PART I – FINANCIAL INFORMATION

Item I. Financial Statements

The unaudited interim condensed consolidated financial statements are filed as part of the Form. It is prepared in accordance with Philippine Financial Reporting Standards (PFRS) Accounting Standards as issued by the Philippine Financial Reporting Standards Council, including Interpretations issued by the Financial Reporting Standards Council and adopted by the Philippine Securities and Exchange Commission. Under Philippine Accounting Standards (PAS) 34, *Interim Financial Reporting*, the unaudited interim condensed consolidated financial statements do not include all of the information and footnotes required in the annual consolidated financial statements, and should be read in conjunction with the company's annual consolidated financial statements as at and for the year ended December 31, 2024.

The unaudited interim condensed consolidated financial statements have been prepared on a historical cost basis, except certain financial assets and liabilities that are measured at fair value.

The unaudited interim condensed consolidated financial statements are presented in Philippine Peso, which is the functional and presentation currency of the Parent Company. All values are rounded to the nearest million peso, except when otherwise indicated.

The accounting policies adopted are consistent with those of the previous financial period.

Item II. Management Discussion and Analysis of Financial Condition and Results of Operations (Unaudited)

Lopez Holdings reported ₱7.491 billion in net income attributable to equity holders of the Parent for the nine months of 2025. This is 55% higher than the ₱4.829 billion net income attributable to equity holders of the Parent reported in the first nine months of 2024.

Unaudited consolidated revenues were flat at ₱124.497 billion compared to ₱124.632 billion in 9M2024. All revenue items were generated by units under FPH, as follows: sale of electricity (-3%); real estate (+10%); contracts and services (+15%) and sale of merchandise (+16%).

Unaudited consolidated costs and expenses decreased by 1% to ₱97.445 billion from ₱98.516 billion. Cost of sale of electricity (-2%), cost of real estate (+1%), cost of contracts and services (+35%), merchandise sold (+22%), and general and administrative expenses (-6%) reflect the operations of FPH and units.

Other income and expenses also reflect FPH accounts or those of its subsidiaries and affiliates, as follows: finance costs (+11%); finance income (-26%); foreign exchange loss of ₱85 million compared to a gain of ₱153 million; dividend income (+11%); net other income (+52%); and including share in earnings from investment accounted at equity method of ₱425 million (+140%).

Performance of Significant Investees

FPH posted a 10% increase in net income attributable to equity holders of the parent to ₱12.501 billion from ₱11.336 billion in 9M2024. It reported flat revenues at ₱124.497 billion versus ₱124.632 billion. Sale of electricity accounted for 82% and 84% of revenues in 9M2025 and 9M2024, respectively. Recurring net income (RNI) attributable to equity holders of the parent likewise grew by 10% to ₱12.356 billion from ₱11.103 billion.

ABS-CBN reported a net loss of ₱2.241 billion, which is 13% lower than the net loss of

₱2.587 billion in 9M2024. It reported unaudited revenues of ₱11.750 billion, 3% lower than ₱12.118 billion in the same period last year.

Key Performance Indicators

As a holding company, Lopez Holdings receives revenues from asset sales and dividends from investees. Hence, the key performance indicator with the most direct impact on Lopez Holdings is the net income of investees. Any dividend received by Lopez Holdings is based on the investees' net income in the previous year. For the period in review, the financial performance of investees was within expectations.

Lopez Holdings received cash dividends at the rate of ₱1.10 per common share of ₱283 million from FPH on June 18, 2025. FPH again declared cash dividends of ₱1.10 per common share with payout scheduled on December 15, 2025, and which will be reflected in the Company's full-year financial statements.

Following are the KPIs for Lopez Holdings for comparative periods as of September 30, 2025 and 2024.

