Material Variances Affecting the Financial Statements as of and for the Period Ended June 30, 2025

Other Income

Other income earned by the Company for the three months ended **September 30, 2025 and 2024** amounted to **₱0.90 million and ₱1.87 million**, respectively. The decrease of **51% or ₱0.97 million** was mainly caused by the termination of time deposit and decrease in interest rate from **4% in 2024 to 3.5% in 2025**.

Operating Expenses

Total expenses as of September 30, 2025, amounted to approximately **₱5.59 million**, representing a decrease of about **₱0.87 million, or 13.51%**, compared to **₱6,468,667 million** as of **September 30, 2024**. This decrease was mainly driven by a reduction in accounting service costs, which fell to **₱0.02 million** per month in 2025 from **₱0.30 million** per month during the first quarter of 2024, resulting in a **₱1.68 million savings**.

However, this reduction was partially offset by a **₱0.39 million** increase in insurance expenses, primarily due to a higher insurance premium paid in for the year. The insurance, which covers the period until **November 15, 2025, costs ₱3.17 million, compared to ₱2.75 million** for the insurance purchased in 2024. Additionally, professional fees increased by **₱0.88 million**, mainly due to legal services related to the preparation of the tender offer and the development of IACG report policies and manuals.

Cash and Cash Equivalents

Cash and cash equivalents amounted to **₱91.44 million as of September 30, 2025** as compared to **₱244.55 million as of December 31, 2024** or decrease of around **₱153.11 million or 62.6%**. The decrease in cash and cash equivalents was primarily due to the infusion to Concrete Stone Corp. amounting to **₱153 million**.

Receivables

Receivables amounted to **₱0 million** as of **September 30, 2025**, compared to **₱0.26 million as of December 31, 2024**, reflecting a **decrease of ₱0.26 million** or approximately **100%**. This decline was primarily due to the net effect of several transactions, including the collection of accrued interest income amounting to **₱0.164 million** in November 2024, the accrual of interest income totaling **₱0.147 million** in June 2025, and collections from TRAL amounting to **₱0.097 million**.

Other Current Assets

Other current assets amounted to **₱8.21 million** as of September 30, 2025, the **decrease of ₱1.96 million or 19.25% compared to ₱10.17 million** as of December 31, 2024, mainly arises from the amortization of insurance and listing maintenance fee totaling **₱1.98 million** during the second quarter.

Accounts Payable and Other Liabilities

As of September 30, 2025, accounts payable and other liabilities amounted to **₱0.79 million**, a decrease of **₱3.99 million, or 83.55%, from ₱4.78 million** as of December 31, 2024. The payment of outstanding payables, specifically the **₱3.56 million** directors' and officers' insurance, was the primary cause of the downward movement.
