REPUBLIC GLASS HOLDINGS CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in Thousands, Except Par Value and Earnings Per Share)

1. Corporate Information

Republic Glass Holdings Corporation (the Parent Company) is a publicly-listed holding entity involved in purchasing and selling securities of every kind and business. On October 29, 2004, the Philippine Securities and Exchange Commission (SEC) approved the Parent Company's application for the extension of its corporate term, which expired on August 23, 2006, for another 50 years.

The registered office address of the Parent Company and its subsidiaries (collectively referred to as "the Company") is 6th Floor, Republic Glass Building, 196 Salcedo Street, Legaspi Village, Makati City.

The Parent Company is 67.88%-owned by Gervel, Inc. (Gervel), an entity incorporated in the Philippines, as at September 30, 2025 and December 31, 2024, respectively. Metropolitan Management Corporation is the ultimate parent company which is also incorporated in the Philippines.

On July 10, 2020, at a special meeting, the Board of Directors (BOD) and Stockholders of RGC Marine Transport Corporation (RMTC), a subsidiary, authorized the dissolution and liquidation by shortening its corporate term. The company received the Certificate of No Outstanding Tax Liability on June 13, 2023. On October 4, 2023, the Company filed for monitoring clearance with SEC. In 2025, the Company received the Certificate of Filing of Amended Articles of Incorporation approving its dissolution.

2. Basis of Preparation and Summary of Significant Accounting Policies

Basis of Preparation

The consolidated financial statements have been prepared in accordance with Philippine Financial Reporting Standards (PFRSs).

The consolidated financial statements have been prepared on a historical cost basis, except for financial assets at fair value through other comprehensive income (FVOCI) and financial assets at fair value through profit or loss (FVPL), which have been measured at fair value. The consolidated financial statements are presented in Philippine Peso, which is the Parent Company's functional and presentation currency. All values are rounded to the nearest thousands, except when otherwise indicated. The Parent Company also files separate financial statements with the SEC. The consolidated financial statements may be obtained at the Company's registered office address (see Note 1).

Basis of Consolidation

The consolidated financial statements comprise the financial statements of the Parent Company and its wholly owned subsidiaries as at September 30, 2025 and December 31, 2024.

As of September 30, 2025 and December 31, 2024, the consolidated subsidiaries (collectively referred to as "Subsidiaries") include the following:

Subsidiaries	Principal Activities	Place of Incorporation	Percentage of Ownership
RGC Investment Corporation (RIC)	Investing	Philippines	100%
Hollington Management Limited (HML)	Investing	British Virgin Island	100%
RGC Marine Transport Corporation (RMTC)*	Shipping	Philippines	100%

* Ceased commercial operations in 1999.

Control is achieved when the Company is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Company controls an investee if and only if the Company has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- Exposure, or rights, to variable returns from its involvement with the investee, and
- The ability to use its power over the investee to affect its returns

Generally, there is a presumption that a majority of voting rights results in control. To support this presumption and when the Company has less than a majority of the voting or similar rights of an investee, the Company considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement(s) with the other vote holders of the investee
- Rights arising from other contractual arrangements
- The Company's voting rights and potential voting rights

The Company re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Company obtains control over the subsidiary and ceases when the Company loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of comprehensive income from the date the Company gains control until the date the Company ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the parent of the Company and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Company's accounting policies. The financial statements of the subsidiaries are prepared in the same reporting period as the Parent Company, using consistent accounting policies.

All intra-Company assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Company are eliminated in full on consolidation. A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Company loses control over a subsidiary, it derecognizes the related assets (including goodwill), liabilities, non-controlling interest and other components of equity while any resulting gain or loss is recognized in profit or loss. Any investment retained is recognized at fair value.

New Standards, Interpretations and Amendments

The accounting policies adopted are consistent with those of the previous financial year, except for the adoption of new standards effective in 2024. The Company has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

Unless otherwise indicated, adoption of these new standards did not have an impact on the consolidated financial statements of the Company.

