The increase was mainly due to increase in revenue from electronic games from retail, casino rental income, leases and commission income.

Retail

ABLE and its subsidiaries, TGXI and Gamemaster recognized revenue amounting to ₱65,949.0 million for the nine-month period ended September 30, 2025, an increase of 30% or ₱15,210.4 million compared with the same period in 2024. This was mainly due to the increase in retail business operations, new games approved by PAGCOR and game offerings.

As of September 30, 2025, there were 139 land-based sites in operation with full capacity.

Casino

BCGLC and GCLWC revenue increased by 12% or ₱43.6 million from ₱377.5 million in the first nine months of 2024 to ₱421.1 million for the nine-month period ended September 30, 2025. The increase was mainly due to new gaming machine lease agreement in 2025.

There was a decrease in network and licenses revenue from ₱301.3 million in the first nine months of 2024 to ₱216.2 million in the first nine months of 2025. The decrease amounted to ₱85.1 million or 28%. The decline was attributable to license expiration of a licensee.

Operations in Brazil

As part of its strategic initiative to explore international expansion opportunities, the Group commenced its operations in Brazil during the third quarter of 2025. The entry into the Brazilian market aimed to test the scalability of the Group's digital entertainment platform and to assess the market's potential for long-term growth.

Following the initial launch, management conducted a review of the business performance, regulatory environment, and overall market conditions. Based on the results of this assessment, the Group determined that continuing operations in Brazil at this stage would not be optimal given prevailing regulatory uncertainties and the level of investment required to achieve sustainable profitability. Accordingly, the Group temporarily paused its operations in Brazil during the period.

The pause in operations is not expected to have a material impact on the Group's consolidated financial results for the quarter, as the Brazilian operations remained in the early development phase and contributed minimally to total revenues. Management will continue to monitor developments in the Brazilian market and will reassess potential re-entry once conditions are deemed favorable.

Consolidated Costs and Expenses

Total costs and expenses increased by 33% or ₱14,082.6 million in the first nine months of 2025 as compared to 2024. This was mainly due to increase in advertising and promotions, franchise fees, outside services, salaries and other employee benefits, subscription fees, and depreciation and amortization.

FUTURE PLANS

The Group continues to pursue its strategic transformation agenda consistent with its vision to be the leading digital entertainment and gaming company in the Philippines. Following its delinking from third-party payment platforms such as GCash and Maya, DigiPlus aims to strengthen its proprietary ecosystem to ensure operational independence, enhance system reliability, and support sustainable growth.

The Group remains focused on developing and enhancing its digital platforms, including BingoPlus and ArenaPlus, through the introduction of new features, game offerings, and user engagement initiatives tailored to evolving market trends and customer preferences.

DigiPlus also continues to expand its physical network of flagship stores and entertainment hubs to complement its digital operations and provide integrated gaming and entertainment experiences to customers nationwide.

In support of these initiatives, the Company is leveraging data analytics and artificial intelligence technologies to improve marketing efficiency, strengthen customer engagement and retention, and uphold responsible gaming standards.

The Company will continue to invest in technology innovation, platform diversification, and operational enhancements to drive growth and maintain its position as a key player in the Philippine digital entertainment and gaming industry.

PART II – MAJOR RISKS INVOLVED IN THE BUSINESS

The Group has identified the following as the key risks of the business:

Regulatory Compliance and Legislation Risks

The digital gaming industry in the Philippines continues to be subject to strict and evolving regulatory oversight, primarily enforced by the Philippine Amusement and Gaming Corporation (PAGCOR), the Bangko Sentral ng Pilipinas (BSP), and other relevant government agencies. Compliance with licensing, taxation, anti-money laundering (AML), data privacy, and responsible gaming regulations remains essential to the Group's operations. Any amendments to, or intensified enforcement of, these regulations may materially affect the Group's business continuity and financial performance.

In 2025, the regulatory landscape for online gaming underwent significant developments. PAGCOR issued additional compliance directives aimed at strengthening player protection, AML monitoring, and responsible gaming measures. In parallel, the BSP introduced enhanced guidelines for financial institutions and payment service providers concerning gaming-related transactions. In response to these policy developments, major e-wallet operators, including GCash and Maya, imposed restrictions and subsequently delinked their platforms from gaming operators, including DigiPlus.

