities

The following table summarizes the carrying/fair values of financial assets and liabilities of the Company as of September 30, 2025 and December 31, 2024:

Loan and Receivables	September 30, 2025		December 31, 2024	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Cash in Bank	65,199	65,199	595,668	595,668
Receivables	21,350,347	21,350,347	20,267,558	20,267,558
	21,415,546	21,415,546	20,863,226	20,863,226

AFS Financial Assets	September 30, 2025		December 31, 2024	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Equity Investments: Quoted shares of stock Unquoted shares of stock	462,598	462,598	462,597	462,597
	462,598	462,598	462,597	462,597

Other Financial Liabilities	September 30, 2025		December 31, 2024	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Account payable and accrued expenses	25,602,050	25,602,050	26,103,314	26,103,314
Due to related parties	2,220,104	2,220,104	1,270,000	1,270,000
Dividends Payable	3,724,206	3,724,206	3,724,206	3,724,206
	31,546,360	31,546,360	31,097,520	31,097,520

Due to the short-term nature of the cash and cash equivalents, receivables, and accounts payable and accrued expenses, the carrying values of these accounts approximate their fair values. AFS financial assets in quoted equity instruments are carried in the balance sheet at fair value, which is determined by reference to quoted market prices at the close of business on the balance sheet date.

AFS financial assets in unquoted equity securities are carried at cost less allowance for impairment losses because their fair values cannot be measured reliably due to lack of reliable estimates of future cash flows and discount rates necessary for the fair values.

Financial Risk Management Objectives and Policies

The main risks arising from the Company's financial instruments are credit risk and liquidity risk. The BOD reviews and approves the policies for managing these risks which are summarized as follows:

Credit risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss to the other party by failing to discharge an obligation. Credit risks are minimized and monitored by limiting the Company's exposure to borrowings or loan transactions. Receivables are monitored on an ongoing basis through the Company's management reporting procedures. The Company does not have any significant exposure to any individual customer or counterparty nor does it have any major concentration of credit risk related to any financial instruments. The Company deals only with financial institutions duly evaluated and approved by the BOD.

The Company's maximum exposures to credit risk arising from financial instruments are shown in the following table:

	September 30, 2025
Cash and Cash equivalents (Excluding cash on hand)	P 65,199
Receivables	21,350,347
AFS Financial Assets	462,598
Total Credit Risk Exposure	P 21,878,144

Credit quality per class of financial instrument as of September 30, 2025:

	Neither Past Due nor <u>Impaired</u>		Past Due but not Impaired	Past due or Individually Impaired	Total
	High Grade	Standard Grade			
Cash and Cash equivalent	P 65,199				P 65,199
Receivables		P21,350,347			P21,350,347
AFS Financial Assets		462,598			462,598
Shares of Stock					
Short-Term Investments					
Total	P 65,199	P 21,812,945			P 21,878,144

The following table provides the age analysis of financial assets that are past due but not impaired as of September 30, 2025:

		Lessee than 6 months but than 1 year	Total
Receivables	P	P 21,350,347	P 21,350,347

The credit quality of the financial assets was determined as follows:

Cash and AFS Financial Assets

Cash are classified as "Grade Satisfactory" since cash are placed in high profile banking institutions while AFS financial assets are determined based on its fair market value.

Receivables

Receivables are categorized based on the collection experience with the counterparties.

- High Grade - settlements are obtained from counterparty following the terms of the contracts without much collection effort.
- Standard Grade - some reminder follow-ups are performed to obtain settlement from the counterparty.
- Impaired - difficult to collect with some uncertainty as to collectability of the accounts.

Overall, the Company considers its high grade and standard grade accounts of good quality and it expects to collect all its receivables except for impaired accounts where credit losses may be incurred.

Liquidity Risk

The Company's exposure to liquidity risk relate to raising funds. The Company manages its liquidity profile to be able to finance operating expenditures. To cover its financing requirements, the Company intends to use internally generated funds and available short-term credit facilities. All the subscribed shares of the authorized capital have been fully paid.

As part of its liquidity risk management, the Company regularly evaluates its projected and actual cash flows. It also continuously assesses conditions in the financial markets for opportunities to pursue fund raising activities, in case any requirement arises.

Liquidity risk arises from the possibility that an entity will encounter difficulty in raising funds to meet associated commitments with financial instruments. The Company's objective is to maintain a balance between continuity of funding and flexibility through the use of internally generated funds from sale of company assets.

The Company's objectives to manage its liquidity profile are: a) to ensure that adequate funding is available at all times; b) to meet commitments as they arise without incurring unnecessary costs; c) to be able to access funding when needed at the least possible cost; and d) to maintain an adequate time spread of refinancing maturities.