Financial Risk Management Objectives and Policies

The Group has various financial instruments such as cash and cash equivalents, short-term investments, trade and other receivables, investments in equity securities, trade payables and other current liabilities which arise directly from its operations. The Group's principal financial liabilities consist of loans payable and long-term debts. The main purpose of these financial liabilities is to raise financing for the Group's growth and operations. The Group also enters into derivative and hedging transactions, primarily interest rate swaps, cross-currency swap and foreign currency forwards, as needed, for the sole purpose of managing the relevant financial risks that are associated with the Group's borrowing activities and as required by the lenders in certain cases.

The Group has an Enterprise-wide Risk Management Program which aims to identify risks based on the likelihood of occurrence and impact to the business, formulate risk management strategies, assess risk management capabilities and continuously monitor the risk management efforts. The main financial risks arising from the Group's financial instruments are interest rate risk, foreign currency risk, credit risk, liquidity risk, credit concentration risk, merchant risk, and equity price risk.

Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's long-term debts with floating interest rates, derivative assets and derivative liabilities. The Group believes that prudent management of its interest cost will entail a balanced mix of fixed and variable rate debt. On a regular basis, the Finance team of the Group monitors the interest rate exposure and presents it to management by way of a compliance report. To manage the exposure to floating interest rates in a cost-efficient manner, the Group may consider prepayment, refinancing, or entering into derivative instruments as deemed necessary and feasible.

Foreign Currency Risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

Foreign Currency Risk with Respect to U.S. Dollar. The Group, except First Gen group (excluding EDC and subsidiaries), FSRI, FPSC, FPNC, FGHC International, FPH Fund, FPH Ventures and Pi Ventures Inc. is exposed to foreign currency risk through cash and cash equivalents and short-term investments denominated in U.S. dollar. Any depreciation of the Philippine peso against the U.S. dollar posts foreign exchange gains relating to cash and cash equivalents and short-term investments.

To better manage the foreign exchange risk, stabilize cash flows, and further improve the investment and cash flow planning, the Group may consider derivative contracts and other hedging products as necessary. The U.S. dollar denominated monetary assets are translated to Philippine peso using the exchange rate of ₱58.196 to US\$1.00 and ₱57.845 to US\$1.00 as at September 30, 2025 and December 31, 2024, respectively.

Credit Risk

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Group is exposed to credit risk from its operating

activities (primarily trade receivables) and from its financing activities, including deposits with banks and financial institutions, foreign exchange transactions, and other financial instruments. Since the Group trades only with recognized third parties, there is no requirement for collateral.

As a policy, the Group trades only with recognized, creditworthy third parties and/or transacts only with institutions and/or banks which have demonstrated financial soundness. It is the Group's policy that all customers who wish to trade on credit terms are subject to credit verification procedures. In addition, receivable balances are monitored on an ongoing basis and the level of the allowance account is reviewed on an ongoing basis to ensure that the Group's exposure to credit risk is not significant. With respect to credit risk arising from the other financial assets of the Group, which comprise mostly of cash and cash equivalents, short-term investments and trade and other receivables, the Group's exposure to credit risk arises from default of the counterparty, with a maximum exposure equal to the carrying amount of these instruments.

Except for the trade receivables from sale of condominium units, the Group holds no significant collateral as security and there are no significant credit enhancements in respect of the Group's financial assets.

Credit Quality of Neither Past Due Nor Impaired Financial Assets. The payment history of the counterparties and their ability to settle their obligations are considered in evaluating credit quality.

Concentration of Credit Risk

The Group, through First Gen's operating subsidiaries namely, FGP and FGPC earns substantially all of its revenues from Meralco. Meralco is committed to pay for the capacity and energy generated by the natural gas power plants under the existing PPAs. While the PPAs provide for the mechanisms by which certain costs and obligations including fuel costs, among others, are pass-through to Meralco or are otherwise recoverable from Meralco, it is the intention of First Gen, FGP and FGPC to ensure that the pass-through mechanisms, as provided for in their respective PPAs are followed.

EDC's geothermal and power generation businesses trade with NPC and National Transmission Corporation (TransCo). Any failure on the part of NPC and TransCo to pay its obligations to EDC would affect EDC's business operations.

