Selected Notes to the Unaudited Interim Condensed Consolidated Financial Statements

These notes form an integral part of the unaudited interim condensed consolidated financial statements.

1. Domicile and activities

Del Monte Pacific Limited (the “Company”) was incorporated as an international business company in the British Virgin Islands on 27 May 1999 under the International Business Companies Act (Cap. 291) of the British Virgin Islands. It was automatically re-registered as a company on 1 January 2007 when the International Business Companies Act was repealed and replaced by the Business Companies Act 2004 of the British Virgin Islands.

The registered office of the Company is located at Craigmuir Chambers, Road Town, Tortola, British Virgin Islands.

The principal activity of the Company is investment holding. Its subsidiaries are principally engaged in growing, processing, and selling packaged fruits, vegetable and tomato, sauces, condiments, pasta, broth and juices, mainly under the brand names of “Del Monte”, “S&W”, “Today’s”, “Contadina”, “College Inn” and other brands and fresh pineapples under “S&W” and other brands pursuant to relevant agreements. The Company’s subsidiaries also produce and distribute private label food products.

The immediate holding company is NutriAsia Pacific Limited (“NAPL”), and the indirect shareholders of which are NutriAsia Inc. (“NAI”) and Well Grounded Limited (“WGL”), which at 31 July 2025 and 30 April 2025, each held 57.8% and 42.2% interests in NAPL, respectively, through their intermediary company, NutriAsia Holdings Limited. NAPL, NAI and WGL were incorporated in the British Virgin Islands. The ultimate holding company is HSBC International Trustee Limited.

On 2 August 1999, the Company was admitted to the Official List of the Singapore Exchange Securities Trading Limited (“SGX-ST”). The Ordinary Shares of the Company were also listed on the Philippine Stock Exchange Inc. (“PSE”) on 10 June 2013. The first tranche of the Company’s Preference Shares (Series A-1) was listed on 7 April 2017 and the second tranche (Series A-2) on 15 December 2017. On 7 April 2022, the Company redeemed all of the outstanding 20,000,000 Series A-1 Preference Shares (see Note 16).

On 6 August 2010, the Company established DM Pacific Limited-ROHQ (“ROHQ”), the regional operating headquarters of the Company in the Philippines. The ROHQ is registered with and licensed by the Securities and Exchange Commission (“SEC”) to engage in general administration and planning, business planning and coordination, sourcing and procurement of raw materials and components, corporate financial advisory, marketing control and sales promotion, training and personnel management, logistics services, research and product development, technical support and maintenance, data processing and communication, and business development. The ROHQ commenced its operations in October 2015.

The consolidated financial statements of the Group as at and for the periods ended 31 July 2025 and 2024 comprise the Company and its subsidiaries (together referred to as the “Group”, and individually as “Group entities”), and the Group’s interests in joint ventures.

As mentioned in Note 17, effective 1 May 2025, DMPL has deconsolidated DMFHL and its subsidiaries from the Group’s consolidated financial statements in accordance with IFRS 10, Consolidated Financial Statements.

For comparability, the consolidated financial statements for the first quarter of FY2025 have been restated to reflect the U.S. operations discontinued at the beginning of FY2025.

2. Basis of preparation

2.1 Statement of compliance

The accompanying unaudited interim condensed consolidated financial statements as at 31 July 2025 and for the periods ended 31 July 2025 and 2024 have been prepared in accordance with International Accounting Standard (“IAS”) 34, *Interim Financial Reporting*. The unaudited interim condensed consolidated financial statements do not include all of the information and disclosures required in the annual consolidated financial statements and should be read in conjunction with the 2025 annual unaudited consolidated financial statements, comprising the consolidated statements of financial position as at 30 April 2025 and 2024 and the consolidated statements of income, consolidated statements of comprehensive income, consolidated statements of changes in equity and consolidated statements of cash flows for the years ended 30 April 2025, 2024, and 2023.

2.2 Basis of measurement

The unaudited interim condensed consolidated financial statements have been prepared on the historical cost basis except as otherwise described in the succeeding notes below.

2.3 Functional and presentation currency

These unaudited interim condensed consolidated financial statements are presented in United States dollars (US\$), which is the Company’s functional currency. All financial information presented in US dollars has been rounded to the nearest thousand, unless otherwise stated.

2.4 Use of estimates and judgements

The preparation of the unaudited interim condensed consolidated financial statements in conformity with International Financial Reporting Standards (IFRS) requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Judgements

Information about judgements made in applying accounting policies that have the most significant effects on the amounts recognized in the unaudited interim condensed consolidated financial statements are included in the following notes:

- Note 7 – Assessment of the appropriateness of the indefinite useful lives of certain intangible assets
- Note 8 – Determination of joint control and the type of joint arrangement
- Note 30 – Determination of lease term of contracts with renewal option

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected. There are no changes in significant judgment and estimate since 30 April 2025.

Information about assumptions and estimation uncertainties that have a significant risk resulting in a material adjustment within the next financial year are included in the following notes:

- Note 5 – Useful lives of property, plant and equipment, revaluation of freehold land, estimate of harvest for bearer plant's depreciation
- Note 6 – Obligation to purchase excess shares or sell shortfall shares
- Note 6 – Fair value of derivative liability on the call option
- Note 6 – Recoverability of investments in subsidiaries
- Note 7 – Recoverability of investments in joint ventures
- Note 8 – Impairment of goodwill and intangible assets
- Note 8 – Useful lives of intangible assets
- Note 9 – Recognition of deferred tax assets
- Note 11 – Fair value of harvested agricultural produce
- Note 11 – Future tonnage of harvests
- Note 11 – Fair value of unharvested agricultural produce
- Note 12 – Allowance for inventory obsolescence and net realizable value
- Note 13 – Impairment of trade and nontrade receivables
- Note 20 – Measurement of employee benefit obligations
- Note 20 – Actuarial estimates and assumptions used
- Note 22 – Estimation of trade promotion accruals
- Note 23 – Determination of incremental borrowing rate for lease liabilities
- Note 27 – Measurement of income tax
- Note 34 – Determination of fair values
- Note 36 – Contingencies

2.5 Going concern

As of 31 July 2025, the Group reported net capital deficiencies of US\$600.7 million. The significant decline in equity was attributed to the unfavorable results from DMFC, as well as the full impairment of the Group's investment, and other assets, in its U.S. subsidiaries, following DMFHL's Chapter 11 filing on 2 July 2025.

In addition, the Group current liabilities exceeded their current assets by US\$600.4 million largely due to the revolving nature of the local banks' facilities availed by its Philippine subsidiary, Del Monte Philippines, Inc. ("DMPI"). The loan proceeds were used by the Group significantly in growing pineapple which are recorded under "Property Plant and Equipment", as bearer plants, and are classified as non-current assets in accordance with IAS 41, *Agriculture* and IAS 16, *Property, Plant and Equipment*. Total amount associated with bearer plants as at 30 April 2025 is US\$219.4 million. In the case of the Company, its current liabilities substantially include payables to subsidiaries that are due upon demand and the Company's own bank borrowings.