This regulatory-driven delinking materially affected the Group's operations by limiting player access to the primary payment and withdrawal channels historically used for online gaming activities. The resulting disruption led to a temporary decline in transaction processing volumes and player engagement levels. In mitigation, the Group implemented several measures, including the onboarding of new payment partners, the expansion of direct bank integrations, and the enhancement of its proprietary payment gateway systems to ensure business continuity and customer accessibility.

Separately, proposed bills seeking to ban or impose additional restrictions on online gaming activities remain under deliberation in both chambers of Congress. These initiatives, which cite consumer protection and social responsibility objectives, continue to represent potential regulatory risks to the Group's operations. As of the reporting date, no such measures have been enacted into law.

Despite the evolving regulatory environment, DigiPlus remains fully compliant with all applicable requirements. The Group continues to work closely with PAGCOR, the BSP, and other relevant agencies to ensure alignment with current and emerging policies. Management actively monitors legislative and regulatory developments and evaluates appropriate strategic and operational responses to mitigate potential impacts.

As at September 30, 2025, the Group remains compliant with existing laws and regulations, and no adjustments to the financial statements have been deemed necessary.

Cybersecurity and Data Privacy Risks

As a digital gaming platform, DigiPlus is highly vulnerable to cybersecurity threats, including hacking, data breaches, and fraudulent activities. Unauthorized access to customer data, payment information, and gaming transactions could result in severe financial and reputational consequences. The rise of sophisticated cyber-attacks targeting digital gaming platforms further amplifies the need for robust security measures, real-time threat monitoring, and continuous system enhancements. To protect its users and digital assets, the Company invests in advanced encryption technologies, multi-factor authentication, and regular security audits. Additionally, DigiPlus complies with data protection laws to ensure that player information remains confidential and secure.

Market Competition Risks

The digital gaming industry is highly competitive, with numerous operators vying for market share, including Playtime, OKBet, CasinoPlus, Bet88, and other emerging platforms. Competitive pressures may result in lower customer retention rates, increased marketing expenditures, and potential price wars in promotional campaigns. Additionally, new entrants

with advanced technology and aggressive acquisition strategies may challenge DigiPlus' market position. To stay competitive, DigiPlus continuously enhances its gaming platform, introduces innovative game offerings, optimizes its user experience (UX) and user interface (UI), and executes targeted marketing strategies to attract and retain players. The Company also leverages data analytics to understand customer preferences and deliver personalized gaming experiences that differentiate it from competitors.

Technology and Platform Stability Risks

DigiPlus relies on a complex IT infrastructure to ensure smooth and uninterrupted gaming operations. Any system failures, software bugs, or downtime resulting from server malfunctions, cyber-attacks, or technical glitches could negatively impact customer experience and revenue. The Group's dependence on third-party gaming software developers, cloud service providers, and IT vendors also introduces potential risks related to service reliability, cost fluctuations, and contractual disputes. To minimize these risks, DigiPlus conducts regular platform maintenance, invests in high-performance cloud infrastructure, and maintains backup systems to ensure seamless operations.

Financial and Credit Risks

The Group's financial performance is influenced by several factors, including fluctuations in gaming activity, player spending behaviors, and overall economic conditions. External economic downturns, inflation, and regulatory changes in taxation could affect player engagement and profitability. The Company mitigates these risks by implementing strict credit risk management policies, maintaining diversified gaming revenue streams, and continuously monitoring financial performance indicators to ensure sustainable growth.

Legal and Reputational Risks

As a public-facing gaming operator, DigiPlus is exposed to reputational risks associated with customer disputes, regulatory investigations, negative media coverage, and gaming-related controversies. Legal claims related to game fairness, misleading promotions, or non-compliance with gaming regulations could impact brand perception and customer trust. To safeguard its reputation, the Company maintains transparent customer policies, proactive communication strategies, and responsible gaming initiatives to ensure ethical business practices. Additionally, DigiPlus invests in customer support infrastructure and dispute resolution mechanisms to address player concerns efficiently.

Talent Acquisition and Retention Risks

The Group's growth and innovation depend on highly skilled professionals in technology, cybersecurity, gaming operations, and regulatory compliance. The demand for experienced gaming professionals, software developers, and digital marketing experts is highly competitive, and failure to attract or retain key talent could hinder innovation and expansion efforts. DigiPlus mitigates this risk by offering competitive compensation packages, career development programs, and a dynamic work environment that fosters employee engagement and retention.

DigiPlus continuously strengthens its risk management framework through internal controls, compliance audits, cybersecurity enhancements, financial risk assessments, and strategic planning. The Company remains proactive in identifying emerging risks and implementing preventive measures, regulatory compliance initiatives, and technological advancements to safeguard its operations, customers, and stakeholders.