- Amendments to PAS 1, *Classification of Liabilities as Current or Non-current*
The amendments clarify:
 - That only covenants with which an entity must comply on or before reporting date will affect a liability's classification as current or non-current.
 - That classification is unaffected by the likelihood that an entity will exercise its deferral right.
 - That only if an embedded derivative in a convertible liability is itself an equity instrument would the terms of a liability not impact its classification.
- Amendments to PFRS 16, *Lease Liability in a Sale and Leaseback*
The amendments specify how a seller-lessee measures the lease liability arising in a sale and leaseback transaction in a way that it does not recognize any amount of the gain or loss that relates to the right of use retained.
- Amendments to PAS 7 and PFRS 7, *Disclosures: Supplier Finance Arrangements*
The amendments specify disclosure requirements to enhance the current requirements, which are intended to assist users of financial statements in understanding the effects of supplier finance arrangements on an entity's liabilities, cash flows and exposure to liquidity risk.

Future Changes in Accounting Policies

Pronouncements issued but not yet effective are listed below. The Company intends to adopt the following pronouncements when they become effective. Adoption of these pronouncements is not expected to have a significant impact on the Company's financial statements.

Effective beginning on or after January 1, 2025

- PFRS 17, *Insurance Contracts*
- Amendments to PAS 21, *Lack of exchangeability*

Effective beginning on or after January 1, 2026

- Amendments to PFRS 9 and PFRS 7, *Classification and Measurement of Financial Instruments*
- Annual Improvements to PFRS Accounting Standards—Volume 11
 - Amendments to PFRS 1, *Hedge Accounting by a First-time Adopter*
 - Amendments to PFRS 7, *Gain or Loss on Derecognition*
 - Amendments to PFRS 9, *Lessee Derecognition of Lease Liabilities and Transaction Price*
 - Amendments to PFRS 10, *Determination of a 'De Facto Agent'*
 - Amendments to PAS 7, *Cost Method*

Effective beginning on or after January 1, 2027

- PFRS 18, *Presentation and Disclosure in Financial Statements*
- PFRS 19, *Subsidiaries without Public Accountability*

Deferred effectivity

- Amendments to PFRS 10, *Consolidated Financial Statements*, and PAS 28, *Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*

Summary of Significant Accounting Policies

Current versus Noncurrent Classification

The Company presents assets and liabilities in the consolidated statement of financial position based on current/noncurrent classification.

An asset is current when:

- It is expected to be realized or intended to be sold or consumed in the normal operating cycle
- It is held primarily for the purpose of trading
- It is expected to be realized within twelve months after the reporting period, or
- It is cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as noncurrent.

A liability is current when:

- It is expected to be settled in the normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Company classifies all other liabilities as noncurrent.

Deferred tax assets and liabilities are classified as noncurrent assets and liabilities.

Judgments

In the process of applying the Company's accounting policies, management has made the following judgments which have the most significant effect on the amounts recognized in the consolidated financial statements:

Impairment of Financial Assets. The Company recognizes an allowance for expected credit losses (ECLs) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive, discounted at an approximation of the original EIR. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

For cash and cash equivalents, short-term investments and receivables, the Company applies the low credit risk simplification. The probability of default and loss given defaults are publicly available and are considered to be low credit risk investments. The Company uses the ratings from credit rating agencies such as S&P and Moody's to determine whether the instruments has significantly increased in credit risk and to estimate ECLs.

The carrying values of cash and cash equivalents and receivables amounted to ₱617.2 million and ₱473.6 million as at September 30, 2025 and December 31, 2024, respectively (see Notes 3 and 5).

Valuation of Unquoted Equity Securities. In contrast to the position in PAS 39, *Financial Instruments: Recognition and Measurement*, PFRS 9 requires all investments in equity instruments and contracts on those instruments to be measured at fair value (see Note 7).

The investee company, Science Park of the Philippines, Inc. (SPPI), is a group of private companies involved in developing and operating industrial parks. SPPI has four (4) direct subsidiaries, two (2) indirect subsidiaries, and one (1) associate, all of which are private operating entities. The Company's main sources of cash flow are real estate sales, rental income, management and marketing fees, and other park charges. The industrial parks comprise of completed projects and projects which are currently under various stages of development.

The fair value of unquoted equity securities amounted to ₱1.38 billion as at September 30, 2025 and December 31, 2024, respectively (see Note 7).