Management believes that the Group and Company will be able to pay or refinance its liabilities as and when they fall due. Accordingly, the use of the going concern assumption is appropriate considering the following:

- Continuing operations of DMPL are profitable and are able to meet its' obligations including payout of interest expense and dividends on Redeemable Convertible Preference Shares ("RCPS") and perpetual bonds. DMPL's subsidiary, Del Monte Philippines Inc. ("DMPI"), with its Asian and international businesses, continues to perform well with resilient consumer demand, supported by a strong and stable supply chain. The Group is confident in its ability to maintain uninterrupted business operations going forward.

- Despite the losses, the Group's continuing operations generated net operating cash flows of US\$76.8 million for the three months ended 31 July 2025. The Group remains vigilant in managing its costs and protecting its margins amidst a volatile macro-economic and geopolitical environment. In addition, lowering inventory and optimizing capital was a significant focus for the Group in 2024 and 2025, that resulted in improved cash flow and lowered debt. Improving profits and free cash flow will continue to be a major priority for the Group in the upcoming years.
- Management had undertaken various measures to improve operating profits such as, investments in the cannery to improve efficiency, productivity and minimize wastage, increased efficiency in distribution centers, and the implementation of certain price increases that would counter offset the impact of inflation across all market segments.
- The Group is in discussion with partner banks to extend maturities or refinance existing debt including amortizations that are falling due in fiscal year 2026. In addition, the Group continues to find new sources of funding to improve cash management. The Group has new proposals from reputable financial institutions for new long-term loans and continues to get incremental short-term lines from partner banks to meet its short-term obligations. The Group is also embarking on equity raising initiatives and has appointed financial advisors to support the process.
- DMPL continues to receive dividends from its subsidiaries and expects these to continue over the next 12 months, further supporting liquidity.

In view of the above, Management believes that the use of the going concern assumption remains appropriate, notwithstanding the material uncertainties described. The Group is confident in its ability to maintain uninterrupted operations and meet its obligations as they become due over the foreseeable future.

3. Significant accounting policies

Changes in Accounting Policies and Disclosures

The accounting policies adopted in the preparation of the unaudited interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group's 2025 annual consolidated financial statements, except for the adoption of the following amendments effective beginning 1 May 2025, which did not have any significant impact on the Group's financial position or performance, unless otherwise indicated:

Effective beginning on or after 1 May 2025

The accounting policies adopted are consistent with those of the previous fiscal year, except that the Group has adopted the following new accounting pronouncements starting 1 May 2024. Adoption of these new standards did not have any significant impact on the Group's consolidated financial statements.

(i) Amendments to IFRS 16, Lease Liability in a Sale and Leaseback

The amendments specify how a seller-lessee measures the lease liability arising in a sale and leaseback transaction in a way that it does not recognize any amount of the gain or loss that relates to the right of use retained.

(ii) **Amendments to IAS 7 and IFRS 7, *Disclosures: Supplier Finance Arrangements***

The amendments specify disclosure requirements to enhance the current requirements, which are intended to assist users of financial statements in understanding the effects of supplier finance arrangements on an entity's liabilities, cash flows and exposure to liquidity risk.

4. Operating segments

The Group's Continuing Operations has two operating segments: geographical and product. In identifying these operating segments, management generally considers geographical as its primary operating segment.

Geographical segments

Americas

Reported under the Americas segment are sales and profit on sales in USA, Canada and Mexico. Majority of this segment's sales are principally sold under the Del Monte brand but also includes products under S&W and other brands. This segment also includes sales of private label food products.

Asia Pacific

Reported under Asia Pacific are sales and profit on sales in the Philippines, comprising of Del Monte branded packaged products, including Del Monte traded goods, and Today's brand; S&W products in Asia and the Middle East both fresh and packaged; and Del Monte packaged products from the Philippines into Indian subcontinent as well as unbranded fresh and packaged goods.

Europe

Included in this segment are sales of S&W co-branded, buyer's own label and unbranded products in Europe.

Product segments

Meals and Meal Enhancers

The meals and meal enhancers segment includes sales and profit of processed fruit products under 'Del Monte' brand packaged in can, plastic cup, pouch and aseptic bag, packaged tomato-based products such as ketchup, tomato sauce, pasta sauce, recipe sauce and pizza sauce, pasta, broth and condiments under 'Del Monte' brand which are sold locally. Key products under this segment are canned pineapples and tropical mixed fruits.

Snacking and Desserts

The snacking and desserts segment includes sales and profit of packaged fruits, including frozen, under the Del Monte, S&W, and Today's brands. This also includes the product innovations in the Philippines in the biscuits category and beverages in the United States.

Beverage

Beverage includes sales and profit of 100% pineapple juice in can, juice drinks in various flavors in can, tetra and PET packaging, and pineapple juice concentrate.

Premium Fresh fruit

Fresh fruit and others include sales and profit of S&W branded fresh pineapples in Asia Pacific and buyer's label or non-branded fresh pineapples in Asia,

Others

Includes all sales and profit of non-branded products, but excluding fresh pineapples, as well as packaged products under buyer's labels, that are packaged in different formats such as can, plastic cup, pouch and aseptic bag. This also includes sales of cattle in the Philippines. The cattle operation helps in the disposal of pineapple pulp, a residue of pineapple processing which is fed to the animals.

5. Seasonality of operations

The Group's continuing business is subject to seasonal fluctuations as a result of increased demand during the end of year festive season. The Group's sales are usually highest during the three months from October to December. This seasonal production primarily relates to the majority of processed fruits and toll pack goods.

Goodwill

DMPI

The US\$1.8 million goodwill relates to the step-up acquisition of DMNVI by DMPI. As of July 31 and April 30, 2025, the carrying value of goodwill does not exceed the present value of related assets; hence, no impairment has been recorded.

Indefinite life trademarks

Management has assessed the following trademarks as having indefinite useful lives as the Group has exclusive access to the use of these trademarks. These trademarks are expected to be used indefinitely by the Group as they relate to continuing businesses that have a proven track record with stable cash flows.

The Philippines trademarks

A subsidiary, PPMSC, owns the “Del Monte” and “Today’s” trademarks for use in connection with processed foods in the Philippines (the “Philippines Trademarks”) with carrying value amounting to US\$1.8 million.

Indian sub-continent trademark

In November 1996, a subsidiary, DMPRL, entered into an agreement with an affiliated company to acquire the exclusive right to use the “Del Monte” trademarks in the Indian sub-continent territories and Myanmar in connection with the production, manufacture, sale and distribution of food products and the right to grant sub-licenses to others (“Indian sub-continent trademark”). In 2007, the Company acquired shares in DMFPL and caused the licensing of trademarks to DMFPL to market its products under the “Del Monte” brand in India. These trademarks have a carrying value of US\$4.1 million.