The table below summarizes the maturity profile of the Company's financial liabilities based on contractual undiscounted payments:

As of September 30, 2025:

	Less than 6 months	More than 6 months but less one year	TOTAL
Accounts payable and accrued expenses			
Payable to stockholders	P	2,220,104	P 2,220,104
Accrued expenses		25,602,050	25,602,050
Dividends payable		3,724,206	3,724,206
TOTAL	P	P 31,546,360	P 31,546,360

As of December 31, 2024

	Less than 6 months	More than 6 months but less one year	TOTAL
Accounts payable and accrued expenses			
Payable to related parties	P	P 1,270,000	P 1,270,000
Accrued expenses		26,103,114	26,103,114
Dividends payable		3,724,206	3,724,206
TOTAL		P 31,097,320	P 31,097,320

CAPITAL MANAGEMENT

The Company maintains a capital base to cover risks inherent in the business. The primary objective of the Company is to ensure that the mine site is properly maintained while expenditures are kept at a low level.

	September 2025	December 2024
Capital stock	₱ 79,087,499	₱ 79,087,499
Net changes in Fair values of Available-for-sale Financial assets	309,361	309,360
Retained Earnings	(54,385,080)	(53,532,566)
Additional Paid-in capital	2,521,808	2,521,808
Cost of Treasury shares	(36)	(36)
Total Equity	P 27,533,552	P 28,386,065

ITEM 3. LEGAL PROCEEDINGS

There is no legal proceeding involving the Company or any of its officers.

PART II - OTHER INFORMATION

The following resolutions were approved by the Board during the Third Quarter 2025:

August 1, 2025	Dizon Copper Silver Mines, Inc. (the Company) discloses today the approval of the Board of Director's postponement of the Annual Stockholders' Meeting as scheduled in the By-Laws to be held on the last Wednesday of August due to lack of material time to complete reports and updates on the Corporation's operations and prepare the documents required to be filed with the regulatory agencies for the holding of a stockholders' meeting. In its meeting held today, the Company's Board of Directors has decided to hold the Annual Stockholders' Meeting, on October 27, 2025 via Zoom platform, provided, that the distribution of notices and materials to the Company's Stockholders and other Stakeholders can be effectively executed, and that the meeting can be practicably convened in compliance with the issuances of the Securities and Exchange Commission and provisions of applicable laws.

DIZON COPPER-SILVER MINES, INC. AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Corporate Information and Status of Operations

Corporate Information

Dizon Copper-Silver Mines, Inc. (Parent Company) and its subsidiary, Redridge Resources Corp. (Redridge; collectively referred to as the Group) were incorporated in the Philippines. The Parent Company was registered with the Philippine Securities and Exchange Commission (SEC) on August 18, 1966 to acquire, purchase, lease, hold, work and operate mines, mining claims, grounds, or lodes in the Philippines or in foreign countries. On February 10, 1988, the Parent Company was listed in the Philippine Stock Exchange (PSE) at an issue price of ₱1 per share.

The stockholders owning 56,030,081 common shares or 70.84% of the outstanding capital stock of the Parent Company (equivalent to a total of 79,087,487 shares) were present or represented by proxy at the stockholder's meeting on March 16, 2016 and approved a resolution to the extension of the life of the Parent Company for another fifty (50) years. The resolution was approved by SEC.

The registered office address and principal place of business of the Group is at 7th Flr., Peaksun Building, Princeton St., Brgy. Wack-Wack, Greenhills East, Mandaluyong City.

Status of Operations

Mining Claims

The Parent Company has applied for Mineral Processing Permit for the recovery of the remaining minerals at the Bayarong Tailings Dam in San Marcelino, Zambales. The application for permit was submitted to the Mines and Geosciences Bureau (MGB)-Region III on October 25, 2012. The Parent Company is pursuing its Mineral Processing Permit with the DENR and is constantly coordinating with them for further requirements for its immediate issuance.

On October 10, 2012, the Parent Company submitted to MGB-Region III the "Work Program on the Environmental Mitigating Measures and Rehabilitation Plan" of the Mine structures of the Group to address all major environmental impacts of the existing site. On February 19, 2013, the MGB Region III issued a Certification/Approval for the "Work Program on the Environmental Mitigating Measures and Rehabilitation Plan" for the Bayarong Tailings Dam subject to compliance of certain requirements and conditions.

The Group's present activities are confined to the care and maintenance of the mine site and the mining properties, especially the Bayarong Tailings area.