The Group's exposure to credit risk arises from default of the counterparties, with a maximum exposure equal to the carrying amounts of the receivables from Meralco, in the case of FGP and FGPC, and the receivables from NPC and TransCo, in the case of EDC.

The table below shows the risk exposure in respect to credit concentration of the Group as at September 30, 2025 and December 31, 2024:

	(Unaudited) September 30 2025	(Audited) December 31 2024
	(In Millions)	
Trade receivables from Meralco	P9,231	P19,474
Trade receivables from NPC	2,373	2,518
Total credit concentration risk	11,604	21,992
Total receivables	24,909	36,545
Credit concentration percentage	46.59%	60.18%

Liquidity Risk

The Group's exposure to liquidity risk refers to lack of funding needed to finance its growth and capital expenditures, service its maturing loan obligations in a timely fashion, and meet its working capital requirements. To manage this exposure, the Group maintains internally generated funds and

prudently manages the proceeds obtained from fundraising in the debt and equity markets. On a regular basis, the Group's Treasury Department monitors the available cash balances. The Group maintains a level of cash and cash equivalents deemed sufficient to finance the operations. In addition, the Group has short-term investments and has available credit lines with certain banking institutions.

As part of its liquidity risk management, the Group regularly evaluates its projected and actual cash flows. It also continuously assesses the financial market conditions for opportunities to pursue fund raising activities.

As at September 30, 2025 and December 31, 2024, 16% of the Group's debts will mature in less than one year, based on the carrying value of borrowings reflected in the unaudited interim condensed consolidated financial statements.

Merchant Risk

The Group, through First Gen Group's portfolio, is exposed to the volatility of spot prices because of supply and demand changes, which are mostly driven by factors that are outside of the Group's control. These factors include (but are not limited to) unexpected outages, weather conditions, transmission constraints, and changes in fuel prices. These have caused and are expected to cause instability in the Group's operating results.

The Group plans to mitigate these risks by having a balanced portfolio of contracted and spot capacities. As at September 30, 2025 and December 31, 2024, the First Gen group is 68% and 69%, respectively, contracted in terms of installed capacity.

Equity Price Risk

The Group's quoted equity securities are susceptible to market price risk arising from uncertainties about future values of the investment in equity securities. The Group manages the equity price risk through diversification and by placing limits on individual and total equity instruments. The Group's BOD reviews and approves material equity investment decisions.

The following table demonstrates the sensitivity to a reasonably possible change in share price, with all other variables held constant:

	Change in Equity Price	Effect on Equity
		<i>(In Millions)</i>
Investment in equity securities		
September 30, 2025	23% (23%)	₱5,364 (5,364)
December 31, 2024	24% (24%)	₱5,209 (5,209)

Capital Management

The primary objective of the Group's capital management is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business, comply with its financial loan covenants and maximize shareholder value.

The Group manages its capital structure and makes adjustments to it, in light of changes in business and economic conditions. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. No changes were made in the objectives, policies or processes during the period ended September 30, 2025 and the year ended December 31, 2024.

The Group monitors capital using a debt-to-equity ratio, which is total debt divided by total equity. The Group's practice is to keep the debt-to-equity ratio not more than 2.50:1.

	(Unaudited) September 30 2025	(Audited) December 31 2024
	(In Millions)	
Long-term debts (current and noncurrent portions)	₱174,228	₱157,113

NCI	178,794	179,210
Total equity	₱285,689	₱271,381
Debt-to-equity ratio	0.61:1	0.58:1

FPH and certain of its subsidiaries are obligated to perform certain covenants with respect to maintaining specified debt-to-equity and minimum debt-service-coverage ratios, as set forth in their respective agreements with the creditors. As at September 30, 2025 and December 31, 2024, the Group is in compliance with those covenants.

