Item 1.5. Earnings Per Share

The Company's earnings per share is presented on the face of the Income Statements on page 5 of this report. Said earnings per share is computed by dividing net income by the number of outstanding common shares.

Item 1.6. Disclosure that the issuer's interim financial report is in compliance with the accordance with generally accepted accounting principles in the Philippines as set forth in PFRSs

The interim financial report of the Company is in compliance with accordance with generally accepted accounting principles in the Philippines as set forth in PFRSs

Item 1.7. Notes to Financial Statements

Item 1.7.a. Accounting Policies and Methods

The same accounting policies and methods of computation are followed in the interim financial statements as compared with the most recent annual financial statements. The principal accounting policies adopted in preparing the financial statements of the Company are as follows:

1. The financial statements have been prepared in accordance with Philippine Financial Reporting Standards (PFRS). PFRS are adopted by the Financial Reporting Standards Council (FRSC) from the pronouncements issued by the International Accounting Standards Board (IASB).

The financial statements have been prepared using the measurement bases specified by PFRS for each type of asset, liability, income and expenses. The measurement bases are more fully described in the accounting policies that follow:

NEW INTERPRETATIONS, REVISIONS AND AMENDMENTS TO PFRS

(a) Effective in 2024 that are Relevant to the Company

The Company adopted for the first time the following amendments which are mandatorily effective for annual periods beginning on or after January 1, 2024:

PAS 1 (Amendments): Presentation of Financial Statements –
Classification of Liabilities as Current
or Non-current, and Non-current
Liabilities with Covenants

PAS 7 and PFRS 7(Amendments) : Statement of Cash Flow, and Financial Instruments:
Disclosures – Supplier Finance Arrangements

PAS 16 (Amendments) : Leases – Lease Liability in a Sale and Leaseback

Discussed below and in the succeeding pages are the relevant information about these pronouncements.

(i) PAS 1 (Amendments), Presentation of Financial Statements – Classification of Liabilities as Current or Non-current. The amendments provide guidance on whether a liability should be classified as either current or non-current. The amendments clarify that the classification of liabilities as current or non-current should be based on rights that are in existence at the end of the reporting period and that the classification is unaffected by expectations about whether an entity will exercise its right to defer settlement of a liability. The application of these amendments had no significant impact on the Company's financial statements.

(ii) PAS 1 (Amendments), Presentation of Financial Statements – Non-current Liabilities with Covenants. The amendments specify that if the right to defer settlement for at least 12 months is subject to an entity complying with conditions after the reporting period, then those conditions would not affect whether the right to defer settlement exists at the end of the reporting period for the purposes of classifying a liability as current or non-current. For non-current liabilities subject to conditions, an entity is required to disclose information about the conditions, whether the entity would comply with the conditions based on its circumstances at the reporting date and whether and how the entity expects to comply with the conditions by the date on which they are contractually required to be tested. The application of these amendments had no significant impact on the Company's financial statements.

(iii) PAS 7 and PFRS 7 (Amendments), Statement of Cash Flows, Financial Instruments: Disclosures – Supplier Finance Arrangements. The amendments add a disclosure objective to PAS 7 stating that an entity is required to disclose information about its supplier finance arrangements that enables users of financial statements to assess the effects of those arrangements on the entity's liabilities and cash flows. In addition, PFRS 7 is amended to add supplier finance arrangements as an example within the requirements to disclose information about an entity's exposure to concentration of liquidity risk. The application of these amendments had no significant impact on the Company's financial statements.

(iv) PFRS 16 (Amendments), Leases – Lease Liability in a Sale and Leaseback. The amendments requires a seller-lessee to subsequently measure lease liabilities arising from a leaseback in a way that it does not recognize any amount of the gain or loss that relates to the right of use it retains. The new requirements do not prevent a seller-lessee from recognizing in profit or loss any gain or loss relating to the partial or full termination of a lease. The application of these amendments had no significant impact on the Company's financial statements.