Properties/Port Dizon

On December 24, 2019, the Group entered into a Contract to Sell for a total consideration of ₱100,000,000 with Sunplaza Development Corporation (SDC), a related party, for the sale of the port facilities in Subic, Zambales, which was previously classified as part of investment properties with carrying amount of ₱30,000,000. The property consisted of 20,534 square meters in Barangay Matatin, Subic, Zambales.

Going concern assumption

As discussed above, the Group is currently non-operating and no active source of income. The Group's present activities are confined to the care and maintenance of the mine site and the mining properties, especially the Bayarong Tailings area. In addition, the Group has reported deficit ₱54,385,080 and ₱53,532,566 as of September 30, 2025 and December 31, 2024, respectively. Also, the Group's current liabilities exceeded its current assets by ₱10,180,757 and ₱9,360,529 as at September 30, 2025 and

December 31, 2024, respectively. These conditions indicate that a material uncertainty exists which may cast significant doubt on the Group's ability to continue as a going concern and therefore, the Group may be unable to realize its assets and discharge its liabilities in the normal course of business.

As of December 31, 2024, the Group has remaining receivables from the sale its land port facilities in Subic, Zambales to SDC amounting to ₱66,766,355, which are expected to be collected until 2026. Management assesses that the going concern assumption remains to be appropriate as the proceeds from the sale and the financial support from related parties, including deferral of its receivables from the Parent Company, will be used to finance the operating expenses of the Group, as well as to identify business opportunities that the Group may undertake. As such, the consolidated financial statements have been prepared on a going concern basis of accounting.

3. Cash

	September 2025	2024
Cash on hand	₱—	₱—
Cash in banks	65,199	595,668
	₱65,199	₱595,668

Cash in banks earn interest at the respective bank deposit rates.

4. Receivables

	September 2025	2024
Installment receivables - current portion	₱18,416,790	₱17,334,001
Advances to related parties	2,933,557	2,933,557
Others	—	—
	₱21,350,347	₱20,267,558

Installment receivables pertain to the Group's current portion of receivable from the sale of its land port facilities to SDC.

5. Other Current Asset

Other current asset pertains to the cumulative amount of tax withheld by SDC upon payment of the installment receivables from the sale of its land. This amount can be claimed by the Parent Company as tax credit to be offset against its income tax liability.

6. Investment Property

The Group's investment property amounting to ₱12,940 as at September 30, 2025 and December 31, 2024 pertains to the Group's 4,000 square meters lot in Valenzuela, Bulacan.

The fair value of land in Valenzuela amounted to ₱20,350,000 based on the valuation performed by an independent appraiser as at March 23, 2021. The fair value represents the amount at which assets could be exchanged between a knowledgeable, willing buyer and a knowledgeable, willing seller in an arm's length transaction at the date of valuation. The fair value of the properties was arrived at by using the Market Data Approach, wherein the value is based on sales, listings and other market data of comparable properties registered within the vicinity of subject properties.

Based upon the analysis of the property itself by the independent appraiser and the prevailing land usage in the neighborhood, a residential utility would represent the highest and best use of the property. The investment property is currently being held by the Group for capital appreciation.

While the fair value of the investment property was not determined as at December 31, 2024, the Parent Company's management believes that there were no conditions present in 2024 that would significantly reduce the fair value of the investment property from that determined based on the latest appraisal report.

7. Financial Assets at FVOCI

Financial assets at FVOCI in 2024 and 2023 primarily consist of investments in quoted shares of stocks amounting to ₱462,598 and ₱462,597 as at September 30, 2025 and December 31, 2024.

a. Movements in the fair values are as follows:

	September 2025	2024
Cost	₱112,835	₱112,835
Cumulative net valuation gain on fair value changes:		
Beginning balance	513,818	513,817
Fair value change for the year	(164,055)	(164,055)
Ending balance	349,763	349,762
	₱462,598	₱462,597

The cumulative valuation gain on FVOCI as at September 30, 2025 and December 31, 2024 presented as separate component of equity are as follows:

	September 2025	2024
Balances at beginning of year	₱458,030	₱458,030
Fair value change recognized in OCI	(164,055)	(164,055)
Effect of tax	15,385	15,385
	(148,670)	(148,670)
	₱309,360	₱309,360

8. Accounts Payable and Accrued Expenses

	September 2025	2024
Accrued expenses	₱18,303,299	₱18,799,377
Deferred output VAT	7,295,214	7,295,214
Dividends payable	3,724,206	3,724,206
Others	3,537	8,523
	₱29,326,256	₱29,827,320

Accrued expenses pertain to accrual of professional and other fees, site maintenance expenses and output VAT incurred but remain unpaid which are noninterest-bearing and are generally settled within one year.

Dividends payable pertains to cash dividends declared by the Group which are unclaimed as at September 30, 2025 and December 31, 2024.