Foreign Expansion and related risks

The Group has commenced initiatives to establish a presence in selected foreign markets, although commercial operations have not yet commenced as of the reporting date. Future foreign operations, if undertaken, may be subject to risks such as foreign exchange volatility, differing regulatory and tax requirements, political and economic developments in host jurisdictions, and operational complexities inherent in cross-border activities. Such risks could affect the Group's performance once operations commence.

Note 2 - Summary of material accounting policies

2.1 Basis of preparation and presentation

The interim condensed consolidated financial statements have been prepared on a historical cost convention basis, except for:

- Certain financial assets carried at FVOCI;
- Investment properties carried at fair value

The interim condensed consolidated financial statements are presented in Philippine Peso, the Group’s functional and presentation currency. All values are rounded to the nearest thousands (000), except when otherwise indicated. The interim condensed consolidated financial statements have been prepared based on the accounting policies disclosed in the most recent audited annual consolidated financial statements.

Statement of compliance

The interim condensed consolidated financial statements as at and for the nine months ended September 30, 2025 have been prepared in accordance with PAS 34, Interim Financial Reporting. The Group has prepared the financial statements on the basis that it will continue to operate as a going concern.

The interim condensed consolidated financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group’s annual consolidated financial statements as at December 31, 2024.

2.2 Changes of accounting policies and disclosures

New standards, amendments and interpretations adopted by the Group

The accounting policies adopted in the preparation of the interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group's annual audited consolidated financial statements for the year ended December 31, 2024 except for the new PFRS, amended PFRS, improvements to PFRS and interpretations which were adopted beginning January 1, 2025. Unless otherwise indicated, the Group does not expect the future adoption of the said pronouncements to have a significant impact on its interim condensed consolidated financial statements.

- PFRS 18, *Presentation and Disclosure in Financial Statements*

PFRS 18 introduces new requirements for presentation within the statement of profit or loss, including specified totals and subtotals. Furthermore, entities are required to classify all income and expenses within the statement of profit or loss into one of the five categories: operating, investing, financing, income taxes and discontinued operations, whereof the first three are new. It also requires disclosure on newly defined management-defined performance measures, subtotals of income and expenses, and includes new requirements for aggregation and disaggregation of financial information based on the identified "roles" of the primary financial statements (PFS) and the notes. In addition, narrow-scope amendments have been made to PAS Statement of Cash Flows, which include changing the starting point in determining cash flows from operations under the indirect method, from "profit or loss" to "operating profit or loss" and removing the optionality around classification of cash flows from dividends and interest. In addition, there are consequential amendments to several other standards.

PFRS 18, and the amendments of other standards, is effective to reporting periods beginning on or after January 1, 2027, but earlier application is permitted and must be disclosed. Deferred effectivity

Amendments to PFRS 10, *Consolidated Financial Statements*, and PAS 28, *Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*

2.3 Basis of consolidation

Subsidiaries

The interim condensed consolidated financial statements include the financial statements of the Group as at September 30, 2025 with comparative audited figures as at December 31, 2024 and unaudited consolidated statements of total comprehensive income for the periods ended September 30, 2025 and 2024.

The Group controls an investee if and only if the Group has:

- Power over an investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee);
- Exposure, or rights, to variable returns from its involvement with the investee; and
- The ability to use its power over the investee to affect its returns.

Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

Intercompany transactions, balances and unrealized gains on transactions between group companies are eliminated. Unrealized losses are also eliminated.

Accounting policies and reporting period of its subsidiaries are consistent with the policies adopted by and the reporting period of the Parent Company.

Changes in ownership interests in subsidiaries without change of control

Transactions with non-controlling interests that do not result in loss of control are accounted for as equity transactions that is, as transactions with the owners in their capacity as owners. For purchases from non-controlling interests, the difference between any consideration paid and the relevant share acquired in the carrying value of net assets of the subsidiary is recorded in equity. Gains or losses on disposals to non-controlling interests are also recorded in equity.

Disposal of a subsidiary

When the Group ceases to have control, any retained interest in the subsidiary is re-measured to its fair value at the date when control is lost, with the change in carrying amount generally recognized in profit or loss. The fair value is the initial carrying amount for purposes of subsequently accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognized in other comprehensive income in respect of that subsidiary are accounted for as if the Group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognized in other comprehensive income are reclassified to profit or loss.

