Item 1. Financial Statements

The financial statements of Araneta Properties Incorporated (ARA) are filed as part of this Form 17-Q.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations; Plan of Operation

PLAN OF OPERATION

During the Third Quarter of 2025

For the nine (9)-month period ended September 30, 2025, the Company recorded total revenues of ₱206.399 million, representing a 67.74% decrease compared to ₱639.868 million for the same period in 2024. The decline in revenues was primarily due to the sales promotion implemented in 2024, which significantly boosted sales during that year. The 2024 promotion was part of management’s strategy to recover from the economic slowdown brought about by the COVID-19 pandemic and the Israel–Hammas conflict.

Management continues to closely monitor domestic developments, particularly issues surrounding the alleged irregularities in the Department of Public Works and Highways (DPWH) flood control program. The controversy has drawn heightened political attention and public demonstrations calling for government accountability. Some political groups are reportedly using this issue to advance their own agendas, with demonstrations calling for the resignation of President Ferdinand R. Marcos Jr. While the outcome of these events remains uncertain, management recognizes that political developments of this nature may contribute to short-term volatility and potential economic uncertainty in the local environment.

The Sales Promo started January 29, 2024 and ends in April 15, 2024.

In the above-mentioned “Sales Promo”, the Company booked two hundred seventy-three (273) buyers with a total lot area of 58,248 square meters of subdivided lot with average “Promo selling price of ranging from P13,440.00 to P13,500.00 per square meter (inclusive of 12% VAT) 95% of the above stated buyers are already been concluded.

Project Percentage of Completion (PPOC), the residential area of Phase 1, Phase 2 & Phase 3 are 100%, 100% &100% respectively complete, while the Country Club is 98.00% complete as of September 30, 2025. The Company uses the project percentage of completion (PPOC for brevity) in determining sales during the period.

Plan of Operation

During the Third Quarter of 2023

The third quarter of 2023 business operation shows very slow performance reeling from the various catastrophe specifically the Russian and Ukraine conflict, and as well as Israel and Hamas war not to mention the Covid-19 pandemic which more than a year disrupted operation of all businesses not only in the Country but all over the world. While struggling to operate under the “*new normal*” category and as will the world-wide effect of the Ukraine crises an added impact from economic uncertainties, here comes also the Israel and Hamas conflict which is also another line item concern in the cost of fuel worldwide.

While, the National Government is already allowing businesses both Large and Small-Medium Enterprise to operate and be able to regain recovery of which the Lever 3 classification of Community Quarantine (CQ) for the National Capital Region has send a bright scenario in allowing all businesses to operate under new normal will somehow help businesses to regain momentum.

The company is already implementing its marketing strategies developed in Year 2014, specifically the holding on of some Inventory for a much better price. This strategy has created a favorable momentum for the company’s operation with at right timing of implementation of sales forecast. During the disrupted operation due to CoVid-19 pandemic, the Company also focused on managing and developing a new high margin inventory, increasing efficiency on land banking, and enhancing perspective for more marketing strategies. Even further, the Company also undertook fine-tuning the whole system, maintaining and improving *Colinas Verdes*, the subdivision’s brand name and position to the market, sustaining and promoting strengths and advantages of the entire system, stabilizing organizational structure, conceptualizing training programs for both staff and management groups, ensuring financial

resources for the operation of the whole system without compromising low cost but promoting instead effective cash management program and fund flow management

Part of management measures to rationalize the fund flow requirements of the Company during this trying time is to unload the more or less 17.3 hectares parcels of land located at Manticao Misamis Oriental which the Company considered it as non-performing assets.

The Company generates no sales for the quarter is and compared to P4.607 million of the same period of year 2022. This performance is directly attributed to economic uncertainties brought about by the effect of the CoVid-19 pandemic incorporated by the Ukraine and Israel crises.

The management is still optimistic that in due time the marketing strategies in Year 2014, specifically the holding on of some Inventory for a much better price. Based on forecast this strategy will create a favorable momentum for the Company's while waiting for the right timing on the implementation of sales forecast. The Company for the time being have to focus on managing and developing a new high margin inventory, increasing efficiency on land banking, and enhancing perspective for more marketing strategies. Even further, the Company also undertook fine-tuning the whole system, maintaining and improving *Colinas Verdes*, the subdivision's brand name and position to the market, sustaining and promoting strengths and advantages of the entire system, stabilizing organizational structure, conceptualizing training programs for both staff and management groups, ensuring financial resources for the operation of the whole system without compromising low cost but promoting instead effective cash management program and fund flow management.

The above strategies are already conclusive. As of September 30, 2023The Company already sold seventy eight(78) subdivided lots with more or less Thirteen Thousand Nine hundred Nineteen13,919 square meters of subdivided lot with price per square meter ranging from P13,000.00 to P25,000.00 per square meter, much more higher than the P7,500.00 per square meter, which is the average selling price when the Company implemented its strategy in year 2014 by to hold-on to market its inventory for a much higher margin.

Project Percentage of Completion (PPOC), the residential area of Phase 1, Phase 2 & Phase 3 are 100%, 100% &99.68% respectively complete, while the Country-Club is 98.00% complete as of September 30, 2023. The Company uses the project percentage of completion (**PPOC for brevity**) in determining sales during the period.

OTHER MATTERS

The interim financial report has been prepared in conformity with generally accepted accounting principles in the Philippines.

No disclosures nor discussions were made for the following since these did not affect the past and present operations of the Company:

a) The effect of global crises brought about by the CoVid-19 pandemic has totally sent all businesses into economic uncertainties with significant impact on net sales and income due to Community Quarantine lockdown.