The company has no material disclosures related to the following other than those disclosed above and in the notes to consolidated financial statements: (i) Any known trends, demands, commitments, events or uncertainties that will have material impact on the Company's liquidity or sales; (ii) Events that will trigger direct or contingent financial obligation that is material to the company, including any default or acceleration of an obligation; (iii) Material off-balance sheet transactions, arrangements, obligations (including contingent obligations), and other relationships of the company with unconsolidated entities or other persons created during the reporting period; (iv) Any material commitments for capital expenditures, general purpose of such commitments, expected sources of funds for such expenditures; (v) Any known trends, events or uncertainties that has material impact on sales; (vi) Any significant elements of income or loss from continuing operation; and, (vii) Seasonal aspects that has material effects on the financial statements.

PART II – OTHER INFORMATION

The Company has no other information that needs to be disclosed other than disclosures made under SEC Form 17-C.

LOPEZ HOLDINGS CORPORATION AND SUBSIDIARIES

NOTES TO UNAUDITED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

1. Corporate Information

Lopez Holdings Corporation (Lopez Holdings or the Parent Company) was incorporated in the Philippines and registered with the Philippine Securities and Exchange Commission (SEC) on June 8, 1993. The Parent Company is involved in the management and investment holdings of subsidiaries and associates. The Parent Company's subsidiaries are involved in the power generation, manufacturing of electrical and electronic components, property development, and construction. The Parent Company's associates are mainly involved in the business of broadcasting and entertainment.

The Parent Company is 54.74%-owned by Lopez, Inc. (Lopez), also a Philippine entity and its ultimate parent company, as at September 30, 2025 and December 31, 2024.

The common shares of the Parent Company were listed in November 1993 and have since been traded in the Philippine Stock Exchange (PSE).

The registered office address of the Parent Company is 16th Floor North Tower, Rockwell Business Center Sheridan, Sheridan corner United Streets, Mandaluyong City 1550.

2. Summary of Material Accounting Policies

Statement of Compliance

The unaudited consolidated financial statements are prepared in accordance with Philippine Financial Reporting Standards (PFRS) Accounting Standards as issued by the Philippine Financial Reporting Standards Council and adopted by the Philippine SEC. Under Philippine Accounting Standards (PAS) 34, *Interim Financial Reporting*, the unaudited interim condensed consolidated financial statements do not include all of the information and footnotes required in the annual consolidated financial statements, and should be read in conjunction with the company's annual consolidated financial statements as at and for the year ended December 31, 2024.

Basis of Preparation

The unaudited interim condensed consolidated financial statements of the Group as at September 30, 2025 and December 31, 2024, and for the nine-month periods ended September 30, 2025 and 2024 have been prepared in accordance with PFRS Accounting Standards, as modified by the application of financial reporting reliefs issued and approved by the Philippine SEC.

The unaudited interim condensed consolidated financial statements of the Group as at September 30, 2025 and December 31, 2024, and for the nine-month periods ended September 30, 2025 and 2024 have been prepared on a historical cost basis, except for certain financial assets and liabilities that are measured at fair value. The unaudited interim condensed consolidated financial statements are presented in Philippine peso, the Parent Company's functional and presentation currency. All values are rounded to the nearest million peso, except when otherwise indicated.

Basis of Consolidation

The consolidated financial statements include the financial statements of Lopez Holdings and its subsidiaries.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. Any excess or deficit of consideration paid over the carrying amount of the

non-controlling interest is recognized as part of “Equity reserve” account in the equity attributable to the equity holders of the Parent.

The financial statements of the subsidiaries are prepared for the same reporting period as the Parent Company.

Non-controlling Interests

In transactions where the non-controlling interest is acquired or sold without loss of control, any excess or deficit of consideration paid over the carrying amount of the non-controlling interest is recognized as part of “Equity reserve” account in the equity attributable to the equity holders of the Parent.

Material Accounting and Financial Reporting Policies

The accounting policies adopted in the preparation of the unaudited interim condensed consolidated financial statements are consistent with those followed in the preparation of the annual consolidated financial statements as at and for the year ended December 31, 2024, except for the adoption of the following amended accounting standard that became effective in 2025.