If the Group surrenders control to a related party within the group it ultimately belongs, the difference between the consideration received and the fair value of the subsidiary at divestment date, is recognized as other charges to equity.

The interim condensed consolidated financial statements include the financial statements of the Group and the following subsidiaries as at September 30, 2025 and December 31, 2024:

On July 4, 2024, the SEC approved the Parent Company's application for exemption from filing registration statement of the Plan.

Options are granted under the Plan for no consideration and carry no dividend or voting rights. Each option can be converted to a single share at an exercise price depending on the volume weighted average of share price for the 30-trading days immediately prior to the grant date.

The Plan is administered by the Compensation Committee of the BOD, and its sub-committee specially created for purposes of administering the Plan. FCLRC proposed a Master Development Plan in keeping its authority under the license agreement. The project also includes the construction of an administration building, commercial center, cable center, sub-station and parking spaces. It also includes the installation of an underground power/communication cabling system and an overhead water tank. The development of the CBP was completed in January 2011.

Another infrastructure required in Phase I of the Master Development Plan is the rehabilitation of the San Vicente Naval Airport (the Airport). On September 1, 2006, FCLRC entered into a contract for the airstrip rehabilitation with the same contractors for the CBP to undertake the expansion, paving and overlaying of the runway of the airport and the provision of basic airport amenities. The rehabilitation of the San Vicente Naval Airport was completed on December 8, 2006.

As an initial project to establish the internet and telecommunication infrastructure, FCLRC entered into an Agreement with IPCDCC on March 1, 2007, incorporating FCCDCI. The parties shall infuse the necessary capital to fund the required infrastructure requirements of the Master Development Plan.

- Phase II shall be completed after three (3) years of completion of Phase I and shall include the telecommunication connectivity via fiber optic; redundant telecommunication connectivity; and construction of a leisure and resort complex.
- Phase III shall be completed three (3) years after completion of Phase II and shall include the implementation of the Comprehensive Feasibility Study that will provide a complete telecommunication infrastructure for the whole of the CSEZFP; and development of a beach front property into a leisure and gaming facility.

On September 15, 2006, the parties have extended the term of the license agreement from two (2) years to twenty-five (25) years from the date of approval by the CEZA BOD of the Master Development Plan. The 25 years extension of the authority of FCLRC as Master Licensor commenced on November 7, 2006, and will end on November 7, 2031.

On November 24, 2017, FCLRC and CEZA signed a supplemental agreement which provides for the following:

- CEZA shall also grant appointment of FCLRC for land-based gaming after it has complied with all requirements;

- All applicants for gaming licenses from CEZA shall post the amount of USD100 million as an investment commitment. Noncash expenses pertain to depreciation and amortization expense attributable to reportable segments.

EBITDA is defined as earnings before interest, taxes, depreciation, amortization, and non-recurring expenses such as impairment loss. The Group evaluates performance based on contributions to EBITDA, which is not a measure of operating performance or liquidity defined by PFRSs and may not be comparable to similarly titled measures presented by other entities.

Note 12 - Contingencies

The Group currently has several tax assessments and legal cases. The Group's estimate of the probable costs for the resolution of these assessments has been developed in consultation with management as well as outside legal counsel handling these matters and is based on an analysis of potential results. The Group currently does not believe that these tax assessments and legal cases will have a material adverse effect on its consolidated statement of financial position and consolidated statement of financial performance. It is possible, however, that future financial performance could be materially affected by changes in the estimates or in the effectiveness of strategies relating to these proceedings.

Note 13 - Financial risk and capital management objectives and policies

13.1 Financial risk management objectives and policies

The Group has exposure to the following risks from its use of financial instruments:

- *Credit risk*
- *Liquidity risk*
- *Market risk*

This note presents information about the Group's exposure to each of the above risks, the Group's objectives, policies and processes for measuring and managing risks, and the Group's management of capital.

The main purpose of the Group's dealings in financial instruments is to fund their respective operations and capital expenditures. The Group is not actively engaged in the trading of financial assets for speculative purposes nor does it write options.

The BOD of the Group has overall responsibility for the establishment and oversight of the Group's risk management framework. The BOD has established the Executive Committee, which is responsible for developing and monitoring the Group's risk management policies. The Executive Committee identifies all issues affecting the operations of the Group and reports regularly to the BOD on its activities. The BOD has a Risk Oversight Committee which is responsible for overseeing and managing the risks that the Group may encounter. The BOD develops proper strategies and measures to avoid or at least minimize such risk incorporating the Group's established risk management policies.