S&W trademark

In November 2007, a subsidiary, S&W, entered into an agreement with Del Monte Corporation to acquire the “S&W” trademarks in certain countries in Asia (excluding Australia and New Zealand and including the Middle East), Western Europe and Eastern Europe for a total consideration of US\$10.0 million. The trademark has a carrying value of US\$8.2 million.

Impairment test

Management performs an impairment testing for all indefinite life trademarks at the end of the year. There were no impairment indicators identified.

Source of estimation uncertainty

The Group estimates the useful lives of its amortizable trademarks and customer relationships based on the period over which the assets are expected to be available for use. The estimated useful lives of the trademarks and customer relationships are reviewed periodically and are updated if expectations differ from previous estimates due to legal or other limits on the use of the assets. A reduction in the estimated useful lives of amortizable trademarks and customer relationships would increase recorded amortization expense and decrease noncurrent assets.

Determination of Joint Control and the Type of Joint Arrangement

Joint control is presumed to exist when the investors contractually agreed sharing of control on an arrangement, which exists only when decisions about the relevant activities require the unanimous consent of the parties sharing control. Management has assessed that it has joint control in all joint arrangements.

The Group determines the classification of a joint venture depending upon the parties' rights and obligations arising from the arrangement in the normal course of business. When making an assessment, the Group considers the following:

- (a) the structure of the joint arrangement.
- (b) when the joint arrangement is structured through a separate vehicle:

- i. the legal form of the separate vehicle;
- ii. the terms of the contractual arrangement; and
- iii. when relevant, other facts and circumstances.

The Group determined that the arrangements in DMFPL, NFHKL and DMNVI are joint ventures as these were structured in separate legal vehicles that have rights to the net assets of the arrangements. The terms of the contractual arrangements do not specify that the parties have rights to the assets and obligations for the liabilities relating to the arrangements.

Source of Estimation Uncertainty

In the event a joint venture has suffered recurring operating losses, a test is made to assess whether the investment in joint venture has suffered any impairment by determining the recoverable amount. This determination requires significant judgement and estimation. An estimate is made on the future profitability, cash flow, financial health and near-term business outlook of the joint venture, including factors such as market demand and performance. The recoverable amount will differ from these estimates as a result of differences between assumptions used and actual operations.

9. Other noncurrent assets

	31 July 2025 US\$'000	30 April 2025 US\$'000
Advance rentals and deposits	25,726	25,529

Investment in Equity	62,182	62,100
Others	1,394	163
	93,827	92,390

Advance rentals and deposits consist of rent payments related to lease contracts which will commence beyond one year from the reporting period, as well as security deposits made for lease contracts entered by the Group.

Included in the financial assets carried at FVOCI is an investment in unquoted equity shares held by the Company of an entity incorporated in Switzerland which was acquired through an assignment of a receivable due to a subsidiary. As of 31 July 2025, the investment in unquoted equity shares has a carrying amount of US\$11.7 million.

The Group classified the newly acquired shares in Sundrop Brands Limited (formerly known as Agro Tech Foods Limited) as an investment carried at FVOCI arising from a share swap for disposing its investment in a joint venture, DMFPL (Note 7). The investment has an initial value of US\$66.3 million upon recognition, including capitalized transaction costs of US\$5.9 million. The investment has a carrying amount of US\$49.9 million as 31 July 2025 (30 April 2025: US\$49.3 million).

Advances to suppliers represents advance payments made on capital projects.

Receivable from sale and leaseback is the noncurrent portion of receivable relating to assets sold to DMPI Employees Agrarian Reform Beneficiaries Cooperation (“DEARBC”) and subsequently leased back to the Group in 2021.

Other noncurrent assets include deferred input VAT on capital goods (property and equipment) incurred prior to 1 January 2022 that are to be amortized over its useful life or five years, whichever is shorter, and other deferred expenses expected to be amortized beyond one year from the next reporting period.

Total cost of inventories carried at net realizable value amounted to US\$87.2 million as at 31 July 2025 (30 April 2025: US\$72.4 million).

Inventories are stated after allowance for inventory obsolescence. Movements in the allowance for inventory obsolescence during the period/year are as follows:

	Note	31 July 2025 US\$'000	30 April 2025 US\$'000
At beginning of the period/year		1,779	25,629
Allowance for the year - continuing operations	26	(156)	571

Currency realignment		118	34
Discontinued operations		—	(71,696)
At end of the period/year		1,805	1,779

The allowance for inventory obsolescence recognized during the period is included in “Cost of sales”.

Source of estimation uncertainty

The Group recognizes allowance on inventory obsolescence when inventory items are identified as obsolete. Obsolescence is based on the physical and internal condition of inventory items. Obsolescence is also established when inventory items are no longer marketable. Obsolete goods when identified are charged to the consolidated statements of income and are written off. In addition to an allowance for a specifically identified obsolete inventory, estimation is made on a group basis based on the age of the inventory items. The Group believes such estimates represent a fair charge of the level of inventory obsolescence in a given period. The Group reviews on a monthly basis the condition of its inventory. The assessment of the condition of the inventory either increases or decreases the expenses or total inventory.

Estimates of net realizable value are based on the most reliable evidence available at the time the estimates are made of the amount the inventories are expected to be realized. These estimates take into consideration fluctuations of price or cost directly relating to events occurring after reporting date to the extent that such events confirm conditions existing at the reporting date.

The Group reviews on a continuous basis the product movement, changes in customer demands and introductions of new products to identify inventories which are to be written down to its net realizable values. The write-down of inventories is reviewed periodically to reflect the accurate valuation in the financial records. An increase in write-down of inventories would increase the recorded cost of sales and decrease current assets.

12. Trade and other receivables

	31 July 2025 US\$'000	30 April 2025 US\$'000
Trade receivables	64,714	68,210
Nontrade receivables	30,895	33,716
Amounts due from subsidiaries (nontrade)	37	–
Allowance for expected credit loss – trade	(5,451)	(5,302)
Allowance for expected credit loss – nontrade	(5,238)	(5,275)
Trade and other receivables	<u>84,920</u>	<u>91,349</u>

Set out below is the expected credit risk exposure on the Group's trade receivables using simplified approach (provision matrix):

	31 July 2025				
	Days past due				
	Current US'000s	0-60 days US'000s	61-120 days US'000s	Over 120 days US'000s	Total US'000s
Trade receivables	46,842	11,215	460	6,197	64,714
Expected credit loss rate	0.00%	0.00%	0.00%	-88.0%	–
Expected credit loss	–	–	–	(5,451)	(5,451)

	30 April 2025				
	Days past due				
	Current US'000s	0-60 days US'000s	61-120 days US'000s	Over 120 days US'000s	Total US'000s
Trade receivables	52,025	9,989	284	5,912	68,210
Expected credit loss rate	0.00%	0.00%	0.00%	-89.7%	–
Expected credit loss	–	–	–	(5,302)	(5,302)

The recorded allowance for expected credit loss falls within the Group's historical experience in the collection of trade and other receivables. Therefore, Management believes that there is no significant additional credit risk beyond what has been recorded.