The nature and the effect of this change is disclosed below. Unless otherwise indicated, adoption of this new standard does not have a material impact on the unaudited interim condensed consolidated financial statements.

- Amendments to PAS 21, *Lack of Exchangeability*

The amendments specify how an entity should assess whether a currency is exchangeable and how it should determine a spot exchange rate when exchangeability is lacking.

3. Operating Segment Information

Operating segments are components of the Group (a) that engage in business activities from which they may earn revenues and incur expenses; (b) with operating results which are regularly reviewed by the Group’s chief operating decision-maker [the Board of Directors (BOD)] to make decisions about how resources are to be allocated to the segment and assess their performances; and (c) for which discrete financial information is available.

The Group’s operating businesses are organized and managed separately according to the nature of the products and services, with each segment representing a strategic business unit that offers different products and serves different markets.

The Group conducts majority of its business activities in the following areas:

- Power generation - power generation subsidiaries under First Gen Corporation (First Gen) including Energy Development Corporation (EDC) and its subsidiaries.
- Real estate development - residential and commercial real estate development and leasing under Rockwell Land Corporation (Rockwell) and sale of industrial lots and lease of ready-built factories and commercial spaces under First Philippine Industrial Park, Inc. (FPIP).
- Energy solutions - primarily pertaining to the production of electrical transformers under First Philippine Electric Corporation (First Philec), particularly First Philec, Inc. (FPI), and likewise includes FP Island Energy Corporation.

- Construction and other services - (a) construction contracts under First Balfour, Inc. (First Balfour), (b) geothermal well drilling services from ThermaPrime Drilling Corporation (ThermaPrime), (c) specialized healthcare-related sale of goods and services from Asian Eye Institute (AEI), Pi Health Inc. (Pi Health), and The Medical Services of America (Philippines) Inc. (MSA-PH), (d) senior high and college education provided by First Industrial Science and Technology College, Inc. (First College), and (e) other service and investment holding companies within the Group.

Segment revenue, segment expenses and segment performance include transfers between business segments. The transfers are accounted for at competitive market prices charged to unrelated customers for similar products. Such transfers are eliminated in consolidation.

The operations of these business segments are substantially in the Philippines. First Gen's revenues are largely generated from sale of electricity to Meralco, the sole customer of First Gas Power Corporation (FGPC), FGP Corp. (FGP), and First NatGas Power Corp. (FNPC) (until February 2024); while close to 2% of EDC's revenues is derived from its remaining Power Purchase Agreement (PPA) with National Power Corporation (NPC). FPI's revenues are also substantially generated from its sale of transformer equipment to Meralco.

Financial information about the business segments follows:

5. Investment in ABS-CBN through PDRs issued by Lopez Accounted for at Equity Method

ABS-CBN produces content delivered through a variety of channels for domestic and international audiences. ABS-CBN's digital news and entertainment programs, music/audio, cinema and digital video productions are seen via free-to-air television, radio, cable and direct-to-home satellite, online, and mobile devices. ABS-CBN's other businesses are in merchandising, internet services and theme parks.

The Parent Company's 53.55% in September 30, 2025 and December 31, 2024 interest in the underlying ABS-CBN shares represents its economic interest held through Lopez PDRs.

Lopez PDRs. As at September 30, 2025 and December 31, 2024, total PDRs issued by Lopez (Lopez PDRs), amounted to ₱5,779 million with underlying 481,872,062 ABS-CBN common shares (including 938,315 ABS-CBN PDRs) and 987,130,246 ABS-CBN preferred shares.