Operating Lease Commitments – Company as Lessee. The Company has entered into a lease agreement as a lessee. In 2025 and 2024, the Company applies the short-term lease recognition exemption to its short-term leases of office, parking and storage space (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). Lease payments on short-term leases are recognized as expense on a straight-line basis over the lease term.

Estimates and Assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

Provision for Expected Credit Losses of Financial Assets at Amortized Cost. ECLs are derived from unbiased and probability-weighted estimates of expected loss, and are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive, discounted at the original EIR, or an approximation thereof.

The provision matrix is initially based on the Company's historical observed default rates. The Company will calibrate the matrix to adjust the historical credit loss experience with forward-looking information. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analyzed.

The assessment of the correlation between historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and of forecast economic conditions. The Company's historical credit loss experience and forecast of economic conditions may also not be representative of customer's actual default in the future.

The allowance for impairment losses on receivables amounted to ₱1.4 million as at September 30, 2025 and December 31, 2024 (see Note 6).

Assessment of Recoverability of Input VAT. The carrying amount of input VAT is reviewed at each reporting date. The carrying amount of input VAT is reduced through the use of an allowance account to the extent that such input VAT may be applied against output VAT in the future. The allowance is established by charges to the profit or loss in the form of provision for probable losses. The amount and timing of recorded expense for any period would differ based on the judgments or estimates made. Based on management's assessment, the input VAT amounting to ₱6.4 million as at September 30, 2025 and December 31, 2024, respectively, can be utilized should the Company sell certain property it currently owns in the future (see Note 6).

Determination of Retirement Costs. The costs of defined benefit pension plans as well as the present value of the pension obligations are determined using actuarial valuations. The actuarial valuation involves making various assumptions. These include the determination of the discount rates, future salary increases, mortality rates and future pension increases. Due to the complexity of the valuation, the underlying assumptions and its long-term nature, defined benefit obligations are highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting period.

Retirement plan asset amounted to ₱5.6 million as at September 30, 2025 and December 31, 2024, respectively.

In determining the appropriate discount rate, management considers the interest rates of government bonds that are denominated in the currency in which the benefits will be paid, with extrapolated maturities corresponding to the expected duration of the defined benefit obligation.

The mortality rate is based on publicly available mortality tables for the specific country and is modified accordingly with estimates of mortality improvements. Future salary increases and pension increases are based on expected future inflation rates for the specific country.

Assessing Realizability of Deferred Tax Assets. The Company reviews the carrying amounts at each financial reporting date and reduces deferred tax assets to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax assets to be utilized. The Company's assessment on the recognition of deferred tax assets on deductible temporary differences is based on forecasted taxable profit of the subsequent financial reporting periods. The forecast is based on past results and future expectations on revenues and expenses.

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

3. Cash and Cash Equivalents

	September 30, 2025	December 31, 2024
Cash on hand and in banks	₱12,751	₱9,611
Cash equivalents	595,499	456,631
Short-term investment	103	103
	₱608,353	₱466,345

Cash in banks earn interest at the prevailing bank deposit rates.

The Company's cash equivalents represent short-term placements and special deposit accounts in reputable banks as at September 30, 2025 and December 31, 2024.

4. Financial Assets at Fair Value through Profit or Loss

This account consists of quoted investments in corporate bonds, government bonds and other equity securities.

5. Receivables

	September 30, 2025	December 31, 2024
Accrued interest income (see Notes 4, 5 and 6)	₱8,202	₱6,651
Dividend receivable	481	452
Receivables from third parties	104	104
Receivable from officers and employees	86	28
	₱8,873	₱7,235

No movements in allowance for expected credit losses on receivables from third parties. Accrued interest income pertains to interest earned from dollar and peso-denominated bonds and placements but not yet received.

Receivables from third parties are noninterest-bearing receivables from third parties.

Dividend receivable pertains to dividends earned during the year and expected to be received in

the next financial year.

Receivable from officers and employees are related to government mandated benefits of the officers and employees.

The above receivables are expected to be collected within the next financial year.