Source of estimation uncertainty

The Group maintains an allowance for impairment of accounts receivable at a level considered adequate to provide for potential uncollectible receivables based on the applicable expected credit loss (ECL) methodology. The level of this allowance is evaluated by the Group on the basis of factors that affect the collectability of the accounts. These factors include, but are not limited to, the length of the Group's relationship with debtors, their payment behavior and known market factors. The Group reviews the age and status of receivables and identifies accounts that are to be provided with allowance on a continuous basis. Additionally, allowance is also determined, through a provision matrix based on the Group's historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment. The amount and timing of recorded expenses for any period would differ if the Group made different judgement or utilized different estimates. An increase in the Group's allowance for impairment would increase the Group's recorded operating expenses and decrease current assets.

13. Prepaid expenses and other current assets

	31 July 2025 US\$'000	30 April 2025 US\$'000
Prepaid expenses	5,919	5,224
Down payment to suppliers	11,141	5,200
	<u>17,060</u>	<u>10,424</u>

Prepaid expenses consist of advance payments for insurance, advertising, rent and taxes, among others.

Down payment to contractors and suppliers pertains to advance payments for the purchase of materials and supplies that will be used for operations.

Derivative

Prior to FY2026, the Group uses interest rate caps, commodity swaps and foreign currency forward contracts to hedge market risks relating to possible adverse changes in interest rates, commodity costs and foreign currency exchange rates. The Group continually monitors its positions and the credit rating of the counterparties involved to mitigate credit exposure to any one party.

The continuing operations already settled all derivative contracts as of 30 April 2025, while the remaining derivative liability of DMFI became part of discontinued operations (see Note 21)

14. Cash and cash equivalents

	31 July 2025 US\$'000	30 April 2025 US\$'000
Cash on hand	115	107
Cash in banks	8,570	11,019
Cash equivalents	—	—
Cash and cash equivalents	8,685	11,126

Certain cash in bank accounts earn interest at floating rates based on daily bank deposit rates. Cash equivalents are short-term placements which are made for varying periods of up to three months depending on the immediate cash requirements of the Group and earn interest at the respective short-term placement rates.

15. Reserves

	31 July 2025 US\$'000	30 April 2025 US\$'000
Translation reserve	(110,954)	(111,145)
Remeasurement of retirement plan	5,248	5,257
Revaluation reserve	22,799	22,799
Share option reserve	(14,329)	(14,870)
Reserve for own shares	(286)	(286)
Reserve of disposal group held for sale	—	61,221
	(97,522)	(37,024)

The translation reserve comprises foreign exchange differences arising from the translation of the financial statements of subsidiaries and joint ventures with functional currencies other than US dollar.

The remeasurement of retirement plan relates to actuarial gains and losses for the defined benefit plans and return on plan assets, excluding amounts included in net interest on the net defined benefit liability (asset).

The revaluation reserve relates to surplus on the revaluation of freehold land of the Group.

The hedging reserve comprises the effective portion of the cumulative net change in the fair value of hedging instruments used in cash flow hedges pending subsequent recognition in profit or loss as the hedged cash flows affect the consolidated statements of income of the Group.

The reserve for the Company's own shares comprises the cost of the Company's shares held by the Group. As at 31 July 2025 and 30 April 2025, the Group held 975,802 of the Company's shares.

[1] On 30 April 2025, a total of US\$442.3 million of non-current loans, net of deferred financing costs, were classified to current liability, due to breaches in the financial covenants. The Group was able to obtain the waivers from banks for the breach of covenants in August 2025, which are effective for both FY2025 and FY2026. The loans were reclassified back to non-current as of 31 July 2025.

Unsecured Bank Loans

Certain unsecured bank loan agreements contain various affirmative and negative covenants that are typical of these types of facilities such as financial covenants relating to required debt-to-equity ratio, interest cover and maximum annual capital expenditure restrictions. These covenants include requirements for delivery of periodic financial information and restrictions and limitations on indebtedness, investments, acquisitions, guarantees, liens, asset sales, disposals, mergers, changes in business, dividends and other transfers.

17. Discontinued Operations

DISCONTINUED OPERATIONS OF U.S. SUBSIDIARY

The Company had made the following announcements about certain subsidiaries related to its U.S. subsidiaries since 9 April 2025, viz-a-viz. DMFHL, DMFI, which in turn owns the operating subsidiary DMFC.

9 April 2025: Settlement of litigation involving the Company's U.S. Subsidiaries. The Company agreed to either contribute as subordinated loan to the subsidiary by 5 May 2025 or give up a part of its equity in DMFHL. In case the Company decides not to provide US\$45 million monetary contribution, aside from giving up 25% equity in DMHFL, a majority of directors on the boards of DMFHL and each of its subsidiaries would be appointed by the lenders, and certain governance changes would be put in place.

5 May 2025: Ruling Out Additional Funding for U.S. Unit. Following a thorough evaluation of the settlement contribution implications referenced in the 9 April 2025 announcement stemming from, among other things, the litigation faced by DMFHL, including DMFI and certain of its directors, DMPL's Board of Directors decided not to provide any monetary contribution to DMFHL's New Term Facility lenders in connection with the settlement of such litigation, which was dismissed with prejudice by the State of Delaware Court of Chancery. Following such decision, the Special Shareholder appointed five special directors to the boards of DMFHL. Additionally, the New Term Facility Lenders' nominee received 25% of the Company's equity in DMFHL under a related Transfer Agreement.

The DMPL Board's decision was made in view of various strategic considerations, including challenging U.S. macroeconomic conditions, the financial losses and constrained access to funding at DMFI in FY2024 and FY2025, and the need to prioritize the Group's liquidity and support for Del Monte Philippines, Inc. (DMPI). The DMPL Board also took into account the importance of maintaining compliance with lender conditions, mitigating exposure to additional financial risks, and protecting shareholder value. The DMPL Board affirmed that this course of action was necessary and would likely not disrupt the favorable performance of DMPI, which remains a core contributor to the Group.

2 July 2025: DMFHL Files for Chapter 11 Restructuring in the U.S. The newly constituted board of DMFHL determined to pursue a value-maximizing sale process. The Company was advised that DMFHL had entered into a restructuring support agreement (RSA) with a group of its term lenders holding certain DMFHL's secured debt. The RSA contemplates a sale of all or substantially all the assets of DMFHL and certain of its subsidiaries, among other strategic transactions to be implemented through Chapter 11 proceedings in the U.S. Accordingly, DMFHL and certain of its subsidiaries commenced voluntary Chapter 11 proceedings in the U.S. Bankruptcy Court for the District of New Jersey on 1 July 2025 Eastern standard time. As part of the Chapter 11 proceeding, DMFHL and certain of its subsidiaries will have access to approximately US\$912.5 million in "debtor in possession" financing to fund their ongoing operations.