(b) Effective Subsequent to 2024 but not Adopted Early

There are new standards and amendments to existing standards effective for annual periods subsequent to 2024, which are adopted by the FSRSC. Management will adopt the following relevant pronouncements in accordance with their transitional provisions; and unless otherwise indicated, none of these are expected to have significant impact on the Company's financial statements:

(i) PAS 21 (Amendments), The Effects of Changes in Foreign Exchange Rates – Lack of Exchangeability (effective from January 1, 2025)

(ii) PFRS 9 and PFRS 7 (Amendments), Financial Instruments, and Financial Instruments: Disclosures – Amendments to the Classification and Measurement of Financial Instruments (effective from January 1, 2026)

(iii) PFRS 18, Presentation and Disclosure in Financial Statements (effective from January 1, 2027). The new standard impacts the classification of profit or loss items (i.e., into operating, investing and financing categories) and the presentation of subtotals in the statement of profit or loss (i.e., operating profit and profit before financing and income taxes). The new standard also changes the aggregation and disaggregation of information presented in the primary financial statements and in the notes. It also introduces required disclosures about management-defined performance measures. The new standard, however, does not affect how an entity recognizes and measures its financial condition, financial performance and cash flows.

2. The financial statements are presented in accordance with Philippine Accounting Standard (PAS) 1, *Presentation of Financial Statement*. The Company presents all items of income and expenses in a single statement of comprehensive income.
3. The financial statements are presented in Philippine pesos, the Company's functional currency, and all values represent absolute amounts except when otherwise indicated.
4. Financial assets are classified into financial assets at fair value through profit or loss, loans and receivables, held-to-maturity investments and available-for-sale financial assets. The Company's financial assets, which consist mainly of cash and trade receivables, are recognized on their trade date and are initially recognized at fair value, plus transaction costs.
5. Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They arise when the Company provides money, goods or services directly to a debtor with no intention of trading the receivables. They are included in current assets, except for maturities greater than 12 months after the balance sheet date which are classified as non-current assets. Loans and receivables are subsequently measured at amortized cost using the effective interest method, less impairment losses. Any change in their value is recognized in profit or loss. Loans and receivables are presented as Trade and Other Receivables in the balance sheets.
Impairment loss is provided when there is objective evidence that the Company will not be able to collect all amounts due to it in accordance with the original terms of the receivables. The amount of the impairment loss is determined as the difference between the asset's carrying amount and the present value of estimated cash flows.
6. Derecognition of financial assets occurs when the rights to receive cash flows from the financial instruments expire or are transferred and substantially all of the risks and rewards of ownership have been transferred.
7. Construction materials are valued at the lower of cost and net realizable value. Cost of construction materials is based on purchase cost on a moving average basis. Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.
8. Property and equipment are stated at cost less accumulated depreciation, amortization and impairment in value, if any. The cost of an asset comprises its purchase price and directly attributable costs of bringing the asset to working condition for its intended use.

Expenditures for additions, major improvements and renewals are capitalized; expenditures for repairs and maintenance are charged to expense as incurred. When assets are sold, retired or otherwise disposed of, their cost and related accumulated depreciation and impairment losses are removed from the accounts and any resulting gain or loss is reflected in income for the period.

9. Depreciation is computed on the straight-line basis over the estimated useful lives of the assets as follows:

Construction equipment	5-10 years
Transportation equipment	5 years
Furniture and fixtures	3 years
Leasehold improvements are amortized over 3 years or the term of the lease, whichever is shorter.	

The residual values and estimated useful lives of property and equipment are reviewed, and adjusted if appropriate, at each balance sheet date.

An item of property and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the item) is included in the statement of income in the year the item is derecognized.

The Company's property and equipment are subject to impairment testing whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.

An impairment loss is recognized for the amount by which the asset or cash-generating unit's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of fair value, reflecting market conditions less costs to sell and value in use, based on an internal discounted cash flow evaluation. Impairment loss is charged pro rata to the other assets in the cash generating unit.

All assets are subsequently reassessed for indications that an impairment loss previously recognized may no longer exist and the carrying amount of the asset is adjusted to the recoverable amount resulting in the reversal of the impairment loss.