The Group's risk management policies are established to identify and analyze the risks faced by the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities. All risks faced by the Group are incorporated in the annual operating budget. Mitigating strategies and procedures are also devised to address the risks that inevitably occur so as not to affect the Group's operations and forecasted results.

The Group, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

The BOD constituted the Group's Audit Committee to assist the BOD in fulfilling its oversight responsibility of the Group's corporate governance process relating to the: a) quality and integrity of the Group's financial statements and financial reporting process and the Group's systems of internal accounting and financial controls; b) performance of the internal auditors; c) annual independent audit of the Group's financial statements, the engagement of the independent auditors and the evaluation of the independent auditors' qualifications, independence and performance; d) compliance by the Group with legal and regulatory requirements, including the Group's disclosure control and procedures; and e) fulfillment of the other responsibilities set out by the BOD. The Audit Committee shall also review the reports required to be included in the Group's annual report. The results of procedures performed by Internal Audit are reported to the Audit Committee. On the other hand, the Audit Committee reports all the issues identified over the financial reporting of the Group to the BOD on a regular basis.

13.2 Credit risk

Credit risk represents the risk of loss the Group would incur if customers and counterparties fail to perform their contractual obligations. The Group manages its credit risk mainly through the application of transaction limits and close risk monitoring. It is the Group's policy to enter into transactions with a wide diversity of creditworthy counterparties to mitigate any significant concentration of credit risk. Further, the Group has regular internal control reviews to monitor the granting of credit and management of credit exposures.

Financial information on the Group's maximum exposure to credit risk as at September 30, 2025 and December 31, 2024, without considering the effects of collaterals and other risk mitigation techniques, is presented below:

Cash and cash equivalents

The management evaluates the financial condition of the banking industry and bank deposits/investments are maintained with reputable banks only.

Receivables and advances

Majority of the Group's credit risk on receivables is attributed to its internet gaming licensing activities influenced mainly by the individual characteristics of each customer and non-interest-bearing advances made to entities with similar operations. The demographics of the Group's customer base, including the default risk of the industry and regions in which customers operate, has an influence on credit risk.

The BOD has established a credit policy under which each new advanced amount requested by customer/counterparties within the same gaming industry is analyzed individually for creditworthiness before standard credit terms and conditions are granted. The Group's review includes the requirements of updated credit application documents, credit verifications through the use of no negative record requests and list of blacklisted accounts, and analyses of financial performance to ensure credit capacity. The status of each account is first checked before advances are approved.

Most of the Group's customers have been transacting with the Group for several years, and losses have occurred from time to time. Results of credit reviews are grouped and summarized according to credit characteristics, such as aging profiles and credit violations.

The Group establishes an allowance for impairment losses that represents its estimate of incurred losses in respect of receivables. The main components of this allowance are a specific loss component that relates to individually significant exposures, and a collective loss component established for groups of similar assets in respect of losses that have been incurred but not yet identified. The collective loss allowance is determined based on historical data of payment statistics for similar financial assets.

As at September 30, 2025 and December 31, 2024, provision for ECL on receivables and advances amounted to P942,505.

As at reporting date, there were no significant concentrations of credit risk.

Based on historical default rates, the Group believes that no impairment allowance is necessary in respect of receivables not past due or past due by up to 60 days.

Rental deposits

The management prefers well known business establishments in the selection of location for bingo operations to ensure profitable operations and recovery of the rental and other deposits upon termination of the lease agreements.

Cash performance bonds/performance cash deposits and betting credit funds

The Group's exposure to credit risk is negligible as PAGCOR has sufficient funds to settle these upon the expiration of the respective license agreements.

Financial assets at FVOCI

The Group's exposure to credit risk is negligible as this pertains to the Group's investment in DFNN's shares that are listed on the PSE.

Due from related parties

The Group limits its exposure to credit risk by only financing the operations of related parties that have viable operations and likewise engaged in gaming amusement activities. The most significant amount of due from related parties of the Group are the advances to BLRI and HEPI, an associate and a joint venture, respectively, of the Parent Company.

13.3 Liquidity risk

Liquidity risk pertains to the risk that the Group will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset.

The Group manages liquidity risk by forecasting projected cash flows and maintaining a balance between continuity of funding and flexibility. Treasury and cash management functions of the Group are centralized. Management has placed controls and procedures to closely monitor the Group's existing obligations. Additionally, the Group has also been negotiating with lenders to restructure and extend its term loans, renewing and obtaining additional credit lines, negotiating new payment terms with some suppliers and lessors, and implementation of its business continuity plan to ensure that sufficient cash is maintained to cover working capital requirements.