Considering the board changes at DMFHL and its subsidiaries since May 2025, and the voluntary Chapter 11 filing of DMFHL that includes a contemplated sale process, the DMPL Board had decided to classify the U.S. operations as “discontinued operations”, as per IFRS 5, Non-current Assets Held for Sale and Discontinued Operations, effective 30 April 2025. Assets and liabilities, specifically associated with the discontinued business, are classified as “Noncurrent assets held for sale” and “Liabilities directly associated with assets held for sale” in the consolidated balance sheet at the end of FY2025. In view of the losses of DMFHL’s operating subsidiary DMFC in FY2024 and FY2025, and continuing adverse U.S. macroeconomic conditions, the Group has recognised a full impairment of related current and long-term assets in DMFHL amounting to US\$703.5 million, resulting in a complete write-down of its investment and other assets in the U.S. subsidiaries in line with DMPL’s announcements on 5 May and 2 July 2025.

Effective 1 May 2025, DMPL has deconsolidated DMFHL and its subsidiaries from the Group’s consolidated financial statements in accordance with IFRS 10, Consolidated Financial Statements. In FY2025, the Group had already recognised a full impairment of its investment and other related assets in DMFHL as of 30 April 2025. The deconsolidation resulted in the derecognition of the U.S. operations’ assets and liabilities, reducing the Group’s consolidated liabilities by approximately US\$1.5 billion.

The results of the discontinued operations for the year are presented below:

	Three months ended 31 July 2025 US\$'000	Three months ended 31 July 2024 US\$'000
Revenue from contracts with customers	–	356,511

18. Employee Benefits

Certain Group companies contribute to the post-employment defined benefit plans such as the following:

The DMPI Multi Employer Retirement Plan

DMPI has both funded defined benefit and defined contribution retirement plans (the “Plan”) which covers all of regular employees as well as of those under DMPL - ROHQ. Contributions and costs are determined in accordance with the actuarial study made for the Plan. Annual cost is determined using the projected unit credit method. DMPI’s latest actuarial valuation date is 30 April 2025. Valuations are obtained on a periodic basis.

Starting on the date of membership of an employee in the Plan, DMPI shall contribute to the retirement fund 7.00% of the member’s salary as defined every month. In addition, DMPI shall contribute periodically to the fund the amounts which may be required to meet the guaranteed minimum benefit provision of the plan. Such contributions shall not be allocated nor credited to the individual accounts of the members, but shall be retained in a separate account to be used in cases where the guaranteed minimum benefit applies.

Benefits are based on the total amount of contributions and earnings credited to the personal retirement account of the plan member at the time of separation or the 125% of the final basis salary multiplied by the number of credited years of service under the plan, whichever is higher. The manner of payment is lump sum, payable immediately.

The retirement plan meets the minimum retirement benefit specified under Republic Act No. 7641, The Philippine Retirement Pay Law.

The fund is administered by a trustee bank under the supervision of the Board of Trustees of the Plan.

The Board of Trustees is responsible for investment strategy of the Plan.

DMPI does not expect to make contributions to the plan in fiscal year 2025.

Sources of estimation uncertainty

The Group has exposure to income taxes in several foreign jurisdictions. Significant judgement is involved in determining the group-wide provision for income taxes. There are certain transactions and computations for which the ultimate tax determination is uncertain during the ordinary course of business. The Group recognizes liabilities for expected tax issues based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recognized, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made.

22. Stock option and incentive plans

The Company adopted the Del Monte Pacific Executive Share Option Plan 2016 (“ESOP 2016”), which was approved by the shareholders at the general meeting held on 30 August 2016. The purpose of the ESOP 2016 is to provide an opportunity for Group executives and directors to participate in the equity of the Company in order to motivate them to excel in their performance. The ESOP 2016 shall be valid for a period of 10 years; however, it has yet to be implemented, and no options had been granted to date.

The ESOP 2016 is administered by the Remuneration Share Option Committee (RSOC).

24. Determination of fair values

Fair value hierarchy

The table below analyses recurring non-financial assets carried at fair value. The different levels are defined as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities that the Group can access at the measurement date.
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3: unobservable inputs for the asset or liability.

For assets and liabilities that are recognized in the consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between Levels in the hierarchy by re-assessing the categorization at the end of each reporting period.

For purposes of the fair value disclosure, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy, as explained above.

During the period, there were no transfers between Level 1 and Level 2 fair value measurements, and no transfers into and out of Level 3 fair value measurements.

A number of the Group's accounting policies and disclosures require the determination of fair value, for both financial and non-financial assets and liabilities. Fair values have been determined for measurement and/or disclosure purposes based on the following methods.

Financial instruments measured at fair value

Type	Valuation technique
Interest rate swaps/caps	Market comparison technique: The fair values are calculated using a discounted cash flow analysis based on terms of the swap contracts and the observable interest rate curve. Fair values reflect the risk of the instrument and include adjustments to take into account the credit risk of the Group and counterparty when appropriate.
Commodities contracts	Market comparison technique. The commodities are traded over-the-counter and are valued based on the Chicago Board of Trade quoted prices for similar instruments in active markets or corroborated by observable market data available from the Energy Information Administration. The values of these contracts are based on the daily settlement prices published by the exchanges on which the contracts are traded.
Financial assets carried at FVOCI (under “other noncurrent assets”)	The estimated fair value of the investment unquoted equity shares as at 31 July 2024 and 30 April 2024 is based on recent open-market transactions of the equity shares.

Financial instruments not measured at fair value

Type	Valuation technique
Financial assets and liabilities (under “other noncurrent assets” and “loans and borrowings”)	The fair value of the Term Loan B, note receivable and refundable deposits are calculated based on the present value of future principal and interest cash flows, discounted at the market rate of interest at the reporting date (Level 2).
Other financial assets and liabilities	The notional amounts of financial assets and liabilities with maturity of less than one year (including trade and other receivables, cash and cash equivalents, and trade and other payables) are, because of the short period to maturity, assumed to approximate their fair values.

Other non-financial assets

Assets	Valuation technique	Significant unobservable inputs
Freehold land	The fair value of freehold land is determined by external, independent property valuers, having appropriate recognized professional qualifications and recent experience in the location and category of property being valued. The valuation method used is sales comparison approach. This is a comparative approach that consider the sales of similar or substitute properties and related market data and establish a value estimate by involving comparison (Level 3).	The unobservable inputs used to determine market value are the net selling prices, sizes, property location and market values. Other factors considered to determine market value are the desirability, neighborhood, utility, terrain, and the time element involved. The market value per square meter ranges from US\$109.1 to US\$122.5. The market value per acre ranges from US\$5,251 to US\$104,585.