6. Other Current Assets and Other Noncurrent Assets

	September 30, 2025	December 31, 2024
Input VAT	₱8,613	₱7,717
Miscellaneous deposits	1,639	1,639
Investment properties	933	933
Prepayments	451	178
	11,636	10,467
Less allowance for ECLs	1,385	1,385
	₱10,251	₱9,082

	September 30, 2025	December 31, 2024
Other current assets	₱2,949	₱1,780
Other noncurrent assets	7,302	7,302
	₱10,251	₱9,082

Miscellaneous deposits mainly consist of a bond in compliance with the Company's application for extension of time to develop a parcel of land it owns.

Prepayments mainly consist of prepaid rent and insurance.

Input VAT will be utilized through application against the Company's output VAT.

Noncurrent portion of input VAT, amounted to ₱6.4 million (net of allowance for probable losses on input VAT amounting to ₱0.9 million) as at September 30, 2025 and December 31, 2024, respectively.

As of September 30, 2025 and December 31, 2024, the Company has an idle land with cost amounting to ₱0.9 million. No revenue and direct expenses were incurred relating to these properties in the third quarter of 2025 and year ended 2024.

The latest appraisal of the Company's investment properties was made in February 2023 by an SEC accredited property appraiser. Based on the latest appraisal, the fair value of investment properties amounted to ₱15.7 million as at December 31, 2022.

7. Financial Assets at Fair Value through Other Comprehensive Income

	September 30, 2025	December 31, 2024
Investments in corporate shares of stocks and golf shares:		

(Forward)

	September 30, 2025	December 31, 2024
Unquoted	₱1,378,448	₱1,378,448
Quoted	5,350	5,350
	₱1,383,798	₱1,383,798

Changes in the fair value of financial assets at FVOCI are recognized under “Cumulative change in value of financial assets at fair value through other comprehensive income” shown as part of equity in the consolidated statements of financial position.

Investments in unquoted shares of stock represent unlisted corporate shares in SPPI, a company incorporated in the Philippines. In 2022, the Company purchased 3,804,110 additional SPPI shares for ₱23.4 million, increasing its shareholding from 12.27% to 12.88%.

The Company uses the adjusted net asset value approach in determining the fair value of its investments in SPPI. Under this method, the fair value is derived by determining the fair values of identifiable assets, including outstanding properties and real estate inventories, and liabilities of the investee company and the net asset value amount is subjected to discount for lack of control and marketability. The fair value of outstanding properties and real estate inventories are based on annual appraisal prepared by SEC accredited appraisers commissioned by SPPI.

8. Accounts Payable and Other Current Liabilities

	September 30, 2025	December 31, 2024
Accounts payable	₱1,085	₱4,044
Statutory liabilities	225	1,107
Customers' deposits	61	61
	₱1,371	₱5,212

Accounts payable are noninterest-bearing and are currently demandable.

Statutory liabilities comprise of withholding tax payable, fringe benefits payable, output VAT payable, and payables to other government agencies.

9. Equity

Capital and Treasury Stock

	Number of Shares Authorized	Number of Shares Issued and Outstanding	Cost
Capital stock - ₱1 par value	1,500,000	738,314	₱738,314
Less treasury stocks:			
Parent Company's reacquired shares	—	54,629	85,333
Parent Company shares held by a subsidiary	—	1,620	8,577
	—	56,249	93,910
	1,500,000	682,065	₱644,404

The total number of shareholders is 1,197 and 1,204 as at September 30, 2025 and December 31, 2024, respectively.

The Company's issuance of stock happened only upon its initial public offering on July 17, 1959 with authorized number of shares equal to 80,000,000 shares being offered at ₱0.1 per share.

Parent Company Shares Held by a Subsidiary

As at September 30, 2025 and December 31, 2024, RIC (a wholly owned subsidiary) holds 1,620 common shares of the Parent Company issued shares. This is presented as part of "Treasury stocks" in the consolidated statements of financial position and consolidated statements of changes in equity.