In addition, the Group has an omnibus line of credit with a number of Philippine banks consisting of commitments for short term loans, letters of credit and documents against acceptances/documents against payment (DA/DP) facilities trust receipts. As at September 30, 2025 and December 31, 2024, drawdown against the line of credit amounted to P10,000 and nil, respectively. All facilities under the omnibus line bear interest at floating rates consisting of a margin over current Philippine treasury rates.

The following are the contractual maturities of financial liabilities, including estimated interest payments and excluding the impact of netting agreements of the Group:

September 30, 2025					
	Carrying amount	Contractual cash flow	6 months or less	6-12 months	More than 1 year

The Group expects to meet its operating assets and liabilities, capital expenditure and investment requirements for the next 12 months primarily from its operations and through drawdowns from its loan facility.

13.4 Market Risk

Market risk is the risk that changes in market prices, such as interest rates, foreign exchange rates, and other market prices will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

The Group is subject to various market risks, including risks from changes in prices, interest rates, currency exchange rates and equity price risk.

The Group minimizes its exposure to risks in changes in rental rates by entering into contracts with lessors with fixed rent commitment for the contract duration.

Foreign currency risk

The Group is exposed to foreign currency risk on purchases that are denominated in currencies other than the Philippine peso, mostly in U.S. dollar (\$). In respect of monetary assets and liabilities held in currencies other than the Philippine peso, the Group ensures that its exposure is kept to an acceptable level, by buying foreign currencies at spot rates where necessary to address short-term imbalances.

Interest rate risk

The Group's exposure to changes in interest rates relate primarily to the Group's short-term and long-term debt obligations.

Management is tasked to minimize interest rate risk through having a mix of variable and fixed interest rates on its loans. Presently, the Group's short-term and long-term bank loans are market-determined, with the long-term loan interest rates based on PDST-R2 plus a certain mark-up. The Group has not entered into interest rate swaps and options in 2025 and 2024.

There is no other impact on the Group's equity other than those affecting the profit or loss.

Equity price risk

Equity price risk is such risk where the fair values of investments in quoted equity securities could decrease as a result of changes in the levels of equity indices and the value of individual stocks.

The management strictly monitors the movement of the share prices pertaining to its investments. The Group is exposed to equity securities price risk because of investments held by the Group, which are classified in the consolidated financial position as financial asset at FVOCI.

Fair values

The following methods and assumptions are used to estimate the fair value of each class of financial instruments:

Cash/Receivables/Due from Related Parties/Rental Deposits/Cash Performance Bonds/Performance Cash Deposits and Betting Credit Funds/Trade and Other Payables/Due to a Related Party/Deposits/Short-term Loans Payable

The carrying amounts of cash, receivables, due from related parties, trade and other payables, due to a related party and short-term loans payable approximate their fair values due to the relatively short-term nature of these financial instruments. The carrying amounts of rental deposits, cash performance bonds, performance cash deposits and betting credit funds and deposits approximate their fair values as management believes that the effect of discounting cash flows from these instruments is not significant.

Non-current receivable

The fair value is based on the discounted value of future cash flows using the applicable risk-free rates. The fair value is under Level 3 of the fair value hierarchy.

Long-term loans payable

Long-term loans are reported at their present values, which approximate the cash amounts that would fully satisfy the obligations as at reporting date. The carrying amount approximates fair value since the interest rates are repriced frequently. These are classified as current liabilities when they become payable within a year.

Financial assets at FVOCI

The fair value of the FVOCI is based on the quoted market price of the investment in equity as at September 30, 2025 and December 31, 2024. The fair value is under Level 1 of the fair value hierarchy.

As of September 30, 2025 and December 31, 2024, there were no transfers between levels of the fair value hierarchy.

13.5 Capital management

The Group's objectives when managing capital are to increase the value of shareholders' investment and maintain high growth by applying free cash flows to selective investments. The Group sets strategies with the objective of establishing a versatile and resourceful financial management and capital structure.

The BOD monitors the return on capital, which the Group defines as income before income tax divided by total average shareholders' equity.

The Group manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. The BOD seeks to maintain a balance between the higher returns that might be possible with higher levels of borrowings and the advantages and security afforded by a sound capital position. The Group defines capital as equity, which includes capital stock, additional paid-in capital and retained earnings. There were no changes in the Group's approach to capital management as at September 30, 2025 and December 31, 2024.