Harvested crops – sold as fresh fruit	The fair values of harvested crops are based on the most reliable estimate of selling prices, in both local and international markets at the point of harvest. The market price is derived from average sales price of the fresh fruit reduced by costs to sell (Level 3).	The unobservable input is the estimated pineapple selling price per ton specific for fresh products.
Harvested crops – used in processed products	The fair values of harvested crops are based on the most reliable estimate of market prices, in both local and international markets at the point of harvest. The market price is derived from average sales price of the processed product reduced by costs to sell (concentrates, pineapple beverages, sliced pineapples, etc.) and adjusted for margin associated to further processing (Level 3).	The unobservable input is the estimated pineapple selling price and gross margin per ton specific for processed products.
Unharvested crops – fruits growing on the bearer plants	The growing produce are measured at fair value from the time of maturity of the bearer plant until harvest. Management used future selling prices and gross margin of finished goods, adjusted to remove the margin associated to further processing, less future growing costs applied to the estimated volume of harvest as the basis of fair value.	The unobservable inputs are expected selling price and gross margin for harvested produce while key assumptions for the fair value of produce prior to harvest include expected selling prices, gross margin, estimated tonnage of harvests and future growing costs. The unobservable inputs are estimated pineapple selling price and gross margin per ton for fresh and processed products, estimated volume of harvest and future growing costs.

The redeemed preferred shares shall be cancelled but shall remain part of the Company’s authorized capital and shall be available to be reissued by resolution of the board.

Dividends

No dividends were declared to ordinary shareholders for the three-month period ended 31 July 2024. The Group generally declares dividends based on year-end full-year results. The last dividend declaration was in June 2023 based on FY2023 results and paid on 25 July 2023.

Capital management

The Board’s policy has been to maintain a sound capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. The Group’s capital comprises its share capital, retained earnings and total reserves as presented in the statements of financial position. The Board monitors the return on capital, which the Group defines as profit or loss for the year divided by total shareholders’ equity. The Board also monitors the level of dividends paid to ordinary shareholders. Under the Company’s Articles of Association and the terms of the preference shares, the Company may declare and pay dividends on common shares provided there are adequate and available funds for dividends on preference shares which have priority over common shares

The bank loans of the Group contain various covenants with respect to capital maintenance and ability to incur additional indebtedness. The Board ensures that loan covenants are considered as part of its capital management through constant monitoring of covenant results through interim and full year results.

There were no changes in the Group’s approach to capital management during the fiscal year.

28. Earnings per share

30. Commitments and contingencies

Purchase commitments

The Group had entered into non-cancellable agreements with growers, co-packers, packaging suppliers and other service providers with commitments generally ranging from one year to ten years, to purchase certain quantities of raw products, including fruit, vegetables, tomatoes and packaging services. As at the reporting date, the Group had no outstanding commitments for future minimum payments under non-cancellable lease agreements.

Contingencies

As at 31 July 2025, the Group is involved in various legal proceedings and regulatory assessments, and management believes that these proceedings will not have a material effect on the consolidated financial statements.

The Group, in consultation with its external and internal legal and tax counsels, believe that its position on these assessments are consistent with relevant laws and believe that these proceedings will not have a material adverse effect on the consolidated financial statements. However, it is possible that future results of operations could be materially affected by changes in the estimates or the effectiveness of management's strategies relating to these proceedings. As at 31 July 2025, management has assessed that the probable cash outflow to settle these assessments is not material.

31. Related parties

Related party transactions

For the purposes of these consolidated financial statements, parties are considered to be related to the Group if the Group has the ability, directly or indirectly, to control the party or exercise significant influence over the party in making financial and operating decisions, or vice versa, or where the Group and the party are subject to common control or common significant influence. Related parties may be individuals or other entities.

Other than disclosed elsewhere in the consolidated financial statements, transactions with related parties are as follows:

The transactions with related parties are carried out on an arms-length basis and on normal commercial terms consistent with the Group's usual business practices and policies, which are generally no more favorable to the related parties than those extended to unrelated parties. Pricing for the sales of products is market driven, less certain allowances in accordance with applicable business norms. For purchases, the Group's policy is governed by the same internal control procedures which detail matters such as the constitution of internal approving authorities, their monetary jurisdictions, the number of vendors from whom bids are to be obtained and the review procedures. The guiding principle is to objectively obtain the best products and/or services on the best possible terms.

As at 31 July 2025 and 30 April 2025, the Group has not made any provision for ECL relating to amounts owed by related parties.

33. Other Matters

- a. There were no known trends, demands, commitments, events or uncertainties that will have a material impact on the Group’s liquidity.
- b. There were no known trends, events or uncertainties that have had or that are reasonably expected to have a favorable or unfavorable impact on net sales or revenues or income from continuing operations.
- c. Other than those disclosed in other notes, there were no known events that will trigger direct or contingent financial obligation that is material to the Group, including any default or acceleration of an obligation and there were no changes in contingent liabilities and contingent assets since the last annual consolidated statements of financial position date
- d. There were no material off-statements of financial position transactions, arrangements, obligations (including contingent obligations), and other relationship of the Group with unconsolidated entities or other persons created during the reporting period.
- e. The effects of seasonality or cyclicity on the interim operations of the Group’s businesses are explained in Note 5, Seasonality of operations.
- f. The Group’s material commitments for capital expenditure projects have been approved but are still ongoing and not yet completed as of end of 31 July 2024. These consist of construction, acquisition, upgrade or repair of fixed assets needed for normal operations of the business. The said projects will be carried forward to the next quarter until its completion. The fund to be used for these projects will come from available cash, short-term loans and long-term loans.
- g. The Group is the subject of, or a party to, various suits and pending or threatened litigations. While it is not feasible to predict or determine the ultimate outcome of these matters, the Group believes that none of these legal proceedings will have a material adverse effect on its consolidated financial position.
- h. The retained earnings is restricted for the payment of dividends to the extent representing the accumulated equity in net earnings of the subsidiaries and unrealized asset revaluation reserve. The accumulated equity in net earnings of the subsidiaries is not available for dividend distribution until such time that the Company receives the dividends from the subsidiaries.

Annex A

Key Performance Indicators

The following sets forth the explanation why certain performance ratios (i.e., current ratio, debt to equity ratio, net profit margin, return on asset, and return on equity) do not fall within the benchmarks indicated by SEC.

A. Current Ratio

	31-Jul-25	31-Jul-24	30-Apr-25	Benchmark
Current Ratio	0.2999	0.9898	1.2882	Minimum of 1.20

Lower current ratio was mainly driven by higher trade payables in DMPL. Also, lower inventories as the group continues to reduce high levels of inventory.

B. Net Debt to Equity*

	31-Jul-25	31-Jul-24	30-Apr-25	Benchmark
Net Debt to Equity	-1.7220	-1.6906	9.0699	Maximum of 2.50

Negative gearing is mainly driven by capital deficiency arising from prior year unfavorable results from the U.S. business, as well as the impairment and asset write-downs due to Chapter 11 filing.