The key features of the Lopez PDRs follow:

- The Lopez PDRs are secured by a pledge of the shares transferred and all subsequent shares distributed to Lopez by reason of its holdings of ABS-CBN.
- Upon exercise of the PDRs and payment of the exercise price, the ownership of the underlying ABS-CBN shares on each PDR shall be transferred to the Parent Company, if the Parent Company is qualified to own the underlying shares under Philippine law. Pending the exercise of the PDRs, Lopez owns the underlying ABS-CBN shares. Thus, the Parent Company shall have no voting rights with respect to the underlying ABS-CBN shares until it actually exercise the PDRs.
- Lopez retains its rights to receive dividends from its investment in ABS-CBN and assumes a contractual obligation to deliver cash proceeds to the Parent Company after deducting expenses for maintenance of the PDRs. Any cash dividends or other cash distributions paid in respect of underlying ABS-CBN shares shall be delivered to the Parent Company pro rata after such cash dividends are received by Lopez.

As at November 13, 2025, the common and preferred shares of stock in ABS-CBN are still owned by and registered under the name of Lopez. Consequently, Lopez has the power to vote over those shares.

ABS-CBN was a holder of a legislative franchise to construct, install, operate and maintain, for commercial purposes and in the public interest, radio and television broadcasting stations in the Philippines until May 4, 2020. On July 10, 2020, the House Committee on Legislative Franchises (regular and ex-officio members) voted to adopt a Resolution denying the franchise application of ABS-CBN (the Resolution).

ABS-CBN is required to maintain certain financial ratios and the effectivity of the standstill provision in ABS-CBN's Omnibus Intercreditor and Security Agreement has been extended until December 31, 2024 (the Long Stop Date). ABS-CBN is in discussions with its lenders to address the effect of the expiry of the standstill, including, but not limited to, the waiver of financial ratios for 2025 and the long-stop date, possible options for the early settlement of the loan through sale of certain assets and to refinance its outstanding loans. These conditions indicate that a material uncertainty exists that may cast significant doubt on ABS-CBN's ability to continue as a going concern and, therefore, ABS-CBN may not be able to realize its assets and discharge its liabilities in the normal course of business.

To address the impact of the factors which indicate that there is a material uncertainty in ABS-CBN's ability to continue as a going concern:

1. ABS-CBN has continued its partnerships with various reputable companies that will allow ABS-CBN to broaden the reach of its free-to-air content.
2. ABS-CBN has continued to make strides in businesses that do not require a legislative franchise, such as licensing and distribution, live events, digital, movies and cable businesses, as well as syndication of content through various streaming services and partners.
3. ABS-CBN has adopted and continues to implement cost control measures, reducing general and administrative expenses and employee costs.
4. ABS-CBN continues to manage its debt service obligations. Using the proceeds from the sale of certain assets, ABS-CBN prepaid a portion of its outstanding debt. As at November 13, 2025, ABS-CBN has ongoing discussions with its lenders to refinance its outstanding loans.

5. ABS-CBN continues to explore and pursue other business relationships with local and foreign entities to ensure the maximum exposure and monetization of its content assets.

ABS-CBN's management assessed that it will be able to maintain its positive cash position and settle its liabilities as they fall due within 12 months from the end of the reporting date.

The Group determined that the consequences of the Resolution passed by the House Committee on Legislative Franchises denying the franchise application of ABS-CBN and the status and results of ABS-CBN's operations are impairment indicators of its investment in ABS-CBN PDRs. The recoverable amount of the Group's investment in ABS-CBN PDRs is based on the higher of the quoted market price of ABS-CBN and present value of the annual projected cash flows for five years and the present value of the terminal value computed under the discounted cash flow method.

On February 27, 2025, ABS-CBN and Ayala Land, Inc. signed a Memorandum of Agreement for the sale of the portion of ABS-CBN's property located in Quezon City for ₱6,200 million. The sale, covering 30,000 square meters out of the total 44,027.30 square meters of the Property, is subject to certain conditions precedent, including Philippine Competition Commission (PCC) clearance.

On August 20, 2025, ABS-CBN and Ayala Land, Inc. signed the Deeds of Absolute Sale upon the compliance with the conditions precedent.