As at present, the management has formed a crisis management committee that will focus on the impact of the crises and related effect of the pandemic from operations, to formulate assessment tools and other resilient measures based on world health standard to be able to operate under the “new normal” condition

b) No known trends, events or uncertainties with significant impact on net sales or income, except for the abovementioned *“ground-breaking project made by the national government for the launching of the construction of MRT 7 rail road project connection from Quezon City to Norzagaray, Bulacan”*, this scenario gives positive signal for a much better trend in the real estate business in the northern portion of Metro Manila.

c) Significant elements of income or loss that did not arise from the Company’s continuing operations other than what was mentioned in the revenues.

d) All accounting policies and methods of computation and estimates are followed in the interim financial statement as compared with the most recent annual financial statement report.

e) There were no seasonality or cyclicity aspects that have material effect on the financial statement and the financial condition or results of operations during the period.

f) There were no material commitments affecting assets, liabilities, equity, net income, or cash flows that are unusual during the interim financial report.

g) There were no nature and amount of changes in estimates of amounts reported in prior interim periods of the current financial year or changes in estimates of amounts reported in prior financial years that has material effect in the current interim period.

h) There were no issuances, repurchases and repayments of debt and equity securities, except for the payment of non-interest bearing payable obtained for the acquisition of two (2) parcels of land classified under “Investments property account” in the 2012 statement of financial position, except for the expected sales and receivable that have not materialized due to CQ.

i) There were no dividends paid during the interim financial period.

J) The company is reporting with only one (1) accounting segment.

k) There were no material events that occurred during the subsequent to interim reporting period that have not been reflected in the financial statements, such as default or acceleration of an obligation or

off-balance sheet transactions, arrangements, obligations, and other relationships of the company with unconsolidated entities or other persons created during the reporting period.

l) There were no changes in the composition of the issuer during the interim period, No business combinations, acquisitions or disposal of subsidiaries and long-term investments, restructurings, and discontinuing operation during the interim period.

m) There were no changes in contingent liabilities or contingent asset was made during the interim period as compared with the most recent annual balance sheet date.

n) No disclosures in compliance with SEC MC No. 14, Series of 2004 specifically Certain Relationship and Related Transaction or Arrangements, as there were no such transactions during the period and or any subsequent event occurring after the close of accounting period with respect to a certain relationship or related transaction being required by SFAS/IAS No. 24.

o) There were no reclassification on Financial Instruments in the current reporting period and the previous periods.

p) On September 24, 2019 the Board of Directors approved to enter into a Joint Venture Agreement ("Joint Venture") with Sta. Lucia Land, Inc. involving the Corporation's property located at Barangay Tungkong Mangga, San Jose Del Monte, Bulacan with a total area of 580,154 sq. m. The Board also delegated to management the determination of the terms and conditions of the Joint Venture.

Financial Risk Management Objectives and Policies

The Company's principal financial instruments comprise of cash and bank loans. The main purpose of these financial instruments is to finance the Company's operations. The Company has other financial instruments such as receivables, accounts payable and accrued expenses which arise directly from its operations. The main risks arising from the Company's financial instruments are liquidity risk, credit risk, and interest rate risk. As of September 30, 2025, the Company is not exposed to any significant foreign currency risk because all of its financial instruments are denominated in Philippine Peso. The BOD reviews and approves the policies for the management of each of these risks as summarized below.

Liquidity Risk

The Company seeks to manage its liquid funds through cash planning on a monthly basis. The Company uses historical figures and experiences and forecasts from its collection and disbursement.

As of September 30, 2025

	On demand
Accounts payable & accrued expenses	6,046,719
Advances related parties	1,699,156

Income tax payable	-0-
Retirement benefits	35,342,545
Deferred income tax liabilities	12,041,920
Total	275,483,398

Credit Risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables.

Concentrations arise when a number of counterparties are engaged in similar business activities or any activities in the same geographic region, or share similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations indicate the relative sensitivity of the Company's performance to developments affecting a particular industry or geographical location.

The Company's principal credit risk is its dependence from one counter-party, the credit risk of the Company is controlled by the approvals, limits and monitoring procedures. It is the Company's policy to enter into transactions with creditworthy parties to mitigate any significant concentration of credit risk. The Company ensures that credit transactions are made to parties with appropriate credit history and has internal mechanism to monitor granting of credit and management of credit exposures. The Company's maximum exposure to credit risk is equal to the carrying amount of its financial assets.

The Company sets up provision for impairment of accounts receivables equal to the balance of long-outstanding accounts receivables.

Receivables-that are neither past due nor impaired are due from creditworthy counterparties with good payment history with the Company.

Cash with banks-Are deposits made with reputable banks duly approved by the BOD.

Interest Rate Risk- The Company's exposure to the risk pertains to bank loans. The Company relies on budgeting and forecasting techniques to address this risk.

Capital Management -The primary objective of the Company's capital management is to ensure that it maintains a strong credit standing and stable capital ratios in order to support its business and maximize shareholder value.

The Company manages its capital structure and makes adjustments to it, in light of the changes in economic conditions. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. No changes were made in the objectives, policies or processes during the quarters ended September 30, 2025 and 2024.

The following table pertains to the account balance the Company considers as its core capital as at end of September 30, 2025

Capital stock	P1,951,387,570
Capital surplus	<u>201,228,674</u>
Total	<u>P2,152,616,244</u>

Fair Value of Financial Instruments-The following methods and assumptions were used to estimate the fair value of each class of financial instruments for which it is practicable to estimate such values:

Cash and Receivables-The carrying amounts of cash and receivables approximate fair values primarily due to the relatively short-term maturity of these financial instruments. In the case of long-term receivables, the fair value is based on the present value of expected future cash flows using the applicable discount rates. The discount rates used range from 6.45% to 5.66% in 2025 and 5.66% to 5.66% in 2024.