10. Investment property is stated at cost less any impairment in value. The cost of investment property comprises its purchase price and directly attributable costs of bringing the asset to working condition for its intended use. Expenditures for additions, major improvements and renewals are capitalized; expenditures for maintenance are charged to expense as incurred. When investment property are sold, retired or otherwise disposed of, their cost and impairment losses, if any, are removed from the accounts and any resulting gain or loss is reflected in income for the period.

The carrying amount of investment property is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

The Company determined whether a property qualifies as investment property. In making its judgment, the Company considers whether the property generated cash flows largely independently of the other assets held by an entity. Owner-occupied properties generate cash flows that are attributable not only to property but also to other assets used in the production or supply process.

11. Non-Current Asset Classified as Held-for-sale include investment property that the Company intends to sell within one year from the date of classification as held-for-sale. Non-current asset classified as held-for-sale is measured at the lower of its carrying amount, immediately prior to the classification as held-for-sale, and its fair value less costs to sell. The profit or loss arising from the sale or revaluation of held-for-sale assets is recognized in the income statement.

12. Financial liabilities include bank loans and trade and other payables. Financial liabilities are recognized when the Company becomes a party to the contractual agreements of the instrument. All interest related charges are recognized as an expense in the statement of income under the caption Finance Costs.

Trade payables are recognized initially at their nominal value and subsequently measured at amortized cost less settlement payments.

Financial liabilities are derecognized from the balance sheet only when the obligations are extinguished either through discharge, cancellation or expiration.

13. Revenue and Cost Recognition. Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. The following specific revenue recognition criteria must also be met before revenue is recognized:

- Revenues and costs from contracts – Revenue is recognized based on actual work done which is consistent with the percentage-of-completion method. Under this method, revenues are recognized in proportion to the actual stage of completion of the project as a percentage of total estimated costs for each contract as determined and certified by project engineers. Costs are recognized based on actual costs incurred. Adjustments in the contract price or the estimated costs are recorded prospectively when they become known while anticipated losses on the contracts are recorded in full when determined.
- Rental income – Revenue is recognized when the amount of the agreed rent is billed and earned.
- Scrap sales – Revenue is recognized when the title of the scrap construction materials passes to the buyer.
- Forfeiture income – When the performance of contractually agreed tasks is not completed by the subcontractors at the specified time in the contract, a portion of the retention fees payable is forfeited and recognized as income.

Cost and expenses are recognized in the statement of income upon utilization of the service or at the date they are incurred. Finance costs are reported on an accrual basis.

14. Leases. Company as lessee – Leases which do not transfer to the Company substantially all the risks and benefits of ownership of the asset are classified as operating leases. Operating lease payments are recognized as expense in the statement of income on a straight-line basis over the lease term. Associated costs, such as maintenance and insurance, are expensed as incurred.

Company as lessor – Leases which do not transfer to the Company substantially all the risks and benefits of ownership of the asset are classified as operating leases. Lease income from operating leases is recognized as income in the statement of income on a straight-line basis over the lease term. Indirect costs incurred by the lessor in negotiating and arranging for an operating lease is added to the carrying amount of the leased asset and recognized as expense over the lease term.

15. *Retirement Benefit Obligations*

The Company has not established a formal retirement plan. However, it recognizes the estimated defined benefit obligations (under Republic Act No. 7641, the “Retirement Act”) using the Projected Unit Credit Method as computed by an actuary.

A defined benefit plan is a pension plan that defines an amount of pension benefit that an employee will receive on retirement, usually dependent on one or more factors such as age, years of service and salary. The legal obligation for any benefits from this kind of pension plan remains with the Company, even if plan assets for funding the defined benefit plan have been acquired. Plan assets may include assets specifically designated to a long-term benefit fund, as well as qualifying insurance policies. The Company’s defined benefit pension plan covers all regular full-time employees.