Other liabilities include expanded withholding taxes.

9. Administrative and Mine Site Expenses

	Sept. 2025	2024
Tailing dam site maintenance costs	₱0	₱1,429,125
Legal and professional fees	307,332	981,313
Transportation and travel	1,000	450,149
Taxes and licenses	23,665	291,830
Dues and subscription	256,323	253,500
Directors' fees	0	100,000
Meeting expenses	0	66,597
Representation and entertainment	0	27,565
Supplies	119,330	11,040
Communication, light and water	85,250	3,303
Others	59,702	141,712
	₱852,602	₱3,756,134

Tailing dam site maintenance costs pertain to the cost incurred for additional safety measures recommended by the MGB in the rehabilitation and stabilization of the tailings dam.

10. Related Party Transactions

Related party relationship exists when one party has the ability to control, directly, or indirectly through one or more intermediaries, the other party or exercise significant influence over the other party in making financial and operating decisions. Such relationship also exists between and/or among entities, which are under common control with the reporting enterprises and its key management personnel, directors, or its shareholders. In considering each related party relationship, attention is directed to the substance of the relationship, and not merely the legal form.

The details of related party transactions are as follows:

As of September 30, 2025 and December 31, 2024, the Parent Company is fully compliant with the minimum public ownership requirement of the PSE.

12. Financial Risk and Capital Management Objectives and Policies

Financial Risk Management Objectives and Policies

The Group's principal financial instruments comprise of cash, installment receivables and other receivables lodged under "Receivables" and "Other noncurrent assets", financial assets at FVOCI and advances from related parties. The Group has other financial assets and liabilities such as accrued expenses and dividends payable which arise directly from its operations.

The main risks arising from the Group's financial instruments are credit risk and liquidity risk. The Group's BOD reviews and approves policies for managing each of these risks and they are summarized below.

Credit risk

Credit risk refers to the potential loss arising from any failure by counterparties to fulfill their obligations as and when they fall due. It is inherent to the business as potential losses may arise due to the failure of counterparties to fulfill their obligations on maturity dates or due to adverse market conditions.

The Group's exposure to credit risk arises from default of the counterparty, with a maximum exposure equivalent to the carrying amount of cash in banks, installment receivables other receivables and financial assets at FVOCI.

The BOD reviews and agrees policies for managing its credit risk. The Group trades only with related parties and creditworthy financial institutions and third parties.

The table below shows the gross maximum exposure to on and off credit risk exposures of the Group, without considering the effects of collateral, credit enhancements and other credit mitigation techniques.

	September 2025	2024
Cash in banks	₱65,199	₱595,668
Receivables:		
Installment receivables	64,438,890	64,438,890
Others	—	
	₱64,504,089	₱65,034,558

Credit Quality of Financial Assets

The credit quality of financial assets is managed by the Group using credit ratings and is classified into three: High grade, which has no history of default; Standard grade, which pertains to accounts with history of one or two defaults; and Substandard grade, which pertains to accounts with history of at least three payment defaults or no repayment dates.

Accordingly, the Group has assessed the credit quality of the following financial assets:

- Cash in banks are classified as high grade since this is placed in high profile banking institutions.
- Installment receivables are assessed as high grade since this has a high probability of collection.
- Receivables are categorized as standard grade since some reminder follow-ups were performed to obtain settlement from the counterparty.

Overall, the Group considered its high grade and standard grade accounts of good quality and it expects to collect all its receivables except for impaired accounts where credit losses may be incurred.

Credit Concentration Risk

The Group has significant concentration of credit risk in relation to its installment receivables as at September 30, 2025 and December 31, 2024.

Liquidity Risk

Liquidity risk arises from the possibility that an entity will encounter difficulty in raising funds to meet associated commitments with financial instruments. The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of internally generated funds from sale of mine site assets.

The Group's exposure to liquidity risk relates to raising funds. The Group manages its liquidity profile to be able to finance capital expenditures and service maturing debts. To cover its financing requirements, the Group intends to use internally generated funds and the financial support from related parties will be used to finance the operating expenses of the Group.

As part of its liquidity risk management, the Group regularly evaluates its projected and actual cash flows. It also continuously assesses conditions in the financial markets for opportunities to pursue fund raising activities, in case any requirements arise.

The following table summarizes the maturity profile of the Group's financial liability as at September 30, 2025 and December 31, 2024, based on contractual undiscounted cash flows. The analysis into relevant maturity groupings is based on the remaining term at the end of the reporting period to the contractual maturity dates.

September 2025	On demand	Less than 3 months	3 to 6 months	6 to 12 months	1 to 3 years	Total