C. Net Profit Margin

	31-Jul-25	31-Jul-24	30-Apr-25	Benchmark
Net Profit Margin attributable to owners of the company	2.70%	0.20%	6.54%	Minimum of 3%

Net profit for the quarter was driven by improved sales and higher margins, and better-managed operating costs, partly offset by unrealized forex loss from balance sheet revaluation driven by the weakened Philippine peso at the end of the quarter.

D. Return on Asset

	31-Jul-25	31-Jul-24	30-Apr-25	Benchmark
Return on Asset	0.68%	0.02%	6.33%	Minimum of 1.21

Better rate return on assets driven by higher profit for this quarter against prior year.

E. Return on Equity*

	31-Jul-25	31-Jul-24	30-Apr-25	Benchmark
Return on Equity	-0.92%	-0.06%	-8.60%	Minimum of 8%

Negative return on equity is mainly driven by capital deficiency; however, it has improved quarter on quarter.

* *Net debt refers to total loans and borrowings less cash and cash equivalents*

Material Changes in Accounts

AUDIT

First Quarter FY2026 results covering the period from 1 May to 31 July 2025 have neither been audited nor reviewed by the Group's auditors.

ACCOUNTING POLICIES

The accounting policies adopted in the preparation of the unaudited interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group's FY2025 annual consolidated financial statements, except for the adoption of the following amendments effective beginning 1 May 2025. Adoption of these new standards did not have any significant impact on the Group's consolidated financial statements.

- Amendments to International Accounting Standard (IAS) 1, *Classification of Liabilities as Current or Non-current*
- Amendments to IFRS 16, *Lease Liability in a Sale and Leaseback*
- Amendments to IAS 7 and IFRS 7, *Disclosures: Supplier Finance Arrangements*

The Company's unaudited interim condensed consolidated financial statements as of 31 July 2025 and for the three months ended 31 July 2025 and 2024 are prepared in accordance with IAS 34, *Interim Financial Reporting*, and should be read with the 2025 annual audited consolidated financial statements.

DISCONTINUED OPERATIONS AND DECONSOLIDATION OF U.S. SUBSIDIARY

As announced on 31 July 2025, considering the board changes at DMFHL and its subsidiaries since May 2025, and the voluntary Chapter 11 filing of DMFHL that includes a contemplated sale process, the DMPL Board had decided to classify the U.S. operations as “discontinued operations”, as per IFRS 5, *Non-current Assets Held for Sale and Discontinued Operations*, effective 30 April 2025. Assets and liabilities, specifically associated with the discontinued business, are classified as “Noncurrent assets held for sale” and “Liabilities directly associated with assets held for sale” in the consolidated balance sheet at the end of FY2025. In view of the losses of DMFHL’s operating subsidiary DMFC in FY2024 and FY2025, and continuing adverse U.S. macroeconomic conditions, the Group has recognised a full impairment of related current and long-term assets in DMFHL amounting to US\$703.5 million, resulting in a complete write-down of its investment and other assets in the U.S. subsidiaries in line with DMPL’s announcements on 5 May and 2 July 2025.

In addition, effective 1 May 2025, DMPL has deconsolidated DMFHL and its subsidiaries from the Group’s consolidated financial statements in accordance with IFRS 10, *Consolidated Financial Statements*. In FY2025, the Group had already recognised a full impairment of its investment and other related assets in DMFHL as of 30 April 2025. The deconsolidation resulted in the derecognition of the U.S. operations’ assets and liabilities, reducing the Group’s consolidated liabilities by approximately US\$1.5 billion.

For comparability, the consolidated financial statements for the first quarter of FY2025 have been restated to reflect the U.S. operations deconsolidated at the beginning of FY2025.

REVIEW OF OPERATING PERFORMANCE

DMPL ex-DMFI generated sales of US\$203.7 million, 12.9% higher than the US\$180.4 million sales reported in the same period last year. This was mainly driven by higher sales from the Philippines, which grew by 14.9%. Exports of fresh and packaged pineapples also grew by 6.4% versus the prior year quarter.

The Philippine market delivered US\$88.4 million in first quarter sales, up 10.3% in peso terms and 14.9% in US dollar terms, driven by strong demand across beverages, packaged fruits and culinary essentials.

In beverages, Del Monte continued to strengthen its leadership through functional campaigns for 100% Pineapple Juice, led by the Heart Smart variant, which reinforced juice as part of a heart-healthy daily habit. Functional benefits such as digestive wellness through Fiber Enriched and immunity-building with ACE also contributed to sustaining relevance with health-conscious consumers. Innovation further supported growth with the successful launch of Fruity Zing and Fit 'n Right Green Apple, which expanded the company's footprint in the ready-to-drink PET segment and captured younger, lifestyle-driven consumers.

In culinary essentials, Del Monte drove penetration by positioning Tomato Sauce as a nutrient-rich ingredient with lycopene, vitamins A and C, and iodine to improve family nutrition. This was supported by the nationwide Nutritious advocacy, which aligned the brand with the national agenda of addressing malnutrition by promoting nutritious, delicious, and affordable meals for everyday consumption.

In packaged fruits, Mixed Fruits delivered a 4.4-point market share uplift by extending usage beyond holiday occasions into year-round celebrations and everyday desserts. At the same time, nutrition-led campaigns expanded the role of pineapple as a superfruit for everyday cooking, highlighting its phytonutrients that support immunity when paired with a proper diet and exercise. This broadened positioning reinforced Del Monte as both a wellness advocate and a trusted partner in daily family meals.

This strong first quarter performance underscores Del Monte's ability to deliver consistent growth by balancing innovation, health and nutrition relevance, and affordability. With strengthened brand equity, expanded market share, and deeper household penetration, the company is well-positioned to sustain its growth momentum in the Philippine market.

International sales grew by 6.4% to US\$97.2 million, driven by higher fresh pineapple sales in China and Japan, supported by an improved product mix and better pricing. The premium S&W Deluxe Pineapple continues to grow and now accounts for a higher share of the company's exported fresh pineapple. Increase in fresh cut packs in China also boosted demand for the Company's pineapple. S&W is now a market leader in North Asia, commanding a 50% share for exported pineapples. S&W was awarded "Supplier of the Year" by Goodme, China's biggest fruit tea chain with more than 10,000 stores across the country. In Japan, fresh pineapple sales increased by 20% due to higher demand of fresh cut in retail plus the entry of S&W Deluxe Pineapple with a new customer.

DMPL ex-DMFI delivered a higher gross margin of 32.5% from 27.6% in the same period last year. This was mainly driven by strong volume growth for the Philippine and Fresh exports markets, improvement in sales mix, favorable pricing across major market segments, lower cannery cost from improved pineapple recovery.

DMPL ex-DMFI generated an EBITDA of US\$37.3 million, higher by 10.7%, and a net profit of US\$5.5 million, which significantly improved against the prior year's net profit of US\$0.4 million in the same period last year. This was primarily driven by improved sales and higher margins, as discussed, and better-managed operating costs, partly offset by unrealized forex loss from balance sheet revaluation driven by the weakened Philippine peso at the end of the quarter.