The liability recognized in the balance sheet for defined benefit pension plans is the present value of the defined benefit obligation (DBO) at the balance sheet date less the

fair value of plan assets, together with adjustments for unrecognized actuarial gains or losses and past service costs. The DBO is calculated annually by independent actuaries using the projected unit credit method. The present value of the DBO is determined by discounting the estimated future cash outflows using interest rates of high quality corporate bonds that are denominated in the currency in which the benefits will be paid and that have terms to maturity approximating to the terms of the related pension liability. Actuarial gains and losses are not recognized as an expense unless the total unrecognized gain or loss exceeds 10% of the greater of the obligation and related plan assets. The amount exceeding this 10% corridor is charged or credited to profit or loss over the employees' expected average remaining working lives. Actuarial gains and losses within the 10% corridor are disclosed separately. Past-service costs are recognized immediately in the statement of income, unless the changes to the pension plan are conditional on the employees remaining in service for a specified period of time (the vesting period). In this case, the past service costs are amortized on a straight-line basis over the vesting period.

16. **Income Taxes.** Current income tax assets or liabilities comprise those claims from, or obligations to, fiscal authorities relating to the current or prior reporting period, that are uncollected or unpaid at the balance sheet date. They are calculated according to the tax rates and tax laws applicable to the fiscal periods to which they relate, based on the taxable profit for the year. All changes to current tax assets or liabilities are recognized as a component of tax expense in the statement of income.

Deferred tax is provided, using the balance sheet liability method on temporary differences at the balance sheet date between the tax base of assets and liabilities and their carrying amounts for financial reporting purposes.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is probable that sufficient taxable profit will be available to allow all or part of the deferred tax assets can be utilized.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the balance sheet date. Most changes in deferred tax assets or liabilities are recognized as a component of tax expense in the statement of income. Only changes in deferred tax assets or liabilities that relate to a change in value of assets or liabilities that is charged directly to equity are charged or credited directly to equity

17. **Equity.** Capital stock is determined using the nominal value of shares that have been issued.

Additional paid-in capital includes any premiums received on the initial issuing of capital stock. Any transaction costs associated with the issuing of shares are deducted from additional paid-in capital, net of any related income tax benefits.

Retained earnings include all current and prior period results as disclosed in the statements of income

Item 1.7.b. Comments about the seasonality or cyclicity of interim operations

For the past few years, the Company's construction activities are sluggish during the first (1st) quarter. It peaks starting on the summer months, that is, during the second (2nd) to the third (3rd) quarter of the year. There are instances, however, when the Company is still active in its construction projects during the last quarter of the year especially when the Developers accumulate their inventory in time for the influx of buyers in December. For the 3rd quarter of the current year, the Company generated revenues from its land development project contracts.

Item 1.7.c. Nature and amount of items affecting assets, liabilities, equity, net income or cash flows that are unusual because of their nature, size or incidents

See Item 2.2.e

Item 1.7.d. Nature and amount of changes in estimates of amounts reported in prior interim periods of the current financial year or changes in estimates of amounts reported in prior financial years, if those changes have material effects in the current interim period

There were no changes in estimates reported in prior periods which could materially affect the current interim period.

Item 1.7.e. Issuances, repurchases and repayments of debt and equity securities

For the 3rd quarter of this year, there were neither payments nor availments of interest-bearing loans. Likewise, there were no issuances, repurchases or repayments of equity securities.

Item 1.7.f. Payment of dividend

There were no dividends paid during the third quarter of the year.

Item 1.7.g. Segment revenue and segment result for business segments or geographical segments, whichever is the issuer's primary basis of segment reporting

As of September 30, 2025, the Company has not yet started any real estate development projects. Currently, the Company is continuously engaged in the business of construction, its sole business activity where it utilizes the services of subcontractors. Hence, no segment information and disclosures are presented in the Company's financial statements.

Item 1.7.h. Material events subsequent to the end of the interim period that have not been reflected in the financial statements for the interim period

There are no material events subsequent to September 30, 2025 that have not been reflected in the financial statements for the six (6)-month period covered January to September 30, 2025.