Retained Earnings

a. Restriction

The balances of the retained earnings account include the accumulated net earnings of subsidiaries amounting to ₱123.0 million and ₱93.6 million as at September 30, 2025 and December 31, 2024, respectively. These amounts are not available for dividend distribution by the Parent Company unless declared as dividend by the respective subsidiaries. Retained earnings are further restricted for the payment of dividends to the extent of the cost of the shares held in treasury.

b. Dividend Declaration

The Company declared dividends as follows:

Year	Date of Declaration	Date of Record	Date of Payment	Amount per share	Amount
2024	November 12	November 26	December 6	₱0.04	₱27,270
2023	October 27	November 15	November 28	0.03	20,452
2022	November 11	November 25	December 9	0.03	20,452

Dividends payable amounted to ₱38.0 million and ₱38.1 million as at September 30, 2025 and December 31, 2024, respectively.

10. Financial Instruments

Financial Risk Management Objectives and Policies

The Company's principal financial assets comprise of cash and cash equivalents, short-term investments, financial assets at FVPL, receivables, financial assets at FVOCI. The main purpose of these financial assets is to earn income for the Company's funds and to finance the Company's operations. The Company's financial liabilities include accounts payable and other current liabilities, and customers' deposits which arise directly from its operations.

The main risks arising from the Company's financial instruments are market risk (equity price risk and foreign currency risk), credit risk and liquidity risk. The BOD reviews and approves the policies for managing each of these risks which are summarized below.

Market Risk. Market risk is the risk that the fair value of future cash flows of financial instruments will fluctuate due to changes in market variables such as interest rate, equity prices and foreign exchange rates.

- a. *Equity Price Risk.* Equity price risk is the risk that the fair values of investments in equity securities decrease as a result of changes in the levels of equity indices and the value of individual shares.

The Company manages equity price risk through diversification and placing limits on

individual and total equity investments. The Company's BOD reviews and approves all equity investment decisions.

- b. *Foreign Currency Risk.* Foreign currency risk arises from the possibility that future cash flows of financial instruments will fluctuate because of changes in foreign currency exchange rates.

The Company's exposure to foreign currency risk relates primarily to certain foreign currency-denominated cash and cash equivalents and financial assets at FVPL. To manage future currency risk, the Company considers the trend in the movement of foreign currencies in acquiring foreign currency-denominated investments.

Credit Risk. Credit risk arises when a customer or counterparty fails to discharge an obligation and cause the Company to incur a financial loss.

The Company trades only with recognized, creditworthy third parties. It is the Company's policy that the BOD approves major transactions with third parties. In addition, receivable balances are monitored on an ongoing basis with the result that the Company's exposure to bad debts is not significant.

With respect to credit risk arising from the other financial assets of the Company, which comprise cash and cash equivalents, short-term investments, financial assets at FVPL, and AFS financial assets, the Company's exposure to credit risk arises from default of the counterparty, with maximum exposure equal to the carrying amount of these instruments. The Company manages these financial assets by transacting only with recognized third parties.

Since the Company transacts only with recognized third parties, there is no requirement for collateral.

There are no significant concentrations of credit risk.

The aging analyses of the Company's financial assets are as follows:

Liquidity Risk. Liquidity risk arises from the possibility that adverse changes in the business environment and/or its operations would result to substantially higher working capital requirements and the subsequent difficulty in financing additional working capital.

The Company seeks to manage its liquidity profile to be able to service its operations and to finance capital requirements. The Company maintains a level of cash and cash equivalents deemed sufficient to finance operations. As part of its liquidity risk management, the Company regularly evaluates its projected and actual cash flows. The Company likewise regularly evaluates other financing instruments and arrangements to broaden the Company's range of financing sources.

Capital Management

The Company considers its issued capital stock and retained earnings as its capital.

	September 30, 2025	December 31, 2024
Capital stock	P738,314	P738,314
Additional paid-in capital	9,103	9,103

Retained earnings	994,163	955,533
	P1,647,670	P1,609,040

* Includes "Parent Company shares held by a subsidiary."

The primary objective of the Company's capital management is to safeguard the Company's ability to continue as a going concern, so that it can continue to provide returns to stockholders and benefits to other stakeholders.

The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions. In order to maintain or adjust the capital structure, the Company may adjust its investment portfolio.

The Company does not have externally imposed capital requirements.