In 2024, ABS-CBN group recognized impairment loss of ₱4,006 million which is the difference between the carrying value of the assets held for sale and the purchase price based on asset purchase agreement entered by ABS-CBN and carrying value of non-financial assets that are assessed to be not recoverable.

6. Financial Assets At FVOCI

The Group's remaining interest in Meralco shares is 3.95% as at September 30, 2025 and December 31, 2024, which is classified as financial assets at fair value through other comprehensive income (FVOCI) in accordance to PFRS 9, *Financial Instruments*. Accordingly, the investment in Meralco is measured at fair value in the unaudited interim condensed consolidated statements of financial position and any fair value changes are recognized directly in equity.

As at September 30, 2025 and December 31, 2024, the carrying amounts of the Group's investment in Meralco amounted to ₱23,572 million (valued at ₱530.00 per share) and ₱21,704 million (valued at ₱488.00 per share), respectively. Dividend income from Meralco amounted to ₱1,115 million and ₱958 million for the nine-month periods ended September 30, 2025 and 2024, respectively.

7. Long-term Debts

b. Retained Earnings

The retained earnings include undistributed net earnings of subsidiaries, associates/PDRs and joint ventures amounting to ₱78,889 million and ₱71,632 million as at September 30, 2025 and December 31, 2024, respectively. Such undistributed net earnings are not available for dividend distribution until such time that the Parent Company receives the dividends from these investee companies.

Under the Philippine Corporation Code (Code), stock corporations are prohibited from retaining surplus profits in excess of 100% of their paid-up capital, except when justified by any of the reasons mentioned in the Code. As at September 30, 2025 and December 31, 2024, the Parent Company's retained earnings amounted to ₱3,868 million and ₱4,087 million, respectively. The Parent Company's retained earnings includes the equity restructuring which was approved by SEC on November 23, 2010. Under the said equity restructuring, additional paid-in capital of

₱6,766 million is applied against a portion of the Parent Company's deficit of the same amount. After which, the Parent Company declared cash dividends to its stockholders starting 2011. Also, the excess retained earnings was used to settle outstanding obligations of the Parent Company.

c. Equity Reserve

Equity reserves comprise of the Parent Company's equity reserve in relation to the additional acquisition of FPH shares from non-controlling shareholders, FPH's acquisition of treasury stocks and FPH's issuances of shares to non-controlling shareholders to reflect changes in equity attributable to the Parent Company and non-controlling shareholders, and the Parent Company's share in the equity adjustments of ABS-CBN through its investment in PDRs which amounted to ₱291 million as at September 30, 2025 and December 31, 2024.

First Gen

First Gen Parent

Following the execution of a Term Sheet by First Gen and Prime Infrastructure Capital, Inc. (Prime Infra) on May 30, 2025, the parties signed a Share Purchase Agreement on July 15, 2025 for the purchase by Prime Infra of a 60% equity stake in First Gen subsidiaries relating to its gas business. Subject to the approval of the PCC and certain conditions precedent, the transaction will result in a strategic partnership with Prime Infra indirectly owning 60% of the issued and outstanding capital stock of the Santa Rita power plant, San Lorenzo power plant, San Gabriel power plant, Avion power plant, the proposed 1200MW Santa Maria power plant, as well as the Interim Offshore LNG Terminal. First Gen will retain a 40% stake in the said projects. In consideration for the First Gen shares, Prime Infra has agreed to pay First Gen the amount of ₱50 billion upon closing of the transaction, subject to adjustments and modifications as may be agreed by the parties. First Gen will

likewise be entitled to receive additional earn-out amounts, subject to the fulfillment of certain conditions.

On October 23, 2025, the parties were advised by PCC that it had rendered a decision clearing the proposed transaction. First Gen and Prime Infra continue to work towards the satisfaction of all other conditions precedent.

EDC

On October 17, 2025, EBWPC entered into a \$10.0 million IRS contract with ANZ to hedge its \$80.0 million Mizuho long-term floating rate debt.