Item 1.7.i. Effect of changes in the composition of the issuer during the interim period, including business combinations, acquisition, or disposal of subsidiaries and long-term investments, restructurings, and discontinuing operations

There were no changes in the composition of the Company during the interim period.

Item 1.7.j. Changes in contingent liabilities or contingent assets since the last annual balance sheet date

There were no changes in contingent liabilities or contingent assets since December 31, 2024.

Item 1.7.k. Existence of material contingencies and any other events or transactions that are material to an understanding of the current interim period

There are commitments, guarantees and contingent liabilities relating to construction projects entered into by the Company that arise in the normal course of business which are not reflected in the interim financial statements. Management believes, however, that any loss that could arise from these commitments and contingencies will not have a material effect on the Company's financial statements as of and for the three-month period ending September 30, 2025.

Following are the Schedules required under SRC Rule 68.1-M:

Schedule A – Financial Assets (Financial Assets at Amortized Cost)

As of September 30, 2025
(Amounts in Philippine Pesos)

Description of Each Issue	Amount Shown in the Statement of Financial Position	Income Received and Accrued
Cash	34,656,536	906,702
Receivables	1,291,854	
Total	35,948,390	906,702

Schedule B – Amounts Receivable from Directors, Officers, Employees, Related Parties and Principal Stockholders.

As of September 30, 2025

Name and Designation of Debtor	Balance at Beginning of Period	Additions	Amounts Collected (2)	Current	Not Current	Balance at End Of Period
Related Parties:						
City and Life Property, Inc.	107,511	-	-	107,511	-	107,511
Extraordinary Dev. Corp	172,564	-	-	172,564	-	172,564
Total	280,075	-	-	280,075	-	280,075

Schedule C – Amounts Receivable from Related Parties which are Eliminated during the Consolidation of Financial Statements

The Company has no Amounts Receivable from Related Parties which are Eliminated during the Consolidation of Financial Statements. Thus, the schedule is omitted.

Schedule D – Long-term Debt

The Company has no Long-term Debt. Thus, the schedule is omitted.

Schedule E – Indebtedness to Related Parties (Long-term Loans from Related Companies)

The Company has no Indebtedness to Related Parties (Long-term Loans from Related Companies). Thus, the schedule is omitted.

Schedule F – Guarantees of Securities of Other Issuers

The Company has no Guarantees of Securities of Other Issuers. Thus, the schedule is omitted

Schedule I – Capital Stock

As of September 30, 2025

Title of Issue	No. of shares authorized	No. of shares issued and outstanding	No. of shares reserved for options, warrants, conversion and other rights	No. of shares held by		
				Related parties	Directors, officers and employees	Others
Common	155,000,000	110,000,000	-	-	51,220,000	58,780,000

Note: Certain officers, directors and stockholders of these related parties purchased shares of stock in the Company's initial public offering.

SUPERCITY REALTY DEVELOPMENT CORPORATION

Summary of Financial Soundness Indicators

As of September 30, 2025 and December 31, 2024

KPI	Formula	09/30/2025	12/31/2024

Current Ratio	Current Assets/Current Liability	8.79 : 1	6.43 : 1
Solvency:			
Debt-to-Equity Ratio	Total Liabilities/Total Equity	0.13 : 1	0.18 : 1
Asset-to-equity:			
Asset-to-Equity ratio	Total Assets/Total Equity	1.13 : 1	1.18 : 1
Interest-rate-coverage:			
*Interest-rate-coverage ratio	Profit Before Tax/Finance Costs	n/a	n/a
Profitability:			
Return-on-investment	Net Income/Average Capital Stock	-0.91%	-8.25%

*The Company has no existing interest-bearing loans as of the given period.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Item 2.1. Comparable discussion that will enable the reader to assess material changes in financial condition and results of operation since the end of the last fiscal year and for the comparable interim period in the preceding financial year

Financial Condition

Total Assets

The Company's total assets amounted P 52.46M as of September 30, 2025, 6.57% lower than the December 31, 2024 figure of P 56.15M. There was a decrease on the total assets of the company particularly under the Trade and Other Receivables and Prepayments and other current assets accounts.