The Company's current ratios and debt-to-equity ratios as at September 30, 2025 and December 31, 2024 are as follows:

a. Current Ratio

	September 30, 2025	December 31, 2024
Current assets	₱1,441,246	₱1,407,112
Current liabilities	39,356	43,439
	36.62:1	32.39:1

Total liabilities	₱235,203	₱238,065
Total equity	2,605,848	2,565,958
	0.09:1	0.09:1

11. Segment Reporting

For management purposes, the Company is organized based on its sources of revenue, and considers core business and support business as operating segments for monitoring and evaluating performance. Core business relates to the Company's investment activities, which involve purchasing and trading financial assets and investing in other securities. Support business relates to the Company's sale and lease of investment properties.

No operating segments have been aggregated to form the above reportable operating segments.

Segment performance is evaluated based on profit or loss which is measured same with income or loss in the consolidated financial statements. Income taxes are managed on a Company-wide basis and are not allocated to individual operating segments. No inter-segment transactions occurred in the first nine months of 2025.

Item 2 – Management’s discussion and analysis of financial condition and Results of Operations:

The company maintained a solid financial position, with total assets marginally increasing to ₱2.84 billion as of September 30, 2025. This steady growth reflects prudent asset management and operational resilience. Current assets amounted ₱1.44 billion, accounting for 50% of the total assets. Of this amount, ₱1.43 billion consisted of highly liquid instruments, including cash and cash equivalents, short-term investments, and financial assets at fair value through profit or loss, underscoring the Company’s strong liquidity position. Stockholders’ equity grew to ₱2.61 billion from ₱2.57 billion as of December 31, 2024, primarily due to the net income generated during the nine-month period, reinforcing shareholder value.

The Company is not aware of any event that may trigger direct or contingent material financial obligations, default or acceleration of any obligations. Furthermore, there were no material off-balance sheet transactions, arrangements, obligations or any contingent obligations, relationships of the company with unconsolidated entities or other persons created during the reporting period that has not been reflected on September 30, 2025 Financial Statements.

Results of Operations

For the nine-month period ended September 30, 2025, the Company reported consolidated revenues of ₱65.31 million, reflecting a substantial decrease from ₱123.36 million recorded in the same period in 2024. This decline was primarily attributed to a mark-to-market loss of ₱5.20 million arising from the revaluation of financial assets at fair value through profit or loss. In comparison, the same period in 2024 benefited from a mark-to-market gain amounting to ₱40.63 million, underscoring the pronounced effect of market volatility on the valuation of the Company’s investment portfolio. Trading gains from shares listed on the Philippine Stock Exchange (PSE) fell from ₱17.62 million in 2024 to just ₱0.50 million in 2025, further contributing to the overall revenue decline.

General and administrative expenses decreased by 10% amounting to ₱18.95 million for the current nine-month period compared to ₱21.07 million in the prior year. The reduction was mainly due to lower fees, taxes and commissions associated with the trading of shares on the PSE, as well as the write-off of a defaulted receivable related to a bond investment held by the Company’s foreign subsidiary.

The following are the key performance indicators considered by the Company:

Indicator	Calculation	September 30, 2025	September 30, 2024	December 31, 2024
Liquidity				
Current ratio	Current Assets / Current Liabilities	36.62:1	36.01:1	32.39:1
Solvency				
Debt to equity	Total Debt / Stockholders' Equity	0.09:1	0.09:1	0.09:1
Leverage				
Debt to total assets	Total Debt /Total Assets	0.08:1	0.08:1	0.09:1
Interest Rate Coverage	EBIT/ Interest expense	N/A	N/A	N/A
Profitability				
Net profit ratio	Net Income (loss) / Revenue	59%	73%	74%
Return on total assets	Net Income (loss) /Total Assets	1.36%	3.28%	4.18%
Return on equity	Net Income (loss) / Stockholders' Equity	1.48%	3.58%	4.56%
Earnings per share	Net Income / Weighted Average No. of Shares Issued and Outstanding	0.057	0.132	0.172
Book value per share		3.82	3.70	3.76

Other Matters:

A	Any Changes in accounting policies and methods of computation in interim financial statements as compared with the most recent annual financial statements or, if those policies or methods have been changed, a description or the nature and effect of the change	None