DMPL's net debt/adjusted EBITDA improved to 7.1x from 9.7x last year mainly driven by improvements in operating results and reduced debt levels from higher operating free cash flows generated during the period. Net debt to equity was a negative 1.7x from 5.1x due to the capital deficiency arising from FY2025, driven by unfavorable results from the U.S. business, as well as the impairment and asset write-downs as discussed on page 3.

Cash flow from operations in the first quarter was US\$76.8 million, higher than last year's US\$43.5 million, mainly driven by improved operating results and better management of working capital as well as reduced financing costs. The Group's current liabilities exceeded its current assets by US\$600.4 million, mainly driven by the loans of its Philippine subsidiary, Del Monte Philippines, Inc. (DMPI), which are of a revolving nature as prescribed by local banking partners.

VARIANCE FROM PROSPECT STATEMENT

The Group generated a net profit for the first quarter which was in line with earlier guidance of “Barring unforeseen circumstances and with the U.S. business deconsolidated, the Group expects to be profitable in FY2026, driven by DMPI.”

BUSINESS OUTLOOK

DMPL had deconsolidated its U.S. operations effective 1 May 2025 as per IFRS 10, Consolidated Financial Statements. As DMPL has not guaranteed any loans of DMFHL or its subsidiaries, the Group does not believe it has liability, contingent or otherwise, with respect to DMFHL’s or its subsidiaries’ financial obligations arising out of its voluntary Chapter 11 filing or otherwise.

The Group remains focused on protecting and growing the Asian operations to drive long-term growth and profitability. DMPL’s subsidiary, DMPI, continues to perform well, with resilient consumer demand, supported by a strong and stable supply chain.

DMPL’s immediate key priorities include:

Philippines: Reinforce market leadership in beverage, culinary and packaged fruit; launch new products in new segments to broaden consumer base; and expand in growth channels of convenience stores, away-from-home, drugstores and schools.

International: Maintain market leadership in Fresh MD2 Pineapples across North Asia.

Operations: Continue the momentum on improving productivity of C74 pineapple (variety for packaged pineapple products) by more than 15% versus FY2025. Maintain inventory level in line with FY2025 which is below 70 days.

The Company remains vigilant in managing its costs, including reduction of waste and inventory write-offs.

Capital Structure: Continue to prioritise raising equity to reduce leverage and offset DMPL’s capital deficit of resulting from impairment in FY2025 of investment/other assets in the U.S. operations.

As of 1 May 2025, upon deconsolidation of the U.S. business, the Group’s total liabilities were reduced by US\$1.5 billion. This demonstrates the strength and growth momentum of its business in the Philippines and international markets and marks a pivotal milestone as the Company can now concentrate fully on driving growth within its profitable core business.

AMERICAS

Sales in the Americas increased, driven by an overall increase in volume, specifically chunks and juices packaged under Buyer's Only Label. The increased sales resulted in the segment generating significantly better operating profit for the quarter of US\$1.7 million versus the prior year quarter's US\$0.1 million.

ASIA PACIFIC

Asia Pacific's sales in the first quarter grew by 13.1% to US\$184.4 million from US\$163.0 million, attributed to improved performance across all product categories. Fresh sales were led by higher volume to China and Japan, as well as favourable mix due to increased volume of the premium S&W Deluxe pineapple.

In the Philippines, sales were up 10.3% in peso terms and 14.9% in US dollar terms, driven by strong demand across beverages, packaged fruits, and culinary essentials.

EUROPE

For the first quarter, Europe's sales declined by 25.9% to US\$11.4 million, driven by volume decline across all categories, attributed to lower sales allocation.

DMPI's Product Segments

Convenience Cooking and Dessert

This segment includes sales of packaged tomato-based and non-tomato-based products, such as tomato sauce and paste, spaghetti sauce, ketchup, pasta sauce, recipe sauce, pizza sauce, pasta, broth and condiments, sold under the *Del Monte* and *Contadina* brands and soy sauces under the *Kikkoman* brand as part of an exclusive distributorship arrangement for the Philippines. This category also includes packaged pineapple solids and tropical mixed fruit products sold within the Philippines under the *Del Monte*, *Fiesta* and *Today's* brands.

Healthy Beverages and Snacks

Healthy beverages which are sold in the Philippines under the *Del Monte* brand include ready-to-drink juices, fruit and vegetable juice drinks, and pineapple juice concentrate in various packaging formats, including Tetra Pak and PET. DMPI's hallmark product in the beverage segment is *100% Pineapple Juice*, including derivations thereof, such as *100% Pineapple Juice* that is enriched with additional vitamins, fiber or calcium or that is specifically developed to help manage cholesterol. In addition, the beverage segment covers juice drinks made from other fruits, vegetables, herbs and botanicals, such as *Tipco* juice, and DMPI's *Fit 'n Right* products, which are drinks fortified with green coffee extract (an antioxidant-containing supplement derived from unroasted raw coffee beans, which is believed to improve blood pressure and cholesterol levels) to help reduce sugar absorption from food and L-carnitine (a chemical compound similar to an amino acid that is produced by the body and which helps the body to metabolize fat into energy) to assist in fat metabolism.

Packaged Fruits and Beverages – Export

This segment includes packaged fruit and beverages products sold internationally.

Packaged Fruit

Packaged fruit includes sales of fruit products that are packaged in different formats such as can, plastic cup, pouch and aseptic bag, and which are sold under the *S&W* brand and the *Del Monte* brand for parties who have the license rights to *Del Monte* in other markets, as well as under the private labels of non-affiliated parties. A portion of MD2 pineapples that are not exported as fresh fruit are used to produce *Nice Fruit* frozen pineapple products and not-from-concentrate juices or packaged as a premium version of DMPI's *Del Monte*-branded packaged pineapples, *Deluxe Gold*. *Deluxe Gold* products, which were launched in May 2020, are exported primarily to the United States through an affiliate.

Beverages

Beverages includes sales of *100% Pineapple Juice* and juice drinks in various flavors in can and Tetra Pak packaging and pineapple juice concentrate. In addition, this segment also covers not-from-concentrate juices. Not-from concentrate juice is prepared solely from the juice of whole pineapple at DMPI's Not-From-Concentrate juicing plant and contains no additional ingredients. DMPI produces 100% MD2 Not-From-Concentrate pineapple juice for export to certain countries within Asia for industrial use and for resale to consumers under buyer's own labels.

Premium Fresh Fruit

Premium Fresh Fruit category include sales of *S&W*-branded premium fresh pineapples in Asia Pacific and private label or non-branded MD2 and C74 fresh pineapples in Asia. DMPI's key product in the Premium Fresh Fruit segment is the MD2 pineapple variant, which is the main export product and sold under the "S&W Sweet 16" brand.

Others

The cattle operation helps in the disposal of pineapple pulp, a residue of pineapple processing which is fed to the animals. This also includes culinary products sold internationally.