Property and Equipment

Property and equipment as of December 31, 2024 were fully depreciated. The Company employs subcontractors that can provide the necessary equipment.

Total Liabilities

The Company's total liabilities as of September 30, 2025, amounted to P 5.92M, a 31.21% decrease as compared to the December 31, 2024 balance of P 8.61M. The decrease was primarily brought by the decrease in the advances from customers and retention fees payable and deferred output vat accounts reported under trade and other payables account.

Liquidity

The Company posted a current ratio of 8.79:1 as of September 30, 2025, higher than the 6.43:1 current ratio as of December 31, 2024. The increase can be attributed to the decrease in the current liability account particularly the Advances from customers and Trade payables accounts. Likewise, the trade and other receivables and prepayments accounts also decreased.

Leverage

Debt-to-equity ratio as of September 30, 2025, was determined to be 0.13:1 a lower than the 0.18:1 ratio as of December 31, 2024. The liability account decreased particularly the Advances from customers and Trade payables accounts while the equity account also decreased due to the net loss incurred during the given period.

Results of Operation

Revenues

Revenues from contracts for 2025Q3 amounted to P1.12M while there were no revenues in 2024Q3 as minimal contracts were awarded in 2024. The increase can be attributed to the higher work accomplishment made in 2025Q3 than in 2024Q3. Contract revenues for the 2025Q3 were generated from the Land Development projects.

Gross Profit

Gross profit from construction contracts increased to P0.28M in 2025Q3 while there were no gross profit in 2024Q3 because there were no revenues generated in 2024Q3. Minimal contracts were awarded to the Company in 2024. Gross profit ratio posted at 25% in 2025Q3

Cost and Expenses

Total costs and expenses for 2025Q3 amounted to P 1.12M, 88% higher than the P 0.60M in 2024Q3. Cost of services posted at P0.84M in 2025Q3. The increase was primarily brought about by the increase revenue generated in 2025Q3 since these costs are variable in nature.

For the total operating expenses, 2025Q3 amounted to 0.28M, 52% lower than the 2024Q3 of 0.60M. The decrease was primarily brought about by the decrease on repair cost, representation and miscellaneous expenses incurred for the given quarter in 2025.

Operating Profit (Loss)

As a result of the foregoing, operating profit (loss) in 2025Q3 amounted to (P0.003M) from (P0.60M) in 2024Q3. The decrease in operating profit (loss) can be attributed to the higher revenue generated by the Company in 2025Q3. Likewise, a lower operating expenses incurred by the Company in 2025Q3 as discussed under cost and expenses section above contributed to the decrease in operating loss.

Other Income / Charges

No financing costs incurred in 2025Q3 and in 2024Q3 since there was no interest-bearing loans for the given quarter. Other income pertains only to interest earned by the Company for its bank deposits and money market placement.

Net Income (Loss)

As a result of the higher revenue generated in 2025Q3 than in 2024Q3, net income (loss) increased from P0.11M in 2024Q3 to P0.30M in 2025Q3. Finally, this translated into earnings (loss) per share of P0.0027 in 2025Q3 from P0.0010 in 2024Q3.

Key Performance Indicators

Return on Investment (ROI)

The Company computes return on investment (ROI) by dividing net income for the period by the weighted average capital stock, wherein capital stock equals capital stock subscribed plus net additional paid-in capital. This is to determine how much stockholders have earned on their investment in the Company.

For 2025Q3, the Company posted an ROI of 0.27% compared to the 2024Q3 ROI of 0.10%. The increase in ROI can be attributed to the higher revenue earned in 2025Q3. Likewise, total operating expenses decreased.

Fixed Assets Turnover

Fixed assets turnover is computed as sales for the period divided by the average fixed assets. A significant portion of the fixed assets (property and equipment, net of accumulated depreciation) is composed of construction and other site-based equipments. Since these equipments are major components in generating revenues, the fixed assets turnover is therefore deemed important. The higher the fixed assets turnover, the better it is for the Company. A high fixed assets turnover ratio would mean that the Company was able to make full use of its assets in generating revenues. However, in 2024Q3 and 2025Q3, the fixed assets were fully depreciated.

Current Ratio

Current ratio is computed as current assets divided by current liabilities. The Board of Directors and the Management believe that this is an important measure of the liquidity of the Company as it reflects the capacity of the Company to pay for its short-term maturing obligations particularly trade payables, bank loan and advances from customers. The higher the current ratio, the better it is for the Company.

Current ratio as of September 30, 2025 was computed at 8.79:1 higher than the 6.43:1 ratio at the beginning of the year. The increase can be attributed to the decrease in current liability accounts particularly the Advances from customers and the Trade payables accounts. Likewise, the trade and other receivables and Prepayment accounts decreased.

Debt to Equity Ratio

Debt-to-equity ratio is computed by dividing the Company's liabilities by the total stockholders' equity as of the end of the year. The leverage ratio indicates how the Company's operations are financed, that is, either by debt or equity. A 1:1 debt equity ratio is the preferred ratio as it favors both the creditors and the stockholders.

Debt-to-equity ratio as of September 30, 2025 was determined to be 0.13:1 lower than the 0.18:1 as of December 31, 2024. The liability account decreased particularly the Advances from customers and the Trade payables accounts. Likewise, the equity account also decreased for the net loss incurred during the given period.

.

Return on Assets Ratio (ROA)

The ROA is an indicator of how profitable a company is relative to its total assets. ROA gives an idea as to how efficient management is at using its assets to generate earnings and is calculated by dividing the Company's net profit by its average assets.

For 2025Q3, the Company posted an ROA of 0.55% compared to the 2024Q3 ROA of 0.15%. The increase in ROA can be attributed to the higher revenue earned in 2025Q3. Likewise, total operating expenses decreased for the given quarter.

Losses from Operation

The Company recorded operating loss of (P1.91M) for the 9-month period ended September 30, 2025 and (P3.28M) of the same period in 2024. These losses were primarily driven by lower-than-expected revenues during these periods.

To address these challenges, the Company is implementing several measures to enhance revenue generation and reduce costs and expenses. Efforts are focused on optimizing current construction methodologies, ensuring the delivery of high-quality services while maintaining cost competitiveness. Additionally, the Company is actively pursuing new business opportunities through on-going negotiations with prospective clients to expand its clientele.

As part of its long-term strategic direction, the Company continues to prioritize institutional and corporate clients over individual homebuyers. This approach is designed to capitalize on economies of scale, enabling more efficient project execution and fostering sustainable revenue growth.

Financial Condition and Changes in Financial Condition

The Company does not currently face, nor does it anticipate encountering within the next 12 months, any cash flow or liquidity issues. It is not in default or in breach of any outstanding notes, loans, leases, or other debt obligations that would require immediate payments. Additionally, the Company has consistently met its trade payables within the agreed payment terms, and there are no significant outstanding amounts beyond these terms.

Business Plans and Future Prospects:

It has been the thrust of the Company to be a business partner of Real Estate Developers and as such it concentrates on serving the needs of its major clients namely: CenqHomes Development Corporation, Acerhomes Development Corporation, Earth+Style Corporation, One Asia Development Corporation, Kaiser Realty Development Corporation, Earth Aspire Corporation, Earth Prosper Corporation, and Verdantpoint Development Corporation. These are the eight (8) major clients which account for the majority of the Company's revenues for the past years.

As a matter of corporate strategy, the Company has positioned itself and will continue to serve institutional or corporate clients rather than individual homebuyers in order to leverage on economies of scale for its construction projects. The Company also focuses on the construction of horizontal residential house and land development works for residential subdivisions. Its primary markets are the real estate developers in the Philippines and has no plans of getting into the international market.

For the third quarter of 2025, the Company has revenues generated from construction activities from its newly awarded contracts for land development projects.

The company will continue to improve its modern construction methodologies and will continue to offer its services at the lowest amount with the required quality of service to its clients.

Item 2.2. Discussion and analysis of material event/s and uncertainties known to Management that would address the past and would have an impact on future operations of the following:

2.2.a. Any known trends, demands, commitments, events, uncertainties that will have a material impact on the issuer's liquidity

There are no material commitments that may affect the company's liquidity.

2.2.b. Any material commitments for capital expenditures, the general purpose of such commitments and the expected sources of funds for such expenditures

There are no material commitments for capital expenditures.

2.2.c. Any known trends, events or uncertainties that have had or that are reasonably expected to have a material favorable or unfavorable impact on net sales/revenues/income from continuing operations

The 3rd quarter of the year 2025, the Company had revenues generated from construction activities from its land development projects.. The Management expects that Company will still continue to engage in construction until such time that its plan to engage into real estate business is pursued.

2.2.d. Any significant elements of income or loss that did not arise from the issuer's continuing operations

There are no significant elements of income or loss that did not arise from the Company's continuing operations.

2.2.e. The causes of any material change/s (5% or more) from period to period in one or more line items of the issuer's financial statements (present in tabular form)

Balance Sheets Items:

Account Title	As Of		Inc/(Dec)		Remarks
	09/30/2025	12/31/2024	Amount	%	
Trade and other receivables	1,291,854	5,652,179	(4,360,325)	-77%	Decrease was due to the decrease in the trade receivable accounts for the collections of billings to clients.
Total Assets	52,460,459	56,152,340	(3,691,881)	-7%	Decrease was due to the decrease in the Trade Receivables accounts as described above.
Trade and other payable	5,750,358	8,437,964	(2,687,606)	-32%	Decrease was due to the recoupment of Advances from customers and the decrease in trade payables accounts.
Total Liabilities	5,924,794	8,612,400	(2,687,606)	-31%	Decrease was due to the recoupment of Advances from customers and the decrease in trade payables accounts.
Total Liabilities and equity	52,460,459	56,152,340	(3,691,881)	-7%	Decrease was due to the recoupment of Advances from customers and the decrease in trade payables accounts. Moreover, retained earnings account also decreased.

Income Statement Items:

Account Title	For the Quarter Ending		Inc/(Dec)		Remarks
	09/30/2025	12/31/2024	Amount	%	
Revenues	1,118,816	-	1,118,816	#DIV/0!	Increase in revenues was generated from land development projects in 2025Q3. However, in 2024Q3, no revenues were generated since minimal contracts were awarded in 2024
Contract Cost	838,736	-	838,736	#DIV/0!	Increase was due to the higher construction activities as discussed in the Revenue section above while there were no revenues generated in 2024Q3. These costs are variable in nature.
Gross Profit	280,080	-	280,080	#DIV/0!	Increase was due to the higher revenues generated in 2025Q3 as described in the revenue section above.
Administrative expenses	229,590	459,596	(230,006)	-50%	The decrease was due to lower professional fees recognized in 2025Q3 than in 2024Q3
Other operating expenses	53,970	137,279	(83,309)	-61%	The decrease was due to decrease in repair costs incurred in 2025Q3 than in 2024Q3

Total Operating expenses	283,560	596,875	(313,314)	-52%	The decrease was due to lower repair cost, representation and miscellaneous expenses incurred for the given quarter in 2025Q3
Other gains - net	303,670	702,356	(398,686)	-57%	This pertains to interest earned from bank deposits and money market placements.
Income/(Loss) Before Tax	300,189	105,481	194,708	185%	Increase was due to higher revenue generated in 2025Q3 than in 2024Q3 as described in the Revenue section above.
Net Income/(Loss)	300,189	105,481	194,708	185%	Increase was due to higher revenue generated in 2025Q3 than in 2024Q3 as described in the Revenue section above.

2.2.f. Any seasonal aspects that had a material effect on the financial condition or results of operations

There are no seasonal aspects that had a material effect on the financial condition or results of operations
